CRH200760	8751 BIRKENHEAD CT	47	RH18000003 - Maintenance issues believed to have allowed rodents into unit From: ALICIA LEE <breona.alicia@gmail.com> Sent: Monday, September 14, 2020 12:06 PM I have been a tenant at the above address for the last three years. As a result of discovering rodents within the home, I requested that an exterminator be sent out. I was informed by my landlord that this expense would be my responsibility. In the past, I have made the landlord aware of an access panel in the master bathroom that was not secure. After finding rodents in my home, I completed a thorough inspection of the property. I noticed door sweeps that need to be replaced and a visible hole in the utility closet. I have since purchased traps, bait, and other items to take preventative measures until the problem can be completely eradicated. An inspection was just completed by the property management company in this home, but none of these items were listed as a concern. This property is managed by Bay Management Group of Laurel. Please feel free to contact me anytime for additional information at 202.486.5417. Respectfully, Breona Lee	Follow Up	12/06/2023

CRH210627	10406 BALTIMORE NATIONAL PIKE	24	10406 Baltimore National Pike (Units A through D) - Unlicensed Ellicott City, MD 21042 I am writing regarding a landlord who has broken multiple lease agreements and is behaving in an aggressive and predatory manner. I am currently and have for several years been leasing the address 10402 D Baltimore National Pike Ellicott City, MD 21042 from the landlord Glenn Mullinex. During this time, the landlord has consistently failed to meet the guidelines as described in the Howard County Code.	Follow Up	01/11/2024

Recent items that I have raised to the landlord's attention but have not been resolved are as follows:

Broken Utilities:
• No AC in the unit for the period of 8/1/21 until Present (as of 8/18/21)
o After attempting to fix the Air Conditioning unit in the apartment Parker Fuel Company notified me that the landlord had tampered with the outdoor power box and deliberately removed a piece of the equipment that was providing the unit power.
• No hot water in the unit for the period of 6/1/21 – 8/16/21

Broken Appliances:
• Leaking Refrigerator
• Leaking Freezer
• Leaking Dishwasher
• Broken Sink Disposal

Additional Concerns:
• Rotting Window Seals
• Mold in the shower and AC vents
• Extensive flooding in driveway and yard area

After numerous attempts to remediate the issues above directly with the landlord I began researching tenant-landlord protections and found that the following ten properties owned and currently being leased by Glen Mullinix are not properly licensed for rental and therefore are in violation of The Howard County Department of Inspections, Licenses and Permits.

10402 Baltimore National Pike (Units A through D)
Ellicott City, MD 21042

10406 Baltimore National Pike (Units A through D)
Ellicott City, MD 21042

10394 Baltimore National Pk (Units A and B)
Ellicott City, MD 21042

Based on this knowledge I have concerns that my landlord is operating illegally and is likely avoiding

Howard County and Maryland State mandated safety precautions and tax liabilities. Lastly, there may be additional properties owned by Glenn Mullinix that I am not aware of that are out of code and experiencing similar complaints. Please let me know if you can assist me in resolving the issues as described above and if there is any additional information you require.

Thanks,
Joni Deison

This is Maricruz Davila from Keller Williams in Frederick, Md. I would like to report that the owner of 9628 Basket Ring Rd, Columbia, Md 21045 has failed to provide proof of rental license and MD lead disclosure to my client. The lease agreement was signed on November 9th, 2022 and move in date was November 23rd, 2022. I have asked for these documents several times, but no action was taken. I reached out to my broker, and I was told to report this case.
The owner of the house is Rp Homes2 Llc. Listing agent is Julie Colquitt from Sylvan Realty in Atlanta, GA.
Please let me know if you have any questions or concerns.

CRH230034	6330 WASHINGTON BLVD	38	Sackers Hillside Motel T00006087 – 6630 Washington Blvd, Unit 9 – Roaches, broken faucet, water leak in kitchenette Hello my name is Destiny Newman, my service is suspended at this moment, I lost employment in September. My family and I have fell though some tough financial stress over the past and have been fighting tooth and nail to get up. We've stayed in a motel room since the beginning of 2008. I'm not sure when the mold started growing but the symptoms became severe at the break of Covid. 1st The ceiling started leaking from the bad storm in 2021. We had a problem with a mouse in our floor during the time as well. In which the manager did	Follow Up	10/13/2023

come in to repair the ceiling and floor. But mentioned it would take some time so we'll need to go in a different room in order to repair. He offered my mother ,father, brother and myself an another room that was not nearly the same size. Although we made it work. however did nothing to access the constant mold growing within the bathroom , kitchen ac units and bedroom area.

Unfortunately my father passed on Nov 26th suddenly due to a respiratory virus. He would usually take care of the repairs in the room to avoid complaining. However he was diagnosed with pancreatic cancer the beginning of 2019 and hasn't been able to assist as usual. We mentioned to the manager many times of the conditions of the room and his words were get caught up on the rent first. Unfortunately my father passed away the weekend of thanksgiving due to respiratory virus we're unsure of. Although his doctor mentioned his lungs started showing spores and it would not be safe to live there. And then the faucet broke on thanksgiving and still has not been fixed yet.

There's ROACHES all over the unit. When mentioned about the issues, he disregards and says we're backed on the rent so we should pay before he fixes or replaces anything. I'm really scared for my family and I. We've given all that we can with trying to survive within these conditions but I don't know how much longer we'll be able to survive.

Ralph is the manager does nothing about the condi of the room because we're behind in a rate, that's consistently changing.
Sent from my iPhone

Ms. Newman:

Please see the attached document outlining our limitations on mold issues. Mold is not something we can cite under the Rental Housing Property Maintenance Code. Do you have an active visible leak in the unit?

Please provide us with the dates that you reported the roach infestation and the broken faucet to the

owner/manager. What action have they taken, if any? Please provide us with your phone number and confirm the room number where the issues currently exist, it is #9 or were you moved?

Regarding the refusal to make repairs because you are behind in rent, you will want to discuss that matter with the Howard County Office of Consumer Protection at 410-313-6420 as that would be a matter under their purview. You can file a complaint with them on their website (see attached complaint form with URL).

Hi
We've mentioned numerous times of the roach infestation, but has not been taken into consideration. Yes we do have an active leak currently in the kitchenette. The faucet recently broke on thanksgiving and he was made aware of the issue when it happened. November 24th. He came in to look at the unit and never returned. My father passed November 26th and he has not mentioned anything about fixing it. Only when will we be caught up on the rent. The ceiling is currently cracking as well as some animal scratching at the walls. Whenever we mention an issue he just says we need ro pay before he fixes anything and we've given what we could. He just wants us gone and as much as we would like to go it's been so hard with applying to the communities.

CRH230359	9230 TRADERS CROSSING	47	The Seasons Apts. T00006543 - 9230 Traders Crossing Apt E – Mice, Roaches, Possible ceiling leak, Possible faulty PRV causing noise My name is Camille, and I live in an apartment at 9230 Traders Crossing Apt E Laurel, MD 20723, with mice and roaches, but the more significant concern is that the ceiling living room might collapse. I saw	Follow Up	02/23/2024

cracks around the ceiling and sent many tickets to the maintenance and management office. They closed the tickets without doing inspections or fixing the problem. Before I moved into the apartment, I informed the leasing manager that I heard the ceiling noise and saw cracks around the house and that the apartment needed to be fixed. I was told it was fixed but realized the problem had not been resolved after moving.

I sent tickets for the following issues since February :

1- The living room Ceiling cracks and does not even. It might collapse, and I'm worried about this issue.
2- I saw mice run around the house and eat my Kindle.
3- There are roaches in the kitchen downstairs and the bathroom upstairs.
4- I have had noise problems from the plumbing pipe since day one, every morning from around 7 am to 9 am, which happens during the night too. It happens in the kitchen, the sink, and the bathtub upstairs. Also, sometimes I turn on the water from the sink or the tub.

Cell:443-881-6063

You can see and hear the noise problem from these Vimeo links.

CRH230367	13400 FREDERICK RD	15	RH06000217 – Deck issues, furnace not working. Needs complete interior and exterior inspection to	Follow Up	06/20/2024

determine all PMC code violations. Referral was made to Health Dept. and Electrical Inspections.

Hello I'm renting this from the streakers nothing here is being done up to code my porch is falling apart and he has some guys he hired and I don't know if their even licensed and fixing everything around here they ripped railings off my porch today with no intentions of doing anything to it til later this week and now it's really falling apart to where it's gonna cave going in and out of the house also don't have permits or all the right supplies . They're doing electrical work here too and told us they have no clue how to do electric work . My house surges like theirs no ground . My septic didn't even have a tank and they had to dig up my yard and put one in last night without permits or an actual company coming out the neighbors septic is open right next to me and flowing out and smelling the place up really bad. The neighbors water is barely working and house has mold along with her electric wires showing and not being done right he's has numerous rentals that aren't in any good living condition. My walls are separating and my furnace hasn't worked since I moved in in December and keep getting run arounds or excuses on stuff getting fixed

Hello sorry was busy with my pups and getting ready for work to answer I am renting the mobile home the other houses are on the property as well I'm not sure of house numbers for them. Health department did come out today took pics . I've had issues with my furnace since moving in December 16th sent them multiple text every time it went out they came over to "fix" it . Diesel smelled the house up every time because the casing was cracked and they kept just trying to patch it together with different pieces and clean it. Dec 18th to 21st didn't have heat at all. Got told feb 8th part got ordered to fix it they came and put it in still had same issues . Feb 16th will never showed up to look at it. March 17th I asked them to send a professional out to actually fix it instead of whatever their all doing for I have a child and these aren't living conditions to have my kid their he's had to stay with my mom serval times because of how freezing the house was . March 20th a guy came out

			said can’t use the furnace at all and to talk to landlords about what has to be done . Haven’t heard a thing from the 20th -30th than the 31st got told waiting on parts to be delivered from manufacture and haven’t heard a thing or seen any one since and now here we are may 3rd and still no heat. April 23rd I asked about my deck that’s falling in and they sent over two people to get measurements and the stuff for it but never pulled permits and I’m not even sure the guys he has doing work has a license the two guys told me to my face the have no idea about electrical work and the landlords have them doing it and have messed it up and shocked themselves doing it . The way the deck was previously built wasn’t even done correctly and falling away and not sturdy and their about to build it the same way I currently have no entrance to my front door . The neighbors septic is open right next to my house and they haven’t done anything about it I’m not sure of the house number for them and all the other houses are having issues as well from what they all have expressed to me so the place is just not being taken care of at all by the landlords I’ve already told them if stuff wasn’t taken care of legal steps would be being taken and I’m sick of nothing being properly done SEE ATTACHEDMENTS

CRH230421	7260 EDEN BROOK DR	42	Beechs Farm Apartments, T00006534 - 7260 Eden Brook Drive Apt T2 – Rodent Infestation (Need License update/new management/New Owner) I was informed to write this office to submit a complaint about a rental matter. I have been having an ongoing mouse infestation for months. I live at the Beechs Farm Apartment community in Columbia. The new management company, Cushman and Wakefield took over in March 2023. I have sent requests for an exterminator, but one has yet to come. Maintenance came to seal up some holes and put down some traps, but that has not been enough. These mice come in my bed when I'm trying to sleep, eat through my furniture, and are all over the apartment. Last week I trapped 6 or 7 mice and they are stirunning around. Management is not doing enough. The mice are in the walls, coming from the outside, claw through the walls, etc. I cannot properly sleep at night because I constantly hear them and they are climbing into my bed. Something has to be done. They keep telling me that an exterminator is coming, but that hasn't happened yet. Management fails to follow up. I have spent my own money buying traps when it is Management's responsibility to take care of pest control. They have not done an adequate job of assessing the problem, have not looked on the outside to check for holes, or put traps on the outside. This is a health hazard as mice can spread disease. If you can please help that would be great. Their contact info: Beechs Farm Apartments/Cushman and Wakefield, 7260 Eden Brook Drive, Columbia, MD 21046. Phone: 410-381-0310, beechsfarm@cushwake.com Thank you, Tyrene Derricotte 240-342-9770	Initial Investigation	11/16/2023

CRH230445	8400 OAK MEADE WAY	43	RH13000523, 8400 Oak Meade Way – Numerous maintenance issues (bats, unrepaired water damage, possible new leaks, damaged kitchen floor, door from garage if required at time of construction not self-closing, etc.)	Follow Up	07/25/2025

We have had several water leaks and damage that have yet to be fixed and concerned with mold or air quality due to the unresolved issued. Also, we have been living with at least 20 bats in the attic but the owner refused to fixed the issue to remove them. I wanted to open this complaint to see if what is occurring is fine or these should be addressed. We have been renting this property since 2/2020.July 2022 it was confirmed it was a minim 20 bats living in the attic. The bats fly in and out from a slit in the roof. The year prior it was the same noise I reported but was told was mice and thinking it was bats then as well. The owner refused to make the repair to the roof so the bats continue to come and go. I am now concerned about if bat urine or poop will be harmful as nothing has been removed, fixed or cleaned. September of 2022 it was reported that the water was leaking from the Freezer/Fridge and water was sitting on the floor. The owner approved for someone to come out the following month and it was fixed however the water damage done to the floor was not and hoping there was no mold growth from that. There is a half bath that has slow stream of water and was told there is a leak and one of the value are turned off but the owner doesn't want to fix because we have 2 other working bathrooms. This was something that came up a year or so ago. December of 2022 the front door was leaking water from the top into the house as it was a large slit were you could see it dripping in. The owner didn't approve the property management to fix and said he would do on his own but has yet to complete the repairs. April of 2023 came home one day and 2 of the 3 living room windows were leaking water from the top and was a lot of water on window seal, blinds and floor. There was also 1 of the bedrooms windows that was doing the same. The property management company did get approval for someone to come out but no repairs have been made. May 19, 2023 woke up to large brown stains on the master bedroom ceiling with is also the attic where the bats were noticed. The owner finally approved for a roofing company to come out 05/31 but no repairs approved. My concern is the water could be now mixed with bat urine and poop. The stains have since gotten larger and also made them aware of this today. May 31, 2023 just reported

water leaked from a crack in the kitchen ceiling onto the floor. The part of the ceiling is below the master bathroom a bit. The crack has gotten larger today and now has stain with black dots, which I updated them on today. This has yet to be address but it also just happened yesterday so hopefully they will soon. I was just told the door that leads from the garage into the house should have safety hinges on it so that the door closes completely shut when you enter or leave. We don't have these and not if they are required but wanted to add in case you do.

Please let me know if you need any additional information and thank you in advance for your time.

CRH230496	10661 GRAMERCY PL	36	Gramercy at Town Center Apts, T00007549 – 10661 Gramercy Place, Unit 204 - Alleged unsafe balcony I notified the property management today. I am also notifying you because this is a safety hazard that clearly has gone unnoticed and not properly maintained for some extended period of time. The balcony is not safe. The railing itself is not secured to the building. There aren't any screws or other support securing the railing to the building. Instead only the screws on the bottom, which goes into the wood floor. Even there, one of the screws is old and rusted and clearly has not be properly secured in a very long time. The railing if pushed on, even slightly moves. There is also movement of the wood paneling, in which the anchors are screwed. I have walked around the complex and it looks like some other balconies are not properly secured. Specifically, another balcony to the left of mine and up one story appears to also being missing at least one screw. These are not issues one would likely spot until they either push on the railing itself or god forbid, fall. My name is LaShanda Whaley and I live at the Gramercy at Town Center Apartments. My address is below and my phone number is 410-430-3701. 10661 Gramercy Place, Unit 204 Columbia MD 21044	Follow Up	10/31/2023

CRH230506	4679 HALLOWED STREAM	30	RH14000680 – Property allegedly not being maintained (trash/debris, broken glass slider door in rear, etc.) My name is Lisa Skaggs. I live at 4677 Hallowed Stream, Ellicott City MD 21042. The townhome on my right, 4679 Hallowed Stream is a rental. I am questioning the compliance of using the rental agreement between the renter and the owner. I do not know the owner personally but a neighbor told me that the owner lives in Minnesota. I own my propery and I maintain an upkeep and have made renovations. I have lived at this property for 23 years.	Follow Up	10/20/2023

The house 4679 has not been kept up in renovations throughout the years by the owner. The previous renter who I find very friendly and a great neighbor told me that the owner refused to do more repairs or to maintain the property. The renter has moved because the owner was very difficult. A new renter (a large family) moved in last June.

There was a burglary at 4679 Hallowed Stream on March 2023 in which the back glass sliding door was broken into. The broken glass were all over the sliding glass doors and it has been boarded up ever since. It took a while for the renter to clean up the broken glass. There has been no action to replace the glass on the sliding door. I have no idea what the owner is doing and it's been 3 months.

A neighbor told me that the renter did not contact the police about the burglary.

I would like this investigated as to whether the owner has followed the rules for renting the townhome and whether the owner is complying to the rules such as cleaning up the trash in the back yard and keeping the property in a nice condition.

Let me know if there is a way to correct some of the issues facing 4679 regarding the broken glass/boarded up window and the trash. I contacted HOA. HOA has refused to be involved.

Thank you for looking into this.

Lisa Skaggs

CRH230526	9230 LIVERY LN	47	The Seasons Apts., T00006543 - 9230 Livery Lane Apt. J – Rodent Infestation I would like to file a formal complaint against The Seasons Apartments Laurel (Howard County) for a rodent infestation. I moved into this unit on April 3rd and spotted a mouse on the night of May 14th. I reported this incident immediately to my leasing consultant the next day on May 15th. On May 17th maintenance came into my unit to check for holes behind my appliances in which a huge hole was found behind my stove (Picture Attached). This leads me to believe the unit was not properly cleaned or inspected prior to me moving in. I have attached a picture of the hole the mice were projected to be entering my home from. Maintenance then put foam and dry wall over the hole as this was supposed to have been the only entrance into my home.	Follow Up	11/06/2023

May 22nd orkin pest control came into my unit and did not conduct a treatment. The technician did not do anything to treat my unit. Luckily I was in my unit at the time with another maintenance staff member to witness this. He came into my unit and put down a mouse trap and proceeded to leave; calling that treatment. He then told me someone will be out to check the trap next week; surely orkin did not come the following week. Also, on May 31st I heard an infestation of mice running in my wall as I stood in my kitchen. It was utterly disgusting to hear.

On the day of June 1st I woke up to make breakfast for my sons and I when I noticed my bread had a hole in it from multiple mice (Picture is attached). I reported this issue to the staff at The Seasons apartments where I was given the information that the previous pest control company and current (Orkin) were not satisfying the task at hand. The same day the issue was reported to Dana; the property manager.

On June 5th I brung all my issues to Dana and the maintenance manager. I didn’t feel my needs and the health issues were heard. I then sent an email requesting a full refund of my short time here at The Seasons or a Unit relocation because I have not been comfortable staying in my home or cooking for my kids in my home. The following day Dana sent an Orkin Manager to speak with me about a treatment known as dusting. The dusting was reported to be done on June 8th but I was not home to see this completed and I personally don’t think it was done as I continue to see mice.

On June 20th and June 23rd more holes in my unit were found and deemed entry points for mice in my unit. There were holes in my baseboard behind my dishwasher and a new hole where the previous hole was covered. I made the seasons aware of the continuous issue and that I should be moved or reimbursed. The only option I was given was to move completely in 30 days.

Recently on July 1st and July 3rd Mouse droppings

were found on my counter along with another hole in a newly purchased loaf of bread (Pictures are attached). At this point I have to believe there is a huge rodent problem in the building and the mice are entering my unit. I project that the treatment plan that orkin has in place is either not effective or not even being done. This issue is really a bother to me and my family.

For more information; questions or concerns please call me at (202) 803-0833 or I can be reached via email. I look forward to hearing from you.

My Address is 9230 Livery Lane Apt. J Laurel MD 20723

Thank you,
Derrick

Subject: complaint-6557 Quiet Hours apt 203 Columbia MD, 21045

To whom this may concern,

My name Is Kiara Tilghman. I moved to the Preserve at Cradlerock 2 years ago. My current address is 6557 Quiet Hours apt 203 Columbia, MD 21045.Since moving in I was falsely put into a unit that was supposed to be renovated ,but as time went on and management changed I was not in the model I was promised. I had to be reimbursed for rent because I was being charged a false amount. I was 8 months pregnant moving in and nothing was finished on my move in date. My family and I also dealt with mice infestation,cracks all in my baseboards. Our Hvac unit was not working correctly and I found out it wasn't probably wired so my electric bill was high because of it .I complained and went back and forth until I was reimbursed for paying extra for heat because as maintenance told me "whoever previously worked here didn't know what they were doing and did not wire it correctly". Moving forward to this year we are still having issues with a.c it stopped blowing. They came in to fix it and we currently cannot run it on auto because once it shuts off it will not come back on. Even with it on throughout the night the fan stops blowing. In two of our bedrooms we cannot open the windows. Our balcony door has been broken since we moved in and countless times they came in to "fix it" .It has come to the point the entire door has come off and fell . My daughter got hit in the face with the door. Which was the same eye she fractured when she was 7. Then a couple days later it fell again and

			the glass shattered everywhere. I have 3 children. What would've happened if they were in the room when it broke? Finally my ceiling has been caving in and split down the middle. Contractors came in to look and said they couldn't fix it that day. We have never heard anything back since and it's been 2 months. All of the maintenance has quit at this time we have no maintenance. This has gotten to the point were My children and I don't feel safe in our own home or comfortable. Please help us. Thank you, Kiara Tilghman 202-894-3088

CRH230552	10228 TUSCANY RD	24	10228 Tuscany Rd – Unlicensed rental property with leaks an maintenance issues. Owner's off premise address per lease provided: 210 Whitehall Rd., Apt #37A, Athens, GA 30605 I am writing to address and clarify the pressing matter pertaining to the rental property my family and I recently occupied. My name is Peixiang Zhang, and on March 25, 2023, my whole family, comprising five persons, rented a house located at 10228 Tuscany Rd, Ellicott City, MD 21042, owned by Shaolin Liu. Unfortunately, upon our arrival from Los Angeles (our first day in Howard County), I was astounded to discover the house in an unsanitary living condition. To begin with, the toilet on the second floor was severely obstructed by his son, rendering it completely unusable. Moreover, the ceiling was flooded, resulting in water leakage directly into the kitchen on the main floor, leading to substantial damage. Furthermore, I have recently become aware that Mr. Liu rented out the property to us without possessing a valid rental license and neglected to provide me with the necessary license and inspection report. Consequently, I was compelled to vacate the premises.	Follow Up	10/25/2023

Initially, Mr. Liu acknowledged my decision to vacate and assured me of a prompt return of my security deposit. In compliance with his request, I provided him with my new address. Regrettably, a few days later, he unexpectedly reneged on his commitment. Not only did he threaten to withhold my deposit, but he also made unwarranted demands for additional payment. To compound the issue, his subsequent communication with me has been characterized by offensive and disrespectful language.

I have already filed complaints online, and my case number is #CS0035653. For your reference, I have attached the rental lease agreement and accompanying photographs that vividly illustrate the extent of the damage caused by the leaking ceiling. Additionally, I have included copies of Mr. Liu's aggressive and threatening messages, written in Chinese, for your thorough review.

I kindly request your assistance in addressing the following inquiries and taking appropriate measures:

1. Can Shaolin Liu's rental be deemed unlawful due to the absence of a rental license?
2. Considering that I have already relocated from 10228 Tuscany Rd, Ellicott City, MD 21042, am I entitled to a full refund of my deposit from Shaolin Liu?
3. I kindly request your intervention to ensure my safety and well-being. It is imperative that you take action to secure assurance from Shaolin Liu that he will refrain from making any further threats or engaging in any form of intimidation toward me.
4. Lastly, what penalties are imposed on individuals, such as Shaolin Liu, who engage in illegal rental practices according to Howard County regulations?

I greatly appreciate your prompt assistance in addressing this concern. Given the urgency and severity of this matter, I earnestly implore your immediate involvement in resolving this dispute. It is my strong belief that Mr. Liu's conduct not only lacks ethical merit but also flagrantly violates tenant rights and rental regulations. As a result, I currently feel

profoundly unsafe and greatly concerned about the entire situation.

I want to emphasize that my family and I have otherwise been very happy living in Howard County since relocating, except for this rental matter with Mr. Shaolin Liu.

Thank you so much for devoting your attention to this urgent matter. I am looking forward to your prompt action and a favorable resolution to this distressing ordeal.

Sincerely,

Peixiang Zhang

CRH230562	8469 HILL ST	25	8469 Hill Street - Unlicensed rooming unit per current tenant who stated owner is renting out 1 bedroom to me and renting out the attic to another tenant. She has also been screening people to rent out a space downstairs, she is turning her second living room into a rental space. She used to reside in the home. She recently got a job in DC and stays there with a friend during the week, then stays in the home in another bedroom during the weekends. Hello, I am currently renting a room in someone's home in Ellicott City and would like to know my rights as a month-to-month tenant without a lease. 1) How many days notice does the owner of the home have to legally give me if she has asked me to leave? Some places online I have read 30 days, others have said 60 days. Please advise on which number is accurate. 2) Additionally, I have also read that if a person is renting rooms in their home or renting out their entire home in Howard county they must have a license to do so. How do I go about checking whether the owner of the home that I am renting is licensed?	Follow Up	01/23/2024

Thank you,

Elsie

If the property owner is renting one room to one individual and they are both sharing the entire house (kitchen and laundry facilities), a rental license is not required. If there is more than one roomer, then a license is required. You can check to see if there us a license for the property on our Citizens Access Website (instructions attached). If a license is required, you may file a complaint with this office for an unlicensed rental (instructions attached)

Regarding, #1, you will need to contact the Office of Consumer Protection (410) 313-6420. They are the agency that can answer questions regarding lease agreements. You can find information on their website here:

Thank you for your prompt response. The house I am living in does have multiple renters. Can you tell me the consequence if the owner of the house is not licensed and I make a complaint?

I am not familiar with the process. Please advise

There is no rental license for multiple rooming units for 8469 Hill Street. Do you wish to open a case for investigation or are you discussing this matter with the property owner? How many rooming units are there and does the property owner reside in the home?

It is a 3 bedroom home, but she is currently renting out 1 bedroom to me and renting out the attic to another tenant. She has also been screening people to rent out a space downstairs, she is turning her second living room into a rental space.

She used to reside in the home. She recently got a job in DC and stays there with a friend during the week, then stays in the home in another bedroom during the weekends.

Please advise what needs to be done. What are the consequences of her being unlicensed?

I have not decided yet what to do. I might open up an investigation since I have been attempting to reach out to her and she is not responding.

Elise:
Let us know if you want us to open a case to pursue licensing. We do not divulge the names of complainants; however, should the owner submit a written public information request, they would be able to obtain your name. The situation you describe does require a rental license which requires a complete inspection.

We await your response on whether or not you wish to open a case.

Thank you so much for your assistance. I have decided to move forward with opening a complaint case. Please let me know what needs to be done on my end.

Sincerely,

Elsie

CRH230575	6104 TURNABOUT LN	29	Harpers Forest Apts T00006553 - 6104 Turnabout Lane Apt. 3 – Rodent and Roach Infestation I am writing about a pest issue that has been going on since the summer of 2022. My neighbor informed me that she had been having a rodent issue that started in June/July of 2022 and wanted to know if I had had the same experience. I informed her that I had not seen any rodents but I would report it if I had. First I saw two roaches in the hall of my apartment. I immediately notified the property office. About two weeks later I saw a mouse jump from my counter to behind my stove in the middle of the night. I notified the property office first thing in the morning. Maintenance came out, checked for any obvious	Follow Up	10/16/2023

holes and then I was given sticky traps to put around my apartment. A mouse was found on the side of my refrigerator and for the next two weeks two more were seen but only the first one was caught. For a while, I did not notice any activity. One night I was getting ready for bed and I heard squeaking coming from the kitchen. The mouse had gotten stuck in the sticky trap box and was fighting to get out. I began to notice that the activity did not stop the mice were only coming out late at night once everyone was asleep. I notified the property office again and pest control was sent to my apartment again. I was given a few more sticky traps and mouse trap boxes were put around the apartment along with a couple pellets of poison. Pest control said that there wasn't much else they could do without knowing where the mice were coming from. After being told that there was nothing else that could be done, I just kept having the mice removed as they were being caught. After a couple of months, I received a call from the property manager stating that they are going to send out a pest control specialist to further investigate the issue. I explained to the manager that I had been having an issue with mice and I just started to notice roaches within the past few days and that I had called in about the issue and I explained that we had not had these issues prior to the past summer. She explained that she did not know that it had been so bad and she would personally do a door-to-door check on each apartment to make sure that cleanliness standards were being met. The full inspection on the apartment was never done. Pest control came to my apartment the following Tuesday and he said that he would come back in two weeks to give the treatment time to work before he came for another treatment. The next day I received a call stating that management decided to send someone back out the following Tuesday despite was pest control stated for another treatment. I informed the office that the following Tuesday would be my daughter's birthday party and was there a specific time he would come so that I could have someone here if it was during the party hours. I was told that there was no time frame and that if I could not be available then I would be charged $95. I asked why would pest control need to come back in a week when he stated that he needed two weeks to see

results and I was not offered an explanation. I requested to speak to the property manager about the issue and she would not return my call and kept being unavailable. I decided to contact Maryland Management about the issue and they said that they did not have to offer me an explanation about why pest control needed to come back sooner. The following Tuesday the pest control guy came before my daughter's party and found that the mice had been hiding under my dishwasher and that there was another hold under my cabinet. The man said he would let maintenance know so that they could patch up the hole. For weeks I did not hear anything from management.

CRH230583	8546 FOXBOROUGH DR	47	Foxborough Estates Apartment T00006181 - 8546 Foxborough drive apt 3c – Knat Infestation and possible water damage Hello!! My name Is Corinthia Teamer I live at 8546 foxborough drive apt 3c In april I experienced Gnats in my apartment . I contacted the rental office about this they were all over my house I had to seal off all the vents in my home in order to just use the bathrooms or eat without bugs fly around my food so at that point I was not able to stay in my home because they were everywhere the rental office did send maintenance and they told me that they will have to contact the contractors. The next day I called the rental office they inform me that the exterminator will be out to see what the issue was at this time is was so bad that i had to seal off both bathrooms doors so they can stay in one area which it didn't help the exterminator did come and told me it was some water damage and it coming from the roof he sprayed and left traps. On april 6 I got a call from the rental	Follow Up	10/23/2023

office saying that they don't have the supplies and it has to be ordered so it will be done on Monday which was april 10th so now it another weekend and of course I cant stay in my home because the bathrooms are sealed off. Monday come around no supplies they next day the contractors came they work on the roof all day long and whatever they did it help a little so the exterminator was called again he flushed the pipes and that helped a lot I still seen them, but not much by this time i had to clean up so many dead bugs.On Sunday I started to notice they were coming back . Monday June 26 I called the rental office and told them that they were back worst this time they said they will send someone out and they will call me back that afternoon to let me know the status so I left my home again because it was so many bugs. When I got home on Wednesday I still haven't heard back from the rental office it was really bad I had to call emergency maintenance he came and spayed and told me he will let the rental office know about what he seen now I'm packing up because I cant stay in a bug infested place I go in my kitchen and open my freezer it was bugs all in my freezer I go to the sink and they are coming out of the sink. At this point I can't stay in that apartment any longer that whole place is infested. I know for sure that its bad water damage and I hope it's not mold I'm getting tested for mold today. Something has to be done today either move me or give me a rent voucher or something I can't stay in that apartment any long now everything in my refrigerator/freezer has to be thrown in the trash. Something has to be done today or i will be force to call the county. I have been very patience I already have to deal with mice now this. I have attached a video a decision has to be made today.

Thank you for your email and updating us.
Per our conversation, we have identified the source of the problem and are working diligently to solve the issue. If you would like to, transferring is an option. The two units we have available on the 3rd floor are at 8548-3B and 8882-3D. Please let me know if you would like to transfer to either of these units. In the meantime, our pest control technician will be by today to do an extensive treatment.

We greatly appreciate your patience during this time.
Best regards,
Samantha Gonzalez

CRH230596	2765 WESTMINSTER RD	17	Unlicensed basement apartment with no stove (RH18000656 cancelled by owner in 2020) I would like an inspection to be conducted for the basement apartment of the private home at 2765 Westminster Road, Ellicott City, MD 21043. I have asked the owner/landlord on numerous occasions for a copy of her rental license. When I first moved in I asked about the inspection because the unit does not have a stove. She stated, there's a convection cooktop to use, and it's her house so she can do what she wants. I also asked how it passed inspection due to the condition of the unit, unpainted and cat feces everywhere. In addition, there is no carbon monoxide alarm in the unit as required. She stated the smoke alarms were enough. The toilet has not worked properly since I moved in, and rocks whenever anyone sits on the commode. She had a family member try to fix it but the problem was never really corrected. I was told I'd be given a copy of the rental license along with the receipt for my security deposit. To date, I have not received either. I inquired again and have been completely ignored. Now, I believe she may not be licensed at all, but just wanted to make the money by renting out the unit. I was without use of the sink, no water from the sink, for a week. Over the past month, there have been rodents yet again. I've asked that she get an exterminator for this ongoing problem but she refuses. Is there any way an inspection can be done, and a way to verify her rental license? Is there anything that can be done at all? I look forward to your reply and your assistance regarding this matter. I can be reached via this email address or by phone 443-820-6816. CRH230598	5295 RIVENDELL LN	29	Columbia Choice Apts. T00006551 - 5295 Rivendell	Follow Up	10/16/2023

Ln, Apt 5 – AC allegedly not functioned as intended, no screen door on patio, wasps on patio, mice and roaches

Upon the first day of occupancy of our apartment at Columbia Choice, we notified management that our central air was unable to maintain a reasonable interior temperature (75 degrees) despite us keeping our blinds closed 24/7, vents in unoccupied rooms closed, minimal use of our stove/oven, box fan running 24/7, and the purchase of an additional fan. We have followed up our initial complaint 5+ times with the property management team, both in person and in writing; every time, management and maintenance brush off our comments and state that due to the fact that we are on the third floor of an older building, this heat is unavoidable. However, we have visited other neighbors on the third floor whose apartments are able to maintain an interior temperature of approx. 68 degrees on the same day when the interior temperature of our own apartment was 90 degrees. We suspect this has to do with the fact that our building consists of 12 apartments, with the building itself split in half into two sets of 6 units; our "half" of the building has a single condenser appropriated to it while the other "half" has three. We requested an AC inspector come out and examine the property; we were told this was completed and that the inspector found no issues with the HVAC system, but property management has been unable to provide evidence that this inspection ever took place.
We were promised ceiling fan installation to help with the heat and were told installation would be completed by July 21st; that date has come and gone with no communication from management regarding when they plan to install those. Additionally, they have failed to make basic repairs outlined in our move-in checklist; one of the issues we brought up in this document was a lack of screen door to our patio and a wasp infestation within the eaves of our building's roof. Maintenance sprayed for bugs but promised to come back and seal the gaping holes in the eaves of the roof where the wasps are obviously nesting; this has not happened. We have had to purchase our own wasp traps and insecticide to treat the issue ourselves; despite our best efforts our patio

			remains unusable due to the high number of wasps, and we are unable to reduce the cost of our electric bill by opening the door to the patio as we still do not have a screen door installed. Additionally, we have found mouse droppings inside our apartment along with roaches, and we have spoken to other residents at this complex who are suffering from similar issues. Thank you, Maggie Bockart, 402-278-1170

CRH230649	6900 THOMAS STONE	37	Belmont Station Apartments, RH07000677 et. al. - 6900 Thomas Stone unit 136 – Water leak and unrepaired water damage allegedly not properly remediated leading to mold conditions We have been living at 6900 Thomas Stone unit 136 since January 2019. We are moderate income family but that does not mean we should be treated as second class citizens. There has been multiple leaks in our ceilings, flooded floors, carpet ruined and so much more. This last leak has me furious because I contacted them on an emergent basis June 22 because the laundry room ceiling was leaking again for 5th time. They did not try to come until @July 3rd. My kids were home so they could not come in. I told them numerous times that I need them to come after 12 or schedule with me. They never came back. Then they had a new maintenance man Joshua start the week of Aug7th. He came Aug 11th after I had complained again that it has been nearly 2 months with mold growing in our house making us sick. Joshua said he was coming back Monday 14th to finish the ceiling. He has yet to come back even though I have sent Carmen a message saying he never came to finish. They need to hire outside contractors to fix the source of leaks and floods. To note also, in 2019 all other new tenants got remodeled units (we were not allowed to see model because that's not what we were getting)but because we are moderate income they did not do anything but clean and put down cheap carpet. My neighbor friends have way better appliances, cabinets, sinks, toilets etc… and they moved in a little before us on market rate. That is violation of fair housing and if contacting this source does not do justice then I will seek legal recourse. Contact me by email but my phone number is 301 254 8314 Sincerely Adrienne Sent from my iPhone	Initial Investigation	11/14/2023

CRH230656	7549 BROADCLOTH WAY	42	Alleged unlicensed rental property	Follow Up	10/13/2023

This complaint is for the house at the address: 7549 Broadcloth Way
Owners: Sileshi Birhanu Akalat and Aden Bunara

Apparently they have 3 renters living in the house. The renters use a path on the left side of the house to enter the home from the back. They use the 2 garages as their cooking facility. The garage on the right has a stove. A few months ago, the neighbor that lives next door, Lou Kennedy saw them cooking in the garage. The renters immediately closed the garage when they saw him looking at them. The renters drop their plastic garbage bags on the left side of the house. Mr. Kennedy said the trash smells and animals have opened the trash bags. Mr. Kennedy had to clean the garbage that ended up on his property. I called the village center to report the trash bags and trash cans that they leave out all the time visible from the street.

There are 3 vehicles on the street: one with Missouri tags, one with Virginia tags and one with expired Maryland tags. (The owners have 2 vehicles.)

I spoke with Megan Tracey who told me that these owners do not have a renters license. The neighbors are annoyed with the eyesore of all the trash and clutter they leave on the front and side of the house and all the cars on the street as their 5 car garage is not used for cars. We are also concerned that the stove is a fire hazard in a garage.

Thank you for looking into this complaint.

CRH230657	7540 HEARTHSIDE WAY	43	Verde at Howard Square Apts, RH19000023 Et. Al – 7540 Hearthside Way – Trash and debris and inoperable elevator NOTE: Case re-opened 9.11.23 I am writing to you to complain about the outrageous, disgusting and dangerous accumulation of trash in my apartment building. The trash rooms are overflowing with garbage, spilling out of the bags and all over the floor inside and outside the trash rooms. See photos attached. When asked about it in the office, I was told the "trash company needs to come back and finish the job." The garbage has been piling up for at least 3-4 days and it stinks and will attract insects and rodents, if it hasn't already. There are none of the usual waste company dumpsters in the loading dock area. There is no evidence that management is doing anything to remove the trash. To my knowledge, this condition is unusual because management is typically very good. In addition, the elevator has been inoperable for about a month. I was told that the elevator company needed to order a part, which "has been received but the office is waiting for the company to schedule a repair date." This is very dangerous and unacceptable for handicapped people in case of emergency. Please send an inspector immediately. Management needs to be held accountable and fined for allowing these infractions, the accumulation of garbage and for putting every apartment in jeopardy of infestation. CRH230661	8782 CLOUDLEAP CT	36	Timbers at Longreach Apts T00006214 - 8782 Cloudleap Ct, Apt 21 – Rodent infestation (Rodents not being excluded from the unit, just trapped and baited continuously) Good morning, I am writing this email to inform of a possible mice/rat infestation at The Timbers at Long Reach, my apartment is 8782 Cloudleap Ct, Apt 21 Columbia, MD 21045. I have reported the issue to my leasing office/property manager/maintenance supervisor on numerous occasions, however I keep finding rat/mice dropping all throughout my apartment. Stemming from the front door all the way through my kitchen, my second bedroom, which is my child's room, and into my bedroom and closets. I have submitted numerous services requests to them regarding this yet this issue still continues to occur. I have spoken to them in person, and also over the phone regarding this issue. I have a newborn child that I haven't been able to bring to my apartment because this is ssue still persists. The last time the exterminator came by, he left numerous traps, baits, glue pads throughout the apartment yet they seem to be doing nothing to avail the issue. I have two of the most recent service requests and also pictures dating back until April of this year showing mice droppings throughout the apartment. I am beyond frustrated with how they've handled or mishandled this as I've been living here for over a year now, I shouldn't have to keep calling and submitting requests for this problem. CRH230671	4716 DORSEY HALL DR	30	RH14000065 – Alleged overcrowding of condo unit I am contacting you about the above unit (RH14000065), owned by Daniel Rizza, as I believe it is overcrowded. According to the rental application checklist, 50 s.f. of bedroom space per person is required. Five people live there (4 adults and a child) which would require 250 sf but these units only have 230 (or 235 if you include the inches). Two bedrooms. One 10x13 and one 10x10. I have attached the Ryland floorplan showing the measurements. The unit in question would be the Wintergreen. Someone who had to enter the unit recently due to a leak told me there are beds in the living room. I called your offices and asked if the living area could be used as bedroom space and was told 'no'. Overcrowding impacts our water bills, parking etc. Please look into this at your earliest convenience. I can be reached, at home, at 410/997-4114. My address is 4716 Dorsey Hall #503. I live upstairs and have a Ring doorbell and can show you the occupants on video. Thanks! Denise Hyde SEE ATTACHMENTS	Follow Up	10/06/2023

RENTAL HOUSING INSPECTIONS

Dear Howard County Officials,

re Rental Housing Inspections: Please see the re-attached pdf documents in this email. My first notice of an infestation to Columbia Landing Apartments management was via my Check-In Inspection list (see attached pdf). The Columbia Landing Apartments scheduled a pest control treatment (OWL Pest Prevention) appointment for July 12, 2023. I do have images that I have taken over the course of my tenancy (June 23, 2023 - present day); however, the pdf files I attempted to upload automatically provided

google drive links due to the size of the files.

With regards,
Theresa Campbell

CRH230688	6205 SANDPIPER CT	38	RH23000290 - 6205 sandpiper ct unit 208 - Foul odor in laundry – check for leaky or cracked pipe that connects washer to sewer line I am formally putting in a complaint, the pipes in the laundry room are off putting a very foul smell (hot dog/rotten egg smell). I have informed my landlord of this to no avail. There is also a crack in the ceiling surrounding where a leak was recently. I have also made my landlord aware of this as well to no avail. Thank you, Kelly Streit Kelly Streit Licensed Graduate Professional Counselor Brainspotting and EMDRIA Trained EMDR Therapist Pronouns: she/her Foul odors would not be something we can cite under	Follow Up	10/04/2023

the Rental Housing Property Maintenance Code. We can cite noxious odors (determined by MSDS). An example of a noxious odor would be someone reglazing a bathtub without proper venting which we can require (the venting) per code. Can you provide a photograph of the ceiling crack you are referring to? Drywall cracks are common any typically not something we can cite.

Ms. Streit:

If you have gas laundry equipment, the rotten egg smell should be reported to BGE right away. A natural gas leak had the odor of rotten eggs.

Hi,
BGE came out and reported it is not a gas leak. It is a smell located where the piping is. It is strong. It indicates something possibly going on with the pipes. If it is not a code issue, I'm wondering who handles this? I will send the picture of the crack shortly.

Thanks,

Kelly Streit

Hi because this is an issue involving the pipes, it could be a leak, so it should be something the code covers.

T00006560 - 7533 Murray Hill Rd, APT #728 – Unresolved water leak leading to mold conditions I am writing to request an inspection of my rented apartment located at Hamilton's king apartment (7533 Murray hill rd , APT #728) in Columbia, MD. We are experiencing a serious issue with water leakage under the carpet, leading to mold growth. We are deeply concerned about the health of our family, particularly our two young children, due to the potential health risks associated with mold exposure.Despite multiple requests, our landlord has not taken action to address this issue or identify its root cause. We are seeking immediate assistance and guidance on how to proceed with an inspection and resolution. Your prompt attention to this matter is greatly appreciated. Sincerely, Janet Orasio 832-762-1595 Your email was forwarded to our office. Please provide this office with the date you last reported this issue to owner/management through their reporting system and what action they took, if any. Is the leak still visible to an inspector and where (what room) are you seeing the water leak? If there are any other details you can provide, that would be most appreciated. Dear Howard County Rental Housing Inspection	Follow Up	11/29/2023

Authority,
I am reaching out to formally escalate an ongoing and severe water leakage issue in our rental apartment at7533 Murray hill rd, APT #728, which has regrettably been inadequately addressed by our property management, despite multiple attempts on our part.
On 09/07/2023, we identified and promptly communicated the leakage issue to our apartment management through both verbal and written channels. While we expected a swift and effective solution, the property management merely provided a temporary remedy by deploying a van to minimize moisture. Not only did this measure fail to address the root cause, but the problem has also since exacerbated. Upon our follow-up, we were informed that the property manager was on vacation. This situation has left us feeling disregarded and neglected, especially given the health implications it has brought upon my family.
Of gravest concern is the impact this has had on the health of my two toddlers. They have both developed allergic reactions, and my older child's condition has deteriorated to the extent that she has been missing school due to chronic allergic reactions affecting her respiratory system and eyes.
Initially localized to our master bedroom, the leakage has spread throughout our home, including our kitchen and my children's bedroom, thereby amplifying our distress and the hazards we face daily.

Given that our repeated communications with the property management have been met with inaction, we are now seeking your intervention. It is our right as tenants to live in a safe and habitable environment. The health risks and deteriorating living conditions we are experiencing are untenable.
I kindly request that an inspection of our property be scheduled as soon as possible to assess the situation and enforce any necessary corrective measures. Documentation, including photographs and previous communication records with the apartment management, can be provided upon request.
Thank you for your prompt attention to this matter. We trust in your office's capacity to protect our rights as renters and ensure that we have a safe living

environment.
Warm regards,

Janet Orasio,
832-762-1595

CRH230700	9790 JUNE FLOWERS WAY	47	Unlicensed Rental Property - 9790 June Flowers Way, Laurel, Md 20723 My wife and I signed a one year lease on August 17, 2023, and paid a $3200 deposit and $3200 1st month rent to occupy 9790 June Flowers Way, Laurel, MD 20723. Based on the lease terms, we were scheduled to occupy the property on Saturday, September 16, 2023. We met the landlord's real estate agent for a final walk through and to receive the keys(doors and mailbox), HOA documentation, and any additional instructions required to use the property fully. However, we could not take possession/occupy the property because someone's belongings were in the garage; the deck railing was separated from the deck post—a critical safety concern. The refrigerator and freezer were not operational. Verizon FIOS box ripped from the garage wall. The toilet required a manual pull on the handle for the water in the toilet to stop running. The hall linen closet light switch was	Follow Up	10/26/2023

missing a light switch plate. Ten light bulbs were out in the ceiling, and the ceiling fan remote control may not work or need batteries. A small piece of wood is missing from the middle of the floor. (for the record).

During the walk-through, we advised the real estate agent that our professional cleaner would arrive shortly, so the personal property would need to be removed. He indicated that someone would come later that morning to remove the belongings and provided us with the phone number of a person named Yemi if we had additional questions or concerns. The agent left the property and said he would return with the mailbox key and would ask about the HOA documents that we should have received.

Given the property's condition and lack of full access, we could not move in, nor did we have clear guidance on the next steps. We were advised that contacting the owner is hard because he works abroad and he is actively looking to hire a property manager. As a result, We left the key in the combination box on the door and emailed both agents the same evening with the list of events, challenges, and our request to acknowledge that our lease is no longer valid and the property is not legally ready to rent to a tenant.

This situation has cost us time, money, and grave inconvenience with our living arrangements. We've disconnected the utilities at the property and canceled the renter's insurance.

Any guidance would be appreciated,

Thank you,

Gary and Donyel Bacon

I would like to report the property management team that manages the property that I live at, which is 9740 covered wagon dr apartment E. On Sunday when I went under my sink. I notice that when I run my kitchen sink. Water leaks profusely down underneath and on top of that, there was about a gallon's worth of standing water. I put in an emergency maintenance request on Sunday 9/24 and heard nothing back from them. On monday the twenty fifth I received an email where they canceled my service request. And then on tuesday, 9/26th , the maintenance team showed up even though the canceled the service requests and started but did not finish the work. And even leaving me with no faucet and essentially no running water. When I questioned why they came in a 2nd time	Follow Up	11/06/2023

when I got home and while I was in the shower I was threatened to be evicted. See photos attached to problems and the fact that I don't have drinkable or potable water(my sink in the bathroom is my only option besides the shower) but I can't cook because I can't clean dirty dishes in the sink because of the mess underneath it creates. The smell was putrid and I ended up cleaning so it didn't cause any further damage both physically and to my health to due potential black mold forming due to standing water and wet wood. They have now left me with no kitchen sink.

Please call or reply to email at your earliest convenience. Thank you in advance for your attention to this matter.

Best regards,

James N Cradlin

T00006079, T00006080 -9087 Town and Country Blvd, Apt B,– Septic Odor in apartment causing backups and constant septic odor (possible blocked or cracked sewerline) I hope this email finds you well, but I am writing to express my deep concern regarding the persistent septic odor and recurring flooding issue in my house. Despite the efforts made by the property manager to address these problems, they continue to persist, causing significant distress and inconvenience. Every time it rains, an unbearable septic odor permeates throughout the house, making it nearly impossible to live comfortably. This not only affects our physical health but also puts a strain on our mental well-being. Additionally, there have been several instances where water has flooded into our home, damaging personal belongings and creating an unsafe environment for my family. Despite numerous attempts to resolve these issues with the property manager, no significant action has been taken. This is why I am reaching out to you as the county inspector in hopes that you can intervene urgently and ensure that appropriate measures are implemented. I implore you to personally investigate this matter and take immediate action to rectify the septic odor problem as well as address the recurring flooding issue. The health and safety of my family are at stake here, and we cannot continue living in such conditions. Please treat this matter with utmost urgency, as we desperately need a resolution. I would greatly appreciate your prompt attention and intervention in this distressing situation. Thank you for your understanding and anticipated swift action on this matter. CRH230727	9610 COVERED WAGON DR	47	The Seasons Apts. T00006543 – 9610 Covered Wagon Dr. #B – Roach Infestation found upon move-in and broken ice maker and drawers in refrigerator I am reaching out in dire need of assistance. I have forwarded my communication with the management office from my community, as you can see I have not received any response. I moved into The Seasons (9220 old lantern way, Laurel MD 20723) on Monday 9/18/2023. That first night I immediately noticed a roach infestation and reported to the office the next day. I am in CW610B (9610-B covered wagon drive, laurel MD 20723). The issue has only escalated since. I had to have my refrigerator removed because over 100 roaches and eggs where nesting inside. Even with the refrigerator gone the roaches are everywhere! The sink, the dishwasher, the outlets, the walls, the vents, the cabinets. It is impossible for me	Follow Up	11/06/2023

to store food here so I had to throw away everything I had. It is too unsanitary for me to cook or eat here so my son and I are forced to dine out daily. I am running out of money. I requested a new refrigerator however management said they weren't ordering it until after the first of the next month. I asked for compensation for the food I've thrown out and for my dining expenses, they just ignored me. I asked to be moved to a new unit because I can't afford to break the lease and move elsewhere abruptly, they won't acknowledge my request. I can't live in these conditions! I've been staying with family and friends because the roaches are even crawling on us as we sleep. This is not a case of 1 or 2 roaches. I've never seen an infestation this severe. I need the management team to be held accountable for allowing new residents to move into units they know have a history of infestation. I need to be moved out of here and into a safe and sanitary environment.

I can provide videos, photos, receipts and letters from my family physicians outlining how this situation is physically, financially and mentally affecting me and my son. We cannot stay here. I've left reviews, requested to place my rent into escrow, I've even escalated my issues to the VP, COO, and senior property manager. Please help me!

CRH230729	11045 WOOD ELVES WAY	29	RH1700264 – Property is licensed for an accessory apartment in the BASEMENT (approved by Zoning 10/16/15 under B15004162). There is NO LICENSE to rent the upstairs unit. License update, Zoning approval of the switch and inspection required. Numerous violation noted in the upstairs unit. I am currently living at 11045 Wood Elves Way Columbia Md 21044. My partner and 3 kids moved in on May 21st 2023. My partner was renting the basement apartment prior and in March she told the	Follow Up	06/13/2024

landlord that at the end of her lease we would be renting elsewhere due to lack of space. He then offered to do a “swap” of living space. We’d move upstairs and he’s move into the basement apartment. A portion of the house (bedroom and attached bath and laundry room) were under construction and that the renovation would be done prior to us moving in May. When we did the swap, he told us do to “back ordering “ issues, the renovations were being pushed back to June/July the latest. We spoke with him again multiple times about getting this done, which he’d reply with “I’m trying to lock down a contractor” or “I haven’t narrowed down the tile”. We spoke with him in July, again to get confirmation on when the renovation would be completed and he said October the latest and again blamed it on contractor issues. Along with having no wall, renting space that is unusable and unsafe, and we are expected to pay full rent on top of having no lease (which we have requested for him to provide multiple times). We also have an about 2x4 hole in the wall in the living room, some of his belongings still in the house and have made several requests to have him remove them, exposed wires, outlets and light switches without covers, exposed sub flooring on the stairs, and no baseboards throughout the upstairs. There was also a major mold issue in one of the bedrooms that he failed to remove, so we did that on our own.

Our goal in all of this is to be able to move out without penalty and will be taking legal action in efforts to be reimbursed for a portion of the financial burden and stress.

I have attached an album of photos of the living conditions as well has screenshots of our conversations that will confirm our continued efforts on getting our problems resolved.

Due to the amount of pictures, I will have to send them as an airdrop. Please don’t hesitate to reach out if you have any issues opening the photos along with and questions or concerns.

Thank you,

CRH230733	6260 WASHINGTON BLVD	38	Terrace Motel T00006088 – 6260 Washington Blvd., Room 39A – Room not clean and sanitary and missing smoke alarm I work for the health department's behavioral health program and got a complaint from a resident at the Terrace Inn on Route 1 in Elkridge about their room while doing a community clean up near the property. They took me to room 39A, which they were initially rented before requesting to move rooms – there was apparently a murder/suicide not long ago that took place there and the room was not great. There were dried blood stains on the mattress, a missing fire alarm, some exposed wires, etc. This person also forwarded me some photos of the initial disposal of the rooms contents after the event, which were throw out of the back window. The environmental health folks told me that rental housing would be the best place to submit a complaint and try to get an inspector out there to take a look. I suspect a number of the rooms look the same as this one did. Happy to talk more and do any follow up with you all if needed. My contact information is below. CRH230735	2716 ROCKY GLEN WAY	18	Alleged unlicensed rental property per HOA - 2716 Rocky Glen Way I am writing on behalf of our Rocky Glen HOA as HOA president. There have been concerns from some of our neighbors that the address 2716 Rocky Glen Way, Ellicott City, MD 21043 is being used as a rental property. It is believed that this home is most likely in violation of the Howard County rental regulations and codes as well as our HOA contract/agreement. It is probable that this property doesn't have a rental license with Howard County and that it is being utilized as a multi family rental rather than a "single family dwelling". Furthermore, it has been noted that structural changes have occurred at this property outside the home and potentially inside the home that those that monitor Howard County's rental properties may not be aware of. Your assistance in investigating this matter is greatly appreciated. Please do not hesitate to contact me if you have any questions or would like further information. A reply regarding next steps is greatly appreciated. Thank you, Thasia Palmieri, HOA President Rocky Glen Way Phone: (732) 991-7264	Follow Up	10/19/2023

current active leak and proper remediation from previous leak

Hello I live at 6807 Old Waterloo Road APT 827 my unit has been having
> flooding issues from my neighbors apartment above me there sprinklers systems busted on the 3rd level and my 2nd floor unit and the unit underneath of mines I been asking for a inspection because the fire department came out and told me and maintenance the ceilings were heavy and to watch them because they may come in the water leaking from above my unit came into my unit for several days from the ceilings down the entire walls to the floors this happened 9/15/2023 and after the first flood my unit flooded again and it’s reading positive for moisture it smells has bugs flying around everywhere and damp inside my apartment I reached out to non emergency for help with what do I do if no one is helping me with this issue and my next issue is that I was told by the police department this incident was not coming up in there system at all or that the fire department came out about anything I need help with this because this is very serious and dangerous and what else is not being reported and documented in the Police department system that’s supposed to serve and protect us all Respectfully Shawanda Allen 4432546772 is my number Sent from my iPhone
<Rental Housing Property Maintenance Complaints Rev. 3.11.2022.pdf>

They sprayed the ceilings and walls together and sprayed painted over the wet discoloration areas to hide the problems that was all the fire department had told me and maintenance the areas were heavy and watch out for it coming down I asked for inspection I never got any I got a generated email as complete and no inspections was done it flooded again but the first one was worse and my unit is still reading positive for moisture I told them that the unit was leaking water from the ceilings down the entire walls for days this happened on the third floor the water came to my second floor unit to the first floor unit water does a lot of damage and it causes mold and other problems just gluing and spraying over it is not the problem being solved it is only covering it up to

the eyes and causing more damage under that only gets worse and I know it’s not the first time that happened before and that’s exactly how they know what to do to cover up the problems that they are having because nobody is doing anything like nothing happened and it’s normal and they are to comfortable like they know that they are all good and can get away with it because they have been just like my renter’s insurance company said they bet there stuff is not up to code and maintained who checks it and make sure it’s done properly and honestly I had to pay out of my pockets to hire professional companies that had nothing to do with me and other companies that were involved and they were all different reports that were problematic and positive readings that were not correct and I had to go on a emergency move already to here and there having to many problems already Sent from my iPhone

CRH230756	5013 COLUMBIA RD	30	Columbia Glade Apts T00006163 – Water Damage	Follow Up	10/31/2023

I'm writing to inform you about an incident that happened Monday 10/16. Myself (Gretchen Yeager), my fiancé (Justin Olah) and our dog live at 5013 Columbia Rd. Apt 201, Columbia MD. When I arrived home at around 4:45, I stepped in a wet spot on the carpet in the hallway by our bathroom. Upon entering the connected bathrooms, I found that there was a large bubble of water above our shower head. There was water all over the toilet. Our bath mat was also completely drenched. The half bath was not wet. When I entered the closet connected to the bathroom, the carpet was completely saturated. The light fixture was filled with water. Thankfully, most of our clothing was not wet. I called the office and they sent maintenance to my apartment and the apartment above us. We were informed that the tenant above us had overflowed his tub and would "clean it up/take care of it." The maintenance men vacuumed up some water and removed the pad from under the carpet only in the master bedroom. They placed a large fan under the carpet in the closet and said they would return the next day to move the fan to ensure the carpet would dry. They also said they would remove the light fixture to drain it. As of today (10/20), they have not returned to drain the light fixture or move the fan. We called on Wednesday 10/18 to ask what the plan was as the smell was horrible and we were concerned about mold. The office said that they would steam the carpet once it was dry. The carpet in the closet is now dry but the carpet in the hallway is still damp. Additional, the humidity has caused the bathroom door to start cracking and it is getting stuck closed. The office told us yesterday that the drywall/paint work will be done Tuesday and the carpet will not be steamed until Wednesday. We feel beyond frustrated that this has taken so long to get taken care of. It seems that every time we try to communicate our concerns we are brushed off/dismissed by management.

Reach.
Since we've been living at The Timbers at Long Reach, we've dealt with a plethora of pests . Living here has been uncomfortable and dangerous.
I've created a series of notes since living here. See below:
• We have seen several mice run throughout our house at night. We would see them in our bathroom, run across the living room while watching tv, they've gone in our pantry, we caught them eating our loaves of bread, and one was even jumping around behind our fireplace. I have a video.
• I am extremely afraid of rodents and have experienced two panic attacks since living here, after seeing them crawl around.
• A staff member came to check our unit once and admitted to us that every single building in this community is infested with mice.
• Due to contamination, I've had to throw out some of my kitchen appliances such as my toaster oven and Keurig. I've thrown away plenty of food too.
• We have seen many different types of bugs in here on a daily basis. We've told maintenance and they say okay we'll come in and spray solution. But the spraying is not working!
• If I leave any any food on the counter even for a few minutes for a bathroom break, I see bugs surrounding it.
• We have seen roaches crawl out of the sinkhole as well!
Please let us know if there's anything that can be done about this matter.
Thank you,
Genesis Smith
Tel: 202.412.1380

I sent a complaint to the The Timbers at Long Reach management company which is Mission Rock Residential, on Oct 19th.

No action yet.

They have the company Erlich do spray downs in the apt. However, it does nothing. We still find bugs in the home.

They have not inspected for an entry way for rodents instead just said they'll do shoe molding. They did the shoe molding a month or so ago and I've seen two mice since then.

CRH230798	4907 BLUE WING CT	30	T00006401 - 4907 Blue Wing Court Unit F – Numerous maintenance issues and alleged bee infestation I’m having issues getting things taken care of with my rental office. Currently I have a broken window which has been broken since 10/22. It was reported on that day and they came out to board it up. I was told someone from the glass company would be out on 10/24. No one showed up. I reopened my complaint	Follow Up	11/21/2023

with them on 11/1 after hearing nothing. I was told it would be fixed today. No one came out. My electric bill has skyrocketed. It's cold. I can't even afford to pay my current bill. My husband is allergic to bees. We have up to 20 yellow jackets PER DAY being killed inside our bedroom and laundry room. They had pest control come but they didn't find a nest. They treated some areas, but it hasn't helped. If anything, it got worse. If my husband is stung it's a serious issue. They said nothing can be done for another 2 weeks.

When we moved in we had no AC. We had a toilet that didn't function correctly and had to be looked at 4 times before our maintenance guy replaced it.

We had a sink clogged in the kitchen.

We had roach feces EVERYWHERE in that house when we moved in and I still haven't managed to get it all. Our kitchen was covered. We had dead roaches everywhere as well.

I've told them I'm not paying rent until things are fixed. They also won't remove the late fee despite the fact that they haven't held up their end of the most recent repairs.

Can I get someone to come and assist with these issues before this escalated further?

Thank you in advance,
Vanessa

CRH230799	7384 EDEN BROOK DR	42	The Madison at Eden Brook Apts., T00006550 - 7384 Eden Brook Dr. Apt 313 – Oven/Stove in disrepair since 10/30/23 and Mouse infestation to be treated and excluded I am a resident at the Madison at Eden Brook Apartments, and I would like to place a complaint	Follow Up	01/08/2024

about the apartments and their management team. About two weeks ago, on or around October 20, I noticed an odor in my laundry closet as well as mouse droppings. Thinking I had one mouse, I attempted to use store bought methods (traps and poison) to kill the mouse but was unsuccessful. On Friday, November 10, I attempted to call the apartment office to request pest control to my apartment. I called the number that is on their website (410-593-1774), which redirected me to an emergency maintenance line. I left a message on their emergency maintenance line and waited several hours for a call back. Given that November 10 is Veterans Day Observed, I assumed that the management team was off for the day, and I realized that I was not going to get a return call. I decided to hire a pest control specialist to provide an inspection. He informed me that the apartment building likely has a mice infestation. At the time, he offered to clean up the mouse droppings in my apartment and put down rodent repellent, which I agreed to. He proceeded to pull the stove away from the wall to clean behind the stove, at which time all of the electricity in the apartment went out. I called the phone number on the apartment website again and left another message on their emergency maintenance line. I walked over to the office and the management team was in the office, so I am unsure why they did not return any of my emergency maintenance calls. I informed them that the electricity was out in my apartment. The maintenance person that they sent to my apartment to look at the breaker box for less than one minute and said that since none of the breakers had been tripped the problem was not with the apartment. He suggested I call BGE to confirm that they had not shut off the electricity. I called BGE who confirmed the meter was operational and providing electricity to the apartment. The maintenance person then went to check the main breaker that residents do not have access to, and again said that there were no issues on the apartment’s side. At this point, the property manager got involved and said that since I had hired a pest control specialist who was not authorized by the apartment complex that I would be responsible for all repairs. She also said that she would not send anyone out to look at the issue until Monday,

November 13. At this point, I reserved a hotel for two nights.

The next day, Saturday, November 11, the property manager sent me an email stating that they had scheduled an electrician for Monday, November 13. When I returned back to my apartment to pick up extra clothes on Saturday, the electricity was back on. I sent an email to the property manager informing her that I no longer needed an electrician. She replied stating that they had sent an electrician out that day and that I would still be billed for the repairs. She never informed me of the date and time that the electrician would be conducting repairs, so I was unable to be present to discuss the events leading up to the outage.

Sunday, November 12, I was cleaning up my apartment and noticed that I could not open one of my kitchen drawers because the stove had not been pushed back all the way. I moved the stove back and the electricity in the apartment went out again. I called the emergency maintenance line and again left a message. I never got a response. I had to spend another night at a hotel.

CRH230802	5764 STEVENS FOREST RD	36	Columbia Point Apartments, T00006542 – 5764 Stevens Forest Rd, Apt. 120 – No heat in unit since flood in laundry room 11.4.23 (also check on expired elevator certificate) T00006542 Since last Sunday, my residence has been devoid of heating due to a minor explosion in the adjacent laundry facility. Despite promptly filing a service request, the overall functioning of this facility seems designed to foster uncontrolled disorder, conveniently evading accountability and liability. An illustrative instance is the conspicuous absence of an elevator inspection for over a year, and the laundry room has been deemed off-limits by the fire department since the aforementioned incident. Regrettably, the management's responsiveness is	Follow Up	12/19/2023

notably lacking, reflecting an apparent disregard for tenant concerns. Candidly speaking, the management's practices seem to align more with those of neglectful landlords overseeing substandard living conditions. However, as my lease is nearing its expiration next year, my imminent departure is assured. Nevertheless, the pressing issue at hand is the absence of heating, warranting formal complaints and external intervention to ensure a resolution.

What apartment number do you reside in? We can see you submitted a request for service today. What date did you first report this matter to the owner/management company and what action did they take, if any?

Elevators are regulated by the State of Maryland. Has a complaint been filed with the state?: https://dllr.state.md.us/labor/safety/elev.shtml

Hi,
I reported the heating issue and the laundry facility incident to the management last Monday, and my unit is 120. Regrettably, despite the passage of a week, there has been no visible progress or resolution.
Given the urgency of the matter and the apparent lack of response from the management, I have taken the initiative to file the necessary paperwork to create a paper trail regarding the ongoing issues. I believe this step is crucial to ensuring accountability and a swift resolution.
Regarding the timeframe for rectification, I would like to inquire about the standard procedure or expected timeline for addressing such concerns. I understand that these matters may vary, and I would appreciate your guidance on when I can reasonably expect the necessary repairs to be completed.
Additionally, I have contacted the elevator inspection unit of the State of Maryland due to the extended

absence of an elevator inspection for over a year.

Thank you for your assistance.
Best regards,
Ohene Akuoku

CRH230811	12050 LITTLE PATUXENT PKWY	35	Eagle Rock Apartments at Columbia T00006179 - 12050 Little Patuxent Pkwy Apt C - bathtub chipping,, inoperable lighting in bathroom, kitchen cabinets are rotting and folding into the ground. Repairs were submitted on 8/3/2023 and the main water damage has been fixed however the below items are still unfixed: -bathtub chipping -lighting in bathroom- -kitchen cabinets are rotting and folding into the ground. The only things that the complex has done is come to take measurements, however, that was about 2 months ago and despite multiple follow up attempts, they are not answering. Which is why I contacted consumer protection and they referred me to this office. I spoke with the consumer protection office today regarding the below complaint with my apartment complex. I was advised to follow up with an email to this address to hopefully get things resolved. There are several code violations that need to be addressed and fixed and the apartment complex is not doing the fixes. Please see the below complaint that was filed with Consumer Protection: " In June of 2023 we had a big water leak that caused mold in our bedroom. It took 3 months for this to be completely fixed, and that was with me doing multiple follow ups and conversations with the property manager Grant. It finally was fixed in mid-August of 2023. They were not happy about my follow ups and expressing my frustration surrounding the issue at hand. Fast forward to around that same time were in renewal with our leasing office for our lease. After several phone calls, in person meets and emails, I was told by Grant that the folding of the cabinets and	Follow Up	02/08/2024

buckling and mildew under our kitchen sink that was there from Aug 2022 when we moved in would be fixed, as a condition to us renewing our current lease. I have again been following up on this issue since mid-August as nothing was happening with it. I have a note from maintenance saying they ordered the parts for it to be fixed, as well as emails from Grant saying the same thing. However, on 11/9/2023 I called the office about the issue below, and while on the phone I asked Michelle about the work order. To which she responded with "did someone not already speak to you about that?" When I responded no, she responded and informed me that the property manager is going back on his word and now threatening that we will have to pay for the damage upon our lease ending, even though they damage has been reported on our move in report from 2022 and existed prior to us living there, and we reported multiple times.On Thursday 11/9/2023, I came home, and I thought someone had broken into our home. The lights were left on, stuff in one of our bedrooms was knocked over, etc. So, I checked our ring doorbell to find that maintenance had entered (for an unrelated issue, they installed something in the bedrooms) without the prior 48-hour notice. I called the leasing office and spoke with Michelle who said a notice was sent out that morning, however, upon my request of that notification they are unable to provide it to me. So, we have now installed an alarm system in our home because we are scared of them just coming in whenever they please and doing who knows what in our home. We are scared and very frustrated. So, I called Calvin Ball's office which is how I got into contact with the Consumer Protection Office and spoke to Laila. This is the main issue at hand; however, I also have a work order in that has been over 30 days for our bathtub having the enamel peeling away, and a light rod that is out in our hall bathroom, that is a specific bulb. This just is to show the pattern of neglect and retaliation against us" I am hoping to schedule for an inspector to come out and look at the issues and help get a resolution for it all.

Thank you so very much for your time!
Thank you,
Nikole Lebowitz (formally Fortner)

CRH230825	5435 RING DOVE LN	30	RH22000382 – 5435 Ring Dove Lane – Unknown odor in kitchen area. Damaged windows allegedly allowing bugs to enter I have a lot of issues going on with this home that I'm renting from. I would like someone to come and just inspect the house in general for cleanliness and several other issues. In my room, the window seems to be damaged letting Air/bugs into the room. The room next to mine does so as well. There is a rotten smell in the kitchen that will never go away, and overall just seems like it is never been cleaned. my name is David Corey my best contact is email or phone call. phone - 703-459-3178 email - dpcorey8@gmail.com David Corey: Attached are instructions for filing a complaint with our office for your reference. You should be aware that once a tenant takes possession of a property, the code holds the tenant responsible for keeping the unit clean and sanitary. It should be clean and sanitary for you when you move in. We would need a list of the alleged property maintenance code violations and we must know the date that you reported these issues to the owner/property manager and what action they took, if any. it is a little tricky; when i moved in i should have taken photos of everything i had to clean. rotten food with dead maggots in the fridge, sink and around the kitchen. gnats stink bugs and moths have consistently been around.	Follow Up	01/11/2024

i figured there was nothing i could do so i just cleaned most of it up. what remains is a rotten smell in the kitchen that will not go away. since it is cold the bugs are not as bad but come summer time they will be back and it was terrible.

as a renter i just have no idea if these are things i can or cannot do anything about.

i cannot recall a specific date. i have let hum know about the cleanliness of the house and not much has been done. he bought fly traps but thats about it.

i have tried everything to keep the place clean. some things are just beyond my control and no matter how clean and kept i am; these problems existed before i ever came in.

Dear Homeowner/Landlord.
On Thursday, November 23, 2023, at 06:57pm ET, I contacted your Property Management company and I contacted you via text to notify you both that there was a loud hissing noise coming from the hot water heater at the 7165 Stag Horn Path, Columbia, MD 21045 rental property.

The Homeowner/Landlord response was that the Property Manager was placing a request with the

warranty company and would let me know what they said. Then the Homeowner/Landlord informed me that I was welcomed to call a plumber on my own, outside of her warranty company; but I would be responsible for paying for it out of my pocket.

I in turn replied back to the homeowner/landlord that as it was an emergency situation, I have my children and family visiting for the Thanksgiving Holiday, and I want to be safe to stay in the home because we are not professionals and do not know anything about hot water heaters and/or if the hot water heater would blow up that I would go ahead and call a plumber on my own and indeed pay for it instead of waiting on the warranty plumber to ensure the safety and well being of me and my family.

The plumber that I called from Roto Rooter was at the 7165 Stag Horn Path address an hour later. After examination of the water heater; the Roto Rooter plumber informed me that the loud hissing noise was from a leak in the line of the water heater, that the leak was below the shut off valve, that the water heater was not installed properly, and because of this I should turn the main water off to prevent the basement from flooding. I did exactly that.

I reached back out to the homeowner/landlord and property management @08:32pm on Thursday, November 23, 2023, to inform them of the diagnosis that was provided by the plumber from Roto Rooter. I also informed the homeowner/landlord that if I had followed her instructions to ensure me and my family's safety and just shut off the breaker to the hot water heater that her property would have flooded as shutting off the breaker would not have remedied the issue.

Even after I provided the homeowner/landlord and the property manager with the information from Roto Rooter; they both remained adamant that anything done had to be done through their warranty company. So a conscience decision was made by the homeowner/landlord not to address the issue outside of the warranty and leave the tenant without water in the property. The homeowner/landlord made sure to

inform me that her decision was in the lease agreement.

After reviewing the lease agreement; It does not say that I have to wait for repairs to be performed by the warranty company. It states: regarding maintenance, repairs, and/or replacements are as follows: Tenant calls Property Manager for issues. Home warranty in place.

After two days with no communications from the homeowner/landlord, property manager, or warranty plumber; I sent another text @09:26am Saturday, November 25, 2023, informing them that it was unjust to have me and my family in the home with NO RUNNING water because the homeowner/landlord wants to use her warranty company. I then informed them both that they could not leave me without running water or without hot water. That this act was a violation of the State of Maryland and the Howard County maintenance code. There was no response until the property manager reached back out to state that she was in a bad area with no cell phone reception and that a plumber would be reaching out to me shortly. They continued with the warranty company.
The warranty plumber arrived on Sunday, November 26, 2023, @12:00pm ET only to do a diagnostic exam of the water heater and confirm what the plumber I called stated on Thursday, November 23, 2023.

We have noticed what appears to be mold in the upstairs hallway closet, lastly we have requested her to replace the hazard blinds in each window, she has failed do so. FYI the home is about 20 years old the appliances are breaking down due to age. We paid $3400 a month in rent on time every month. We should not have to be concerned about repairs. Thank you Mr and Mrs. McDuffie 443-280-3214	Follow Up	12/28/2023

CRH230840	6200 VALENCIA LN	36	RH22000761 Marlow Apartments, RH23000030 Why Hotel - 6200 Valencia Ln, Unit 3058 – Balcony door in disrepair; parking garage gate in disrepair; door access problem due to poor cell coverage I am writing to you to complain about the following issues that my daughter and I have experienced living	Follow Up	12/20/2023

at the Newly developed Marlow apartment complex. We believe this establishment has violated the MD State and Howard County housing development codes, and we are kindly requesting you to please investigate these matters:

• Brand new building but cheap materials used to build the apartments and things are always breaking, e.g.:
o Kitchen cabinets and other items constantly fall off; the cabinet door almost fell on my head, and we had to secure it with tape for 2 weeks before they came to fix it.
o THE WALLS AND CEILINGS ARE AS THIN AS PAPER - you can hear your neighbor upstairs and downstairs when they flash the toilet or take a shower!
o Balcony door has a gap and does not shut properly/cold air seeps through (ticket has been open since September 22, 2023)
o Doors squeak
o Parking garage gate has never functioned ever since we moved here 4 months ago
o Elevators constantly breakdown
o Leasing system constantly malfunctions
• The constant LOUD noise from the hotel guests above us and courtyard amenities are VERY disturbing and mind boggling - nothing is SOUNDPROOFED in this building.
o Intentional retaliation of feet stomping, loud music, children running around, and dragging of furniture from the repeated guest or staff guest is deafening.
o I have reported this disturbance on numerous occasions, and nothing has been done. I've requested them to install a carpet in the living room and to change the furniture from metal legs to wooden furniture or use leg slider cushioning but no success.
o I've shared with the leasing office and hotel management about my post-concussion syndrome, but nobody seems to care nor take action to address my complaints.
• No cell services in the hallways which makes it impossible to access doors in an emergency. In addition, we sit by the window to make a phone call or work due to poor internet reception.
• Staff/maintenance enter apartments without notice

or knocking despite requesting to have them call you in advance.
• This property management company extorts money from tenants by charging services that we do not need or use, e.g., Fetch (Mail delivery service), Jetty (Rental Deposit), etc.

Please kindly assist us in investigating these reported issues to address our concerns with Greystar Property Management, Marlow apartment, and WhyHotel by PlaceMakr.

Thank you,
Junnette Nyawara

Junnette Nayawara:

This office does have limitations with regard to what we can and cannot cite as a violation under the Rental Housing Property Maintenance Code. We can see that you requested repair of your balcony door on 9/22/23. We can assist with that if the door is not closing properly or if we can see daylight in a gap at the door. We can assist with he cabinets if they are currently lose or visibly coming loose. When (date) did you report the issue of the cabinets to management? If the elevator is currently inoperable, we can address that; however, please be aware that elevators are primarily regulated by the State of Maryland - https://www.dllr.state.md.us/license/elev/ Is the elevator currently inoperable? What is the issue with the parking garage gate? Are you able to enter and exit the parking garage?

Dr. Kanjarpane:

Our record reflects that you are the owner of the subject property. To be clear, any violations of the Rental Housing Property Maintenance Code found at the time of an inspection would be cited to you, per code, for repair. It may be in your best interest, to resolve these issues without our involvement. Additionally, we cannot compel a property owner to power wash a property. If siding is damaged we can compel repair.

Please confirm that you wish to proceed with this office opening a complaint.

Noted with thanks

Please proceed expeditiously

CRH230849	3204 WHEATON WAY	18	Renaissance Hills Apts., T00006178, T00006563 - 3204 Wheaton Way, Apt B – unrepaired water damage and remediation and possible unresolved leak This address has been my address for the past three years, since December 30, 2020. My apartment has had issues with water back up onto the kitchenfloor since my first night in the apartment. On Saturday, November 24, there was a water leak onto the kitchen floor at 6:30 pm At 8 pm maintenance removed the water with a shop vac. Sunday, November 25, dirty water fell from the bathroom vent over the toilet onto the bathroom floor flooding in front of the cabinets. The maintenance came with a shop vac again to remove the water. Sunday, November 26, 8 am Water stains appeared on the living room ceiling in three places. The largest area was dripping water slowly onto the living room rugs. I put small containers, some plastic, and paper towels down under the drips. Monday, November 27, Part of the ceiling had fallen onto the living room rugs. Maintenance cleaning out the kitchen appliance area drain with a device, photographed the ceiling in the living room for the "supervisor of maintenance" removed large chunks of debris from the living room	Follow Up	02/08/2024

floor. .I was told that the contractor renovating the apartment above me was responsible for a spill of liquid that created the ceiling leaks. I was told that the contractor would also be responsible for repairing my ceiling. When asked what else needed to be done, I said that the rugs were wet. I was told that an "extraction team" would be coming to remove the water. That team did not arrive. My ceiling still has a large hole.

I do not know when repairs will be done on my ceiling, or what would be done. I was unable to speak to the property manager because i was only given her name and told that she would call me. When I inquired on November 28 as to why she did not call me, I was told that she had the flu .

Unlicensed rental property, potential overcrowding. Potentially a business location being used as a rental. Other issues also referred to DPZ and Law Enforcement.

As discussed privately with you, Victoria and Melissa at this morning's PPW meeting, I am concerned about the influx of three new families to the same address withing the past two to three weeks. They are all young, Hispanic, non-English speaking mothers with children. They all report that a man who owns the house but does not live there has allowed them to stay there. One came from Virginia. One came from North Carolina and the latest, a mom who just called me yesterday, is coming from Fort Washington. The home is located at 6151 Pine Avenue in Elkridge and is 1400sf and has 1 bathroom. It is in a commercial area that looks like a salvage yard. On every visit I've made, the home is surrounded by vehicles and men.

• The first family has been living at that address for a couple of years and she rents a "room". That is not

unusual for some of our Hispanic families.
• The second family, designated SITH, who moved in just before Thanksgiving is a 22-year-old mom with four young children who was dropped off there by her uncle from Virginia who knew this unknown man. She shared that the man, when he learned she had no money, hinted at a sex exchange, which she rebuffed. I offered to use the Bright Minds grant to house her in a hotel for a week in hopes of getting her alternate housing, but she decided to stay there. She lives in the basement area of the house.
• Last week another young mom from North Carolina contacted us about enrolling her 16-year-old daughter and 6-year-old son. She also has a 9-month-old. She was enrolled by Victoria as SITH. She claimed to be living in the living room area of the house and sleeping on the floor.
• Yesterday (12/16), I was contacted by a third mother who claims to also reside there with her elementary school aged child and stated she was renting a room inside the house. She is coming from Fort Washington. When I asked why she moved she told me the house where she resided was being sold and she had to move.

I am very concerned about how and why all of these moms are ending up at this house, especially given the comments made by the second mom who moved in. I will be making a CPS referral today. Victoria, Ben Wade and I plan to make a home visit on Friday to this home.

CRH230866	8905 TAMAR DR	36	Columbia Landing Apts. T00006074 - -8905 Tamar Drive Apt 101 – Alleged unresolved roach, spiders, worms, centipedes, silverfish infestation. Also, complex allegedly entering unit without proper notice. My name is LaTonya Frizzelle and I am a resident at Columbia Landing Apartments in Howard County-Columbia,M.D. 21045. The leasing office is located at 8905 Tamar Drive Columbia, MD 21045 -Columbia Landing Apartments Below is the complaint email that I sent to the property manager on 11/28/2023.	Follow Up	02/16/2024

Good morning,

My name is LaTonya Frizzelle and I am a resident at Columbia Landing. I obtained the apartment on 8/14/2023.
I requested pest control services on the days listed below:
Tuesday August 15,2023,
Tuesday August 22, 2023 and
Tuesday August 29, 2023.
Pest control serviced my residence on on Wednesday Aug 16,2023 Wednesday August 23,2023 and Wednesday August 30, 2023.

The lease agreement states:

#7. In the lease agreement, condition of Dwelling Unit: “Owner is delivering the dwelling unit and common areas in clean, habitable and sanitary condition, free of rodents and vermin, and in compliance with all applicable laws and the laws of Howard County,Maryland. This lease incorporates by reference the Howard County Building Code, the Howard County Fire Prevention Code, the Howard County Property Maintenance Code for Rental Housing, and the Howard County Zoning Regulations, as an express warranty of habitability and covenant to repair.”

I have seen roaches, spiders, centipedes and other types of vermin in my residence daily since occupancy. I have seen them in the kitchen, bathroom, bedroom, and living room, emerging from the vents, electric outlets etc.

On September 21, 2023 I spoke to Ms. Paula in person at the leasing office. She asked if the problem has been resolved. I told her the problem is still present.

On Monday October 2, 2023 Paula asked if I wanted extermination to come and I declined because of my dog.

On Tuesday October 3, 2023 I reached out to Howard Housing and I was told someone from Columbia

Landing property would follow up with me.

On Wednesday October 4, 2023 Ms. Thelma from Columbia Landing, contacted me and said she would schedule me for extermination services for the remaining Wednesdays of the month. (October 11th, 18th & 25th). At the conclusion of the month she would follow up to check the progress.

On Monday October 30, 2023, employees from Columbia Landing Apartments entered my home without notifying me or requesting my permission. I was not made aware of this situation until I arrived home. There was a maintenance notification left on the door which stated they entered my home. (See attached).

Two days later on Wednesday November 1, 2023 an employee from Columbia Landing allowed pest control access my home without my consent or knowledge. The last date schedule for pest control was Wednesday, October 25, 2023. On November 1, I spoke with Ms. Paula in the leasing office. I told her that no one should have entered my home without my consent or notifying me in advanced. I explained to Ms. Paula that the agreement between Ms. Thelma and myself was the remaining Wednesdays in October the exterminator would service my residence.

As a tenant, I have a reasonable right of privacy, that is the landlord does not have the right to enter the premises at any time and for any reason. My privacy has been breeched and violated therefore I feel unsafe. While entering my residence without consent my pet was present and she could have run away or been severely injured. The incidents above are not emergencies to enter my residence.

For these reasons stated above I would like to terminate my lease without penalty. At your earliest convenience I would like to address this matter. I can be reached at 240-421-4997, or email tfrizzelle84@gmail.com

Thank you

LaTonya

CRH240008	9441 KINGS GRANT RD	47	T00002545, 9441 Kings Grant Rd – Mouse infestation and alleged opening at front entrance door Two months ago, I started complaining to Vanessa Owen, the property manager at King Woods Housing, about the opening at my front door explaining to her that mice were entering under the front door. I informed her that my family had also witnessedthe mice coming in under my door. They said someone will replace the strip under my door. I called several times and left messages following up on this request. Approximately a month after my initial complaint; I called to follow up and spoke to Vanessa Owen who I informed again about the mice and that they were eating my food in the pantry, leaving droppings everywhere in the home and I needed an exterminator to enter the home to control this matter	Follow Up	11/12/2024

immediately along with fixing the front door where they are entering that still has not been repaired. This was now my third time reporting this to Vanessa Owen.

Now I have a critical mice infestation in my home. The mice are just running out of everywhere, even if you are activelymoving around in the house. The mice have damaged my furniture and clothing. The house has a smell that is not breathable. No matter what you spray or open windows, the home has a permanent odor. The mice have been all over my bed, kids' bed and even in our dresser drawers because there are droppings everywhere. I was constantly throwing away food and clothes. Now my furniture must be thrown out.

I have several medical conditions; including sever asthma and allergies that have worsened because of my living conditions. I cannot live in the house at this point due to my health and have been staying with a relative. I also have been getting sick every time I enter the home. For the last two months, I have had breathing difficulties and uncontrollable sneezing, along with headaches that then caused me to have cold like symptoms and body pains. I know it is because of the conditions in my home because they will go away when I leave the home for few days. I then returned and I'm suddenly back sick again. All this while noticing the foul smell when I enter the home. I later found out that mice urine and droppings can cause health problems and that it was making me sick.

Because my complaints have gone unanswered, and I want to be in my own home; I paid for a cleaning company to come out to the home. They stopped their session when they discovered toomany droppings. They also showed me the damage the mice had done in the home and advised me that we need a restoration company. I must contact someone other than them to fix the problem and that's why me and my daughter are getting sick; especially me with my health conditions.

I then went to the rental office to report the problem in

person to only and discovered the office was closed from 12:30 until 3:30 on December 20th, 2023.

The mice have cut into my furniture, clothing and etc. just from me entering the home on December 20th breathing in mice feces. I have chest pains and have been sneezing nonstop. I havea disability suffering with chronic asthma and a lung condition COPD. I am demanding that management take immediate action to fix this issue now and/or by December 26th, 2023, and find housing for me and my family until this problem has been solved. I am also requesting to be compensated for the replacement of our belongings. I have video and photos of the damage included with this complaint.

All the problems in my home started after a flood around November 28, 2023; due to a “main line stoppage”; per the letterfrom the plumber. A copy of that letter is included with this complaint. After that flood and they replaced the carpet; I started to see bugs all around the home and then the mice started showing up.

Complaint Type:	**Rental Housing Complaint**			Pass	Matthew Bischoff
CRH240009	4950 ORCHARD DR	31	RH23000192, 4950 Orchard Dr. – Alleged sewer backup not properly remediated, front and rear door with gaps, washing machine in disrepair, etc. We reside in the rental property of Kumar Thangs. The address is 4950 Orchard Drive, Ellicott City. We moved in on Sept 1, 2023. Since living here, we have had multiple complaints about the house beginning in October with the washing machine. We told the owner/landlord that it was not draining the clothes. Kumar insisted that the washer was brand new and there should be no issue. Kumar sent a gentleman out and the issue was blown off. November presented issues with the size of the front and rear door. It was determined that the outside doors were in fact too small for the frame, which is why the house was cold and we were able to put fingers thru the gaps. Fast Forward to December 18. Myself and Nicholas woke	Follow Up	02/07/2024

up to standing water in the basement. We called him and he brushed us and the pump should turn on. He said he would send help at 630. He did not show up until after several calls and text which was about 1130 . At this point it had been 8 hours since notification. When Kumar showed up, he left shortly after to get a “motor to pump the water out”. Kumar and his maintenance man returned with a new sump pump and a few fans and pulled the base away from the walls. On the 20, we begin to have problems with the sewage coming up into the shower and the toilet overflowing. Kumar stated that we must have clogged the drain with HAIR and was asking about a plunger. The 21st came and a different worker came and stayed until 9 pm and could not fix the toilet nor the shower. The sump pump was exposed and still full of water also. The night of December 22, Kumar called the county to come out about the drainage problem. On Saturday December 23 Kumar called Roto Rooter to fix the clog. It was fixed but not mold or flood issues. The floor is drying but there is mold so much mold in the basement. He continues to deny the fact. We have a test sample and it shows extreme mold. When we complain about the mold he tells me there was a spray that was used. When the contractor came out today, he was shocked to see the mold growth, and stated that he cant fix anything else because Kumar told him not to. I am a total and permanent disabled combat veteran who has been exposed to burn pit hazards while deployed. I am afraid for my health and the health of my family. I have had to go to the doctor due to wheezing. I have pictures and verification of the mold and everything that has taken place. The complaint is that our landlord is refusing to fix the problem with the mold and the house. Everytime we mention an issue, he doesn’t take it seriously. We want to leave to find another home. We deserve our deposit and we deserve to raise our family in a safe environment.

CRH240011	13980 MONTICELLO DR	9	13980 Monticello Drive – alleged unlicensed rental property I would like this complaint to remain anonymous as to not cause friction with a neighbor. This is a dead-end	Follow Up	02/14/2024

road and has had a significant traffic increase which warranted a check.

13950 Monticello Drive has been a rental property for more than 30 years and does not seem to be permitted.

13980 Monticello Drive is supposed to be a new construction, primary residence and not a rental. It is currently being rented room by room and does not seem to be permitted.

You can contact me with any questions after 10am or by email.

Lee Hewitt:

Our inspectors do not divulge the names of complainant's; however, if someone submits a written public information request they would be able to obtain your name. Please advise if you wish to proceed opening two cases for investigation.

Should you wish to proceed, please be aware that the Howard County Office of Law has advised our office that we must be able to conclusively confirm that that a property is in fact occupied by tenants. We would send a letter to the property owner (not a notice of violation) and we would visit the property to knock on the door in an effort to determine occupancy. If we do conclusively confirm they are rentals and they do not willingly comply, we can then issue a formal Notice of Violation which would ultimately proceed to court for non-compliance. If we cannot conclusively confirm the properties are tenant occupied, we cannot proceed with enforcement upon advice of the County Attorneys. You are correct, there are no current rental licenses for these two properties.

We await your response.

Please proceed.

I assume that you visit prior to sending the letter (to avoid the owner coaching them).

CRH240024	3130 NORMANDY WOODS DR	25	Renaissance Hills Apts.T00006563 T00006178 - 3130 Normandy Woods Dr., #E – rodent infestation I am writing to you about my complex. For six months I've been dealing with mice, sometimes pest people	Follow Up	04/03/2024

show up and sometimes they don't. I have written to my resident manager about the issues that I am having with mice. I asked to terminate my lease for the mice issues and the vicious dog next door. It's been over two months, and I still haven't heard anything from the manager. She keeps telling me she's waiting on corporate to get back with her.

Also, I ask them to put handicap sign back up, because the other broke and no one ever put one back up. She told it would be replaced the following Monday, and as of today it's still not there. I order a handicap sign to put up. I pay my rent on time, and still I don't get no respect on the issues that I've been having.

Can you please tell me were or whom I need to talk to about these issues.

Also, I brought my own handicap sign and put it up on January 3,2024.

Thanks,
Cheryl Smallwood
Renaissance Hills Apartments

Thank you for getting back with me. They have sealed up holes behind the stove. I told them with my last complaint they need to seal behind the washer and dryer, and dish washer. The have sent pest control here several times and we told the pest control company what was going on. The pest control company never comes back when they tell us they are coming back. I am tired of writing about the same complaints.

I started seeing mice the first week into my lease. The week of June 9th is when we start seeing mice. I reported it to the office, and they sent out pest control. I still having the same issues with mice getting in. I see the mice all over the apartment. To pinpoint exactly where they are coming from, I can't.

My address is : 3130 Normandy Woods Dr., #E,

CRH240042	5764 STEVENS FOREST RD	36	Columbia Pointe Apts. T00006542 - 5764 Stevens Forest Rd., Apt 420 – Mice, Roches, Trash Room with Overflowing trash and other maintenance issues I first made the leasing office aware of the issues in my apartment verbally multiple times in in September and October 2023. I gave them written notice in November 4, 2023. and they have not made any attempts to repair anything. I am writing this email to file a complaint against my apartment complex Columbia pointe Apartment and request a inspection of my apartment unit. I moved into my apartment seven months ago in July 2023 and I have been having issues with the apartment and the building since then. Within the first four months of me living here everyone in the front leasing office was replaced. However, I still am not getting any assistance with the issues I am having. Every time I try to speak with the property manager by phone or in person she is never available and every time I send a email it is Blocked. The one time I did speak with the property manager concerning my issues she was very dismissive. The entire building and my unit has a roach and mice problem because of the overflow of trash in the trash room and hallway .I had a exterminator come to my unit three times and spray some solution in the corners of the kitchen and bathroom and that still did not help. I even bought a diffuser with peppermint oil to keep the food smell down and that still doesn't help either.I have mice	Follow Up	12/24/2024

holes in my kitchen and mice chew on the wood under the Formica countertops. The mice leave droppings in the cabinets and on the countertops and dead roaches were in A lower cabinet which is still there that I have never been able to use and they crawl out of the dishwasher and out of the cabinets and on the countertop where I prepare my food which is unsafe and unsanitary because roaches and mice carry viruses than germs. Also, the bathroom tub and tile is peeling and flaking paint which is also unsafe. The floors are an even to the point where they are a tripping hazard. The biggest issue and concern I have which is making me sick is the ventilation. I often have to wear A mask in my apartment because the ventilation is so terrible because of the built up of dirt, dust and rust in the vent ducts. The door to the HVAC unit is always open and will not close and is resting and peeling paint.

I have made these issues aware to managment and they have not made any attempt to fix the issues. I attached screenshots of the emails.

Thank you,

Dawn Young

CRH240058	8583 WHEATFIELD WAY	30	RH18000029 (currently under renewal) – Alleged overcrowding I am the property manager for Wheatfield HOA located in Ellicott City. It has been brought to my attention by surrounding neighbors that 8583 Wheatfield Way has "several" residents residing in this single family home. I have confirmed the home is a rental property and a rental license has been obtained. The HOA has concerns about the amount of people residing there. Day and night trucks come and go waking up the surrounding neighbors. Also, there is a parcel of land that sits next to the home that Howard County maintains, as you will see in the pictures I have attached, that particular parcel is damaged, the grass has deep ruts from their trucks parking on the grass. Also the neighboring property (see attached picture) has difficulty existing their driveway as the trucks block their driveway. Is there anything the County can do about this home, specifically the number of residents that are residing in the home and the parking situation? I really appreciate your time and I am hopeful the County can provide some assistance with this matter. If you need anything further please feel free to contact me via cell- 410-271-5317 or via email Lisa.Williams@HPSmanagement.com. CRH240076	3980 COLLEGE AVE	25	RH14000356 – Numerous alleged maintenance violations, including but not limited to fireplace and electrical wiring I rent a property, 3980 College Ave, in Howard County, near Old Ellicott City. There have been numerous issues with the property, and the landlord has been notified. Some have been repaired. Two issues however have left me very concerned for risk of a fire: 1. A power surge wiped out the electrics in 1/3 of the house. The landlord sent an electrician. The electrician said a wire probably melted in the wall and will be back tomorrow to reroute the wire on the outside of the building. For this reason I believe the house to have dangerous electrics. 2. The fireplace is old and using it once smoked the house. The landlord sent an inspector. The inspector said that using the fireplace would be extremely dangerous and that the landlord is lying to tenants about safety. The landlord has gone silent about this. David Byard 650 713 9772 Prior Anonymous Complaint: 1. A room heater is smashed and has exposed heating elements. 2. The sliding door at the front of the property is not secure. It trivially falls off the rail. 3. The upstairs bathrooms do not have working exhaust fans causing damp to accumulate. 5. One room has a broken electrical outlet with exposed, dangerous wiring. 6. The electrical wiring in the utility room is wrapped around piping and uses dangling extension cords for the appliances. 7. The front yard fencing is falling down and allows local wildlife to enter. 8. The front gate does not have a latch. 9. The lower level smells of damp unless a dehumidifier is run for two hours a day. This suggests improper drainage for a basement conversion on the property	Follow Up	04/09/2024

CRH240104	5502 WATERLOO RD	31	Alleged unlicensed group home per Fire Department Personnel - 5502 Waterloo Rd We received this complaint from the field regarding a possible Board and Care home at 5502 Waterloo Road. _____ Per the request of my officer I would like to take a moment and bring a residence within our first due to your attention. The residence to which I am referring would be 5502 Waterloo Rd. We have been out to the location a few times prior for various medical/psych emergencies. To my understanding it is a group home that is currently housing 8 adults and 3 children. From my previous encounters with the property, I know that some of these residents are physically handicapped (I.e. amputees). From a tactical perspective the property posses many challenges. Within the interior there are pretty significant hoarding conditions as well as what appears to be makeshift walls and free running wires running throughout the house powering a CCTV system which monitors the residents. The exterior of the structure has limited to no access to the Charlie and Delta sides, numerous cars, RVs, and commercial vehicles lining the driveway (limiting access to the Bravo side), as well as multiple detached sheds. Communications has been made aware of the hoarding conditions. Photos of the conditions are attached to this email. With any questions or comments please feel free to reach out to me directly @443-845-0464. Thanks. FF/P Steven Sage Engine Company 9 “B”-shift	Follow Up	02/20/2024

CRH240109	3202 NORMANDY WOODS DR	25	Renaissance Hills Ellicott Apts T00006178 / T00006563 – 3202 Normandy Woods Dr., Apt A – No fire extinguisher, heat/furnace not maintaining heat, are no smoking signs posted in common areas I was advised to get in contact with you by the judge I went to today at the District Court, related to the heater’s apartment we rent is not working properly, and add more issues for safety purposes.	Follow Up	05/24/2024

- Address: 3202 Normandy Woods Dr. Apt A Ellicott City, MD
- Landlord: Renaissance Hills at Ellicott City
- People living in the unit: 4 (2 seniors over 70 years of age)
- Names: David Roa, Bethsabe Roa, Oswaldo Roa, and Mirian de Roa.

Heater:

1- 12/01/2023 we opened a “Service Request” for a Heater.
2- 12/06/2023 we sent an email to the Property Manager and Maintenance Director about the 3 main issues we had at that moment, heater included.
3- 12/07/2023 we sent a second email as an answer for a better resolution.
4- 12/08/2023 we mailed a letter (certificate mail) to the Property Management Office. Same 3 main issues we had at that moment.
5- 12/11/2023-12/12/2023 they replaced the control panel and marked it as a “completed service”. We continue with the same problem. The living room is “72 degrees” but in the bedrooms the temperature is different, about 40 degrees just in the master bedroom.(Attached picture)
6- 12/11/2023 we opened a “Service Request” for the heater.
7- 12/14/2023 a maintenance technician came and made some changes. The situation becomes worse, the living room is >84 degrees with seniors' faces so red when we arrive home from work. There wasn’t a way to change or turn off the heater.
8- 12/15/2023 they sent a technician to clean the ducts. This didn’t change the temperature at home.
9- 12/18/2023 we opened a “Service Request” for the heater.
10- 12/18/2023 we sent an email regarding the same 3 main problems we had at that moment.
11- 12/19-21/023 a technician came to reset the heater, the condition still the same as the beginning.
12- On 01/03/2024 we sent a last email about the heater not working properly. By 01/04/2024 they answered “they will actively work on solutions”
13- On 01/12/2024 we filed and submitted a complaint for rent Escrow.
14- 02/12/2024 We went to the trial to start the rent

escrow process and the judge advised us to get an inspection from the Housing Department of Howard County.
Fire extinguisher:
Since we moved the property manager has asked me to give them all the issues, we wrote all the things that need attention. One point of that list was a “Missing Fire Extinguisher.”
1- 08/04/2023 we open a Service Request called “Fire Extinguisher Missing”. They marked it as completed. The Extinguisher was never in place.
2- 01/03/2024 We sent an email to remember the missing fire extinguisher (attached picture). By 01/04/2024 they answered, “they will actively work on solutions”. Today 02/12/2024 we’re still waiting for.
Smoke:
One important reason why we confidently agreed on the lease term was this is a free smoke apartment, until we moved in.
1- 07/14/2023 we sent an email notifying them about the smell of cigarette smoke. Also, we mentioned we cleaned about 50 butts from our patio.
2- This past week we took a picture (attached) of the butts from our patio. We also talked with our neighbors about this smell, and they are concerned as well. The upstairs neighbors have a 4-month baby. This situation is unacceptable.
Please let me know if you need anything else from us, to follow the next steps for the inspection.
Thank you in advance;
--

CRH240112	10131 WASHINGTON BLVD	50	T00006084 Valencia Motel – 10131 Washington Blvd. – Structural integrity Concerns (take several photos) I am writing to to inform you of potential structural issues with the above property, the Valencia Motel. On two separate occasions myself and another officer responded to unrelated calls for service at the hotel. Body camera footage can be obtained through the records department under cases 240012582 on 2/10/2024 and 240012944 on 2/11/2024. During these calls for service officers noticed the northern most structure had a second floor railing which was not secured. Officers had to notify small children who were swinging on the railing in front of room 213 to stop, as it was not safe. The northern most building second floor landing/walkway, closest to northbound Rt 1/Washington Blvd, also appeared to be leaning on its supports with some pronounced sagging also being present. A street side picture of the building in question has been provided for your review. My intent is to ensure the safety of any guests who may stay at the motel. If you require anything further please let me know. Best regards, PO C. Tye #6386 Howard County Police Southern District - Patrol Division Platoon C - Frank Squad 410-313-3700	Follow Up	03/13/2024

CRH240139	3214 WHEATON WAY	18	Renaissance Hills Apts., T00006563, T00006178 – 3214 Wheaton Way, Apt. B – Rodent infestation (rodents not being excluded) I sent a certified letter to Apartment complex on December 29, 2023. I informed them about mice infestation in writing. I had multiple conversations w maintenance and utility men about this issue but found I would have to go legal route. I also had a water leak on August 2nd that they never came to repair. I had my eacrow case on January 29th where the judge requested mediation. I agreed, and on 31st maintenance came out to perform an inspection. They stopped on February 2nd but I informed them from mediation, I go into the office Tuesday and Fridays. Maintenance came out on Feb 8th and moved fridge, stove and washer and sealed up large cracks. He could not remove the dishwasher bc he did not work for apartment and did not want to be liable for it. I called the apartment complex and they said they would be out later that day to finish the job. No one came on the 12th, or 14th. I was contacted on 15th to verify I would be home. No one came the entire day. I ran into maintenance on the 19th and was told they did not have time that day but will come on 21st. Maintenance came and removed dishwasher which I had caught 4 baby mice under and said they was not a whole until i pointed out their was a whole under sink. He removed other appliances to check for wholes(Did nothing with black mole behind stove). He fix drop tile in closet. I pointed out mole on doorframe where he cut it out and than used a spraycan inside with out ventalation (less than a foot away from me working from home) to paint and called it a day. I saw a mice Saturday morning and you can still hear them inside of ac vents. I have attached some pictures but I have more. My name is Kevin Chew 410-474-7907 SEE ATTACHEMENTS	Follow Up	04/22/2024

I am the Tenant at the address below. I am seeking a rental home inspection. I contacted the landlord about these issues multiple times in the past. The Landlord told me that the house is old and that she is not fixing anything. Please see inspection times, Landlord, Tenant and Summary of maintenance issues below:

Available Inspection Dates - Please let me know what day/time works best for you next week: 2/4, 2/5, 2/6 or 2/7 anytime between 9:00 a.m. - 2:00 p.m?

Summary of Maintenance Issues:
• Front Door and Sliding Glass doors- Gaps and misalignment between door and frame –compromising tenants safety, and resulting in higher than normal utility bills.
• Deadbolt Locks —Do NOT function correctly, resulting in jams and my kids being locked out of my home multiple times for hours.
• Rooms and Floors - Significant sagging in the flooring (drops, dips, and slopes) - in bedrooms, tenant suspects damaged wood under flooring.
• Animals living in the Walls - Tenant is hearing scratching and chewing sounds, squeaks, and other noises inside walls.
• Furnace - Strong odors from the furnace - when heat is turned on.
• Leaks - Under kitchen sink.

CRH240164	3220 WHEATON WAY	18	Renaissance Hills Apts T00006563, T00006178 – 3220 Wheaton Way – Brick Veneer Falling off building A little bit after 12 noon on Sunday, March 10th, I got a call from Howard County Dispatch about a building collapse-related call with Engine 82 (Lt. Hahn) and Battalion Chief 2 (Chief Hummel) on the scene. I responded to the scene and Chief Hummel texted me the attached photos enroute. A large chunk of the brick veneer dislodged from the top peak of the end of the 2½-story garden style rental apartment structure. We determined that the structure was not in danger of imminent collapse and did not post the structure as "unsafe", nor require the removal of any tenants. The danger of falling debris in a collapse zone was cordoned off. Chief Hummel said there were some tenant comments about water leakage, but there really didn't appear to be any indication of it (e.g. water spots or staining). This is being shared here just as an FYI. I spoke with "Mike" the on-scene maintenance person and gave him my card with "Rental Housing Inspections 410-313-1830" written out on the back. I told him that he needed to contact his chain-of-command and that they would need to formulate a more formal mitigation plan as well as a long-term plan and timeline for permanent repairs. I also let him know that someone should reach out to our office first-thing tomorrow morning (Monday March 11th). Please plan to inspect this location first-thing tomorrow morning whether or not they contact you. Let me know if you have any questions. Thanks,	Follow Up	06/17/2024

ignoring any statements regarding them.

Also- two windows in the master bedroom and one in the kitchen are hard to open and won't close all the way and where the window meets the frame is very hot air coming in.

The tub is either spitting out dirty water or its coming out of the drain.

Also there is no fire extingusher (not sure if that matters)- I just have always had one

The place also was unsanitary upon move in with urine and feces on toilets
and there are sticky stains and dog hairs in and under cabinets in the kitchen and on sides of the oven-but I have contacted consumer relations about that

Thank you

Kelly Streit:

This office assumes there was a walk through of the property prior to you renting it on 2/29/24. Were your concerns reported to the property owner in writing at that time? Has anything at all been addressed?
The unit should have been clean an sanitary upon your move-in. After a tenant moves in, the tenant, per code, must keep the unit clean and sanitary. The washer issues would difficult for this office to address per code. If daylight can be seen at the doors, yes, we can address that. We can also address the windows that should open and close with no effort and hold in place with their own hardware. An inspector must witness issues before they can cite them.

We await a response to our questions.

Hi- I walked through the unit but did not open anything up. My lease states it would be cleaned prior

to move in so I suspected it was. Yes all my concerns have been reported in writing.

This office can assist regarding the windows which must easily open and close and hold in place with their own hardware. We can also assist if daylight can be seen around the door area. If the washer is operational, there would be little we can do to assist with that; however, the inspector can take a look.

Yes please open a case for this along with the tub drain spitting out dirty water

Thanks

These are the utilities for the house that are sent out around mid-month (this time) every month. I break it down into how much is owed for each person. You're due for 1/3 of the utilities, and since you just recently moved in, I have also prorated the amounts that are applicable to you. You will see that your portion is a lot less than Celso/Cecilias. Just send me the amount when you can, preferably by the first of the next month.

Sara and Skylar were the last tenants that stayed in the house. That was a typo on my part. Please see name correction on the attached copy.

Let me know if you have any other questions.

I am writing today on behalf of renters Jorge Mendez and his spouse, Roxana Osorio. She is on the phone with me, dictating the letter, which I am translating from Spanish, her native language, to English.

The family wishes to file a complaint about their landlord, Akram Vaziri, for not having a rental license with the Howard County Rental Housing Office in the Department of Licenses, Inspections & Permits.

Here is the family's address, and their contact information. If they are called, it would be best to have a Spanish-language interpreter available.

11484 Frederick Rd.
Ellicott City, Maryland 21042

Jorge Mendez - 410-717-6802
Roxana Osorio - 410-582-7908

Ms. Osorio adds that their apartment has no central air, heating or insulation. There is no heating or cooling in any room except the living room. The bedrooms have no drywall, sheetrock or insulation. The interior walls are merely cement blocks. The apartment is in the basement of the house, and it consistently floods when there is rain of any sort. The family has photos of this situation.

Thank you and best wishes,

Citlali Bacmeister (she/her/hers)

CRH240240	9305 KENBROOKE CT	47	9305 Kenbrooke Court – Alleged unlicensed and overcrowded rental property.	Follow Up	06/18/2024

I'm writing in concern of a house currently being rented in our neighborhood. The address of the house in concern is, 9305 Kenbrooke Court, Laurel MD 20723. There are many concerns with this house which I want to address below.

According to our HOA President, this address currently has zero rental licenses filed with the county. This house has been occupied by multiple families for the past two years.

After contacting a private investigator, I was able to get the contact information of the current homeowner. The name and number of the homeowner is Kafil Patwary and his phone number is 901-768-6700.

Since this house went to foreclosure several years ago, there have been many concerns and issues.

1. There are multiple families renting/living in both the upstairs and the downstairs of the property.

2. There have been no reported rental license for this property since purchasing. The owner has never lived 1 day in the property.

3. There is currently a daycare being run out of the back of the house. There have been no licensees reported for this daycare center being run out of the basement of the house.

4. Multiple times, the police have been called for noise violations and suspicion of drug sale/use in the middle of the night.

5. The yard/house is never maintained. The grass is constantly overgrown, trash in the front and back yard, kids toys everywhere.

6. There have been multiple times when children (ages 3-9) have been left home from school only to walk around the front yard and neighborhood.

I spoke with the "handyman" who has been working

on the property for two weeks on Easter Sunday, March 31st, and he stated that there was a family still living in the basement, however he was trying to get he upstairs ready for another family to move in.

Today, April 1st, I witnessed 3 children and 4 adults move into the upstairs of this property.

The owner of the property has been contacted by our HOA President, however he seems to feel as if rules and laws do not apply to him or our HOA bylaws.

I'm hoping there can be an investigation opened up for the above reasons, along with to make sure the young children living in this house and under these conditions are safe.

Thank you

Rich Porac

I am the mother of DeShauna Berry and the grandma of Naszir Jones. My daughter resides in Columbia Choice Apartments. My daughter's apartment is infested with mice and roaches. She has complained to Christine Allen the manager and her assistant Kyra. The leasing company has sent an exterminator to my daughter's apartment, but it doesn't help because of the infestation. My daughter has spent time cleaning up, laying traps, and patching holes through the apartment. She has caught at least five or more mice per week. Deshauna had to throw away a couch because they lived inside her sofa. They are biting her pets. They eat through the mesh in the back of the refrigerator. DeShauna has allergies and eczema and the mice have caused her skin to blister. There are droppings inside my grandson's and daughter's bed, dresser, stove, food, and tub. There	Follow Up	04/29/2024

are multiple holes in the wall, and the entire apartment has gaps in the floor that allow mice to travel throughout the building. You can hear the mice in the walls. I contacted Senate pest control; they came to my daughter's apartment on Saturday, March 30, 2024. I was going to pay for them to service her apartment. The representative told me not to waste my money! The re[representative from Senate Pest, said that the building was infested. Because of foundation issues throughout her apartment and the building, he told us mice would be a constant issue until the building was brought up to code.

This is the second apartment at Columbia Choice, where my daughter and grandson lived. Christine, the complex manager, moved DeShauna out of her last apartment due to the mice and roaches. She is requesting to be relocated to Stone Haven, where she was a previous tenant, by their sister's property. She moved to Columbia Choice because she was a victim of domestic violence. Due to this issue, DeShauna has used her money to stay in hotels and with friends. Please look carefully at the problems at Columbia Choice and my daughter's apartment. I have reported this issue to management several times, and the extermination is not helping because of the overall conditions of the property. I have included the text messages from Saturday, March 30, 2024, between Christine, Kyra, myself, and Deshauna.

I have included her and her contact information in this email.

Deshauna Berry (443)333-3047 address 5289 Rivendell Lane Apt 5 Columbia Md 21044…Sheria Winstead-Campbell (410)370-7062.

Thank you,

Sheria Winstead-Campbell

property (tenant reports stairs are dangerous). Owner address and contact info provided in complaint.

I am writing to get an inspection on the safety conditions of the home I am renting. I have already contacted the Landlord and they have refused to address the concern. I have slipped and fallen down the stairs in this townhome multiple times as have my sister. My mother fell down the stairs as well last night while holding onto the handrail. It feels like the carpet is not up to code and is a safety hazard that needs to be addressed.

Please advise on how we may proceed with a safety inspection of the home. Thank you.

Friendly Regards,
Pamela Olney
mobile: 4107821055
email: pjolney12@gmail.com

The state database, indicates that the property at 9035 Watchlight Court is owner occupied by the owners Alex Clermont and Chantl Martin. Are you renting the whole house? Are you just renting a sleeping room (exempt from licensing if 1-roomer)? Can you provide the off-premise address and contact information for the property owner if you are renting the entire house?

We await more information before opening a case for an unlicensed rental property.

Pamela Olney:

The property you reside in does not have a rental license. As such, it has not been inspected by this office for issuance of a rental license. It is not legal to charge rent in Howard County Maryland without a rental license. You may file a complaint with the Howard County Office of Consumer Protection regarding rent being charge in an unlicensed property

here:

Hello,

I was not aware that this property does not have a rental license. I am renting the entire property. The property owner, Alex Clermont, can be reached at 9173554453. His email is guards.men0@gmail.com. His off premise address is 1833 Burke St. Washington DC SE 20003.

I have also submitted the complaint form for the unlicensed rental property.

CRH240267	8780 CLOUDLEAP CT	36	Timbers at Long Reach Apts T00006214 – 8780 Cloudleap Ct., Apt. 33 – Alleged bedbug infestation and property maintenance issues My name is Jorge Alberto Fuentes, I currently reside at 8780 Cloudleap Ct. Apt 33 Columbia, MD 21045 located at Timbers at Long Reach. I'm writing to file a complaint and seek your support as my rental company is not responding to my requests for service. The current problems I am having are: 1. Air duct in the bathroom is not working 2. Closet door fell and I have reattached but it is not working properly	Follow Up	08/26/2024

3. The division between the kitchen floor and the carpet is not properly attached and there are exposed nails, I am the father of two kids ages 13 and 2, and I'm afraid my toddler may get hurt as her sock has already gotten caught and torn on these nails (video attached).
4. Air duct vents are filled with dust, and air doesn't get through, I've had to clean them up by hand just so we can get a little air through.

In the past I've also had issues with mice, bedbugs, and roaches which I've had to take care on my own buying different products and applying them on days where my family and I could leave the apartment for 3 hours or more so it could hopefully kill the pests.

I've been a tenant here for 4 years, and I've had issues since the first year. I have to contact the rental office 2 or 3 times a month requesting services and more often than not I have to take care of the issues on my own and out of my own pocket. I'm contacting your office because I have tried to do things directly with them for too long with no results, but I do have to say I'm afraid that they may retaliate against me and my family for contacting you and seeking assistance.

Let me know what the next steps are and what protections me and my family have as we request the services we are rightfully entitled to as stated on our rental agreement and as on-time paying tenants.

Thanks for your help,

Jorge A Fuentes

Jorge A Fuentes:

What date did you last report your issues through the complexes reporting system? What action have they taken if any?

Do you have a current active bedbug infestation?

CRH240279	6035 WILD GINGER CT	35	RH23000133 – Sump pump not functioning allegedly leading to mold conditions Kyle Thrush from Mainstay Property Management is refusing to fix a broken sump pump that is causing airborne mold in the house making my husband and I suffer from mold toxicity. In June of 2023, we emailed with a concern about the sump pump system and a musty smell coming from it and filed a maintenance request for documentation. Kyle gave us a phone call saying the system needed to occasionally be done manually and to eliminate or minimize the smell we should pour bleach down into the sump pump system. We were then manipulated into writing in the maintenance request "Issue Resolved" We asked if we should note that we spoke with the property manager and he said no do not write that. In March of 2024, I sent the landlord a professional opinion from Michael and Son stating the sump pump needs to be replaced and the landlord outright refused for a second time. He sent his technician who walked into the house and manually ran the pump for it to drain. He said the system was working fine. Since then the pump has refilled with dirty standing water. I am concerned for my health and therefore now want to terminate my lease as I have confirmation from a mold specialist that I have been getting sick because of the mold in the air from the broken sump pump my landlord refuses to fix. We have sent photos of our sump pump to express concern to Kyle and he has continued to refuse. I will attach all of the photos and email threads here. CRH240280	9640 HOMESTEAD CT	50	RH15000116, 640 Homestead Court Apt C – Mouse Infestation and washer allegedly not functioning as intended I am writing a complaint about rodent infestation in my unit (Whiskey Bottom Townhomes). Other neighbors have complained about the mice infestation. I have notified my landlord on March 2nd and nothing has happened. My landlord sent out her handyman to seal up holes but the situation is not resolved. We are still having mice in the townhome and it is unhealthy to have these rodents in the house. I have pictures and text messages to show the communication I had with my landlord for the past month. Also, we have had an issue with the washing machine not spinning properly and my landlord sent out her handyman to fix the problem but we are still dealing with the washing machine not working. We have to spend 20 dollars a week at the laundromat to wash our clothes. Please let me know what to do to move forward in this process. CRH240282	5834 BARNWOOD PL	35	RH13000311, 5834 Barnwood Place – Sewer backup 5834 Barnwood Place, Columbia, MD 21044 Barnside Complex I am filing this complaint regarding an incident that occurred on Sunday, 03/31/2024, to request repairs at 5834 Barnwood Place. The issues that need to be addressed are a toilet and tub that kept filling. Upon inspection, they drilled a hole in my oldest daughter's bedroom, but the repairs were not completed that day. The following day, Monday, April 1, 2024, between 4-6 PM, two individuals arrived to start	Follow Up	08/07/2024

repairs and had to purchase additional materials from Home Depot. Upon their return, they found a rag wrapped around the toilet pipes, which the property manager accused me of flushing down the toilet. This led to a heated exchange of words between us.

Despite their attempts to repair the issues, the tub began to fill again the next day, Tuesday, 04/02/2024, and the toilet ran out of water. When I informed the property manager, she insisted that the problems had been fixed and advised me to limit my water usage. As of today, 04/04/2024, the issues persist, and water has begun flooding the bathroom floor, potentially damaging my daughter's belongings in her closet.

We have been instructed not to use water, toilet, or shower until someone comes out on 04/05/2024 between 12-4 PM. The lack of prompt action and failure to engage a contracted plumber from the beginning may lead to further damage to the property. Additionally, I am concerned about the potential health implications, including mold buildup, particularly for my daughter who suffers from asthma.

I can be reached at your earliest convenience to address this urgent matter properly. Thank you for your attention to this issue.
Sincerely,

Ashley Parker

CRH240308	3010 OAK GREEN CT	18	Ellicott Grove Apts T00006164 - 3010 OAK GREEN COURT APT E – Rodent infestation, squirrel in attic and vents (must exclude), smoke alarms allegedly not working (check age), doors not secure (on Kurt's NOV) 1. Someone on the lower level in Apt A is smoking in their apartment in the building. The smoke is coming up into your apartment seemingly through the floor boards and/ or HVAC system under your floors. The building per our lease is a non-smoking building and smoking is not permitted, yet the person continues to smoke. You have complained to management of all levels including directly to the property management main office via email and calls to no avail and without relief. ALL of my clothes smell like smoke. 2. The fire alarms seem not to work consistently. The neighbor below me was burning food so that it brought smoke into my place and I called the fire department. When asked by the fire department, the neighbor admitted to burning food while cooking but not knowing the smoke was that bad because her fire alarm never went off. This seems like it's a potential fire hazard and makes me concerned.	Follow Up	08/26/2024

3. There has been a mice infestation in my apartment. I have witnessed 4 mice. No one came out to do anything. I called and called regarding extermination and they claimed they forgot to place me on the list. This is disgusting! I have purchased so many products out of my own pocket for them to do absolutely nothing.

4. The front doors of the buildings are supposed to have access codes; however, people can just walk in the building because the doors are unlocked.

5. Since last year I have been having issues with squirrels and other pests in my attic that are tearing up the vents. They came out one time but now this is still on going and no one has done anything. I have multiple recordings of the noise.

With appreciation,

Ash Lee

Ash Lee:

Our office cannot assist you with the issue of the complex being “smoke free” and a tenant near you is smoking. You may discuss this with he Office of Consumer Protection (410-313-6420) if it is listed in your lease. The property has been issued a Notice of Violation by our office for the entry doors. That matter may proceed to a civil citation. What date was the mouse infestation and squirrel issue reported to management through their reporting system and what action did they take, if any? What date was your smoke alarm concern reported to management and what action did they take, if any?

Please provide this office with your contact phone number as well as answers to the aforementioned questions.

RENTAL HOUSING INSPECTIONS

I can be reached at 443-766-0883.

Thank you for the phone number; however, we need a response to the questions.

The mouse infestation started 3/28/24. I went to the leasing office 3/29/24. The squirrel issue reported to management through their reporting system in September 2023. The only action that took place was that they called extermination. It kept happening daily so i reported it again. THey called wild life. Nothing else was done. The smoke alarm issue happened 2 times. The first time was I believe February 2024 and the last smoke alarm incident was I believe March 2024. Both times the fire department and the police came.

CRH240312	6784 DUCKETTS LN	37	RH17000558 – 6784 Ducketts Lane – Back yard allegedly has trash and debris (must be in approved containers) Allegedly attracting rodents Hello , can you please call at 240-708-3474 because this situation is infestation . I've done everything I can to treat the problem. The landlord doesn't maintain property and lives out of state . The current tenants leave the backyard with trash and rotten food. Also the smoking inside the house smell gets in my basement . The complaint is against 6784 ducketts lane , there is currently a few tenants there that living condition needs to be address. Ive contacted the Hoa (village management) and the landlord himself through text and phone calls. I spoke with them late last year , nothing has been done. I talk to few neighbors and they been seeing rodents / roaches too. I also was getting a heavy cigarette smell in the basement due to the tenant smoking constantly in his basement which affects me. We have some family members with asthma. This issue has been addressed by landlord and HOA. I have several sources that confirm their place is infested with rodents / roaches. They had a lady move out from there and the movers was there and they said this place is infested. I overheard the guy explaining they can't do this job	Follow Up	04/24/2024

because of the living condition. I was outside and I asked him he said it’s infested . Also the hoa did ask for them to spray and they got a company to come out but the man In the basement refused services. I talk to the exterminator company after and he said it’s one of the worse conditions and this needs on going treatment . Also of the granddaughter from the neighbor family was over and wanted to charger her phone in our house because “ it’s to dirty and didn’t want to go inside the house “ . The landlord live in New York / out state and aren’t able to maintain property/ check up . I’ve paid for an exterminator company and it’s not doing anything . My resources are limited to as much I can do I feel stuck at the moment

Maxwell Bell:

This record has been marked for interior inspection in order to renew the rental license. We have right of entry at that time. This office can also contact the owner of record and advise them and their local agent of an "anonymous" allegation regarding their property asking them to investigate proactively. Are there rodents and trash/debris visible on the exterior of the property?

The complaint regarding rodents and any infestation must come from the tenants within. If you have a good rapport with the tenants and can encourage them to file a complaint with our office (instructions attached), we would be able to conduct an investigation. We simply cannot open a complaint when neighbors suspect, or hearsay indicates there is an infestation as entering a unit based upon that could be perceived as harassment by our office.

I am sending this email because of an unhealthy and excessive trash situation located at the following address:

4622 Westhill Rd
Ellicott City, MD 21043

The property is a rental property and owned by:

Gene & Catherine Aefsky
6202 Ironwood Way
Columbia, MD 21045

The household trash is consistently in the back yard and blowing into the adjacent properties. It is noted that weeks ago a contractor dumpster was delivered to the property for unknown reasons. The tenants have been using the dumpster for household trash and have not been utilizing the Monday recycling pickup or the Wednesday trash pickup since the dumpster arrived. This type of dumpster is not intended for this.

This is creating an unhealthy situation for the neighborhood and is threatening the safety and security of the adjacent properties. There already has been evidence of wildlife going through the trash and the trash is producing a smell.

I have included pictures with this email to show the unacceptable behavior of the tenants.

I am a longtime Howard county resident and a tax payer and this is unacceptable on all levels. I don’t think this is what the tax dollars are intended for. I

am hoping this is taken serious and not overlooked.

Please provide feedback and a course of action that is going to be followed to correct this unhealthy situation in Howard county.

Thank you

It is also noted that the unlicensed gray Volkswagen backed into the driveway has not moved in over three years. I am beyond frustrated with this and have had enough. This is not what my tax dollars are intended for. Please provide feed back and a course of action that is going to be followed this time to correct this situation. It is apparent that case CRH240313 needs to be reopened or a new case started. I will be following up for feedback. Thank you Sam Schmidt I am sending this email because of an unhealthy and	Follow Up	10/30/2025

excessive trash situation located at the following address:

4622 Westhill Rd
Ellicott City, MD 21043

The property is a rental property and owned by:

Gene & Catherine Aefsky
6202 Ironwood Way
Columbia, MD 21045

The household trash is consistently in the back yard and blowing into the adjacent properties. It is noted that weeks ago a contractor dumpster was delivered to the property for unknown reasons. The tenants have been using the dumpster for household trash and have not been utilizing the Monday recycling pickup or the Wednesday trash pickup since the dumpster arrived. This type of dumpster is not intended for this.

This is creating an unhealthy situation for the neighborhood and is threatening the safety and security of the adjacent properties. There already has been evidence of wildlife going through the trash and the trash is producing a smell.

I have included pictures with this email to show the unacceptable behavior of the tenants.

I am a longtime Howard county resident and a tax payer and this is unacceptable on all levels. I don't think this is what the tax dollars are intended for. I am hoping this is taken serious and not overlooked.

Please provide feedback and a course of action that is going to be followed to correct this unhealthy situation in Howard county.

Thank you

Sam Schmidt

CRH240317	7532 MONARCH MILLS WAY	42	Monarch Mills Apts, (RH11000031 Main) - 7532 Monarch Mills Way, Apt. 107 – Rodent Infestation Hello, my name is Shante Jenifer. I live in Monarch Mills apartments 7532 monarch mills way 107 Columbia, Md 21046. I'm writing a complaint due to issues I've been having for many months now . I have a special needs 3 year old, and I've been telling my rental office about a rodent issue. It's so far gone to the point the rodents don't care if I see them. I was a mouse in my son's crib recently, and before I caught my son trying to play with it. My son is special needs, so he didn't know it will harm him, he's also nonverbal so he's unable to communicate to me if he has an issue. Mice carry many diseases, and are life threatening to humans . I read in the public housing authority site and it says if problems are not handled in a timely manner , the household is is able to to request a transfer. I need guidance on how to go about it because I can already tell from even mentioning a transfer they will try everything which is nothing to keep it from happening. Below is a screenshot of what's in the pha's site. Please help me, I'm afraid for my son. He already has health problems . My number is 202-696-6927 shante Jenifer 6532 monarch mills way 107 Columbia Md 21046 thank you in advance . Sent from Yahoo Mail for iPhone	Follow Up	05/14/2024

CRH240343	8709 HAYSHED LN	36	T00002156, 8709 Hayshed Lane #14 – Unresolved active water leak at kitchen sink leading to mold conditions Rental Housing Inspections: I am currently a tenant residing at LongReach House Condominiums, Columbia, MD. I have been a resident as of March 16, 2024 and currently, experiencing my unit flooding. On April 4th, in the kitchen sink, I noticed/heard water coming down under the sink. My first notice maintenance request from April 4, 2024 maintenance email and telephone request (see attached emails documentation and photos). On April 9th maintenance came for the kitchen sink leak and they replaced the kitchen garbage disposal; and within hours the unit was flooded. I am submitting this complaint and requesting a rental housing property management inspection, there is a strong wet-odor throughout my rental unit; with the fear of mold. The last response I have received from S & S Property Solutions, LLC, was April 15th. Landlord: S & S Property Solutions, LLC/ D. Mohammad Mansoori

Mohammad Mansoori:

Your email has been forwarded to our office. Attached are instructions for filing a complaint with this office. We need the following information before we can open a case:

1. We must know the date that you reported the AC, rodent and roach issues to the owner/management through their reporting system and what action they took, if any?
2. Where are you seeing the mice?
3. Is the AC unit working at all?
4. We must have your contact phone number.

RENTAL HOUSING INSPECTIONS

1. Ac has been reported on 04/06/2024 and since then we have made several requests after that date.

2. The mice have been seen all over the place inside the apartment specifically inside the kitchen

3. They have installed the heater but there is no AC at all inside the unit and the whole unit is not turning on right now! and there is a high temperature inside the house that is really unbearable heat.

4. The Contact number is (240) 918-2300

CRH240354	8752 TOWN AND COUNTRY BLVD	17	Howard Crossing Apts., T00006079, 6080 - 752 Town and Country BLVD Apt. F. – Roach infestation I am having a roach infestation in my apartment and would like to get this settled as quickly as possible and possibly moved out with compensation due to potential infestation in my furniture. I moved into Howard Crossing Apartments on March 20, 2024 and from the start have had a very unpleasant experience. I see around 5 to 10 roaches a day and they appear all over the place which includes my kitchen, living room, bathroom, office space, dining room area and bedroom. Even after a few visits from pest control they still come in droves and scatter around every area and now have reached my bathtub, Kitchen counters, underneath the toilet seat, and even my own bed. They even have crawled over me at night till the morning and fear they may have bitten my leg and caused irritation to my skin. I have notified the office/pest control first on April 3, 2024 and several occasions and they have come over on April 9, 2024 for a spray, April 23, 2024 for another Spray and Pest Glue Trap, and April 30, 2024 for a drill and dust. The pest control is from a complex personnel. After each time the roaches still manage to thrive even further beyond normally. Please see attachment for official documents. I also have included photo and video evidence of the roaches as well.I have been in the Air Force almost 8 years now and been stationed in 2nd world countries and I never experienced a place that I lived in that was so infested. CRH240360	5604 APRIL JOURNEY RD	30	RH16000826 – 5604 April Journey – Inspect unit for unknown fire (no posing notice received)/ make sure smoke alarms were replaced	Follow Up	05/07/2024

My name is Jauneline Hardy-Yancey. I am at tenant at 5604 April Journey, Columbia MD 21044 (private rental).

On March 21,2024, there was a fire in our home caused by what we have now come to confirm as a faulty electric stove.

At the time of the fire, the fire department & Fire Marshal was at our home and upon their assessment, subsequently deemed the home uninhabitable or 'posted'. My family and I were advised to notify the landlord & provided clear instructions that we were not to return to the home until the repairs were completed & a post inspection was conducted.

On Tuesday, April 30th, I was notified by my landlord that the repairs were complete and we were able to return. Upon inquiring if the landlord(s) had contacted the Fire Marshal/Fire Inspector, she indicated the issue had been resolved.

Based on the nature of the fire & concerns expressed by my husband- I independently reached out to the Howard County Fire Marshal & Inspectors Office to confirm there were no concerns with my family & I returning AND that the home was no longer classified as posted. Subsequently,I received conflicting information to include that there was no evidence the landlord's had ever applied for permits to complete the repairs (if applicable) and that no post inspection had occurred.

At this time, I am seeking your assistance in clarifying what if anything needs to occur to ensure my family & I are in compliance in returning to the home, while also ensuring the repairs have been completed to code considering the nature of the original fire.

Thank you in advance for your assistance,

Jauneline Hardy-Yancey

Good morning,

Per your complaint, our inspectors would only inspect the front door gap and the carpet condition. The exterior window cleanliness does not fall under property maintenance.

In response to your statement pertaining to a carpet cleaning reimbursement, that falls under the purview of Office of Consumer Protection, (410) 313-6420.

Sincerely,

RENTAL HOUSING INSPECTIONS 410-313-1830

Good morning,

I first reported end of October-beginning of November 2023. The toilet was replaced the middle of November but still rocks.

I followed up every month and no relief. In March I filed for rent escrow. They didn't show up to court twice.

Just since the end of April have they done any work like the dryer vent and last Friday sent exterminator in.

Thank you,
Kathleen O'Connell

CRH240435	7104 DUCKETTS LN	37	The Village at Elkridge Apts. T00006083 – 7104 Ducketts Ln, Apt. 102 – Unrepaired leaks and ant infestation I received a letter dated 12/6/23 from my rental office a day after my visit to lay a complain and ask some questions, the front desk girl refused me to see the manager. The content of the letter say I should no longer visit to the office that hence fort we talk through emails. In compliance to the letter I sent the Manager three different repair request emails and reminders non was responded.(1)Lost of heat in two of my rooms 12/13/23 with a follow up reminder two weeks later before the repair team came and could not fix the heat their supervisor showed up four days later with a space heater that the fault is hard to fix. The space heater is costing me more in BGE bills from BGE statistics of march 14th- April 11th similar homes use 655 KWH while I used 1.396 KWH. (2) Request of 3/2/24 for kitchen sink garbage blockage with a reminder on 3/8/24 the repair supervisor showed up on 3/13/24 after I have used an outside vendor to fix the kitchen sink. (3) I sent a repair request on 4/22/24 with a reminder 5/6/24 for water leaks in both bathrooms and ants crawing all over in my apt. As I write this email the water leaks is still not fixed.expected to cost me more money in water bills, I had to buy two cans of raid ant/ roach spray to eliminate the ants. My gain after all these neglects and denial of appointment response to enable me discuss and sign my lease which was due on 4/26/24 was increment of my rent with $400.00 as a month -to month tenant. I would like to make the following complaint.
I have made my landlord aware of the issues in writing and have waited reasonable time:

- the microwave seal is broken
-there is very loose railing surrounding this and a missing brick on the front step -the weather stripping on the door in the kitchen and basement attached to the outside has light shinning through (the basement weather stripping wasn't installed properly and fell off)
-two windows have screens that do not fit the window so they cannot be opened to air anything out etc
-
-and most importantly there is nails sticking out/ up throughout the house from the carpet -and there’s an area lifting where the carpet and kitchen tiles connect

Thank you

Kelly StreitLicensed Graduate Professional CounselorBrainspotting and EMDRIA Trained EMDR TherapistPronouns: she/her

Kelly Streit:

Is the microwave built-in? If it is not, we are not able to address this if it is a countertop microwave. What date were your other issues reported to the owner/management through their reporting system and did you do so in writing? What action, if any, did they take. Missing weather stripping is difficult for us to cite under the code. Doors have to be installed in their frames and be weather tight (i.e. able to prevent wind, rain or other elements from entering the structure). If the door preventing that, we would not be able to cite it.

RENTAL HOUSING INSPECTIONS

The microwave was built in.
The weather stripping was reported in March
The railing was reported 2/29
The screens I was told they would not fix
The nails was reported 3 weeks ago and they did not respond to me on this.

Everything was reported in writing and I can forward emails where I reported it if helpful

Thank you

Kelly Streit:

Is the microwave built-in? If it is not, we are not able to address this if it is a countertop microwave. What date were your other issues reported to the owner/management through their reporting system and did you do so in writing? What action, if any, did they take. Missing weather stripping is difficult for us to cite under the code. Doors have to be installed in their frames and be weather tight (i.e. able to prevent wind, rain or other elements from entering the structure). If the door preventing that, we would not be able to cite it.

RENTAL HOUSING INSPECTIONS

The microwave was built in.
The weather stripping was reported in March
The railing was reported 2/29
The screens I was told they would not fix
The nails was reported 3 weeks ago and they did not respond to me on this.

Everything was reported in writing and I can forward emails where I reported it if helpful

Thank you

CRH240485	4025 FRAGILE SAIL WAY	24	T00001591 4025 Fragile Sail Way – No HVAC and other maintenance issues Thank you yes I have made other request but wasn't in writing. For example, the front door lock wasn't working properly and had to replace it myself. The kitchen Ceiling light wasn't working. I told him about it during one of his visits, but he never did anything so place it myself. He was also supposed to replace the exterior light by the garage door. Since I moved in two years and nine months ago, I can't see anything at night. 90% of outlets in the house does not work properly when you plug anything in it falls out. I can't even open the windows because none of them has any screens and a few just fell right back down. The house seem like it hasn't been painted in 15 years, It's really bad. The master bath faucet does not work properly and none of the bathrooms has any sink stoppers. Also, the water heater he has for such a large house. Is too small. Cloyd Walker Home Improvement Expert Walker Enterprise, LLC 410-746-9332 Walker.enterp@gmail.com www.walker-enterprise.com We appreciate your business. Thank you for the referrals and 5-star reviews! Good Morning, Thank you for reaching out. A complaint can be opened to address the AC and other property maintenance issues, however to address them they	Follow Up	12/09/2024

must all be listed in your email.

Have you made the owner aware of the other property maintenance issues aside from the AC?

Rental Housing
Howard County Inspections

Hello my name is Cloyd Walker.
I live at 4025 Fragile Sail Way.
I am having a lot of issues with my landlord. The AC busted for almost 2 weeks now and can't seem to get to fix it. I have my mom who lives in the house she's 79 years old, as well as my immediate family.

CRH240486	8866 TOWN AND COUNTRY BLVD	17	Howard Crossing Apts. T00006079, 80 - 8866 Town And Country Blvd, Apt D – Roach infestation	Follow Up	05/23/2025

I live in a Howard County apartment and I've been here for 3 years. A few months ago I started noticing roaches here and there in my kitchen. I put out traps and things and it seemed to help. However, there reached a point where the traps were not working and there were so many and I started seeing them in the bathroom as well. I contacted the leasing company and they would have someone come to treat. They would do this every week or so but the roaches would always return. They even came once last month after sending an angry email about the situation to do a more "extensive" treatment but they still come back every time. I even live on the second floor. I'm not sure if other apartments in my building are having the same issue, but I assume so. It has become such a stressor and hassle on my life and frankly it's embarrassing to still have this problem. Is there anything more I can do? Do I have any legal standing, or is it just going to be put all on me as my fault? Moving isn't an option in this case.

Andrew Wolff

Good Morning,

Thank you for reaching out. If you have given management notice of this issue and allowed ample time for them to correct things with no success, than a complaint can be opened and we can send out one of our inspectors. To do so we will need more information including your phone number, full address and name of the complex you live at.

Rental Housing
Howard County Government

Thank you for getting back to me.
My phone number is 724-910-9543.
My address is 8866 Town And Country Blvd, Apt D, Ellicott City, MD 21043.
The complex is Howard Crossing.

CRH240493	9091 OLD SCAGGSVILLE RD	47	9091 0ld Scaggsville Rd. – Unlicensed rental property with water leak leading to mold issues I am writing to bring to your attention and officially report the unacceptable living conditions my landlord at 9091 Old Scaggsville Road Laurel has subjected me to. Despite paying rent (as at when due) I have been living in a basement apartment with a damp/moist floor with water seepage issues, resulting in mold and mildew covering all my belongings in the apartment When I informed my landlord, instead of addressing the issue, she subjected me to retaliatory eviction (by askeing me to vacate the premises). This is particularly concerning as I was discharged from the hospital just yesterday afternoon after a four-day stay, during which I was treated for health issues related to these conditions. I have attached photos and video evidence to support my claim. I kindly request your assistance in this urgent matter. Thank you for your prompt assistance. Sincerely, Olalekan Shobowale	Follow Up	07/02/2024

Complaint Type:	Rental Housing Complaint			Pass	Holley Robbins
CRH240505	8152 WASHINGTON BLVD	43	Mission Place Apts, RH10000813 – 8152 Washington Blvd., Apt. 559 – Unrepaired water damage and leaks I have had ongoing issues with my ceiling leaking since 2021 in my unit within Mission Place Apartments. I have requested maintenance on this issue several times over the years, and each time I request that the issue is fixed, Mission Place provides “patch work” solutions that do not actually resolve the issue, thus leading to subsequent leaks in the roof at the same two locations. I have given them ample times (and years) to rectify the issues - however, as of 2024 this issue has not been resolved effectively and thus I am submitting a complaint officially with the county.	Follow Up	07/31/2024

My issues are: 1) the inconvenience of having my ceiling leaking when it rains, 2) the potential biohazard issue - given that it is unknown what toxic chemicals or substances from the building construction that the water is mixing with as it leaks into my apartment, and 3) the indifferent responses that I have received from the Property and Property Manager (if/when they decide to respond to my complaints). This has been an incredibly traumatizing experience and quite frankly, not an experience that I would think that the state of Maryland or Howard County would want its tenants to experience. Not to mention that there are most likely structural defects on the roof/ceiling - which is causing the ceiling to leak in the same two locations, in addition to the potentially biohazardous material permeating - which is compromising my health and safety. There are visible cracks and water damage that you can see with the naked eye from the two locations in which the roof is leaking. As I mentioned previously, this has been a quite traumatizing experience and causes me to fear for my safety.

This is completely unacceptable and given that the same issue has been recurring since 2021, I am truly at my wits end. I am requesting that the leaks in my ceiling are completely fixed and not happen again - while ensuring that all of the repairs are up to code (both inside the unit and on the roof). At minimum, I have the right to feel safe and secure in the dwelling that I am paying to occupy. I would sincerely appreciate if a representative from the county could oversee the repairs to ensure they are actually repaired and up to code.

Sincerely,

India Hall

CRH240506	10566 JASON LN	29	10566 Jason Lane, T00008838 – Unresolved interior leak on interior of property and inadequate repair of missing shingles on the exterior For over a year now, there has been leaking into my bedroom from the ceiling/roof everytime it rains causing a hole in the ceiling. When I first noticed the problem, I promptly submitted a ticket for maintenance with my property management company, Real Property Management Metro (RPM), through their tenant portal. I provided pictures of the internal damage and they within a week had a technician come out to take a look inside the house (my bedroom where the leaking was occuring) and to patch up the roof. At that time, the tech patched the roof but did not do any repairs internally to address the hole and presumed water that may be collected in the ceiling, or advise regarding the damages done to my property inside the home, a storage bench in the area of the leaking. A few months later during a heavy rain storm, there was more leaking in the same site and also leaking from a new area near the hole where the initial leaking occurred. I reported it through the tenant portal and texted RPM. They were prompt to advise someone would take care of it but there wasn't any follow up beyond a message in the tenant portal. A few months later someone did come out and do more patching on the roof after I complained again during an in-home inspection, but still no repairs to the interior of the home. On 9/24/23, during another heavy rain storm, drywall	Follow Up	09/09/2024

began hanging down from the second point of the leaking and I was now placing two trash cans to collect the water. I created a new maintenance ticket and attached pictures of the damage. I was advised someone would come out. No one came out and yet in the tenant portal, it still reads 'Assigned to a Technician". Again on 12/31/23, more leaking occurred and I again contacted RPM. Understanding that RPM may have been closed over the holidays, I waited a few more days until another rainstorm occurred on 01/10/24, adding another update to the tenant portal to ensure they were seeing that the leaking hadn't slowed and was still occurring. Since then I have received text messages here and there that a technician would be coming out but no one has come and if they have, the damages are still there internally and the patching still allows ample rainwater to leak into my bedroom.

To date, there have been at least 5 different in-home inspections performed by RPM to ensure I am properly maintaining their property but 0 work done to ensure my family is protected from the moisture and mold likely living in our walls. The property manager, Nicole. who has come by is well aware that I have a child who is asthmatic.

This is a brief summary of the incidents that have occurred here on 10566 Jason Lane, Columbia, MD 21044.

Thank you for your attention to this matter.

CRH240533	10350 GLOBE DR	24	RH23000553, 10350 Globe Dr – Numerous maintenance issues not resolved/repaired by property owner Below is a list of maintenance and / or repair items I have asked my landlord to address. He has either unsuccessfully tried to correct them, said he would get to them eventually, or has dismissed my concerns completely. 1. The basement floods during heavy rain. The landlord acknowledges that the stairwell drain does not discharge anywhere but is simply a hole into the ground where, I assume, the hope is the water will percolate into the ground before coming into the house. The stairwell drain, and the sump pump are not sufficient. I am concerned about moisture behind the drywall and under the flooring. I have been here 6 months and the basement consistently floods during rain events. In my experience, most of the time a basement floods and saturates the drywall, the drywall should be removed and replaced. 2. The post and beam at the rear of the carport	Follow Up	09/06/2024

have been compromised and are out of level. The left rear corner has already dropped 3 inches.
3. I have had several issues with the electrical system. That, coupled with a failed attempt by the landlord to repair the dishwasher, which included electrical work, has me concerned about the safety of the aluminum wiring. The dishwasher is still not working, I believe it is an electrical issue.
4. The shower diverter is not functioning properly causing the tub to fill up when the shower is being used.
5. The microwave is still not working after an attempted repair by the landlord.
6. The gutters need to be cleaned.
7. The basement windows need screens and several of the windows don't function properly. It is difficult to dry out the basement when the windows don't function.

I believe these are all general maintenance items that should be addressed by the landlord.
Please let me know if the property can be inspected based on these issues.

Thank you.

Sincerely,
Nick Liparini

CRH240535	7352 EDEN BROOK DR	42	The Madison at Eden Brook Apts, T00006550 - 7352 Eden Brook Drive Apt 817 – Rodent infestation / Not Excluding	Follow Up	10/30/2024

Apartment complex: THE MADISON AT EDEN BROOK
Name: Kayla Hill
Phone Number: 3013795373

Good afternoon, I'm contacting you regarding my attempt to file a health complaint against my apartment complex listed above.

I moved in January 18 , 2024 and ever since February 23, 2024 have been haven't a major pest issue. Since the first occurrence I have notified my apartment complex verbally and via email multiple times. My apartment complex has had pest control (Orkin) come to unit; thus the most he did was look around and set traps (which I had already personally did).

With the help from Orkin nothing still has progressed. Since the first sighting I have seen more of the rodents and all around my unit (laundry room, storage closet, pantry, and I also opened my bottom cabinet one day to see a tiny mouse dead laying in one of my bowls.

There are cracks in the walls in which orkin advised my maintenance team to seal and they yet to do so. Orkin also stated that the are prob living in my walls.

I have asked my landlord if I could just change unit a due to the pest issue. I have been advised that I have to wait months (which I have already been dealing with this since February) until a possible unit is available and even then a new unit isn't guaranteed based on unit availability

Below provided is documentation of holes in my unit where I have witnessed mice in and out , a mice I happen to catch , poop droppings in my storage closet, and emails via me and rental property

Thank you

CRH240548	8906 TOWN AND COUNTRY BLVD	17	Howard Crossing T000079,80 - 8906 Town & Country Blvd., APT D – Allegedly HVAC/furnace until not in clean and sanitary condition. Filters not routinely changed. Find out when last serviced. I am writing to file a formal complaint regarding the lack of proper maintenance to my furnace and HVAC system at (8906 Town& Country Blvd. Ellicott City, Md 21043). This issue has been an ongoing problem that I have repeatedly tried to resolve, but maintenance staff have repeatedly failed to follow through. The furnace and air ducts in my unit are in desperate need of a thorough cleaning. The buildup of dust and debris is causing poor air quality and putting my health at risk. Additionally, the black soot coming from the vents has destroyed my carpet, which I have had to clean and pay for out-of-pocket twice. I have attached several photographs that document the concerning condition of the HVAC system and the damage to my carpet. Over the past several years, I have submitted over 10 requests for this work to be done. Maintenance staff have promised to address it, but have repeatedly failed to show up on the scheduled dates. Worse, they have even gone so far as to falsely claim the work was completed, when in reality the ducts remain filthy when I check. I am extremely frustrated by this unacceptable lack of follow-through and outright dishonesty from their maintenance team. This is completely unacceptable and is negatively impacting my living conditions and wellbeing. I am requesting that the health department be allowed to conduct a full inspection of my unit as soon as possible, and that the necessary cleaning and maintenance of the furnace and air ducts be completed promptly thereafter. I would like to be present for the health inspection, as I no longer trust the maintenance staff to handle this properly on their	Follow Up	08/05/2024

own.

Thank you for your prompt attention to this serious issue. I look forward to a resolution that addresses this problem in a satisfactory manner.

Sincerely,
Audra Feldman
8906 Town & Country Blvd. Ellicott,Md 21043, APT D
410-684-9375

Audra Feldman:

An inspector will contact management on your behalf regarding this matter.

Your furnace filter should be changed at least every 6 months. Is management doing that? The photo of the filter is quite dirty.

Cleaning the vents of the cold air return is part of routine cleaning and should be cleaned by the tenant. Under the rental housing property maintenance code, we are not able to compel an owner to conduct air quality testing or perform air duct cleaning. We can compel them to service a non-working HVAC Unit and ensure that filters are changed on a regular basis.

Follow-up on Furnace and Soot Issues at

Thank you for your previous correspondence regarding the issues with the furnace and soot at my rental property. I appreciate the health department getting involved in addressing this ongoing problem with property management.

I wanted to provide you with an update. Even after I thoroughly cleaned the cold air return vents as recommended, the soot issue persists. This indicates there is likely a more serious underlying problem with the furnace that needs professional diagnosis and repair.

Per your previous message, I understand the health department can compel the property owner to service

a non-working HVAC unit and ensure the filters are changed regularly. However, the soot continuing to come through suggests the furnace itself may need more extensive repairs or replacement.

I am frustrated that the property manager has failed to properly maintain the furnace and address this issue, despite my repeated attempts to get them to take action. I am worried about the potential health impacts of the soot, as well as the damage it is causing to my belongings

CRH240640	9565 SYLVAN STILL RD	47	The Seasons Apts., T00006543 – Alleged defective outlet in kitchen not allowing use of appliances / alleged corroded controls per tenant My name is Evan Davis and I live at 9565 Sylvan Rd Apt A Laurel, MD 20723 Which is a part of the Seasons apartment complex. About a month ago, the outlet in my kitchen that controls my stove and my dishwasher went out. I Put in a ticket the same day with the emergency line to have them come out because I lost use of my stove. I have spoken to them multiple times in person and I communicated via a survey with them that this has been going on for about a month and there has been no response. I finally grew tired of not having use of my appliances, and I called a local electric company to take a look. After having them examine my space, it was determined that the panel that controls the outlet is corroded over and Is an immediate fire hazard. I have been living in an apartment that is a fire hazard for almost a month now. The company explained to me that it is not safe for me to be here because it could literally start a fire at any point. I am beyond frustrated and terrified at the thought that my home is not safe for me. Can you please send someone to have this inspected? Thank you, Evan Davis 4436998954	Follow Up	08/16/2024

CRH240644	6525 QUIET HOURS	36	The Preserve at Cradlerock Apts, T00006544 - 6525 Quiet Hours, T1 – Raw Sewerage Backup On Friday, 6/21/24 my apartment building, Preserve at Cradlerock, had a sewage backup resulting in both toilets and tubs filling and overflowing with sewage. This sewage traveled out of the bathroom and into the carpets. It traveled through the carpeting to the front of the house. There is still sewage in the carpet and on the bathroom floor. The complex has done nothing to even assist with cleaning. They intend to replace carpeting tomorrow morning without cleaning or sanitizing. This is a health hazard and one cannot be expected to live in these conditions for nearly a week. Please assist. Thank you so much.	Follow Up	07/09/2024

CRH240645	5764 STEVENS FOREST RD	36	Columbia Pointe Apts, T00006542 - 5764 Stevens Forest Rd Apt 108 – Unresolved leak behind washing machine and kitchen sink (tenant believes it to be raw sewerage) I am writing to formally lodge a complaint regarding severe and ongoing health hazards in my apartment located at 5764 Stevens Forest rd Apt 108. For a little over a week, raw sewage has been continuously coming out of the wall behind my washing machine and the kitchen sink. This situation has created an unbearable and hazardous living environment. The scent of raw sewage is sickening and overwhelming, making it difficult to remain in the apartment. Furthermore, this unsanitary condition has attracted an infestation of gnats and flies, which exacerbates the living conditions and poses additional health risks. Despite multiple service requests to the maintenance department of my building, the issue remains unresolved. On several occasions, my service tickets have been closed without any maintenance personnel visiting my apartment. When I finally received service the day after submitting a request, the flooding issue recurred later the same day. This inconsistent and delayed response is unacceptable given the severity of the problem.	Initial Investigation	07/01/2024

			Additionally, conversations with my neighbors reveal that they are experiencing similar issues with their drains, maintenance requests, and HVAC systems. One particularly distressing incident involved a neighbor who was left without air conditioning, leading to her husband's hospitalization and subsequent passing due to the extreme heat. The last time my kitchen flooded, I had to resort to calling the emergency service number. While I did receive help the following morning, this repeated failure to address the problem promptly and effectively is deeply concerning. This situation is a severe health hazard and must be treated as an urgent priority. I am requesting immediate intervention from the health department to inspect the premises and ensure that appropriate actions are taken to rectify these hazardous conditions. I expect a prompt response and resolution to this critical issue. I am available at 240-962-2536 or dsmit0599@gmail.com for further discussion or to facilitate access for inspection. Thank you for your immediate attention to this urgent matter. Sincerely, Devin Smith 5764 Stevens Forest rd Apt 108 Columbia, Md, 21045 240-962-2536 dsmit0599@gmail.com

CRH240654	6108 JERRYS DR	35	Alleged unlicensed rental property - 6108 Jerrys Drive – Referrals were made to Zoning, Howard County Fire Marshal's Office and Maryland Division of Early Childhood eThis is a single family house in a residential zoned area. The owners don't live there, un-permitted renting, and no license. Additionally they are running a business at this house unlicensed business without business license / permits or any licenses/permits or even have the fire department inspection. Please see below and attached for my complaint: The owner of 6108 Jerrys Drive 21044 is Peter. Peter does not live in Howard County. He lives at 204	Follow Up	01/07/2025

NURSERY RD LINTHICUM MD 21090. He has not lived at the Jerrys drive since at least 2022. They rent the house to tenants who live there run a daycare and subleases the basement to two people. Peter and his wife has confirmed and the tenants have confirmed that Peter lives at this address since 2022 and are renting out the house. The resident lives in the resident with 4 people in their family and sublease the basement to at least 2 other people. The Residents of this house is running an unlicensed unpermitted daycare center at 6108 Jerrys Drive .Peter has said they do not have any permits or license to rent out his house. I asked Peter and his wife about their permits or licenses for their residents to run commercial daycare with 14 children age 2-5 and they said they don't need one since the house is not located in the Columbia association. 6108 Jerrys Drive 21044 since at least 2022 have been running an unlicensed unpermitted daycare center at 6108 Jerrys Drive in a residential neighborhood with no commercial permits. The daycare/ learning center is located in the backyard of 6108 Jerrys drive in a shed/ a small house structure with one door, and one window. The small house/ shed where they have the day care is old, and the roof looks like one storm away from collapse in a very dangerous condition. They have 14 children age 2-5 enrolled in this daycare and only 1 adult teacher. It is a small unsafe structure for any child, and I observed many different things that I think is a fire risk. This daycare is located in a residential neighborhood and the person is running a commercial daycare out in her backyard out of a small building I would call a shed or a little house but not enough space for 14 children and 1 adult teacher. I know they do not have a business license / permits or any licenses/permits or even have the fire department inspection. I asked the owner of the house Peter about their permit, and they said they don't need one since they are not located in the Columbia association. The area is small, cluttered, and dirty for children, I think. They run the day care Monday-Saturday 7:30-530 pm. Every day at least 14 cars line up on Jerrys drive and drop off there children to this unlicensed unpermitted daycare center. I felt like it was small unsafe structure for any child, and I observed many different things that I think is a fire

risk.

We first reported it through the portal on 6/3/24. When they first came they said the compressor may have gone bad and they put the request on hold. It took about 2 weeks to hear back and when they came they didn't really say what they did other than fill up the refrigerant. It worked for one day then went out again so we put in another request. The same thing happened, worked for a day or so then went out again. The last time they came was about 2 days ago and nothing has been repaired. I have attached the screenshots of the service requests. We also have not been given any fans or portable units. I bought my own fans. I was told a couple weeks ago they would check for portable units and i called requested one again today. Im not sure if you guys heard about Columbia Pointe but a lot of other tenants are having similar issues with the condition of the apartment.

Good morning,

I am having air conditioning issues in my apartment and I wanted to submit a complaint as well as get more information about possible solutions. Our AC has been down for a month and the apartment maintenance has come by 3 times but the problem is not being fixed. It is over 85 degrees in the apartment consistently and they are not really providing any information in regards to repairs.

CRH240681	8513 FALLS RUN RD	31	8513 Falls Run Rd., Unit G – Alleged unlicensed and overcrowded rental property I am writing to bring to your attention a matter of concern regarding a unit owner within our building. 8513 Falls Run Rd, Ellicott City, MD 21043 (Unit G). It has come to our attention that this unit owner has been engaging in rental activities without the necessary license from the county. The owner has not resided in the property since its purchase in 2022, but instead have continuously rented out the unit to various tenants. From the summer of 2022 to the summer of 2023, there were tenants in the unit, totaling four individuals. Following this, from the summer of 2023 to the spring of 2024, new tenants moved in, and the number of occupants rose significantly, with upwards of 10 people residing in the unit. Notably, these tenants informed the owner that only three people were living there but this was evidently untrue given what other residents of the building witnessed. Recently, home owners met new tenants who stated they have just taken a one year contract. To our alarm, today we witnessed a group of 14 individuals entering the unit. The actual number of residents remains uncertain. The repeated issues stemming from these tenants are disruptive and concerning for all homeowners in the building. I kindly request your assistance in addressing this matter to ensure that proper regulations are followed for the benefit of tenants and homeowners alike. Thank you for your attention to this issue. Update: There are new tenants in the unit who are currently parking in the guest spots, presumably to hide the fact that they are living in the building. CRH240683	9200 BRIDLE PATH LN	50	RH07000042) 9200 Bridle Path Lane, Unit N – New Tenant moved in 2017 – Need New Lead Paint Certification (Current Full Risk 2014)	Initial Investigation	07/03/2024

Good Morning,

I spoke with a representative yesterday morning about my concern, I thought I had the right email but I didn't. I called to inquire this morning, but the lady I spoke with informed you don't test the water and that I needed to talk to the health department. I spoke to them right before I was given the number to your office because I live in a rental property. My daughter recently tested positive for lead poisoning. I completed the screening, it was recommended I have my my home tested. I did but the inspector could only complete the walls, I needed to test the water. I got a kit myself and it was reactive to Lead, I want to ensure this reading is correct and what that means. I was informed when I moved in this was a lead free home built after 1978 it was built in 1972. I really need some help, I'm really concerned.

My name is Almonique Vaughan
9200 Bridle Path Lane, Unit N
Laurel, MD 20723
443-600-3982
Children ages 2 and 12

Almonique Vaughan:

If you are concerned about lead in your water, the Howard County Health Department would be the agency to contact for that. This office cannot compel a property owner to conduct well water testing for a property served by Public Water (it is not a well). They can interpret your test results. You may contact the Health Department at 410-313-2640 and this is their webpage: https://www.howardcountymd.gov/health/environmental-health

The Lead Paint Program is administered by the State of Mayland. You may contact them with questions at: Maryland Lead Paint Poisoning Prevention

			Program, 410-537-2825 or 1-800-633-6101, Ext. 3825. Information for Tenants can be found here: https://mde.maryland.gov/programs/land/LeadPoisoningPrevention/Pages/tenants.aspx This office does have an MDE Form 330 Full Risk Reduction Certificate on file for this property from 2014. How long have you been a tenant at this property? RENTAL HOUSING INSPECTIONS I was transferred to the health department yesterday, but because it's a rental I was informed to contact your office. I don't have a well I live in a townhome. I talked to the Lead Paint program I was sent to them because she tested positive. I completed the screening and was informed to get the home checked, not to use our water for drinking or cooking until the test is completed. I just want my kids safe, I don't know who I'm supposed to talk too I'm just following the directives given. I have lived their since 2017

fairly decent response times to maintence issues and nothing to complain about really up until this current year where my AC wasnt fixed at all. ive had been bugging these people since march 25th and have been ever since. ive only recieved two calls from the office these past 4 months and all theyve given me is false hope. ive even contacted their emails with no response back. they have taken no action to remedy the situation with the HVAC system even though they have been made aware several times. i have countless tickets that they have canceled to either conceal or supress my concerns in order to save money or any other reason i dont know why. reason for contacting you guys is because of the trash situation aswell they have been severely slacking on trash pickup and this creates an unwelcome and unpleasant enviroment. I would appreciate a response back.

Hello this is Cristhofer Sherifss im replying back to the concerns i have over the hvac and trash situation. currently my ac is sitting at 93 degrees and these issue have been made aware to the leasing office multiple times. i have a track record of them basically recieving my complaints and them basically canceling the tickets and not doing anything about it. the ac worked fine for the first two months i used it which was in march and then once april started towards the end the AC was blowing warm air all the time. i made

it clear to the office and they havent done a thing about it. also i have pictures i will send which are from today sun july 14 2024.
thanks for the response i really appreciate it i just hope i can get a resolution from this ordeal.

CRH240736	7250 EDEN BROOK DR	42	Beechs Farm Apts., T00006534 – 7250 C-T2 Eden Brook Dr. – Broken HVAC (since 6/20/24) and broken washer My name is Ellie Litwack and you can contact me at 443-980-9999 or by email at ellielitwack@gmail.com. The landlord, “Beech’s Farm,”, leased to myself, Ellie Litwack, and the other resident, Nicholas Arnold 7250C Eden Brook Drive Apt T2. On 6/20/2024, we notified the landlord in writing that our air conditioning system was not working. The landlord initially made several attempts to fix the system. The landlord's maintenance technician	Follow Up	07/22/2024

informed us that the system could not be fixed and would need to be replaced. The landlord's property manager confirmed that they understood that the next step was to replace the system. Since then, the landlord has not replaced system.

The landlord provided us with a window AC unit. A window AC unit is not an adequate remedy for a broken air conditioning system. The window unit is excessively noisy. The window unit does not provide adequate cooling for the entire apartment. The window unit does not have enough power to keep the apartment cool when we use other appliances such as our oven or stove. Because the apartment heats up if we try to use the oven and we are under a heat advisory, we have been unable to use our oven.

On 6/11/2024, we notified the landlord in writing that our clothes washer was not working. The landlord's maintenance technician informed us that he would need to replace the clothes washer. The landlord closed the maintenance ticket on 6/24/2024 even though they had not fixed or replaced the clothes washer. We notified the landlord in writing a second time on 6/25/2024 that the clothes washer was not working.

On 7/11/2024, the landlord agreed to fix both issues by 7/12/2024. The landlord confirmed this agreement in writing. The landlord took no actions to fix either issue.

On 7/15/2024, the landlord told us that they could not replace our central HVAC system because an employee would first need to write a proposal justifying the need to fix it. They also said they would replace the washing machine by 7/16/2024.

On 7/16/2024, the landlord said they would replace the central HVAC system by 7/22/2024. We believe this is not a reasonable course of action. The landlord has been on notice about the issue for almost a month and should be able to fix the issue immediately.

Best regards,
Ellie Litwack

Hi All,

Ayanna just left me a voicemail saying that you won't fix our HVAC system until next Monday. First, thank you Ayanna for communicating a timeline to us. Second, this is an unacceptable timeline. We notified you in writing of the problem on 6/20. You have been on notice and ought to be able to resolve this immediately. There are many HVAC repair companies which are open 24 hours a day - you should be able to work with one of them to come out to our apartment today and fix the issue today.

CC'ing others for awareness and coordination.

Best regards,
Ellie Litwack

Good Evening, Ellie and Nicholas,

I am reaching out to you to provide an update on your laundry machine. Your new laundry machine has been ordered and the dryer should arrive no later than tomorrow. I would like to apologize for the inconvenience and the extended wait time. If there are any questions feel free to contact me directly.

Sincerely,

Ayanna Cowan

CRH240737	5005 GREEN MOUNTAIN CIR	30	RH12000128 – HVAC not functioning as intended (Per tenant, Horizon Tech mentioned something wrong and alleges owner will not disclose)	Follow Up	08/15/2024

Last year I noticed that my AC was running 24/7 to try to bring the temperature down in my rental condo.

5005 Green Mountain Circle, #5
Columbia, MD 21044

It appears that if it is over 85 degrees outside, the system fails to operate efficiently. It runs 24/7. The condenser reaches a certain temperature and then does not work. This led to higher-than-normal bills and the need for fans and a standalone AC unit to bolster the inefficiency of the main system. I believe the main system is 30 years old. I don't know for sure though.

Last year, I worked through it with my landlord and was accommodating, although not fully comfortable. He hired some friend to service it, but that did not truly help. Temps outside subsided.

This year is a just a little bit different because the temperature rose early in the summer and has been consistently high. Again, I accepted a standalone AC unit, but even that is not helping. The landlord had Horizon come in last week to assess. The technician power washed the coils, said something about an important piece being bent, and did not engage with me to fully understand the situation. My landlord was gate keeping. He did that also with his friend who came last year to service the system.

I work at home on certain days and the standalone unit is like a freight train to me. It has been a deafening situation, and I have severe tinnitus. It takes up a lot of "rented space" in my office/dining area. I don't want to use it. It's an unexpected added cost.

Currently, my BGE bills have skyrocketed, and my projected bill for the upcoming period is $310. This is unfair. I can download and provide a synopsis of the variables of cost, temperature, and energy use to make a solid case that my bill should not be this high. It is high because the inefficient system is running 24/7 to try to cool the condo. Last year, I told my

landlord that I would reserve the overages as a deduction to the rent. This is when he went into minor action to try to correct the issue.

I cannot cook a decent dinner because it adds to the condo temperature. This is disruptive, costly, and unhealthy.

My landlord said, I can move out. Well, sure I can, but that is also unfair. I expect my condo to be 77 degrees during the extreme days. I think this is reasonable. Another issue is the distribution of cold air. The bedrooms have been uncomfortable. When I closed one of the vents to hopefully move some of the cold air to the front of the condo, my landlord said I cannot shut the vent!

Could I get a fair inspection of the system so I can figure out my options?

Thanks,

MaryBeth Ryan
410-960-4372

MaryBeth Ryan:

Do you subscribe to BGE Peake Rewards? It will cycle off your unit during high demand and your unit will heat up during the cycle off period. We have found that is leading to some complaints of units not being operational. According to our records, the structure you reside in was built in 1982. Insulation requirements in 1982 were not the same as they are today which can also lead to your unit heating up, not to mention the unprecedented heat and humidity we are all experiencing.

Under the Rental Housing Property Maintenance Code, we could not compel a property owner to replace an HVAC unit just because it's old if it is operational. It sounds like you recently reported it to your property owner and they sent Horizon Services to check out the system. We do believe they are a licensed HVAC Contractor. That is what

we would expect a property owner to do and it is what we would require (licensed HVAC contractor assessment). Have you reached back out to your property owner to advise him that the unit, after servicing, is still not cooling? If you have not, please do so.

CRH240753	5834 STEVENS FOREST RD	36	Columbia Pointe Apts., T00006542 – 5834 Stevens Forest Rd., Apt. 33 – Unresolved issues with gas stove and dishwasher since Feb. 2024; HVAC broken since 7/8/24. Service tickets being cancelled with no explanantion I am having a lot of issues with my apartment complex Columbia Pointe located at 5834 Stevens Forest Road, #33, Columbia, MD. There have been numerous issues with my appliances and other	Follow Up	02/21/2025

unhealthy conditions in my unit since February 2024 (Gas Stove is not secured so heat comes out of the oven, Dishwasher is broken and moldy, mold is growing on the ceiling of hallway bathroom) The AC unit is the latest one.

On July 8th, I notified my landlord that my AC was not working and it was over 90 degrees in my home with nothing being done that day. I ended up getting 2 extra fans to help us fight the heat which barely did anything.

On July 9th, I notified them again letting them know that I would report them to Howard County if they did not respond to me. Finally someone came out and tried to fix it with no luck.

On July 10th, I called again to check on status and asked them if they would put us in a hotel as we couldn't stay in the apartment with it being over 95+ in my home. They came back out again and tried to fix the unit. Unfortunately they figured out that some part was not working and said they needed to order it but in the meantime, they would give me 2 portable units which they did. These units are barely keeping the home cool. It is currently reading 88 degrees in the house and that's because the sun is going down. Today it was in the 90s again.

I called today again with no response.

I have contacted the management company (GoldOller) and emailed the property managers here several times about the issues, but no response from them.

Any help you can provide to get these issues addressed and resolved would be appreciated.

Sincerely,
Janvier Richards

Janvier Richards:

What date was the issue with the stove and the broken dishwasher reported to management through their reporting system? It appears the broken AC unit was reported on July 8th. Before this office can get involved we must know that you gave the complex adequate time to address the issues. We would expect the AC to be repaired within 15 days of reporting the matter to management. We would ask them to provide you with fans and portable units in interim and it does sound like they have done that. Are they sending maintenance staff to fix your AC unit or is it a licensed HVAC contractor?

Hello,

December 14, 2023 was the first time I alerted the property of my stove having issues. They've been notified several times after the first initial report. Feb 26, 2024 was the first time I alerted the property of my dishwasher. On April 13, they cancelled it out of the system without any explanation. They have been notified again about the dishwasher.

As for the AC, they did provide me with 2 portable AC units (I had to purchase the fans on the 8th when they never showed up with the one they promised me) and I am thankful to have them, but I have to tell you that they are barely keeping the house cool. The home still goes over 90 degrees when the sun is high but July 22nd makes it 15 days so we will just have to be patient. I have not heard back from the property on the status of getting the AC unit fixed although I've contacted them for an update. They did not state that they were bringing in a contractor. I was told that a part needed to be ordered and they believe that is what they need to fix it.

Please let me know if you have any other questions.

Thanks,
Janvier Richards

CRH240773	3280 WEST SPRINGS DR	17	RH22000459 - 3280 West Springs Drive – Sewer backup not properly remediated or repaired to prevent reoccurrence. Owner allegedly moved out state. I am currently a renter in Ellicott City and would like to bring a matter to your attention. I signed a lease and began renting my current residence at 3280 West Springs Drive in October 2022; my daughters also reside at the home with me. My landlord's name is Dr. Chunlei Wang; He and his family reside in New Jersey. Currently, there is a 12-day-old sewage backup at the residence (standing sewage in the toilet, sewage and water in the bathtub). My family's daily exposure to raw sewage continues to impact my household's livability and is an ongoing safety and health risk. To provide some history, on November 13, 2022, my family experienced the first sewage backup at the residence, approximately two weeks after moving into the residence (i.e., upstairs bathtub was clogged, gurgling toilets in master and half bathrooms, odors in the basement, sewage overflow into basement bathroom and den). Since that date, we have experienced multiple sewage backups (3/18/23, 8/25/23, 6/7/24), occurring in the basement bathroom although it has not been used since November 13, 2022. In addition, there has been limited use of toilets, showers, and other appliances during the aforementioned dates. Despite having the line snaked three times by a professional plumber (some of which I paid expenses), the problem remains unresolved. On June 18, 2924, I emailed Howard County Public Works to ask for assistance. At that time I was informed by Ms. Faye Liberatore, a Department of Public Works Administrative Analyst, that the sewer system at the residence is private. I was instructed to contact my landlord, HOA, or a private plumber. Mr. Wang has been notified during each occurrence since November 2022 via text and/or email, all of which I still have possession. On June 18, 2024, I asked Mr. Wang to request the HOA perform an inspection or that he contact the Bureau of Utilities. I have made repeated requests to him during the last	Follow Up	09/12/2024

two years but the sewage backup persists.

I informed Mr. Wang on July 11, 2024 of my inability to reach his plumber, Francis, after multiple attempts and informed him that I would contact a plumber. On July 20, 2024, Mr. Wang visited the property but there was no action taken to resolve the sewage backup. I scheduled a plumber and received an estimate on July 21 for $600 to “snake and scope.” The plumber also informed me that a backup of this magnitude is a main line problem and will involve major work.

On July 21, 2024, I received two emails, threatening eviction by July 26th and demanding monies owed in full, an act which appears as an attempt to mask his negligence and appears retaliatory.

The backups have caused significant inconveniences, loss of property, and health concerns (i.e., coughing, rashes, headaches). Moreover, my family has limited to no use of the showers, toilets, sinks, washing machine, and dishwasher. Furthermore, I have experienced significant anxiety due to daily concerns of overflow as well as considerable embarrassment about residing in such conditions.

I am requesting resolution to include the following:

1. Immediate water removal (bathtub) and sanitization due to negative impact of airborne bacteria, etc
2. Reimbursement for plumbing expenses (1 visit)
3. Compensation for lodging and meals if my family is required to vacate during repairs beginning July 2024
4. Compensation for medical expenses (if necessary) due to respiratory or dermatological issues
5. Compensation for increased utility use (e.g. bathroom lights, fans, air filter)
6. Compensation for loss of use (i.e. twice weekly laundromat visits since July 11)
7. Compensation for unlivable conditions (i.e. no responsibility for rent beginning in July 2024)

CRH240778	7080 CRADLEROCK WAY	36	Owen Brown Place, T00006566 – 7080 Cradlerock Way – Two Elevators, (1) Elevator in disrepair for 4 weeks now, Second elevator was also down for a period of time, but reported to be back operational now 7/23/2024 Dear Delegate Chao Wu, I am writing to raise a serious safety concern for many of the elderly who reside in Owen Brown Place located at 7080 Cradlerock Way, Columbia, MD 21045. There has been a pattern of neglect of the elevators maintenance for this building for the past several years. Dozens of elderly are afraid of leaving their apartments. They are worried that the only elevator might break down in any second again, since one of the two elevators have been out of service since June. They were also worried that they might be trapped in the elevator when it broke. Please help! There are two elevators in the 10 floor high Section 8 building. It is a home for about 190 families, mostly elderly people. Many of them rely on wheelchairs. One of the two elevators in the building has been down since June. As of today (7/23) when the letter is composed, it has been well over 4 weeks that the elevator has not been fixed. On Sunday, 7/14/2024, the second of the two elevators also broke down. It left dozens of elderly who have various medical conditions without any means of going home. Some of them climbed up the stairs on foot in the heat of 96 degrees and others were waiting at the lobby without knowing how long it might take for them to be able to go home. The bathrooms were locked on weekends and many of them wet their pants while waiting. There were at least about 20 plus elderly people who attended the Royal Garden Adult Medical Center walking up 9 or 19 flights of stairs around 12:30pm on 7/14/2014 (Sunday). The following is a list of some of	Follow Up	08/09/2024

them.

1. Mr. Zuoxia Zhou, 95 year old, Apartment 508
2. Mrs. Liying Yi, in her 90's, Apartment 508
3. Mr. Xiangguan Luo, born in 1/1931, 93 years old, Apartment 812
4. Mr. Peihui Luo, born in 2/1938, 86 years old, Apartment 902. Mr. Luo had a broken arm in a sling. He has a shortness of breath condition. Any one of his age could have had serious consequences of going up onto the 9th floor in the 96-degree heat.
5. Mrs. Huizhu Liang, born in 5/1940, 84 years old, Apartment 902
6. Mr. Fu, 88 years old, Apartment 401
7. Mrs. Jucai Yang, Apartment 401
8. Mr. Ding, Apartment 712
9. Ms. Lehua Hu, Apartment 408

At least four wheelchair bound elderly were not able to use the stairs at all. Their names are
1. Qinu Li, 3rd floor
2. Shuying Rong, 10th floor
3. Buming Tao, 6th floor
4. Zhixing Zhou, Apartment 420

Please note that the above lists included only a small portion of the residents were affected. Those names were from the group of people I personally know and most of them attend the same adult day care center. Many other people were affected as well.

I will be available to answer questions if you would like to contact me for further information.

Regards,
Michelle Wong

CRH240781	6782 DUCKETTS LN	37	6782 Ducketts lane – alleged unlicensed rental property hello, I'm writing in regards to a townhome that I currently rent out and have been renting out since October. Me and my roommate are renting out the single-family townhome that's located at 6782 Duckets Ln., Elkridge, MD 21075 and within the past six months, we've been dealing with roaches that have been coming from the neighbors. So in an effort to eliminate the roaches, the landlord has been having a pest control company coming out since November to spray and recently they've been spraying more frequently. About a month and a half ago we were also experiencing fleas and the landlord had to pay that same company as separate fee for that. I had to throw out my bed my children's bed the couches. It was a big issue and it was taking a while to, fix. In the mist of this I went back to the home while I was staying away, and I put bombs and powder around, and I was unaware that the roommate was there and so the roommate called the landlord and it was a big ordeal . So I went to the house a week and a half ago and there was a notice on the door stating that I had 14 days to vacate because I put the roommate in harms danger. I then Spoke with somebody who mentioned to call to make sure he had a license rental license. I called two days ago. They gave me the email. I got the email back today confirming that he does not have it and I need to know my options and I also need you to be aware that he's been renting this place out making 1550 per tenant since october 2023. I will attach the lease as	Follow Up	10/18/2024

well and my phone number is below thank you. His mother and his information is on the lease. The Mother owns the townhome. I also just arrived and to the townhome and the locks are changed and all my stuff is gone.

Sincerely ,
MARY BANKOWSKI
Cell (301)401-8490

attached is the lease sorry I forgot to include

Sincerely ,
MARY BANKOWSKI
Cell (301)401-8490

Mary Bankowski:

There is no rental license for this property as you are now are aware. As we understand your email below, you, your roommate and children are no longer residing at the property? Is there a separate individual who is still renting the entire home? The state database would indicate that at least one of the property owners lives in the home; however, your unsigned lease would indicate that at least one of the owners lives at 10109 Madronawood Dr, Laurel, Maryland, 20708. Can you confirm this? Is it a whole house rental or rooming unit rental? This office must be able to conclusively confirm that the property is currently still occupied by tenants, without a license. We do not have a case once tenants vacate.

It is not legal to charge rent without a rental license. Rent and fees charged as well as the unlawful notice to vacate (14 days instead of 30 days) would be under the purview and jurisdiction of the Office of Consumer Protection. They likely will need the SIGNED copy of your lease. You may wish to submit a complaint directly to that office as follows:

The copy of the lease is the one that he just sent me in June. I have a physical copy of that signed. I've been living there since October and I have proof of

photos and videos of me living in and out of that home until recently the address that's on file is for him and his mother. His mother owns the townhome neither of them live there, and nobody has left that townhome he change the locks and told the roommate in the basement to leave so he didn't get fined anymore if you guys go in there right now all of my things, and all of the roommate things are in there, but we are not in there because he illegally evicted us in hopes of not getting charged he just called me today saying we can meet up and talk about it and possibly let me back in the house for 60 days or whatever the case is.

Sincerely ,
MARY BANKOWSKI

T00011305 – 8610 Snowden River Pkwy, Apt. 206 – Rodent infestation I am writing to formally lodge a complaint regarding a serious and persistent issue at Parkview at Snowden River Parkway Apartments, located at 8610 Snowden River Parkway, Columbia, MD 21045. Since the fall of 2023, my elderly mother, Carolyn Sanders, who is 81 years old, has been dealing with a	Follow Up	09/20/2024

severe mice infestation in her apartment. Despite numerous complaints and requests for resolution, the management has not adequately addressed this problem. This ongoing issue has severely impacted my mother's quality of life and well-being.

Given the duration and severity of this infestation, we urgently request your intervention to ensure that the management of Parkview at Snowden River Parkway Apartments takes immediate and effective action to resolve this issue.

Thank you for your prompt attention to this matter.

Sincerely,

Marchelle LeBlanc
810-394-9501

Marchelle LeBlanc:
What DATE was the rodent infestation reported to management through their requested reporting system? Has it been reported since fall of 2023? What action, if any, have taken?

Dear Rental Housing Inspections,

Thank you for your response. Unfortunately, I did not record specific dates when the rodent infestation was reported. The issue was reported in person to the apartment management, letters, phone calls and I also called the corporate office last year.

Since the fall of 2023, staff and the exterminator have set traps and mentioned that they sealed some areas in the apartment.

Despite these actions, the problem persists. Please let me know if you need any additional information.

Best regards,

Marchelle LeBlanc

CRH240834	3404 SYLVAN LN	25	3404 Sylvan Ln – Unlicensed tenant occupied rental	Follow Up	10/10/2024

property with maintenance issues and infestation
(Owner resides at 3401 Slyvan Ln)

My name is Charles Luttrell and I am a tenant at 3404 Sylvan Lane, Ellicott City, MD 21043.
I would like to have the rental property at 3404 Sylvan lane Ellicott City, MD inspected for rodent infestation, water infiltration, and general property upkeep. I should have scheduled this much sooner but I feared landlord retaliation at a time where I was physically and financially vulnerable. Being as R. Gary Hollenbeck, the landlord, resides at 3401 Sylvan Lane, I felt my options to address the situation would only suffice to make them worse, After 4 years since being notified of water entering the basement, the landlord has finally scheduled a waterproofing company to remedy an ongoing water infiltration due to cracks and holes in the foundation structure. This work is scheduled to commence on 8/5 and I would like to have an inspection prior to the work or during the remediation period. Rodents, snakes and other pests have gained access into the property and have caused unsanitary conditions throughout the house, to include behind the stove/oven, cabinetry, etc in the kitchen area, bathroom and other areas of the house. I have photos and evidence.
In addition, the landlord has failed to properly maintain the grounds, allowing the grass to remain uncut or grow tall in certain areas. The deck has not been power washed in several years resulting in slippery conditions when wet.

I can be reached at 410-382-2722

Thank you,

Charles Luttrell

CRH240846	7372 EDEN BROOK DR	42	The Madison at Eden Brook Apts., T000006550, 7372 Eden Brook Drive #512 – Unrepaired Water Damage leading to mold conditions I moved into the apartment on June 26, 2024. However, on July 17, I noticed my floor was wet in the bathroom and the front area of my bedroom. Maintenance was called and notice it was a leak underneath my floors coming from the hvac closet. Work begun to remove the flooring and drywall due to mold being found from the leaks. The property placed me in the model unit apartment due to not wanting to file a claim with their insurance. I received a text and email message on July 29, 2024 stating the work was completed. Upon going back in my unit to inspect, I noticed unclean areas, light switches missing wall plates, water damaged baseboards, and an unclean bathtub which was not dirty prior to the installation of new floors. I've attached before and after pictures which demonstrates shabby and the unprofessional look of the work provided. Please have an inspector come to inspect my unit. I am new to this area and have been stressed and need immediate assistance. Davena Archie 202/438-0145 Good afternoon: What is the status of the leak and mold repairs in my unit? Davena Archie Good Afternoon Ms. Archie, The floors are being replaced tomorrow morning and the drywall will take place Wednesday.	Follow Up	08/29/2024

Good morning:

Management has not completed repairs as they stated. They said the flooring would be done Tuesday and the walls yesterday. However, the floors are not done and the walls are still open as of last night when I sent the initial email. A resident I meet stated it took them a month to repair her unit. I've been here only three weeks and dealing with issues. Why is it so hard to get assistance from the county for unsafe living conditions??

Our office reached out to the owner/management on your behalf. They have advised us of the following. If this is true, they would doing what is expected of them under the Rental Housing Property Maintenance Code. Please let us know if that is not correct:

We have had a remediation contractor come and remove all affected drywall and flooring. The unit has also had a moisture and mold reading. We have placed the tenant in another unit until the work is completed

dead animals in walls, bats

I believe I placed a complaint yesterday, but no one returned my calls. I have been experiencing poor living conditions since I moved into my apartment here on 3425 Plumtree Dr Apt I . I have been complaining about the leak and mold in my bathroom, Broken dishwasher with exposed holes, broken refrigerator, broken stove that smells of gas, and the smell of dead animals coming through my wall with the sound of them walking over my head. I also complained about my carpet in the bedroom which is not properly place and the floor is exposed to the outside wall of the building. My most recent issue happened over the weekend when a bat came through my floor and attacked myself and my family and my visiting fiance and his dog. I wasn't offered to be relocated and it was cover with plastic by maintenance and the came to my unit yesterday but the wholes in my floor are still exposed. The property manager constantly gives me rebuttal about these issue and I try to withhold rent until she fixes it but then I'm threatened with eviction and forced to pay. Please help.

Message...
Also, each time I complain about anything in my unit the property manager sends me a statement from entrada. They also never see what I see and they never smell what i smell. They stuffed the holes with plastic bags, never fixed the toilet where mold is growing and puts caulk over the tub where mold is growing. I'm in the hospital monthly due to the mold triggering my asthma. I've emailed, called her, and I've also placed work orders in. I was met with accustaions of noise and smoking in the hallway. Questioned when I asked for a laundry key and told

that my husband(not married) has it on his key chain. I have emails of each incident. But BATS are a different thing and she didn't even relocated my family. All they did was replaced the boards, placed some wood in between and did not return. My family has to get rabies shots that I cannot afford and we should not have to stay in this unit any longer. Please help! 3425 Plumtree Drive Apt I Ellicott City MD 21042 and my telephone number is 2026662599. Thank you

CRH240918	8669 COOPERHAWK CT	36	T00011206 – Tall grass and other maintenance neglect issues on exterior I am writing today to complain about the landlord of 8669 Cooperhawk ct. They have in the past and continue to neglect the property. As a fellow Cooperhowk resident, this is an eye sore and lowers our property value. I pay way too much in taxes to continuously look over to onto a neglected property. There are leaves not raked, bags of trash/debris just sitting in the font and the place hasn't been mowed/cared for for months now. It is getting out of hand. I am including some pictures of the property and as you can see it hasn't been taken care of for a long time. This isn't the first time the yard has looked this bad. We are getting real frustrated with the lack of care he puts into the place. Unhappy Neighbor, Raymond	Initial Investigation	09/03/2024

Good morning,

Thank you for the photos. We will make the area inspector aware of the issues and reach out to the owner regarding the property maintenance issues.

RENTAL HOUSING INSPECTIONS
410-313-1830

Dear Rental Housing AUthority,

I am writing today to once again complain about the landlord of 8669 Cooperhawk ct. They have failed to take care of the yard and the property has been sitting empty since the beginning of the year.They have not been around to check-in or do yard work all year and it shows. I am tired of this owner neglecting his responsibility to the house and the community. Is there any other action we can take aside from lodging complaints? When he does have renters he doesn't pick the best neighbors. The last tenant assaulted another neighbor and the cops were called multiple times.

Attached are the latest pictures for your reference.

CRH240937	7616 HEARTHSIDE WAY	43	Verde at Howard Square, (RH19000023 Main) RH10000024 - 7616 Hearthside way, unit 2005 – Unknown issue causing mold conditions in unit (tenant advises no leak and HVAC is operational) Hello, I'm emailing to inform you about a situation that has been happening since 06/23/2023. I moved in on that date and let maintenance know that it was humid and sticky in my apartment and told them I started to receive mold on my furniture because of it. I first reported it on 07/16/2023, it is not 08/26/2024 and there is mold on all of my furniture due to them saying it was fixed and it was not. If you could give me a call or let me know what the next steps would be that would be great. Phone number (410)-371-6086	Follow Up	10/07/2024

Thank you

Sydnee Robinson:

Please see attached instructions for filing a complaint with this office. Additionally, please see the attached information regarding the limitations of this office as it relates to mold conditions.

At a minimum, we need the following information:

1) complete address including apartment number and name of complex.
2) need the date you reported the issue to the owner/management through their reporting system and what action they took, if any.
3) is your HVAC unit operational? If you live in a bottom floor unit and you turn off your AC, this will happen.
4) is there a visible leak? If so, where is the leak?

RENTAL HOUSING INSPECTIONS

My address is 7616 Hearthside way, unit 2005, Elkridge MD 21075

The first day that was reported was 07/16/2023

I am on the second floor

No leak

Sydnee Robinson

Is your HVAC unit working? Have you turned it off?
Please review the attached document outlining the

limitations of this office for mold conditions. We cannot cite mold under the code. We can cite property maintenance code violations that often result in mold (leaks, clogged condensate lines, broken HVAC units, etc.). If there is nothing an inspector can see, there is nothing we can cite.

RENTAL HOUSING INSPECTIONS

Yes hvac system is working, we asked them to remove the filter so we can take pictures to see if it is wet and he denied

CRH240938	7201 ALDEN WAY	38	Bristol Court at Oxford Square Apts, RH23000363 - 7201 Alden Way, Unit 2025 – Uknown leak leading mold conditions My name is Amani Lomax, and I reside at Bristol Court Apartments. I am writing to express my concerns regarding ongoing issues in my apartment that have yet to be resolved despite numerous attempts to address them. On April 13th, I first noticed mold in my bathroom, along with a significant issue with gnats. I promptly submitted a work order. By May 21st, I submitted another ticket after discovering a leak that had caused my walls to become wet, exacerbating the mold problem. This situation began affecting my health, leading to severe asthma flare-ups and facial breakouts. Despite efforts to address the mold by painting over it in June, the issue persisted, and the mold returned. The maintenance team then decided to cut open the walls, leaving them exposed from June until July. During this period, I continuously communicated with the rental office, keeping them informed via email and phone calls, as my health continued to deteriorate. The rental office eventually offered me a transfer to a new apartment, which I was initially pleased with. However, my move was delayed because the current tenants of Unit #5001 extended their stay. When I visited the apartment on July 5th, I found it significantly smaller than my current unit, and I	Follow Up	09/11/2024

expressed my concerns. It was then agreed that I would wait for another unit, #4042, which was expected to be available for move-in on August 23rd. Unfortunately, as of August 22nd, I have been informed that the rental office is unaware of my planned move, and the rental agents I previously spoke with are no longer with the company. They have also indicated that moving me into Unit #4042 is not possible. This is extremely frustrating, as my apartment remains in poor condition, and I have been given inconsistent information regarding my relocation. I even had movers scheduled on July 5th, which had to be canceled due to the delays. On July 5th, I discussed my situation with the Regional Manager, Michele Greene, who offered me the option to move into either Unit #5001 or wait for #4042. I communicated my decision to wait for Unit #4042 via email and phone, yet this has not been honored. I am requesting immediate assistance in resolving this matter, as my current apartment remains uninhabitable due to ongoing issues that have directly impacted my health. I hope to receive a prompt and satisfactory resolution. Thank you for your attention to this matter.
Sincerely, Amani Lomax

My current address is 7201 Alden Way until 2025 Hanover MD 21076. The pictures that are current in my unit 2025 will be included in this email. The June photos are outdated. The rental office offered me the chance to switch to a different apartment on July 5 2024. I didn't like the apartment they were trying to move me into so they let me choose to wait for another unit to open up. I was given the new unit number 4042 and was supposed to move on August 23rd 2024. However when the day came the rental office did not have any records of me moving into 4042 because there are new workers in the office. I showed them emails confirming my move-in date and I also received approval from the Regional manager on July 5th to move into unit 4042. The rental office is now saying that it is impossible for me to move into a one-bedroom with a den because I am on the MIHU program. I was already promised to move into that unit. My contract number is 667-465-9811

CRH240939	9641 WHITEACRE RD	36	RH18000126, 9641 Whiteacre Rd Unit B3 – Alleged hoarding, water damage leading to mold issues, roaches and mice I hope this message finds you well. I am writing to bring to your attention a serious issue regarding one of my neighbors in 9641 Whiteacre Rd Unit B3 Columbia MD 21045 Vom Village Center. It has come to my attention that they are struggling with hoarding behaviors, which has led to several concerning problems. Firstly, there is a persistent and unpleasant odor emanating from their unit, which has begun to affect the air quality in the surrounding areas. Additionally, I have observed an alarming presence of roaches and mice, which raises significant health concerns for not only the involved resident but also for the rest of the community. We were also provided with some digital pictures of the house from 2 weeks ago which has made this request even more urgent. I have attached a few to this e-mail. Additionally, I have received reports that the bathroom area is affected by black mold, rendering one of the bathrooms inhabitable. The amount of items in the house raises additional concerns about the structural integrity of the unit, including potential issues with load-bearing elements and the risk of a roof collapse. The situation also presents a clear fire hazard associated with the hoarding behaviors. We are also particularly worried about the safety of the two children who visit their father on some weekends. The current living conditions are not suitable for small children and we really do stress the urgency on this. I understand that everyone faces challenges, and I empathize with my neighbor's mental health situation. However, the impact of these conditions is affecting the overall living environment in our condo. I kindly request that the county look into this matter and take appropriate action to ensure the health and safety of all residents. Thank you for your attention to this urgent issue. I appreciate your prompt response Sincerely, Tanisha White SEE ATTACHMENTS	Follow Up	10/22/2024

CRH240941	8300 WADES WAY	43	8300 Wades Way – Alleged Unlicensed Rental Property I'm inquiring about the property at 8300 Wades Way in Jessup, MD 20794. During our HOA meeting on August 15, 2024, a man attended, claiming to represent the property owner and stated that he is renting the property. However, when I spoke with the landscaper a few weeks ago, I was informed that a woman named Linda had purchased the house, and there was no indication it was being rented out. We request that Howard County investigate whether 8300 Wades Way has a valid rental license and permit. We were notified of a woman moving into the home without the required approval from our HOA, as mandated by our bylaws. Is it not necessary for a property owner to register the property with Howard County and undergo an inspection before a resident moves in? We are uncertain about the current status of this property and formally request an inspection and any relevant rental documentation. We require all relevant documentation as per our HOA regulations. This is a residential area, not a business, and therefore any rental activity must comply with the necessary county permits. We request that Howard County provide documentation regarding the rental status of 8300 Wades Way and verify that all required permits are in place. Sincerely, Camille Edwards, HOA President Camille Edwards: Please see attached instructions for filing a complaint with our office for future reference. Additionally, we do have a citizen's access website where you can look up rental licenses, in case you are not aware of it. There is no rental license on file with our office for 8300 Wades Way. We do see in the State of Maryland database (public information), that the property sold/changed hands on 8/14/2024. If you	Follow Up	12/04/2024

are CERTAIN that the property is occupied by tenants, we can open a case to investigate so please advise us on that matter. We would send a letter to the new owner explaining licensing requirements and make a site visit to knock on the door in an effort to confirm occupancy by tenants. Howard County Office of Law will not allow us to proceed with enforcement action unless we can conclusively confirm a property is currently occupied with tenants.

Yes, if a property is rented to tenants, a rental license is required. To obtain a rental license, an inspection does take place and the property must meet the requirements of the Rental Housing Property Maintenance Code.

Could we please get a copy of the letter for our records as well?
Thank you
Camille Edwards
HOA President

Thank you for providing the instructions for filing a complaint and for the information regarding the citizen's access website. I wasn't aware of this website, appreciate your prompt response.

The Board of Directors is actively enforcing the HOA bylaws, county rules, and residents are well aware of this. We have also assisted several residents with the necessary steps to properly rent their properties. Regarding the property at 8300 Wades Way, residents observed a woman moving into the property last week, blinds installed, and a plant on the deck. At our Annual Meeting on August 15, in the presence of Christian Bowie, a representative from the management company, I specifically informed the gentleman at the meeting that a permit is required and the house must be inspected before it can be rented out or occupied by tenants. The gentleman, who claimed to be representing the property owner, confirmed that the property is being rented in front of both of us.

Please open a case to investigate and inspect the property. Residential Realty is handling the additional violations under our HOA Bylaws. Residential Realty has not received any rental agreement from this gentleman since the meeting.

CRH240942	10340 SWIFT STREAM PL	36	10X Living at Columbia Town Center (T00009501 Main), 10340 Swift Stream Place, Apartment 413 – No HVAC I am issuing a complaint regarding a lack of adequate HVAC in the unit my partner and I are tenants in. We have issued a maintenance request with the landlord/front office and have also utilized the emergency maintenance hotline to request a temporary fix of a window unit as there is currently a heat wave and the interior of the apartment has been above 80 degrees fahrenheit for four (4) days now. This has been a long-term chronic issue with this location since we began renting June 1st of 2023. During this time, we have been without HVAC for 117 days including the 4 days we have been without AC currently. As evidence of this ongoing problem, and the landlord/management company's undue delay in resolving the issue, I have attached print outs of the numerous service requests we submitted trying to get the issues resolved. During our first summer here, we did not have air conditioning from July 1st, 2023, to July 31st, 2023. Associated Maintenance orders: 7972-1 8135-1 8474-1 This issue was resolved when they replaced the entire HVAC unit for the apartment unit. During our first winter here, we did not have heating from October 10th, 2023, to November 29th, 2023.	Follow Up	11/20/2024

Associated Maintenance Orders:
9493-1
9758-1
9777-1
10125-1
I do not know what was resolved to fix the unit, I believe they said it was something to do with a blocked pipe. At some point during the process the pipe leaked and started flooding, but that was quickly repaired.

During this current summer, we did not have air conditioning from April 11th, 2024, to May 2nd, 2024.
Associated Maintenance Orders:
12042-1
12085-1
This issue was resolved when they replaced the compressor for the HVAC unit

Currently, we do not have air conditioning, beginning on August 23rd, 2024
Associated Maintenance Order:
14109-1
No work has been done on the order, they have not even sent someone to look at the unit.

As evident, the landlord/management company historically has taken a very long time (a month or more) to resolve HVAC issues and also close the open work orders without properly confirming that the issue has been resolved (see the number or work orders closed and then immediately re-opened). They have also neglected to inform us of accurate repair timelines as they continually say it will be fixed immediately and then do not contact us again until we reach out a week later.

Please let me know if there is any more information you would like me to provide or if there is any further action I need to take.

CRH240944	5785 STEVENS FOREST RD	36	Verona at Oakland Mills Apts, T0006564/T00006549 - 5785 Stevens Forest Road, Apt 5 – Roach infestation, unit unsanitary upon move-in 8/15/24 and other maintenance concerns I hope this message finds you well. I am writing to express my deep concern regarding the severe issues present in my apartment, The Verona at Oakland Mills 5785 Stevens Forest Road, Apt 5, Columbia, MD 21045, since I moved in on August 15, 2024. On August 13, 2024, I understand that an exterminator sprayed the unit to address a roach infestation. However, upon my arrival, it was clear that the issue was far from resolved. I had to purchase roach foggers immediately, yet the infestation persisted. On August 17, 2024, I purchased additional roach foggers as roaches were still present in the kitchen, bathrooms, sinks, bathtubs, walls, carpets, bedrooms, and even on the ceilings. In addition to the roach infestation, I have serious concerns about black mold, which I have discovered in all the vents throughout the apartment. This is a major health hazard, particularly with young children in the home. Furthermore, the bathroom pipes are severely corroded, and the cabinets appear to be dry-rotted with visible signs of water damage and mold. The mirror and light fixtures are also affected, with noticeable mold and rust buildup. The condition of the kitchen is equally troubling. The cabinets are covered in excessive dirt and roach residue, making it extremely uncomfortable to store any kitchenware. The dishwasher, too, is infested with mold both inside and outside of the unit. Overall, the living conditions in this apartment are far below acceptable standards, and I am deeply concerned for the health and safety of my family, particularly my children.	Follow Up	12/06/2024

CRH240963	6350 WIND RIDER WAY	37	6350 Wind Rider Way – Unlicensed Rental allegedly used for short-term rental (AirBnB) - 2 separate complainants I am writing to ask that you investigate whether an unlicensed Airbnb is operating at 6350 Wind Rider Way, Columbia Md 21045. Over the past few month, I have observed numerous different groups of men, women and children (ranging from 4-6 in number) bringing suitcases into this address, and then leaving 3-5 days later. When approached by others in the neighborhood, several of these people have identified themselves as Airbnb guests. I have also seen multiple different cars parked in the assigned parking space for this property. In addition, one of my neighbors did some research and found an Airbnb listing for 6350 Wind Rider Way, which I have copied below into this email. It's my understanding that short term rentals (less than 30 days) are not allowed in Howard county. The Airbnb listing for this property allows a minimum rental of 5 days. It also indicates that these owners have renting out this property in this fashion for the past 3 months. I would appreciate it if you could check into this apparent Airbnb operating in our townhouse community in Columbia. Thank you, Jason Sayers	Follow Up	12/17/2024

Message...
There is an illegal short term rental operating at 6350 Wind Rider Way.

https://www.airbnb.com/slink/rIxqw2Ot

Name (optional)
Moses Undayag

Email Address
californiamaryland-home@yahoo.com

Hello,

Thank you for your email.

We are looking into this before opening a case.
The link you provided doesn't take us to the address in question, but research will hopefully bring up the listing.

Will let you know what we determine.

AIRBNBs are not permitted in the County if the stay is less than 30 days. Long-term rentals in an AIRBNB (over 30 days) are allowed but require a rental license.

RENTAL HOUSING INSPECTIONS & CODE ENFORCEMENT

Good Morning,

The address is 6350 Wind Rider Way.

Thanks,

CRH240965	6200 VALENCIA LN	36	Marlow Apts, RH22000761, 6200 Valencia Ln., Apt. 7034 – Unresolved sewer odor in apartment We are writing to request an inspection and file a complaint due to our apartment being filled with toxic sewage smell and gases on a daily basis for hours on end, which creates an unsafe, unsanitary, and uninhabitable living environment. This issue has	Follow Up	10/16/2024

continued to worsen over a period of weeks/months. We live in Unit 7034 at the Marlow Apartments building in Columbia, MD at 6200 Valencia Lane. Please see below for a timeline of this issue, as well as attached screenshots for further reference.Timeline (please see attachments for associated evidence/documentation for each item):
1. 6/1/24- First notification to investigate a stench in the apartment resembling sewage/excrement. Maintenance came the next day, but left because they were unable to identify the smell since it was not present while they were here.
2. 6/15/24- Secondary request made, maintenance returned and sprayed deodorizer, still unable to identify the issue. Smell temporarily resolved.
3. 7/19/24- Management sends email discussing sewage gas being blown across the building
4. 8/12/24- Our unit (7034) and others in the complex noticed the very strong smell return. Some units notify the fire department, and multiple trucks arrive. Spoke with maintenance who said it was not a carbon monoxide issue, but rather a sewage gas smell.
1. 8/13/24- Maintenance arrives to ask about the smell, mentions that multiple people called the fire department, and advised us to work with management as they were unable to solve the issue themselves. Maintenance marks request as canceled.
5. 8/17/24- Verbally spoke to the front desk to mention the smell and ask if there is a solution. We are told that they were unaware that multiple units were experiencing issues, despite the fire department and maintenance teams both being called by multiple units. Verbally informed them of intent to contact the county should resolution not be found in a timely manner. (No attachments available, as these were verbal conversations)
6. 8/18/24- Maintenance request submitted offering to have our unit inspected when professionals were hired to investigate. Informed verbally that plumbers resolved a pipe blockage found on the roof.
7. 8/20/24- Management writes to inform that the pipe blockage is resolved, and asks if the issue is resolved. We respond that the smell is now worse. We had verbally suggested several times that someone come by later in the evening when the smell is always happening so that someone can diagnose

the issue, but now include this in writing (and receive no response). Following this, the smell began occurring during the daytime as well.
8. 8/21/24- Formal letter of complaint submitted to all management staff (Community Manager, Regional Property Manager, and Leasing staff). Confirmed with and cc'd neighboring units on communication. No written response received. We are verbally told that plumbers have another idea to install caps/seals in the HVAC closet and that this will fix the issue.
1. Screenshot of email cc'ing neighbors is also included.
9. 8/26/24- Caps installed. Odor resolved for a few days before returning. Overheard plumbers mention the unit directly below us has a broken pipe. Attached screenshot of message notifying us of plan to install caps on 8/26.
10. 9/2/24- Odor returns very strongly. Another formal letter of complaint submitted along with notification of county complaint. Again, no written response has yet been received, not even one acknowledging my message.
If you have any further questions please do not hesitate to contact us at our mobile numbers:
• Ashley Wray: 301-741-8478
• Rahul Sitaram: 443-994-7020
We look forward to hearing from you and appreciate your assistance in resolving this issue.

Best Regards,

CRH240973	8325 ARI CT	47	Autumn Woods Apts. T00006224, 8325 Ari Ct. apt 1C – Unresolved leaks not properly remediated or repaired leading to mold issues	Follow Up	09/30/2024

My name is Cody Noble and I would like to request an inspection at my apartment 8325 Ari Ct. apt1C, Jessup MD 20794. I have had 3 leaks now in 6 months since I have moved in, including the Kitchen, Bathroom, and HVAC room. The landlord has neglected to properly clean up all of these leaks. It seems they're trying to sweep my claims under the rug. The property is owned by Storch Realty and the apartment complex is called Autumn Woods. The landlords have blown me off and are essentially denying and blaming me (contradicting) for the water leaks and mold.

Timeline:

Kitchen leak - Mid April, my first week of living here my sink and dishwasher flooded the kitchen. The maintenance didn't clean up properly.

Bathroom leak - valve burst and bathroom flooded - July13th 2024, they sent someone out to shopvac the water up but the maintenance man cancelled the carpet contractor to come in and fully dry it out with blowers.

HVAC leak - the maintenance man indicated to me that there was a leak on Aug 29th 2024. Then he told the management there was no leak. I had an HVAC contractor come out and confirm that there was significant moisture and a leak on 3 Sep 202;

Mold has started forming and I reported it on Aug28th 2024.

Both myself and my gf have gotten sick and have been diagnosed with sinus infections from being in this place. She would leave my apartment to go throw up with headaches right before we realized there was mold.

I can be reached at this email and by cell at 443-963-8387

CRH240995	5764 STEVENS FOREST RD	36	Columbia Pointe Apts., T00006542 - 5764 Stevens Forest RD, Apt 626 – No HVAC since April with fears they will have no heat My name is Prasenjit Saha. I live in Columbia Pointe Apartments. I moved in on April 20th 2024 and put in a service request that my AC was not working on April 30th 2024. I had to live through this heat for 2 months and for the most part stayed at my friend's apartment. Then they only provided me a portable AC in bedroom. It is loud, takes time to cool, and only covers the bedroom. My thermostat is always around 84-85 and I have given up thinking they will repair my AC. I do not know why I had to continue to pay rent. They only gave me $200 dollar rent credit for this month. However, I do not know what the repercussions of not paying rent would be. May I have someone come in to inspect this? Thanks, Prasenjit Saha Prasenjit Saha: Please see attached instructions for filing a complaint with our office. We will need to have your complete address, including apartment number and your contact phone number. We see that you reported your HVAC not working 4/30/24. Have you reported it after that? What action did the complex	Follow Up	11/07/2024

take beyond providing you with a portable HVAC unit? Is it cooling at all?

Questions regarding the rent should be directed to the Office of Consumer Protection (413-313-6420). You may file a complaint with them through their website: https://www.howardcountymd.gov/consumer-protection/consumer-protection-complaints - Consumer Protection Complaint https://www.howardcountymd.gov/consumer-protection/landlord-tenant-information - Landlord Tenant Information

Hi,

Sorry I missed the reply to my email. My complete address is noted below. Yes, I reported multiple times since I moved in 4/22/24. I did not have central AC all summer and now worry I will have no heat over the winter. There is not air blowing at all through the HVAC system. Whenever I bring it up with my apartment manager (3 changes in the past couple of months), they say I am on the list to have it repaired. I have given up hope. I would really appreciate any help.

CRH240996	12130 LITTLE PATUXENT PKWY	35	Bluffs at Clarys Forest Apts. T00006536 - 12130 Little Patuxent Pkwy., Unit #L – Unrepaired ceiling water damage and alleged unresolved HVAC leak I have had this issue in my apt since I moved here 3/2022 and all management does is remove the ceiling tiles , but refuses to fix the problem. This year the last time this was fixed was at the end of june right after the filter was changed and I had to turn on the HVAC system to keep it cool in here. The CONTRACTORS did not fix it. I was trying to abide by the attached letter from Management to move, I	Follow Up	10/22/2024

wasnt able to find anything in the short time. This needs to be fixed.

AlwaysRhonda

Thonda Thurston:

Please see attached instructions for filing a complaint with our office. Please provide some details/narrative on the leak you are referring to. Additionally, we must know the DATE you reported this issue to the owner/management through their reporting system and what action, if any, they took? This office will also need your contact phone number.

RENTAL HOUSING INSEPCTIONS
To whom it may concern,

As a resident who lives in this apartment since 2022 every year I go thru management changing this ceiling several times throughout my stay. This year I began reporting this instantly after the filters changed May 1st. The last time they changed my ceiling was at the

My address is 12130 little patuxent parkway #L Columbia, nd 21044
Henderson- Webb Clarys Bluff apartment
This matter was reported every year and it appears water comes out only when the HVAC system is on for cool air. Like I said before I have reported this 3 times this year right after the apartment complex changed the filter in May 2024. Then Maintenance came out again within a month which was June. Then management got a " Contractor" to replace or should I say fix and stop the drip. As you can see this drip did not stop the water began to flow in other areas and this was from June to now. Attached is a letter for me to Vacate because I was unhappy. I was unable to find another place, and this eyesore still exists.

CRH241000	3208 WHEATON WAY	18	Renaissance Hills Apts., T00006563, T00006178 - 3208 Wheaton Way L – Mice not being properly excluded from unit	Follow Up	11/06/2024

I hope this message finds you well. My family and I are currently residing at 3208 Wheaton Way L, Ellicott City Maryland 21043 in Howard County, and we have recently experienced significant issues related to a mice infestation. I am writing to urgently request an inspection of our rental apartment due to the ongoing rodent infestation that has not been adequately addressed by our landlord.We have been renting the apartment for a little over a month, and during this time, we have repeatedly raised concerns about mice in the unit. Despite these reports, the issue remains unresolved. The leasing office initially sent an exterminator, who claimed there was no activity, but we have video evidence from cameras we set up that clearly show mice still present in the apartment.

Following this, maintenance staff applied expandable foam to possible entry points, but this has not addressed the infestation inside the apartment. The mice remain active, and the kitchen is now unsanitary and unusable due to contamination. Additionally, we had pointed out the electrical room as a potential nesting area, and when it was finally opened, evidence of bird activity was found, further adding to health concerns.Given the severity of this situation, we kindly request a rental housing inspection to assess the habitability of the property and to ensure the necessary corrective actions are taken. Please advise us on the next steps for scheduling the inspection and any additional information you may need from us. I have included pictures and videos for reference. We are unable to utilize our kitchen at this point and my husband has been treated for food poisoning. It is taking a toll on us mentally and physically.

Thank you for your prompt attention to this matter.

Sincerely,
Andell and Issa Connell

CRH241010	13720 BOLD VENTURE DR	22	RH24000514 – HVAC not working since 9/1/24	Follow Up	05/01/2026

I'm writing this letter to make a complaint about the above-mentioned property. I sign a lease on September 1st, 2024 with Mrs. Ni Hai Yan. On this day we noticed the upstairs space was very hot and she said not to worry that she would have someone out to fix it the HVAC unit. Since then, 3 separate companies have been out to fix the unit and have been unsuccessful. all contractors advised that she replace the unit. On September 8th her husband Mr. Chi finally reached out to me and said they would replace the unit. On September 11th Mrs. Ni said the quote they received was too high and wanted to know if I had any recommendations.

I'm a single (widow) mother of 5 children and when moving into this unit it was advertised as a 5-bedroom property but is only a 4 bedroom. I have personally fix serval items in the unit to hopefully make my children comfortable. Mrs. Ni collected a 2month security deposit and 6month rent upfront totaling $44,000 from my family. Our rent is $5,500 monthly and we haven't been able to move in due to the HVAC being broken and the water quality of the house being highly acidic (which explains all the damage pipes I've had to fix). I'm currently commuting 2 hrs. every day because my children and I are unable to move in the unit. My children attended Howard county schools and the schools require us to sleep in the county my children attend school. This has been very frustrating and hard for me to deal with and I'm asking for Howard county licensing to get involved.

Thank you

CRH241014	10430 SWIFT STREAM PL	36	10X Living at Columbia Town Center T000009501 Et. Al., 10430 Swift Stream Place, Apt, 201 – Trash issues and unknown odor in unit that tenant believes to be mold	Follow Up	02/19/2025

I moved into my apartment on July 27, 2024. The

first few days, I noticed when in my kitchen, that I was getting cigarette smoke coming in through a vent in my kitchen (not sure how that happens with proper ventilation). Literally a week later, we started to notice a super strong moth ball smell coming out of the vent and now making my apartment smell horrible, to the point when the A/C is on, its nauseating. I also notice the smell being strong at times too when I walk past the next door apartment, which is up against mine. At first I just thought it was moth balls, but after looking online, its suggested that mold also smells like this! NOT COOL!

I have emailed for almost two weeks to the management office, and finally on Saturday, I got a reply to put in a maintenance request. I did and stressed the urgency, and still nothing has been done and no one has been out. I even talked to Erin in the front office today, and she said that the maintenance supervisor would be by and still nothing. My food pantry stinks, and I have plug in air fresheners and a wax warmer going 24/7 as I have OCD and very particular with my house, and you cant even smell them the stench is so bad.

I am super worried that it could be mold. Its bad enough I can not leave my apartment without drowning in the smell of trash from people sitting their trash in the hallway for days, to the horrific smell of weed. I really need someone to come out and inspect this unit, as I have zero faith in the maintenance/management staff, and I certainly cant keep going on like this. Everyone that has come over has said the second they walk in the door “oh my, what is that smell?”

My number is 410-294-1596 and my personal email is daching22@gmail.com

Thanks
Andrea Dale:

Please see the attached document outlining this office ’s code limitations with regard to alleged mold issues.
Mold is not something we can cite under the Rental Housing Property Maintenance Code. If there is an

active leak, visible to our inspectors, that often lead to mold conditions, we can address the mold indirectly by citing the code violation. Additionally, the cigarette/marijuana smoke is not something this office. If there was a hole in the wall from your apartment into the adjoining apartment, we could require that the hole be repairs; however, it sounds like that is not the case. Our inspectors are not equipped to conduct air quality testing nor can we compel an owner to conduct air quality testing. Trash in the hallways may be something that this office can address. What date did you report your issues to management and what action, if any, have they taken to date? Can you provide more details?

Thank you so much for the quick response. Its sooo frustrating. I am someone to give everyone the benefit of the doubt and time to respond. Also, I have to keep in mind that its an apartment and not everyone has the same living standards that I do. When I first moved in, it was no working appliances for a few weeks and then that got fixed, but only after numerous calls and emails. As for the trash, I have emailed and called, and was told they would take care of it and its still an issue, so I gave up on that. We have valet trash that picks up Sunday thru Thursday (a terrible idea in an apartment community), so we are to put trash out no earlier than 6 pm on these pick up days. Atleast half of my hallway, uses their pick up containers for their “outside” trash bins and most stay full most days. I have one neighbor that puts no trash out during the week, but puts several bags out on Friday morning, so they sit until Sunday night. I have given up on that, and now with the weed smell, the trash smell is not as bad… ?.

CRH241026	10725 EVENING WIND CT	30	10725 Evening Wind – Alleged unlicensed rental	Follow Up	09/24/2024

property

Thank you for your our work in our county!
I have reached out to you before and you have been helpful.
Our neighbors at 10725 Evening Wind have multiple boarders.
It is owner occupied but not solely by owner and his immediate family.
The boarders are employees of his company.
There are a total of 9 cars including two work vans.
“Every dwelling or dwelling unit in Howard Co. which is not occupied solely by the owner or owner’s immediate family must be licensed. A license is also required if more than one boarder, roomer or renter occupies the dwelling with the owner.”
To me this means our neighbor is in violation of the law.
Please tell me if I am understanding the county law correctly.
Our local Wilde Lake Village states that even if one boarder is in the home a small business application has to be submitted.
I realize this is not your area of concern.
I just want to know that I am understanding the county law correctly.
I realize it is difficult to prove the owner has boarders who are not immediate family.
He has stated to me and two other neighbors, “I need the rent money to pay my mortgage”.
We gave him an application from your office for a license and an application from our Wilde Lake Village covenants for an in-home business,
Please understand this has been a difficult situation for our neighborhood and though we welcome any new neighbors we would like for them to obey the laws.
Thank you for any help or advice that you can give.

hildegardens@gmail.com

Unlicensed rental cases are extremely difficult for us to prove unless a complaint comes from a tenant residing within the home. Howard County Office of Law advises us to not proceed with enforcement action unless the inspector can conclusively confirm the property is in fact occupied by tenants. Should you wish us to investigate, we would send an inspector to the property to knock on the door in an effort to determine occupancy. If they answer the door and respond they are tenants that is great; however, most of the time they will not answer the door nor will they call us back if we leave a card. The next step would be to send the property owner a letter (not a Notice of Violation). If they respond to the letter we have something, if they do not respond, our policy, upon our legal advice, is to close the case for lack of concrete evidence to proceed.

Please let us know if you would like a case opened for the alleged unlicensed unit.

Linda Branagan:

Your question regarding small businesses should be directed to Zoning (410-313-2350). They would also be the agency to investigate businesses being operated from a home. A property owner may have one roomer or boarder (they share the house, not talking about an apartment) and be exempt from rental licensing requirements. Zoning Code Enforcement:

Thank you for your reply.
Please do open a case for the alleged unlicensed unit at 10725 Evening Wind Ct.
Please keep in mind that the tenants work during the week normally 7am to 4pm or 5pm.
It would be easy for the inspector to see the tenants enter and exiting the house and their vehicles early morning and then end of work day.
Thank you!
Linda E Branagan

Frederick Bangura:

Attached are instructions for filing a rental housing complaint. Do not attach photos or videos or the county email system will block your email.

1. We will need your name and phone number
2. The rental property address where the issue is occurring
3. A description of your issues (I think you mentioned rodents and mice). Provide written detail.
4. We need to know what date you reported these issues to the owner/management and what action they took, if any

We believe that you originally submitted your complaint online through TellHoco of Clickfix since you received a CS confirmation number. Those sites are for county wide complaints and sometimes take weeks to get routed to the right agency.

Once we receive your written complaint, it will be reviewed and if we can open a case, it will be opened and you will receive an email back with a case number and an inspector assignment

Mallery Cohen - Complainant

I live in a rental unit and have been experiencing a mouse infestation since I moved in at the end of December 2023. We noticed the mice maybe about a month after we moved in but were told by maintenance that there was a mouse issue prior to us moving in and they thought all the mice were gone. The leasing office was notified every time I found mouse droppings or saw a mouse. The leasing office would then send pest control out to my unit. I have 4 kids living in the unit with me and this obviously a health hazard. I find mice droppings constantly on my kitchen table which I then have to remove the droppings and disinfect the area. We have found them on the kitchen counter, kitchen floor, kitchen pantry (which I went months without using because I would find droppings on the food boxes which were on the third of fourth shelf)sofa, we found nesting behind the sofa, bathroom floor as well as upstairs on the beds, bathrooms and my kids have seen them in their rooms. I don’t know what to do from here. Can you please come out and assess the situation. I’ve attached pictures of the droppings that I found yesterday in the bathroom and this morning in my kitchen including on my kitchen table.

I live in Sierra woods.

5/30 - Initial maintenance request: "ceiling above the bathtub suddenly has a hole and is leaking water." Maintenance claimed they fixed the problem, but never returned to patch the hole.
5/31 - Emergency maintenance was called. I was told they were in contact with the building maintenance team supervisor and that the leak was fixed.
8/11 - 2nd maintenance request: "A ticket was put in on May 30th for a hole in the ceiling above the bathtub. Hole was never repaired. It is leaking once again and the hole is worse. I would like someone to contact me regarding this request. Thank you."
8/14 - 3rd maintenance request: "Damage to the ceiling above the bathtub has worsened because no one has come out to repair/replace leaking pipes." The office was closed, so I contacted emergency maintenance. No one came out, but I received a call from someone named Tony, who said he would pass the message along to the building maintenance supervisor, Santos.
8/15 - Another claim that the leaking pipes had been fixed. They also pulled off damaged paint.
8/19 - Ceiling was patched.
8/21 - Ceiling was painted.
9/26 - 4th maintenance request: "Another ceiling leak in the bathroom!" The ceiling was patched the same day, and a maintenance slip was left indicating that the leak was found and the problem was solved.
9/27 - I received a call from the leasing manager confirming the leak was fixed and that a paint job was scheduled for Monday 9/30. At 7:48 pm, I heard water dripping in the bathtub, and less than 10 minutes later, parts of the ceiling fell. Emergency maintenance was called.
I also wanted to mention that it was documented on the last maintenance ticket that the damaged drywall was replaced, which I don’t believe is accurate. It looks like it was just patched, and some water pockets are still visible.
As of now, two maintenance team members will be here in the morning to look at the ceiling once AGAIN (9/28). I have pictures and videos of everything mentioned above if needed. Please let me know if you have any further questions.

Thank you,
Ashley Gurwah

T00006543 - 9215 Traders Crossing, APT R – Unrepaired water damage that led to mold conditions must be properly repaired and remediated before re-occupancy by tenants I, and my partner (who is CC'd on this email), are residents at The Seasons Apartments located at 9220 Old Lantern Way, Laurel MD 20723. On the morning of Friday 9/27/2024 we had the ceiling, along with the insulation, of our top (second floor) apartment cave in on us resulting in damage to belongings. With the ceiling caving in there also appeared to be a great amount of dark, and in some cases, black looking moldy insulation. The management team was immediately notified and we were given keys to the apartment we are now currently residing in. Despite multiple face to face meetings with the lead manager at the leasing office and it being 5 business days we have received no formal documentation from the leasing office assigning us to this new apartment. Our	Follow Up	12/23/2024

initial apartment was located at 9215 Traders Xing APT R Laurel MD 20723 and the new one is the same street address, the only difference is an updated apartment from R to G. When we sign into our resident portal it is still showing us at the previously damaged apartment.

We have copies of submitted electronic maintenance requests and the email receipts from the apartment maintenance staff marking them as "complete" since 2018 reporting wet spots and water damage to the ceiling. Many times, despite these tickets being marked complete, no accompanying maintenance staff came into the apartment to take any corrective action. Additionally we have multiple submitted tickets in 2018, 2022, and 2024 with additional face-face requests from maintenance staff during building inspections and management at the leasing office. Water stains in the remaining ceiling persist even at the time of us having to leave the apartment from the caved in ceiling.

My partner and I work in high-stress environments, as a firefighter in Baltimore City and NASA Engineer. Having a peaceful place of residence helps facilitate us in our respective lines of work. This preventable situation has been significantly disruptive in our day to day life and respective job obligations

Given our situation, would you have any suggestions or guidance as to what options we have available to us? We have documents along with photos/videos available on request. Thank you for your time and guidance.

Respectfully,
TradersXingR_ceiling_collapse.zip

James Flanders and Nayi Castro:

Anything pertaining to your lease or damage to your belongings, should be directed to the Office of Consumer Protection (410-313-6420). A complaint can be filed on their website as follows and landlord/tenant information can be found there as

well:

Good morning and thank you for your speedy response.

For the time being we will remain at Apartment G as R is uninhabitable and we do not currently have an alternative. There is no plan to return to R. We bought our own mold test kits which after an air quality test showed mold growing on both petri dishes. Both samples are in transit to a lab for mold identification. As of this morning we still have access to apartment R where there is visible water damage in the ceiling along with a strong musky/moldy odor. Attached to this email is video of the incident aftermath along with photographs of the ceiling. Hopefully this can assist with an investigation. Thank you again for your time.

Respectfully,

James Flanders & Nayi Castro

CRH241114	7517 WEATHER WORN WAY	42	Unlicensed Rental (RH15000062 Cancelled) - 7517 Weather Worn Way Unit F My name is Lori Taylor. I live at 7517 Weather Worn Way Unit F Columbia, MD 21046. I've asked my landlord, the management company, McKenna and Vane to please replace the vents in the condo I rent from them. They've told me over and over that it's my responsibility. I cannot find any vents that fit to replace that vent cover on the HVAC. I've been coughing for 6 months. I don't want to cause any trouble, but they did an inspection recently and did nothing. I took out the ceiling vents and cleaned them, but the dry wall crumbled under the screws, so I had to duct tape them back. I've enclosed photos of the HVAC vent and other vents. They are filthy	Follow Up	12/10/2024

Best,

Lori Taylor
480.843.1400

Lori Taylor:

The unit you are residing in does not have a rental license. With your permission, we can open a case to pursue licensing. A complete inspection of the unit would need to take place before a rental license can be issued. Tenants are responsible, per code, to keep a unit clean and sanitary once they take possession of the property (which should be in clean and sanitary condition upon move in). Cleaning/vacuuming return vents would be a tenant responsibility. Rusted vents would be the owner's responsibility to address. Is the furnace filter being changed on a regular basis?

Please review information for Landlord/Tenants on Consumer Protection's website. It is not legal to rent without a license:
https://www.howardcountymd.gov/consumer-protection/landlord-tenant-information - Landlord Tenant Information
https://www.howardcountymd.gov/consumer-protection/consumer-protection-complaints - Consumer Protection Complaint

Please let us know if you give us permission to open a case to pursue licensing.

I change the filter on a regular basis, yes.

What does that mean for my landlord if they do not have a license? Will I have to move out? My concern is retaliation from them.

Yes, you have my permission to inspect the unit.

Best,

Lori Taylor

yes, you can pursue a licensing case

Thank you for taking the time to speak with me today.

Yes, you can pursue a licensing case.
I would include McKenna and Vane in the letter.

Michael McKenna

CRH241121	5301 COLUMBIA RD	30	Allister Town Center, T00006559 – 5301-C Columbia Rd. – Water Damage	Follow Up	12/16/2024

On 9/30/24 we were informed by Devon Johnson (DJ), Autumn Town Center's maintenance manager, that due to extensive structural damage in the dining room ceiling, living room ceiling, roof framing, and additional roofing areas there will need to be major repairs that will cut out a large portion of the dining and living room ceilings, as well as other undefined repairs, leaving an exposed gaping hole in our ceiling approximately 30'x 30'wide (see attached pics and video). This is the definition of an UNLIVABLE condition. DJ said this is due to the building settling from extensive rain and potential water damage which is a management maintenance issue and due to no fault of our own. We were told the repairs would take 3-5 days and had to begin immediately, less than 12 hrs from the time the issue was discovered.

To our utter dismay, there was absolutely NO CONSIDERATION FOR OUR FAMILY and zero concern for how or where we would live for the next 3 -5 days. Autumn Town Center’s Management Team essentially shrugged their shoulders and told us to ‘figure it out’ because the repairs were happening the next morning no matter what.

In an effort to help the management/maintenance team and allow them to start the work as soon as

possible we requested management provide money for our required hotel accommodations and dog boarding over the next 3-5 days because this has been designated an emergency repair. We needed assistance to make accommodations for our household including the dog because we were not prepared to have to leave our home and pay hotel and boarding fees with literally no notice.

The Autumn Town Center Property Manager, Changa King, denied our request for any financial support or for any accommodations and suggested it was still a livable environment. We are unclear if he reached out to and received this decision from Autumn Town Center or Olive Tree Management's upper management but the decision was swift and again, with no consideration for our family.

This is beyond unacceptable! It is NEGLIGENT to deny good standing tenants livable accommodations and ILLEGAL for Olive and Autumn to treat our family with such disregard. Based on 'Maryland's Minimum Livability Code', MD. Public Safety Code § 12-203 (2023), our tenant rights have been violated.

We believe our request was denied institutionally and/or individually due to INCOME DISCRIMINATION based on our middle class neighborhood. Think about it for a moment and imagine a higher end community trying to force their tenants to stay in an apartment unit that was in severe disrepair. (see attached pics and video)

This is a tremendous inconvenience for our family as we will not have safe access to our kitchen, dining room or living room for 3-5 days. There is EXPOSED INSULATION, WIRING, and PIPING (see attached pics and video). Management's negligence has negatively impacted our quality of life, finances, work schedules, school schedules, and the care for our pet dog Bleu.

CRH241131	9834 RAINLEAF CT	42	Alleged unlicensed rental property – 9834 Rainleaf Ct I want to make a complaint about my neighbour who lives at 9834 rainleaf ct. Columbia, MD rented his basement to a (black/male) person. I don't believe he took the rental license and did go through proper inspection. I visited his house before. He made a kitchen without the association's approval. Infact, the unit where the rentar is staying has an open electrical panel. I believe this is dangerous. The unit has no proper escape option in case of an emergency. Moreover, since the rentar is not allowed to enter the house using the front door, the rentar goes to the unit through my backyard overtaking 3 more houses. We don't feel secure. I expect you to take immediate action and see if they are allowed to rent the house since it is a townhouse. And, if the rentar can use another way to get in the basement. Appreciate your cooperation. Thanks Jack Samuel 9830 Rainleaf ct	Follow Up	12/23/2024

CRH241140	3129 NORMANDY WOODS DR	25	RENAISSANCE HILLS ELLICOTT APTS, T00006178, T00006563 – 3129 Normandy Woods Dr. Apt. C – Possible HVAC leak that may have lead to mold conditions allegedly not properly repaired and remediated (Need to see HVAC Closet) I'm reaching out to inform the county about a serious mold / health issue at an apartment unit. My family and I moved into the below address Aug 2024 from the west coast. We only saw photos of the unit beforehand. Renaissance Hills 3129 Normandy Woods Dr Apt C Ellicott city, MD 21043 When we moved in, within 1 day we felt health symptoms and discovered mold growing in the bedroom, baseboards, and HVAC closet. The entire unit smelled strongly of mold. We only stayed a few days and then went into an airbnb as we felt it was not healthy (We have a toddler and I was 8 mouths pregnant). We immediately reported the issue to management and they sent maintenance to "resolve". Maintenance came once with a spray cleaner and again with a paint can. We refused entry both times as it was clear this was not a sufficient solution. We went to management multiple times and then asked to be let out of our lease, which we were. We had mold testing of air and tape samples done, see attached. The results show elevated levels of harmful mold jn the bedroom as well as wet walls and	Follow Up	10/30/2024

a structural water issue outside/against this ground floor unit.

We are moved out, but I want the county to know to hopefully prevent someone else from being subject to this unit. Its clear owners/mgmt will not properly remediate.

I can be reached at this email or cell 805-822-9966.

Thank you,

CRH241158	11239 CRYSTAL RUN	35	RH24000058 – No heat and no HVAC believed to be a thermostat issue My name is Bernice Davis. I am writing to file a complaint with my landlord, my current address is 11239 Crystal Run Way, Unit A, Columbia MD, 21044. I have been living in this unit with no working heat/air condition. I have a health condition (Sickle Cell) and because of my condition I am not able to live in such a poor condition and it requires me to not be in a very cold environment. These last couple of nights have been cold. October 13, 2024 i had to check in to Patient First because my sickle cell started flaring up because there is no heat in the property. I wouldn't mind using a space heater but it states in my lease that I am not able to do so. She is trying to wrongly force me out of the unit because she is trying to hold me accountable for the thermostat not working but it states on the thermostat that the HVAC is not connected to the thermostat. Yes I did inform the landlord that the thermostat does work on the 9th of september, 2024. I have proof of the errors that the thermostat is giving and also me informing her about the issue. -- Thanks, Bernice Bernice Davis: We are in receipt of your two emails. We will need	Follow Up	10/24/2024

your contact phone number.

What date was the no heat/no air reported to the property owner? What action did they take, if any, when it was reported. Typically, the HVAC and Heat would function based upon the thermostat setting. Does the heat/HVAC not come on at all?

We cannot assist you with the camera/doorbell issue You may discuss the provisions of your lease with the Office of Consumer Protection (410-313-6420).

My contact information is - (240) 709-0990

I notified the landlord about this issue September 9, 2024. She then sent me a form for me in writing asking me to vacate the property. She's accusing me of being responsible, the thermostat isn't working because there's a wiring issue, that was my first time ever touching that thermostat and one once I swam that it wasn't working I immediately emailed and that was her response. When we did the walk through to check off things while picking my key up from her that thermostat was not something we checked on nor was it connected to any WiFi, the WiFi was connected a month or two later after me and my daughter seen the place which is when she installed them cameras. It also states that the HVAC is not connected to the thermostat which sounds like a technician issue. Now I did say that I was gonna connect to an usb cord to try to have it working manually but because the HVAC is not connected to the thermostat it will not work manually either. I currently have a voucher and they have been notified as well. They came and did the inspection and that failed due a non working furnace heat/air conditioning.

CRH241161	5196 TALBOTS LANDING	31	RH18000076, 5196 Talbots Landing – Numerous unresolved maintenance issues Good morning, my name is Rossmery Moncada. Together with my husband Dani Nateros, we rented a property at 5196 Landing in Ellicott City, Howard	Follow Up	07/03/2025

County.

First of all, it should be noted that a verbal contract was made for the amount of $1,300. This amount was for the rent of the house plus the taxes.
No receipt was ever given and the contract was delivered almost two months after we moved in.
We left it on record to the owner that the house was not in good condition. We detailed and specified everything that the house needed, repairs, connections, insect problems in the house, among others.
The owner never solved the problems and always ignored our requests. On several occasions, he told us that he could buy the electrical items, carpet and others and that we should install them. We very kindly agreed to repair and install the carpet without having any knowledge.
When we arrived at this house it was summer time and the heat was very strong. The owner turned off the air conditioning because he justified it by saying that the consumption was too much and that we had to pay him an additional $200, which we did not agree to. He bought us a fan, something that did not work because the heat was very strong. We reiterated to him that we were dying of heat and that please we needed air conditioning. After two months in that situation, he brought us air conditioning from the windows, which we installed one in each room since he only gave us two for the whole house.

Although it is true that the contract states that the basemat is not finished, it was always stressed to him that it was in very bad condition since objects and spiders fell on us and there are even cables hanging from the ceiling. Something dangerous for us since we constantly went down to wash our clothes.

After four months of insistence, the gentleman hired someone to cover the ceiling of the Basement, which made us indignant. He demanded money for the material and the payment of the workers' labor. He insisted so much that my husband gave him $100 and told him that we do not have to pay for the repairs to his house since it is his responsibility to deliver a house in good condition to us.

The problems continued. Spiders constantly fell on our faces while we slept, while we cooked or while we bathed. One of the consequences of this situation is that my one-year-old baby was harmed by a spider bite. We informed the gentleman and he never flinched at the news. He repeated to me as he did the first day we moved in: “spray insecticide every day and they will go away.”

The worst thing about this situation is that we do not know our rights and this owner abuses us more and more and has us living in precarious conditions despite the fact that we pay him rent.

On October 14th my bathroom flooded, a lot of water fell from the ceiling, and when I called him he told me that he had nothing to talk to me about since he doesn't talk to women and that if there is a problem in the house Dani should let him know, I was so angry because it was an emergency, I was home alone with my baby and the bathroom was flooding.

Since we have lived in this house we have not had peace, we do not live in a peaceful environment. On repeated occasions they have entered the house without permission, on repeated occasions many people come to try to repair damages and they never do it. On repeated occasions the owner called my husband to take out his general trash and recycling.

We currently use a bathroom full of mold and mildew, full of humidity, they put hot air conditioning on in the heat and cold at night and all morning. It is clear that they are harassing us to leave the house and they succeeded because I no longer want to continue paying rent for a house where I have no peace or tranquility and much less security since at any moment the spiders can do us some lethal damage.

CRH241169	5106 HESPERUS DR	29	5106 Hesperus Drive – Alleged unlicensed rental per HOA	Initial Investigation	10/18/2024

We received a complaint that a homeowner is renting out their 1 car garage as living space. I searched the Citizen's Access online and found no license.

Is this practice permitted?

Debbie E. Nix
Covenant Advisor
Harper's Choice Community Association
5440 Old Tucker Row
Columbia, MD 21044
410-730-0770
"Working to Keep Harper's Choice The Best Choice"

We received a complaint that the owners of 5106 Hesperus Drive are renting out their garage as living space. The community association does not have any authority over rental housing concerns.

Is this a permitted use? If not, please open an investigation into this matter.

Thank you,
Debbie

Debbie Nix:

Are you indicating that the property owner converted their garage to an apartment? If so, we can make a referral to building inspections as there are no permits in the database. Additionally, if an apartment has been created, it must be approved by Zoning (410-313-2350). You may file a complaint directly with Zoning here: https://www.howardcountymd.gov/planning-zoning/code-enforcement

Lastly, if we are talking about a conversion of a space to an apartment approved by Zoning, a rental license would be required if it is not occupied by family members. If the garage does not have all components of a dwelling unit, we could not license it.

Can you provide any more details?

I don't think they've done any conversion. I drove by again today and the garage door is closed – I was hoping to find it open. The complainant said "They have rented out their garage and the person they have rented to has been loitering in front of the houses that are on Hesperus/Rondel Court. It looks like the guy is living in their garage." The owner is currently storing an untagged vehicle in their driveway – I've reported that to Zoning this week.

I first contacted Zoning about this report (see email thread below) and they sent me to you.

Debbie Nix:

If the garage hasn't been converted to a dwelling space, we could not license the garage. If the owner has only one "roomer" a license is not required. The most we can do here would be to open a case and an inspector can go to the property in an effort to determine if the owner is renting. If they do not answer the door, the inspector would leave a business card to call us. If they do not respond to that, we could send a letter, not a notice of violation, to the property owner advising them of licensing requirements. If there is no response to that letter and the inspector is not able to conclusively confirm the property is occupied by tenants, we have no choice to close our case. The Howard County Office of Law has advised us to not proceed with enforcement action without concrete evidence of tenant occupancy that requires licensing.

Would you like us to investigate?

Yes, please. I think that is best. The weather is changing and although an unfinished garage is probably cold, maybe its better than living on the street or in one's car.

Hello Mr. Lee,

We are aware the repairs are not completed. Once we assign to the contractor we remove from the system. The contractor is scheduled to complete all repairs by next week. My apologies this wasn't

explained as far as the system with your work orders. Thank you.

Three Weeks – Next Week? – My apartment has been in disarray 10 days now.

Ms. Linzy,

I had expected to put my apartment back in order this weekend. This task took 2 hours to move / cover / reconnect. I work long hours during the week, and now this, I guess, will be next weekend. As you know we are now in the 4th week since notification. And things have went from bad to worse. The workmen have tracked paint on the carpet / linoleum in the common area / bathroom / entrance area. They have not removed their shoes and now the carpet in the living room is dirty and stained. The sliding glass door molding is broken. Overall, a mess I have to live in. I am not sure who I have to to go to but I would like to speak to the owner of this property as I do not feel I am getting the satisfaction I deserve from you.

Please advise next in line.

Thank You,

Scott A Lee

Hello,

My supervisor's email is dadams@goldoller.com.
Have a great day!

D Adams,

As you will see from the lineage of emails below, I have had a maintenance issue in my apartment since 08/28/2024. It has continually gotten worse with 2,5 weeks of a contractor attempting to make repairs. Ms. Linzy has been very nice, but the dates she advised on were not met. I feel that this may be something she needs more support in assuring tenants' apartments are not in state of disrepair for 1.5 months. All the furniture in my apartment is covered in plastic, unable to watch TV, unbale to use my exercise equipment / unable to use my home office / unable to eat a meal in my apartment.

I pay almost $2000 / per month to live in a bedroom for over 3 weeks while tradesmen attempt to repair a water leak that is not in my apartment, but above.

PLEASE HELP!!
Sincerely,
Scott Lee

REMINDER - Water Leaks - Mold - Floor Buckling - Carpet Stained - Repairs NOT Complete - 17 Oct 2024

BE ADVISED:

I am filing a complaint today with the ATTORNEY GENERAL of Maryland and sharing this email, maintenance records and additional correspondence. Please see Item 9 and Item 10 which I received from outside counsel

I have been dealing with an issue in my apartment since 08/28/2024

Mrs. McDuffie:

There is no rental license on file with our office for the subject address/property. A rental license is required to rent in Howard County, Maryland. Issuance of a rental license requires a passing interior and exterior inspection before the rental license can be issued. You may wish to file a complaint with the Howard County Office of Consumer Protection (410-313-6420):

With your permission, this office can open a case for investigation of the unlicensed rental property. Please let us know.

See highlighted below. We will not open a case without your permission.

Good evening,

Yes you have our permission to open a case. This property has been under rental for many years. We are not the first tenants to have an issue .

Thank you

CRH241258	7412 GRACE DR	35	Robinson Overlook Apts. RH21000387 (Main) - 7412 Grace Drive, Apt 401 – Severe stink bug infestation. Must close up all openings to unit. I am writing to urgently request the county's intervention regarding a severe and ongoing stink bug infestation in my unit at 7412 Grace Drive, Apt 401, Columbia, MD 21044. Despite notifying the property management company, Woda Cooper Companies, of this issue multiple times, the response has been inadequate, and the infestation has only worsened. Currently, stink bugs are present throughout my entire	Follow Up	12/27/2024

unit, including in my clothing, dishwasher, microwave, enclosed light fixtures, and even my refrigerator. The property management's solution has been to vacuum up the bugs, which is not sustainable, given that they continue to enter the unit through gaps in the infrastructure. When I asked about this, I was told the infestation might be due to turning on the heat, which is an unacceptable answer when I need to use my heating system to maintain a livable environment.
I was informed that an exterminator would be sent out within a week, but this has yet to happen. I have also requested temporary relocation due to the health and safety concerns posed by this infestation, but my request was denied. It is unreasonable and unsafe for me to continue living under these conditions, and I am seeking the county's immediate assistance to address this matter.
I am urgently requesting a county inspection and support to ensure that my home is made safe and habitable. I am attaching photos as evidence of the severity of the infestation. Your assistance in holding the property management accountable and providing an effective solution would be greatly appreciated.
Please contact me at 240-428-9305 at your earliest convenience to discuss next steps.
Thank you for your prompt attention to this serious matter.

Sincerely,

Quanesha Richardson

CRH241282	8827 GOOSE LANDING CIR	30	RH24000122, 8827 Goose Landing Circle – Rodent infestation, active leak and unrepaired water damage leading to mold conditions Subject: Urgent: Mouse Infestation and Health Concerns - Request for Immediate Inspection Dear [Inspector's Office, I am writing to express my extreme concern regarding a severe mouse infestation in my unit at [Address]. This morning, I discovered a dead mouse in one of the peanut butter traps I had set. Additionally, I am worried that my dog may have come into contact with the mouse. I have contacted my veterinarian and am awaiting an emergency appointment. Attached, you will find images of the empty traps and the trapped mouse. These images provide clear evidence of the ongoing infestation. I am requesting an urgent inspection of my unit to assess the severity of the situation and to determine the necessary steps to eradicate the infestation. Given the potential health risks associated with mouse infestations, including the spread of diseases, I am deeply concerned about the well-being of my family and myself. Furthermore, I want to inform you that my landlord	Follow Up	12/27/2024

has issued a 30-day notice in retaliation for my recent health inspection report. This action has left me feeling vulnerable and uncertain about my housing situation.
I kindly request that you consider providing information on any available emergency housing options or assistance programs that may be applicable to my situation. This would be greatly appreciated as it would allow me to relocate to a safer environment and mitigate the health risks posed by the black mold and mouse infestation.
Thank you for your prompt attention to this urgent matter.
Sincerely,

What DATE was the mouse infestation reported to the property owner and what action did they take if any?

Afia Owusu:

Please see the attached document outlining the limitations of this office with regard to alleged mold issues. If you have an active leak, visible to the inspector, or unrepaired water damage that was previously reported to the property owner, we may be able to address that. This office is not able to assist with emergency housing. Abating a rodent infestation can be accomplished with tenants in place

Subject: Follow-up on Pest Infestation, Plumbing Issues, Mold Growth, and HVAC Leak
Dear, Inspector,
I am writing to confirm that I notified my landlord about the pest infestation in my home on or around

October 16, 2024, at approximately 9 PM.
Additionally, I want to inform you about the following ongoing issues:
* Plumbing Issue: In September of this year, I notified my landlord about a water leak from the pipes on the third floor that was damaging the drywall in the living room. A temporary fix was attempted, but black mold has since grown on the ceiling and remains unaddressed. While the landlord recently applied a solution to mask the appearance of the mold, the underlying issue and potential health risks remain.
* HVAC Leak: The HVAC unit in the basement is currently leaking, contributing to the growth of mold in the basement. A temporary fix was applied, but the leak persists.
Please let me know if you require any further information.
Thank you for your time and attention to these urgent matters.
Sincerely,

Afia Owusu

CRH241299	6200 VALENCIA LN	36	Marlow Apts. RH22000761, 6200 Valencia Ln., Apt. 7036 – Unresolved sewer odor in apartment I'd like to request an inspection of the aforementioned property as it relates to two separate on-going issues. Please see summary of issues below: (1) For the past 9 months, my apartment, along with neighboring apartments and several units below me have been subjected to a very rancid and deplorable odor. This inexplicable odor plagued my apartment since late January of this year. My communications with the property were left unresolved, along with no follow-up from then assistant property manager upon her resignation. We have had approximately 2 other assistant property managers since her departure and a lack of urgency to resolve the issue. Additionally, this property has grown increasing unsafe. I have on	Follow Up	01/30/2025

various occasions slept elsewhere at night when the smell appears to be the strongest, and my neighbors have complained of headaches and bloody noses. My neighbor filed a complaint with the state alleging health and safety code violations, and we've had the fire department come out several times to test the air. In August, the property finally acknowledged there even was an issue after several neighbors left poor reviews on google and yelp. They sent plumbers out to identify the cause/source of the smell, to no avail. Then, they had a special contractor come out to "investigate" and informed us that they "think it's sewage gas and will be able to fix the issue". They attempted to plug a hole in our connecting pipes, but this did not fix the issue. The smell went away for a couple weeks but later returned more aggressive than before. To date, there has been no additional follow-up, and the smell continues to come and go inside my home. Additionally, my thermostat goes from poor to fair, then poor again – and this has been on-going since January. I am also now having migraines, coughing, and having restless nights, which is affecting my productivity at work.
(2) The fire alarm has been going off intermittently and on a repeated basis, at all hours of the day and night, for the past year. Residents were informed that it was related to construction in the retail space below; however, it was later determined that there was an issue with the fire alarm system itself. The property alleged that "residents" were pulling and/or tampering with the alarm which was causing it to go off. I believe they are providing inaccurate information to residents and there is in fact a deeper issue. It is not fair to us that there is a lack of transparency with our communications with management, and that we could potentially be living in a building that was poorly built and/or rushed.

I can be reached on 202-793-5897, or by email at coledeola@gmail.com

Thank you!

Best,
Dee

CRH241320	4365 CENTENNIAL LN	24	RH16000341, 4365 Centennial Lane – No Heat for several weeks. Alleged unqualified persons working on system. Supplemental heat provided inadequate to maintain 68 degrees in all habitable places Allison shares that Harry has rescheduled work with his colleague, to occur tomorrow (versus today). On Fri, Nov 22, 2024, 7:59?AM Karen Robinson <klr7612@gmail.com> wrote: We have been without heat for several weeks now. We have been using space heaters and a heating blanket. We are seniors. This matter is unacceptable.	Follow Up	12/02/2024

Mr. Burrell has 2 HVAC systems for the house, an assisting unit which only heats the kitchen and one or two nearby rooms. The primary unit is out of service. It covers the bulk of the house including all of the 2nd floor and first floor bedrooms.

The property owner, Harry Burrell, refuses to replace the primary heating system for this property. Instead, he has brought in a one of his personal repairmen. Mr. Burrell also contacted a professional HVAC company. This gentleman also advised Mr. Burrell that the system may need to be replaced. Both were unsuccessful in their attempts to bring this system online. The professional HVAC repairman has more than 40 years of experience. He also had contracts with Howard County in terms of HVAC maintenance. At this time, several key components have been replaced on an aging system, namely an igniter (switched out 3 times), gas flow control valve, transformer, and heating coil. Mr. Burrell plans to bring a mechanical engineer to the property this morning. We have personal safety concerns that they will attempt to override built in system redundancies and operational efficiencies.

On Wednesday of this week we asked Mr. Burrell to pay for a hotel stay until he gets this matter resolved. He agreed.

Mr. Burrell accused of us being less flexible in terms of availability and getting a resolution. My sister, included on this email, has adjusted her work and daily schedule to meet with each contractor. We are both inconvenienced as I sometimes need to stay longer hours at work, awaiting to be picked up by Allison who in turn needed to wait for late arrivals by his personal repairman. Too, long email chains and texts confirm this content.

We have email and texts dating back to 10/31 that illustrate the length of this complaint.

We seek an immediate intervention and resolution.

RENTAL HOUSING INSPECTION

I`m not sure who Ms. Brown is. I was told to report the occupancy problem to this email address.

Shamia Cook
Assistant Manager

Apologies, was communicating with another resident about the same issue and had been asking for the address -the way your email started off, it sounded like a follow up -

The County process will be to make an inspection appointment through the owner, inspect and measure for total occupancy and inform the owner by Notice. We may contact the owner 1st to see if there are any current actions being taken.

The noise issues are a Police matter.

Will provide the case number and assigned Inspector to you shortly.

RENTAL HOUSING INSPECTION

Please see email at bottom from complainant dated 12.12.
I did some prelim to see if we needed to open a case.

I emailed the owner on Thursday 12.12 and didn’t hear back. I called the owner and spoke with him this morning.
He advised he went to the property and spoke with the tenant about the noise – not the number of people at the property. (Email to owner attached)
I explained to the owner it is the overcrowding, as noted in the email, that is the issue. He apparently doesn’t have the number of or identity of the persons authorized to live there in the lease. Once he told me that I let him know we would be opening the case and doing the inspection in January and we’ll let him know how many people can live there (.)
He is supposed to respond to my email today..

I will email the complainant in follow up once the case

			is open. I don't know if Matt has done an overcrowding -it's his area but I will do it, he can attend Thank you, Holley Robbins, Code Enforcement Officer Howard County Department of Inspections, Licenses and Permits Rental Housing Inspections

CRH241409	9407 SQUIRES CT	47	T00004384, 9407 Squires Ct – Numerous alleged maintenance issues I am writing on behalf of my client Ms. Linda Fleming. I am emailing to request an inspection of her home. Ms. Fleming has indicated that: (1) the heat in the apartment works intermittently, (2) mold is present in the upstairs bathroom, (3) it is unsafe to get down the front porch steps as there are no hand railings and a big first step making it easy to fall, and (4) steps to go up the stairs inside the home have no hand railings to support her go upstairs. My client has a doctor's note stating that she needs to be in an apartment with first-floor accommodation to go along side this request. We hope to get an inspection scheduled as soon as possible. Best, DeShawn Moore Anne Arundel/Howard County MARYLAND LEGAL AID 2024 West Street, Suite 204 Annapolis, MD 21401 Office: 410-972-2700 Cell: 443-615-5913 DeShawn Moore: We will need the complainant's contact information (phone number and email address, full name).	Follow Up	02/18/2025

We must know what date these issues were reported to the owner/management company and what action they took, if any.

Please see the attached information regarding the alleged mold issues. We cannot cite mold under the code. If there is unrepaired water damage or a leak visible to the inspector we can address that issue. Mold in showers is a common occurrence and should be cleaned regularly by the tenant. Need more information regarding this issue.

Handrails are required, by code, if stairs have more than four risers/steps. Is that the case here?

This office is not able to assist with the first floor accommodation request, but options could be discussed with the Office of Consumer Protection (410-313-6420) or consumer@howardcountymd.gov.

We await more information.

RENTAL HOUSING INSPECTIONS

The complainant's information is:
Name - Linda Fleming
Phone number - 240-300-5767
Email address: ehunter1948@yahoo.com

Ms. Fleming told her landlord about these issues starting in November of last year and all communication regarding these issues have been verbal.

The mold is present in the bathroom and basement. There is a window leak in the basement that is causing the mold to grow.

The steps inside the home do have more than four riser steps and there are no handrails to assist her. The steps outside only have 3 steps going down, however the first step is big and poses a fall risk to my client.

You don't often get email from rentalhousing@howardcountymd.gov. Learn why this is important

All,

The state database indicates that Unit 4 is occupied by the property owner as their principal residence. On advice from the Howard County Office of Law, we do not open cases for investigation without evidence that the property is, in fact, occupied by tenants. We most certainly can open a case if the complaint comes from the tenant living in the unit. Can you provide the off-premise address for the property owner? Can you provide other evidence that the unit is occupied by tenants and not immediate family members of the property owner (exempt from licensing)? State Info:

Hello

The owner has this property address as their mailing address. They have also been non responsive to all of our requests via phone calls and emails. The neighbors of the unit have confirmed that their is a tenant that is not a family member via verbal communication with the tenant.

CRH250015	6115 TULANE RD	34	RH23000265, 6115 Tulane Rd. – Alleged trash and debris on rental property premises. Possible work without permits was referred to Division Chief and Building Supervisor My name is Joseph Gibbons residing at 6576 Ballymore Ln, Clarksville, MD. I have been referred to your Department by the Department of Licensing and Inspections and the Department of Environmental Services. My property backs up to the above referenced property on Tulane Rd. It appears that the interior of the property is being renovated. This began shortly after August 2024. The construction debris has been piling up in the back yard ever since. The debris consists of lumber, plywood, plastic bags of trash, chicken wire and other debris. There is no dumpster on the site. None of this debris has moved over the course of 3-4 months and is piling up. I feel this is a hazard and an unsightly mess that requires the County's attention. There is no construction permit on file per the other Government departments I have been in contact with. There is an active rental license on the property. Mr. Rappaport from the Department of Environmental Services stated that he looked at the property and took photos of the debris. He forwarded those pictures to the Department of Licensing and Inspections via email. I am requesting that someone from the County handle this matter in some fashion so that the property owner (s) clear the debris from their yard. They do not have a Home Owners Association for that neighborhood or I would have referred the matter to the HOA. If there are any questions, please contact me. My cell phone is 410-245-7042. Thank you for your attention to this matter. Joseph Gibbons	Initial Investigation	01/09/2025

Forest Road, Apt. 519 – Numerous alleged maintenance issues

I'm Ryan Peltier, currently living at the Columbia Pointe apartment complex on 5764 Stevens Forest Road here in Columbia. There's been a lot of issues I've noticed since I moved in back at the start of October. The problems are as follows:
1. The door to the AC/HVAC unit doesn't close properly and has no handle.
2. The vent to the AC/HVAC unit that's inside the unit is not properly sealed off, so all the heat just simply leaks out.
3. There's a massive draft coming from the window in my bedroom despite the windows being closed and locked.
4. There's a very bad roach infestation somewhere in the complex. I notice they come out of the kitchen drain and the shower drain. Potentially in the fridge itself (it smells atrocious despite it being completely empty) and the walls of the unit?
5. The hallways on most floors have the carpeting ripped out and the baseboards are ripped off the walls.
6. They failed to shovel any of the sidewalks, stairs, parking lots, and roads in the complex.
7. All the amenities they advertise are not open and have not been open since I have moved in. The pool makes sense at being closed due to it being winter, but the weight room/fitness center and game room are both missing. I also don't have a pantry in my unit despite being advertised.
8. They have done a lackluster job with proper trash disposal. The chutes are often backed up completely, despite me living on the fifth floor.
9. The elevators are often a mess, the floors and walls of them are generally very dirty with trash in it.
I have submitted maintenance requests for a lot of this stuff but nothing has been done about it and I have not been contacted at all. It took someone knocking on my door and telling me that they're starting a new apartment union to inform me that we were actually bought out by a new rental company and I still haven't been able to pay rent because the website simply doesn't have a portal to pay anywhere.

I'm unsure of the next steps, but you can reach me via this email, or via phone call/text at 443-536-3721.
Thank you so much for your time and help,
Ryan Peltier

All issues have been raised to the prior ownership back in November. I was busy most of December and didn't have time to raise more issues.
I filed requests in the new system with the new management as soon as it opened on the 6th.
They actually sent someone out this morning for the HVAC, but all they did was tape it up. There still seems to be some kind of draft or leakage since the temperature in my place has dropped 3 degrees in 2.5 hours.
I am in Apartment 519.

CRH250042	8709 HAYSHED LN	36	RH09000729, 8709 Hayshed Lane, Unit 33 – Alleged water leak affecting units below. Mgmt. advised owner would not allow plumber in to fix leak. Water Leak and Hazardous Conditions in Long Reach House Condominium Rental Housing Howard County To whom it may concern My name is Mariana Cruz, and I am the owner and occupant of 8709 Hayshed Ln, Unit 13, Columbia, MD (First floor) at Long Reach House Condominium. I am reaching out to seek your guidance on a matter that has been severely affecting my living conditions. Since Oct 2023, I have been dealing with significant damage to my apartment caused by a leak from one of the units above mine (unit 23 in second floor). Despite numerous requests and notifications to the condominium administration, no effective action has been taken to address this issue. (I never got any update if the issue was fixed, and no one has responded for the damages). Currently, there is water filtration through my floor, originating from the apartments above (plumber said to believe is a leaking from unit 33 in third floor), which contains dark, potentially hazardous water. This situation has escalated to the point where my neighbor in Unit 14 has also been affected and had to vacate her apartment due to the dangerous living conditions. Despite multiple efforts to engage the administration, there has been a noticeable lack of timely and adequate response to resolve these critical concerns. I was recently informed that while it may not be possible to compel Unit #33 to make the necessary repairs, if it is a rental property, the property maintenance code can be enforced to stop the leak and ensure that repairs are made within their unit. Could you please guide us on how to proceed to ensure our safety and well-being? Your assistance in navigating this matter would be greatly appreciated. Thank you for your attention and support. Mariana Cruz:

An inspector has reached out to Condo Management regarding this issue. Condo Management advised they became aware of your issue on Monday and are actively attempting to gain access to unit 33 to make repairs. The inspector has also reached out to the owners of unit 33 (a rental unit) and is awaiting a response. If we do not receive a response, we'll be opening a case for investigation for the rental unit #33.

This office will let you know.

Tenat also reports structural issues in unit I have ongoing mice issues. It may be a little cold now and I'm still confused as to why you couldn't use before but until 1/4/25 no one had treated since August/September. I've caught multiple mice in the last few months, cleaned droppings and heard activity. In the wee hours of 1/4/25 I heard a mouse crying out loudly. I closed my bedroom door and put in my AirPods. The next day Orkin came in with the maintenance supervisor. I left the mouse where it had dragged itself and the trap in the middle of the floor so they could see it and they just left it there! I'm now dealing with Lila at the HoCo Consumer Protection Agency and she said I needed to notify your department again. I believe there are other major structural issues based on contractors here recently as well. CRH250059	5240 WEST RUNNING BROOK RD	30	5240 W. Running Brook Rd., Unit 201 – Unlicensed tenant occupied with life safety issue (owner bolted slider door shut prevent egress or point of rescue access) Hello my name is Marcus Watlington I live @ 5240 W Running Brook Rd . My landlord Charles Mungler ,has decided to bolt the sliding glass door closed so it may not be opened even in case of fire or emergency. Charles is in breach of the lease all roommates had access to the balcony which is considered a common area . Now he has denied 3 roommates of the 4 access to the balcony There are four roommates in the condo door 201. I have contacted the fire Marshal Walt Matthews in Howard County he gave me your contact information. Attached here is my lease I signed and pictures of the door bolted and me on the balcony prior to Charles bolting the door and copies of my lease agreement. CRH250060	9034 TOWN AND COUNTRY BLVD	17	ReNew Howard Crossing Apts., (T00006079, 608) – 9034 Town & Country Blvd. - Stairwell lights out in entire building (Only Entry/Exit) My name and contact info is Philip Cahill, 4434632514 When i moved into this apartment complex roughly 1.5 yrs ago the only Entry/Exit stairwell for the entire building 3rd floor light was broken for 2 months before getting fixed. I called every couple days in that time trying to get it fixed and kept being told we're working on it. Now the lights in the entire building are out and have been for a week now. I'm being told the same thing by the complex. I have been told they were coming Saturday to fix them. No one showed up. Then I was told Monday and no one showed up. I have gone up there in person and called multiple times trying to speak to the property manager and she is never available. I have also submitted multiple service requests for this. The first one they said was completed. I came back that night to no lights again. I talked to someone in the leasing office who told me that it was the contractor's responsibility because they messed something up when installing new light fixtures and not maintenance so they checked it completed so their ticket count didn't get too high. This is a real safety hazard. It is pitch black in the stairwell and I have almost fallen several times trying to navigate the stairs in the dark. Furthermore if there was a fire this is the only stairwell for the building to exit the building. SEE ATTACHMENTS	Follow Up	03/04/2025

CRH250063	9062 TOWN AND COUNTRY BLVD	17	ReNew Howard Crossing Apts. (T00006079, 6080) - 9062 Town and Country Blvd Apt #E – No hot water for 5 days now. Mgmt. now unresponsive. My name is Jordan Long and I am a current resident within Renew Howard Crossing Apartments in Ellicott City, Maryland. On Sunday, January 19th at 8:37AM I called the leasing office to report an EMERGENCY to the maintenance team. The emergency being we have NO HOT WATER IN THE MIDDLE OF WINTER (16 DEGREE WEATHER), even though our bills have	Follow Up	03/04/2025

been paid! I can not recall the name of who I spoke to the first time, but this lady assured me that the maintenance team was on their way to handle it and that it would be taken care of the same day. After hours of waiting for the maintenance team, I decided to call again at 2:05PM to see what the hold-up was since we haven't gotten any updates yet. This time, I spoke to someone named Ashley. She was aware of the issue and told me that the Property Manager would be giving me a call back ASAP. Moving onto Monday, January 20th -- DAY 2 OF NO HOT WATER -- still no update; still no call back from the Property Manager. I decided to call again at 4:50PM. I spoke to someone named Jessica and they told me that they are aware of the issue and that it was being handled. Again, I was told by Jessica that the Property Manager would be giving me a call back ASAP to discuss the issue. Moving onto Tuesday, January 21st -- DAY 3 OF NO HOT WATER -- still no update; still no call back from the Property Manager. Still waiting, I called the office again at 2:12PM and spoke to Jessica. She tells me the same exact thing as the day before; "she understands my frustration and will have the Property Manager give me a call back." Never have I ever received a callback from this "Property Manager." Moving onto today; Wednesday, January 22nd -- DAY 4 OF NO HOT WATER -- the first thing I did was call the leasing office at 9:23AM. I spoke to Ashley again, requested this "property manager's" name in which she told me their name was Sade Johnson. Ashley then reassures me that the contractor was scheduled to replace the water boiler for our building TODAY. After hours of more waiting, I decided to give the office another call at 3:53PM. This time I spoke with Sonja, and she then tells me that there is currently NO ETA on when the water boiler for our building will be replaced. Why do I keep getting the run-around and being lied to by everybody other than Sonja??? It is literally ILLEGAL in the state of Maryland for a landlord or property to not provide hot water to a tenant during the winter, as it is considered an ESSENTIAL SERVICE and part of the implied warranty of habitability, meaning landlords must maintain a dwelling in a reasonably safe and habitable condition, including access to hot water!!! Every morning we get up for work, it is 6 DEGREES

outside!!! If you ask me, this situation is NOT being handled like it is an emergency! In fact, it is being handled RATHER slowly! The leasing office swears up and down they can't do anything about it because of the contractor! None of my neighbors are receiving updates; and quite frankly, none of us are being treated the way we deserve to be treated. Like human beings! A DECENT property manager won't duck and dodge duties or responsibilities; they will reach out to tenants and provide the followup information we so deserve! As of today, January 23rd 12:38PM it is now going on Day #5 with no hot water, and we have yet to receive an ETA or any further updates on this matter. I am writing to you all on behalf of my neighbors and myself kindly asking for any help that we can get! We have been struggling without hot water in the coldest parts of Winter. Please and thank you!

Best Regards,
Jordan Long ~

CRH250064	5310 CEDAR LN	29	Ashton Green Apts. T00006556 - 5310 Cedar Ln apt 203 (complainant)– Unknown unresolved foul odor in apartment (Unit 199) Hello, my name is April Jackson, and I've resided at 5310 Cedar Ln apt 203 Columbia, MD 21044 (Ashton Green Apartments) since May of 2023.In April 2024, I began to smell a foul odor that was permeating through my apartment when I returned home. At first I thought it might be something coming from the kitchen sink. I then began pouring bleach and other cleaning agents down the drain to eliminate the odor, but it did not subside. On April 8, 2024, I submitted a maintenance request (see attachment 1). Maintenance followed up with me on April 9, 2024, but no source of the odor was identified. I have attached several email chains chronicling the correspondence between myself and the leasing office (Klingbeil Management) dating back to April 2024 to October 2024. See attachments 2-4. Throughout the maintenance process, the following were inspected: kitchen sink, laundry room, washing	Initial Investigation	02/07/2025

machine, dryer, behind appliances, the fireplace, air ducts, and the HVAC system. As a habit, I never leave trash in my unit. Therefore, the odor was not due to anything identified within the unit and can be confirmed with maintenance. In September 2024, maintenance discovered that the tenants in the unit beneath me had been accumulating both cat and dog feces in their indoor trash. Maintenance then informed me that they identified the source of the odor, as they were able to smell it first hand within their unit. The leasing office informed me that a formal letter was sent to the residents of that unit, and that they are now in compliance with general cleanliness standards.Since the odor is still in my unit, I don't know how the leasing office could make that kind of determination of them being compliant. The odor was constant but has now become intermittent. Meaning, I smell the odor throughout the day, but it is not constant.

As previously stated to the leasing office, my concern is that it could be mold which can emit various smells such as musty, stale, earthy, damp, sour, rotting, fermenting, or tangy. Also, if the smell is from a source of animal feces, I am aware that the release of ammonia/gases into the air can trigger respiratory issues and irritation in humans, and in high concentrations, could lead to illness. Please note that the EPA classifies animal feces as a biohazard. Another concern I have is that if there is an odor, that is indicative of something growing or something decaying.This has negatively impacted my physical and mental health, as the extremely poor air quality has been stressful and impacted my ability to maintain a normal lifestyle. Due to the odor, I am unable to have guests over or feel comfortable in my own home. In my last correspondence with the leasing office on October 21, 2024, I requested they provide an air purifier at no cost to me. However, a response to that request was never acknowledged. For your reference, see attachment 4.

I find myself in a catch 22. I would like to avoid unnecessary and costly moving expenses and continue to reside here, but would greatly appreciate the leasing office taking the necessary actions to resolve this issue.

CRH250065	5467 HIGH TIDE CT	29	5467 High Tide Ct. – Rodent infestation and unlicensed rental property (RH21000321 expired 6/14/2023) My name is Nicole Ogden, I was a tenant renting the property 5467 High Tide Ct., Columbia, MD 21044 from December 13, 2024 until January 22, 2025. I'm writing to file a complaint against the property management company Safari Homes Group owned by Safari Charles. The complaint is in regards to a series of events the transpired between January 8, 2025 to January 22, 2025 regarding a pest issue. On January 8th around 11AM I submitted a request via the tenants portal (DoorLoop) to inform the property manager (Safari Charles) that an animal was heard crawling around in either the ceiling or attic directly above the master bedroom. I called and scheduled for a pest inspector from Orkin to come and inspect for the presence of animals on the premises the same day that evening. Upon inspection they identified multiple factors as evidence of mice having been on the property including holes in the floor boards, droppings in the HVAC closet, near the refrigerator, underneath the sink along with a piece of pink insulation, as well as underneath the stove. The inspector speculated that based on the droppings appearance that they may be approximately 2-3 months old, and having preceded my move in. They also found a missing piece of soffit on the back of the laundry room with a wooden support leading directly into the hole. The inspector speculated that the animal was able to gain entry by climbing up the wood and directly into the roof. It should be noted that the laundry room is on the first floor, but the roof	Follow Up	03/04/2025

slopes and connects to the side of the house directly next to the master bedroom wall and window. They took a picture of the opening and shared it with me to inform the property of their findings. The inspector was not able to inspect the attic for activity as the door to access it is completely sealed in the master bedroom closet, and completely inaccessible. They also did not have authorization to perform treatment since they required permission from the owner to do so. I sent the picture to the property manager the next evening on January 9th at 6:20PM. In the meantime, the pest inspector recommended I do my best to try to audibly record the activity when possible, and to make noise to discourage movement. I attempted to capture footage on January 10th and January 17th. ETC

I will include as an attachment supporting documents and photographs. For video footage, if a link could be provided to upload the files, I can provide those immediately as well. For any additional questions on details, feel free to contact me via email: nicole.e.ogden@gmail.com or via phone: (716) 256-8549. Thank you and look forward to hearing from someone soon.
Sincerely,
Nicole E. Ogden

CRH250076	9440 CANTERBURY RIDING	47	9440 Canterbury Riding – Unlicensed rental property	Follow Up	03/10/2025

My name is Laverne Simpson. I recently moved in at 9440 Canterbury Riding, Laurel MD 20723 on Saturday, December 28, 2024. I signed a 1 year lease. The agreement between the Landlord (Hemmat Ahmed) and Tenant (Laverne Simpson) Prior to moving in, the Landlord (Hemmat Ahmed) gave me a tour of the home. We verbally agreed that I would rent the townhome with one roommate (Ms.

Keisha). Ms. Keisha currently resides in the basement of this home. The landlord informed me that I would be renting the master bedroom with a private bathroom and a shared living space which includes the kitchen, dining room and living room area. I agreed to pay $1250 per month which includes rent and and utilities. When the Landlord gave me a tour of the home, prior to signing the lease, she told me that the room came fully furnished. I agreed to these terms, and signed a 1 year lease. Upon moving in, the Landlord was currently living in the home with her daughter. The Landlord informed me that she would be moving out on 1/17/2025 when she closed on her new home.

My issue.
Thursday, January 16, 2025, The Landlord (Hemmat Ahmed) informed Ms. Keisha and I via text message, that she would be closing on her new home on 1/17/2025 and she would be moving out soon. She also asked us not to bring any sofas into the living room area because the living room is going "under construction" Baffled by this text, I texted back, and asked if she could explain more about the living room going "under construction" She then informed me via text that she will be converting her living room into actual bedroom. She also informed me that she would be taking her daughter's wall heater inside the room where I am occupying. I told her on text, that I have a few concerns and I would like to discuss more in person. The following Saturday morning around 10:30am, Ms. Hemmat and I sat at the dining room table and had a discussion.

I asked her will I get my security deposit back if I decided to move out. She said If I leave her home the same way I found it, yes I would get my deposit back. According to the lease, she charged me half the deposit of $600 to pay on 1/20/2025. She then informed me that now she would like all the tenants to split the cost of the electricity bill. I denied her request. I told her I did not agree to those terms. I signed a contract to pay $1250 per month which includes rent AND utilities. Then I stated to her that I do not agree to the new terms and conditions, converting her living room area into an actual

bedroom??? I reminded her that was not our initial agreement.

Yes, there is an apartment in the basement. There is a tenant who currently reside there. Her name is Keisha. There is only 1 kitchen in the home. No kitchen in the basement. The Landlord is planning to change the living room into a bedroom. I stated several times that I do not agree with her new terms and conditions. I signed a contract under false pretense. She is charging me $1250 for rent per month. She has breached the agreement we had. She has changed the terms and conditions after I signed a year lease.
I also filed a complaint with Consumer Protection.

CRH250083	5921 MYSTIC OCEAN LN	35	5921 Mystic Ocean lane – Unlicensed Rental Hello, I have lived at 5921 Mystic Ocean Ln, Clarksville, MD 21029, since July 1, 2022 when I moved to Maryland for my job. I first went into a 1 year lease, and the following year the landlord asked	Follow Up	02/10/2025

me to sign a 2 year lease if I would like the price increase from the previous year to be a lower percentage.

I went into contract to purchase a home in early December in Highland, about 5 miles away, to close January 10th, 2025. I notified my landlord on December 13, 2024, as soon as I was fairly certain all was going well with the home purchase. I let him know we would be moving out January 13-14, and then clean the house, so that a new tenant could move in February 1st or possibly before then.

Kangmin Zhu responded since there would be more than 6 months before the end of the lease, that it would be best if I identify a new tenant that they will need to approve for the rest of the period before 6/30/2025. This didn't make sense since it would be less than 6 months, but I'm not sure how it was relevant.

I let him know I wasn't sure what his requirements are for renting the unit, and I don't think I can advertise a place for rent if I'm not the owner or property manager. I didn't ask if I could post a sign in front of the property. I think we are in a townhouse/condo association development that has bylaws. I know once I was notified that we can't leave refuse cans on the driveway per association rules. I've never seen these rules.

Since then I've given him updates, and estimated times for moving out and cleaning.

He continued to insist I post an ad to rent the property. I began researching online and found the Howard County Landlord Tenant information website. It states that the landlord needs a permit to rent the property and to provide a copy to the tenant. I did not receive a copy, and so I contacted Howard County and learned this property does not have a rental permit.

The lease also states "When repair or replacement is needed, Tenant will tell Landlord about it. Landlord will pay the cost for the approved repair and

replacement and Tenant will pay a copay of $100." I've never seen a lease that requires a copay.

I found on the Howard County website that the landlord needs to provide us with the HOA's governing documents. I have not seen this but based on feedback regarding our trash cans, there must be some rules or obligations a tenant needs to follow. I also saw that the landlord must provide the rental housing license to the tenant, and if the owner fails to provide the notice, the tenant may terminate the lease without penalty. Also, a landlord must provide a copy of the OCP's Tenant Assistance publication.. I did not receive this.

Based on what I learned on the Howard County website, I sent a letter via email, signed by both me and my wife, that we are cancelling the residential lease agreement effective January 15, 2025. He insists that I am responsible for the property, and I have repeated that I have moved out. I asked him where he would like me to take the keys, and he didn't give a means to return the keys. He insists it is my responsibility to prevent damage to the property. I've repeated that I will not be returning to the property and that the utilities are taken out of my name effective January 15.

I would appreciate any help in the matter.

CRH250086	5788 STEVENS FOREST RD	36	Columbia Pointe Apts., T00006542 - 5788 Stevens Forest Road, Apartment 13 – No heat and other property maintenance violations unresolved Hello, I am going to say this al as best as I can, as I am so furious that I want to discuss everything that my boyfriend and I have been dealing with regarding our Columbia Pointe apartment. First, we were told that we could move into an apartment on November 3rd. We drove hours from Pennsylvania with a U-Haul full of stuff to their complex, only to be told that they messed up our lease and gave us a smaller apartment and it will not be ready for another week. They forced us to stay in a hotel for a week and did not even pay for it themselves for the inconvenience. Then, we signed up for a 6-month lease online which WAS an option, only to be told that 9 months is the shortest amount of time possible, which is false advertising. We finally get into the apartment and notice that many things are not held together well. Door handles are loose, our tub is leaking nonstop, and our furnace does not work. We have been in here now for two months now and our tub still leaks and our furnace has still not been fixed. We are actually physically ill from being so cold. It is unfit living conditions and I was told by a service manager that 50 units are going through the same thing. Multiple maintenance men have come by and said that parts need ordered but nobody has ever come back to fix these issues. This is at a dangerous level now because we are getting sick from the cold. We have called multiple times and keep hearing that "that is awful that we are making you wait this long. We are contacting management and the head maintenance guy right away". I have heard that numerous times and nobody has still come and fixed our stuff. The apartment next to us has been completely vandalized and whoever broke in left the gas stove on which is	Initial Investigation	02/20/2025

extremely dangerous. We are glad that we noticed the smell trom our apartment or this could have been seriously bad. We told them about it and you they thanked us and said that you don't think that the kids who broke in lives here. However, we believe that they live in our building because we are now having our packages stolen almost immediately. I will get notified that something has been delivered and I go out to get it and it is nowhere to be found. The thievery is almost immediately and I even found one of my unboxed packages IN THE WOODS. We now are not only in unsafe living conditions but we are also feeling unsafe and beyond upset/angry at all of this. They are charging us almost $1600 per month and are not even giving us any break on the rent from all of this. They charge an amenity fee when the What resolution are you seeking List of any supporting documents Gym/Social Lounge are both under construction and the pool is obviously not open. What are we paying for?? This is the worst property that I have ever lived in and their unprofessionalism is astonishing. I feel as though they have to be violating a health code of some sort and I worry for our health here.

I was advised to reach out to you at least with the heating situation. It’s getting warmer outside now, but it’s crazy that we have gone all winter with no heat and apparently our unit is not the only one.

Thank you for your time in advance!

Hello,

Sure, my full address is 5788 Stevens Forest Road, Apartment 13, Columbia MD 21045.

Office: (240)224-8220 Ext. 357
malcantara@baymgmtgroup.com
www.baymgmtgroup.com

Good morning Mr Marc

We still don't have hot water!
The first Fairland technician came on Friday 1/24 and did some quick work that got the water hot again, but the next day it stopped working!
I called Fairland directly on Saturday 1/25 and asked them to send a new technician because the first one didn't fix it, and they sent a new technician on Sunday 1/26 around 8:30am.

This last technician changed the thermostat and said that if it didn't fix it, it would be very likely that it would need to be replaced with a new device!
Once again, it seemed like it had been fixed, but on Monday morning we were without hot water again!

I don't know what else to do, and this is just another chapter in how problematic it has been to live in this apartment! It's the middle of winter and I hope they solve this problem as soon as possible, otherwise I will take legal action.

Regards,

Giuliano I. Da Silva.

Em seg., 27 de jan. de 2025 às 3:23?PM, Giusão BR <giuibelli@gmail.com> escreveu:
Hi again Mr Marc,

The Fairland technician who came here yesterday came back today 2pm and said that he has to replace a part but that the owner's approval would be necessary!

Please provide the necessary approval to solve the problem because we need to take a shower and, on top of everything, today is my daughter's birthday and she will be home from school in 1 hour and needs to take a shower…

I await your response as soon as possible.

Regards,

Giuliano I da Silva.

Hi there,

Our apartment has been without hot water since last Friday, 1/24. Three technicians have already come but have not solved the problem.
The last one came yesterday 1/27, and said that it would be necessary to replace a part of the water heater and that he needed approval from the owner to proceed with the repair, which should be requested by the manager of the BMG Laurel property management company.

My husband sent several emails and called Mr. Marc, but he did not respond or call back to give a statement, since this is an emergency service.

Being without hot water for 5 days in the middle of winter and with a small child at home is the height of absurdity.
The worst is the disregard on the part of BMG Laurel, which should prioritize a solution under these conditions.

This is not the first time that we have had problems with the management group of this property that we rent!

I would like to know what measures we can take to have our problem solved urgently, before taking appropriate legal action!

Thanks in advance for your attention and support.

Glaucia S L Ibelli.

CRH250089	10320 SWIFT STREAM PL	36	10X Living At Columbia Town Center Apts., T00009501 Et. Al. - 10320 Swift Stream Pl. Apt 104 & apt 108 – NO HEAT AND NO HOT WATER PER TENANT / BGE SHUT GAS OFF TO BLDG I am filing a complaint due to not having heat or hot water since January 27, 2025. A month or so prior to this ordeal, I came to the rental office about the smell of gas and they sent maintenance down to check my apartment, who advised there was no gas within my home. Today, I am writing this complaint because we are at day 3 of no heat or water due to a gas leak! I have a 5 year old child and I am disabled with many health problems. I went to speak with the resident service manager named Ms. Brianna Graham yesterday (January 29, 2025) and she advised that there was no definite date on when the gas would be restored due their contractors having trouble with getting the pressure stabilized within the building. She offered 1 space heater but, I declined because I have multiple running in my home and it's still freezing cold in there. I also emailed her yesterday and advised Ms. Brianna that I would email her every day until I receive a response! Name: Jamiera Marshall Address: 10320 Swift Stream Pl. Apt 104 Columbia, MD 21044 Phone: 443-430-5191 Thank you, Jamiera M.	Follow Up	04/03/2025

CRH250124	7732 WATER ST	41	7732 Water Street – Unlicensed with maintenance issues (gas stove in disrepair (alleged gas leak), no co's, etc.) RENTAL Property in violation: 7732 Water Street Fulton MD 20759 LANDLORD: Jeff Thompson (his address is 5940 Meadow Rose Elkridge MD 21075. Phone is (410) 245-3268	Initial Investigation	02/13/2025

JEFF THOMPSON Landlord has been an unlicensed landlord since 2017, collected my rent for seven and half years, refused to make repairs and is now engaging in retaliatory eviction proceedings as punishment. I have rights under the ADA as a brain tumor patient. As does my son, who also has protected rights under the ADA because of a severe Crohn's disease diagnosis which is a digestive illness that impacts the body's immune system. My son and I both have serious health issues and the unsafe living situations are harming our health.

Dear Rental Housing:

Unlicensed property that I pay rent on and refusal to make repairs endangering my health and safety. I only learned in DEC 2024 that the property was unlicensed. I have paid rent in full in the amount of $3,500 to Jeff Thompson Landlord and he has submitted that as on his taxes for rental property purposes since 2017. He applied for the mortgage as his primary residence (not as a rental property) and has never had a license or lived here. The mortgage has been paid entirely through my rent payments to Jeff Thompson.

I have an inoperable brain tumor diagnosis and am undergoing treatment at Johns Hopkins and Georgetown University Neurology for my ongoing care and well being and my landlord refuses to make any necessary repairs to the property. Rent has been timely paid for each month of the rental of the home to the landlord Jeff Thompson and has never been late. Since the date of my signed lease in August 2017 - January 2025 all rent in the amount of $3,500 per month for the property at 7732 Water Street has been paid in full by me and the landlord has applied my rental amount to the mortgage. All of my rental payments have been on time to Jeff Thompson and all of my rental payments have paid down the mortgage since moving in August 2017 until January 2025.

DESPITE all timely rental payments in full each month, the landlord has refused to make necessary

repairs to the property
I have given notice by letter and email and phone and text belonging in Oct 2022 until the current time of January 2025. LANDLORD HAS FULL NOTICE OF ALL OUTSTANDING REPAIRS BELOW and is now refusing to answer my calls or texts regarding repairs. These repairs are substantially endangering my health and well being and making. my home is unlivable.

His refusal to make repairs is substantially affecting my ongoing health and safety in the home. He has engaged in retaliatory eviction practices and evicted me from my home (DATE PENDING) February 19 th 2025 despite my APPEAL HEARING ON Feb 21 2025 to stay eviction because of ongoing failure to make repairs which endanger my health

I despite my health and brian tumor as part of constructive eviction for asking for repairs to be made. I will be homeless, with a brain tumor and no job. I have requested that the following repairs be made:

1) Gas leak: Serious threat to health and safety, still not repaired: Fire department had to fix an emergency gas leak in the stove and I had to evacuate on January 9, 2025. Landlord was at the scene so knew of the emergency. Fire department said they needed to replace the stove and fix the gas leak for safety and to call a repair company that day. Landlord has not dones.

CRH250130	4123 TEN OAKS RD	22	4123 Ten Oaks Rd. – Unlicensed basement apartment without proper life safety egress I am writing hoping to remain anonymous to whom I am reporting to you about an unsafe rental property.	Follow Up	11/20/2025

After a long divorce, my ex-wife moved into the basement of a rental unit. The first weekend my daughter (she is 11) stayed at her house, we discussed safety for her and she told me she is completely underground in the basement of someone's house. I discussed fire safety with my daughter and she told me her room has a tiny window near the ceiling of her room. I asked her if she could get out in the event of an emergency and she told me she cannot reach the window. My daughter also told me the other bedroom does not even have a window in it.
Also this property is surrounded by an 8' tall chain link fence that's locked with a keyed lock and the basement apartment rear front door access is not accessible by emergency personnel in the event of an emergency.

So my concerns obviously are my daughters safety and how my ex-wife could rent a basement without certain emergency exits especially being in an underground rental. I am sure this property is not permitted with Howard County for a legally rental apartment.

Thank you for your time.

The address of the property in question is:

Russel Geist (Homeowner)
Sebrina Lee (Renter)
Olivia Lee (My daughter)
4123 Ten Oaks Road
Dayton MD 21036

My information is:

Bong Lee (Hoping to remain anonymous to above parties)
2358 Pfefferkorn Road
West Friendship MD 21794.
410-215-3011

Bong Lee:

This office does not disclose the names of

complainant's; however, be aware if someone submits a written public information request for that information, they can obtain it.

We have no rental license on file for 4123 Ten Oaks Rd. It is not legal to rent without a rental license which requires a passing inspection. Is this an apartment or just a room in the basement that is being rented, you do mention apartment? Are there permanent provisions for cooking in the unit? We ask these questions because a property owner may rent to one roomer, and they are exempt from licensing requirements. If it is in fact a full apartment, even if one person, a license is required. If the home is sprinklered, egress requirements are different. Is the home sprinklered? Likely it is not, but that is a factor. A bedroom without a window would never be approved, even if the home is sprinklered.

Hello and thank you for the quick response.

As for the questions, yes I would say this is an apartment rental since it includes at least 2 bedrooms, a family room. a permanent kitchenette (with a stove, cooktop and fridge), and 1 bathroom. I know it is not a single room being rented.

As for a sprinkler system, I am not aware of one and I know after a FaceTime talk with my daughter in her room, I did not see any sprinklers. Also I saw only one window in her room which appears to be a small casement window at the top of the ceiling. I will say I have never entered this residence but have to go with talks with my daughter and FaceTime talks with her when she scans the camera around her room.

Yes I would like a case opened since it was brought to my attention that my daughter is scared to stay there since she feels like it is not safe. Also on the weekend of February 8-9th, my daughter said the water coming out of the bath was brown and dirty.

I will say I am sure the inspector can knock on the front door and speak to the owner of the home to gain access to the basement apartment. My daughter did tell me the stairs to the basement has a lock to

separate the two living levels, but the owner has come down to repair some plumbing.

Joseph Zehner:

If you are seeking reimbursement for damages and the hotel stay only, you will need to contact the Office of Consumer Protection (410-313-6420). You may file a complaint on their website as follows: https://www.howardcountymd.gov/consumer-protection/consumer-protection-complaints - Consumer Protection Complaint https://www.howardcountymd.gov/consumer-protection/landlord-tenant-information - Landlord Tenant Information

Your email would indicate that cleanup and restoration has already begun or at this point is completed. This office would be responsible for ensuring remediation was completed by a professional restoration company. Is the cleanup completed? If not, can you provide details. In order to open a complaint for investigation, we would need your complete address, including apartment number.

RENTAL HOUSING INSPECTIONS

Hello,

Thank you for your email. I wish to open a complaint. Cleanup is not completed, and from what the landlord has told me they do not plan to do a complete remediation. My address is 3169 West Springs Dr. Apt. A. Ellicott City, MD. 21043.

I would like an inspector to come and confirm that the apartment is in fact unlivable and that this is a breach of warranty of habitability.

Thank you for you attention to this matter.

Sincerely,

Joseph Zehner

CRH250240	6031 OTTERBEIN LN	37	Wexley at 100 Apts. RH19000701 (Main) - 6031 Otterbein Lane APT 409 – Smoke detector removed and not replaced, active roof leak and water damage Issue: Roof leaked on Wednesday March 5, 2025 during rain event. I was told I by the head of maintenance that a roofer should come out that Thursday or Friday to fix the leak. It has now been a week with no rain. I have reached out to the leasing office multiple times to see if the roof was fixed. They just keep telling me that they will let me know when they have an update. It is supposed to rain Sunday. I have family with a young child who is about to turn 3 and am currently pregnant with another child. The leak on March 5 damaged the smoke detector which was removed by the maintenance team and has not been replaced. The leak is also within 2-3 feet of the HVAC closet which is locked and not accessible to us as tenants. I am concerned that if the roof leak is not addressed by Sunday's expected rain/ thunderstorm	Follow Up	03/19/2025

event that my apartment can catch fire if water penetrates the HVAC's electrical, and the smoke detector is not replaced. My son's room is the closest to this part of the apartment.

My name is Samantha Prog and I can be reached by phone at 516-343-2889 or 443-598-2889.

Please see below the full story of what has transpired:

Last Wednesday March 5, there was a rain event with wind. I live on the top floor. When I got home from work, there was a puddle on the floor, so I looked up and saw the ceiling was leaking. The leak was in multiple spots on the ceiling in the same area. The leak was dripping into the smoke detector and is within 2-3 feet of the HVAC system closet which is locked and not accessible to tenants. I called the apartment complex right away at 4:03PM and spoke to Veronica in the leasing office. She sent the maintenance team out right away. Jason (head of maintenance) and two other team members came right away to the apartment. They removed the smoke detector since water had already penetrated the smoke detector and they poked a hole in the ceiling to the left of the smoke detector location to let the water drain. They placed a garbage can under the hole to collect the water. Then I pointed out that there was another water spot on the ceiling that looked like the water would start dripping from and they said it should all funnel to the spot where they poked the hole but if it starts leaking just put down a towel. The head of maintenance said he was going to go on the roof to check out the leak. When he got back, he said that he called the roofer but they did not pick up so he left a message and that they should fix it either 3/6 or 3/7.
Then next night since I had not heard anything about the roof leak being fixed, I submitted the following via the online resident portal:
ID: D6CBE65
Tenant: 6031-409
Category: Roof Repair
Problem: Leak
Description: Location of ceiling leak Front of

			Apartment by HVAC Closet and Smoke Detector. Documenting yesterday's leak. Called the leasing office on 3/5/25. Spoke to Veronica who contacted Jason. Jason and team came right away to apartment, identified it was a roof leak. Let one of the areas where the leak was coming from to drain out. Multiple water spots on ceiling got worse after Jason and team left. Once rain stopped, so did the leaks. Today (3/6) when got home, there were multiple roof shingles on the ground in the back parking lot of the building. See attached images. Please also replace smoke alarm since it sustained water damage due to the leak. On Thursday March 6, the work order was closed. The smoke detector was not replaced, and I was not informed that the roof was fixed. On Tuesday March 11, 2025 I reached out to the leasing office again and spoke to Audry. She called the maintenance team and told me that James, one of the maintenance team members was going to call me back that day with an update. SEE ATTACHMENTS

CRH250241	12205 LITTLE PATUXENT PKWY	35	The Greens at Columbia Apts T00006136 - 12205 Little Patuxent Pkwy, Apt K – Rodent infestation (allegedly not being excluded) I've been experiencing a mice infestation for months. First started back in Nov 2024, I reported through a maintenance request. Maintenance came out and sealed one hole behind the fridge. They saw the biggest entry point above the dryer and insisted they couldn't do anything about it. Then again I reported the problem through a maintenance request at the beginning of Feb 2025 as I continued to have mice. While the apartment complex has pest control that come out every Thursday (they add the apartment to the list once you report having mice), the maintenance has only come with band-aid fixes that hasn't prevented the mice from coming in. The apartment added me to a weekly pest control list for 6 weeks. Every week pest control comes out and shows me fresh droppings and informs that	Follow Up	05/19/2025

management/maintenance needs to seal up the holes. It's counter productive when the mice are still able to get in. I have complained consistently about this issue both in-person and then moving strictly to email to document. At this point, I'm paying full rent on time for a place I don't even have full use of. It's a health hazard and I work from home. The obvious entry point is in the pantry (I'm on the 3rd floor) and maintenance/management has still neglected to actually close it. I've lost food, have the expense of going to the laundromat since the hole is directly above the washer/dryer in the pantry and am experiencing my mental well being decline.

Beth Silverman with Consumer Complaints referred me.

CRH250263	10330 SWIFT STREAM PL	36	10X Columbia Town Center Apts., T00009501 - 10330 Swift Stream Pl, Apt. 111 – Alleged unrepaired unremediated water damage We are submitting this complaint regarding ongoing water damage, mold regrowth, and uninhabitable conditions in our unit at 10330 Swift Stream Pl, 111, Columbia, MD 21044. Despite repeated requests to our property management company, they have failed to adequately resolve these issues, and the conditions continue to worsen, posing significant health and safety concerns. Summary of Issues: 1. Persistent Water Leaks & Flooding – Multiple incidents of leaks and flooding have been reported since August 2023. These incidents have resulted in visible historical water damage throughout the apartment, which has never been properly assessed or remediated. 2. Mold Growth & Possible Recurrence – In October 2024, we noticed mold growth on the bathroom walls. Management treated the mold at the time but failed to inform us about the leak that had caused it. Yesterday, we observed black mold beginning to regrow in the same room, which raises concerns that the underlying moisture issue was never resolved. Given that major leaks occurred in February 2025 and March 2025, both originating from Unit 209 above us, we are concerned that ongoing water intrusion is contributing to the mold’s return. 3. Management's Inadequate Response & Delay in Relocation – After spending many hours in the office	Follow Up	05/06/2025

yesterday, management stated they would provide a new unit but refused to commit to which unit or provide a timeline for the move. They said it would take weeks due to "cleaning" and also refused to cover moving costs, despite the fact that we are being forced to relocate due to habitability concerns.
4. Failure to Properly Address Previous Issues – The long-standing history of unresolved leaks, lack of timely repairs, and incomplete remediation of mold indicate that the property has not been maintained in a safe and habitable condition.

Urgent Request for Inspection & Action:
Given the severity of these ongoing issues, we are formally requesting an immediate housing inspection of our unit to assess habitability violations and property maintenance failures, particularly regarding the black mold regrowth and ongoing water damage concerns.
Additionally, we would like guidance on how to proceed with rent escrow, as we do not believe it is fair to continue paying full rent for a unit that has been consistently affected by leaks and mold concerns.
We have attached photos documenting the historical water damage, recent mold regrowth, and ongoing issues for your review.
Please confirm receipt of this complaint and provide an estimated timeline for when an inspection can be scheduled. We appreciate your prompt attention to this matter, as the current conditions are affecting our health and well-being.
Best regards,
Robert Goldstein & Moajza Shahab
(516) 306-1225 & (347) 293-3939

Chronology of Key Events:
• 8/26/23 – Reported lack of hot water upon move-in. Water heater was eventually replaced.
• 8/30/23 – Dishwasher leaked.
• 1/31/24 – Apartment flooded, causing water damage to the walls. Fans were used to dry the carpet, but no inspection of underlying damage was conducted.
• 10/30/24 – Mold appeared on bathroom walls. After two weeks of complaints, an inspection confirmed mold, but management failed to previously disclose the leak that caused it until the mold was brought to

their attention.
• 2/22/25 – 3/20/25 – Multiple water leaks, all originating from Unit 209 above, have resulted in repeated flooding and ongoing moisture issues.
• 3/20/25 – Firefighters responded to a major flood in Unit 109 and condemned the unit, confirming severe water damage, yet management continues to claim there is no serious issue.
• 3/21/25

CRH250269	3120 BURGESS MILL WAY	25	Tiber Hudson Senior Housing Apts. RH06000298 – 3120 Burgess Mill Way – Main Entrance Door to Building in Disrepair per tenant in unit 106. Door blows open. Hello, this is Sharlotte Wilcox. I'm calling on behalf of Tiber hudson where I live, which is located 3120 Burgess Mill Way unit 106 Ellicott city MD 21043 phone number 443-883-2526. I've been living in this senior building for 13 years and the most recent problem is that front door, which is the main door to this building is broken. I've heard many times that it'll be fixed in 2 to 3 weeks. We've had a problem with that front door I know at least six months. It is a safety hazard, a big concern for the residence here I seem to be speaking on people's behalf, but I came in last night and that door was open. People don't close it. The wind blows it open. It's totally unfair that that door is not fixed or we need a security guard to make sure that we're safe here. That's one of the many issues that wrong here but that's the biggest one. I talked to the maintenance man this morning when I was sitting there I was almost crying saying that I came in last night and that door was wide open and I came in like around and I guess it was 9:00 PM and he just said oh I told you 2 to 3 weeks. He told me that like what I don't know a month ago or even longer he said he's waiting for a part but in the meantime that door is really unsafe so I'm just hoping something can be done about it and an inspector really needs to come here. There's many problems with this building not just that one but that's the most biggest concern right now so I've tried many avenues. The maintenance	Follow Up	04/25/2025

people don’t give us the correct answer, and neither does the management Which is Humphrey management and then we have a manager here that doesn’t give us correct answers either. Iso, a few extra things that I wanted to point out, there are red cones and wood planks and signs left on the side and in the front of his building, which really need to be removed. They’ve been sitting there for quite a long time and also there’s been a broken dryer on the second floor for quite a while. Also, just thought I’d add those two things since you’re coming out to inspect soon, thank you Sharlotte Wilcox 3120 Burgess Mill Way, Ellicott city MD 21043 Sent from my iPhone

CRH250296	9502 QUARRY BRIDGE CT	42	RH15000758 – Water leak, tenant reports carpet still wet after 9 days I am filing a formal complaint regarding an ongoing maintenance issue. We experienced a water leak from the bathroom, which has resulted in a wet carpet in our bedroom. While our landlord hired a plumber to fix the leak, they have refused to properly dry the carpet, which remains damp and could lead to mold growth. This issue has been ongoing for nine days, and despite our repeated requests, the landlord has not taken appropriate action to ensure the carpet is fully dried. They have insisted that a space heater and paper towels are sufficient, but that is not an adequate solution. We have already used our own resources (fans, towels, etc.) to try and dry the carpet, but it remains wet, increasing the risk of mold and further damage. Key Details: • Issue: Water damage from a plumbing failure caused by no fault of our own. • Duration: The carpet has been wet for nine days with no proper drying measures taken. • Landlord’s Response: Hired a plumber but refuses	Follow Up	04/16/2025

to ensure the carpet is properly dried.

• Current Condition: Carpet remains wet despite our efforts, posing potential health and property risks.

• Property Damage: Due to the leakage, our personal belongings have already been damaged. Items that were on the wet carpet have been affected.

• Lease & Responsibility: Our lease states that plumbing maintenance is the landlord's responsibility. This issue resulted from a plumbing failure, meaning the landlord is responsible for addressing the resulting damage.

We are requesting assistance in ensuring our landlord properly dries the carpet to prevent further damage or unsafe conditions. I can provide copies of our lease, photos of the affected area, and message correspondence with our landlord upon request. Please let us know how to proceed.

CRH250321	9600 COVERED WAGON DR	47	The Seasons Apartments T00006543 - 9600 COVERED WAGON DRIVE APT L – Unresolved leak, water damage and rodents I have been facing consistent water related issues with my rental unit for over a year and they continue to either be ignored, or incomplete. Since we moved into our unit back in September of 2023, there have been critical issues related to water. The first issue started in our bathroom, and it took The Seasons	Follow Up	08/06/2025

several visits over a year to deal with the mold that was quickly building on the ceiling, because the fan was not working and needed to be replaced. At the same time, a brown stain in the shape developed in our stairway by the light fixture. Then, a spot in our master bedroom began to appear. By December of 2023, the Property Manager, Dana Drew, had not only had been made aware of these concerns, but continued to ignore the requests for investigation and completion of the work. By March of 2024, there was a hole in our bedroom ceiling because the ceiling had become soft from moisture. A small piece of the bedroom ceiling had fallen right next to the bed overnight. I reached out to the leasing office immediately, again addressing these water related concerns. I sent photos by email of every area in our Master Bedroom that had been affected by water. After ignoring the concerns for months about the concerns, they only began to come out and address the issue weeks later. Our concern that there may be a leak in the roof from all the rain and snow was ignored.

By June of 2024, a new water stain showed up in the same exact location as last time. We reached out to the leasing office with concern for this only to be told by the contractor that they did not inspect the roof.

At our lease renewal at the start of November 2024, we again informed Dana Drew of the issue. We could not get help from another property manager, as this type of work had to be approved by her. We were told back and forth how the roof issue was “not in the budget”, how another work order had to be submitted instead of notifying by email or in-person, and various similar reasons that did not address the issue. On February 19, 2025, we reminded the leasing office of the issues and informed them that our bedroom ceiling was starting to brown again. Further, part of the ceiling was now chipping apart, in a spot where a nail holds the ceiling up. There is also paint rippling by the window. Since then, this issue has been ignored. I stopped by the leasing office on March 25th, 2025 to speak with Dana Drew about the concern, and in particular, when people will be coming and doing the work in the bedroom. She told

me to email her ahead of time with the reason why I was stopping by, because it was the end of the work day. This conversation was at 4PM, and the leasing office does not close until 5:30PM. I sent her the email with a request for an update on March 26, 2025. I have not heard from her since that date.I reached out to the leasing office again on April 1, 2025 to follow up with my previous email, and received the following reply

Good morning, Ben, William,

I am sorry that you are still waiting for these repairs to be corrected. I confirmed with Karla that yes, your ticket was marked as awaiting approval from Dana and has need added to the contractors list for completion. Unfortunately, this will need the approval of the property manager to proceed with the repairs to your roof and drywall. With Dana out of the office on vacation this can be approved no earlier than 04/07/2025. All the service tickets you have entered are on file, and we are very aware of this issue still existing. Once this has been approved Karla will reach out to you to schedule the repairs. I do apologize for the inconvenience this has caused both of you. If you need anything else, please let me know. Have a wonderful rest of your week.

This reply was from one of the other property managers, See attached

CRH250338	7912 QUIDDITCH LN	43	RH20000140 7912 Quidditch Lane – Insanitary conditions, dog feces on driveway and deck which are excessive	Follow Up	10/07/2025

I am writing to formally raise a concern about the ongoing and unsanitary conditions at the property located at 7912 Quidditch Lane, Elkridge, Maryland. 21075 . This property is part of a residential community where cleanliness and sanitation are critical for maintaining a safe and pleasant environment.

Summary of Issues:
Over the past several days, the driveway at 7912 Quidditch Lane has been completely covered with dog feces, which has now started spilling over onto the driveways of adjacent homes, including my own. In addition to the driveway, dog feces is also accumulating on their deck. On multiple occasions, I have personally witnessed their dog urinate from the deck, allowing the urine to fall onto their driveway and, at times, splash onto neighboring properties — including mine.

This situation presents serious health and hygiene concerns for the neighborhood and significantly diminishes the quality of life for nearby residents. The neglect shown by the tenant/property owner is unacceptable and appears to be a violation of property maintenance and sanitation standards.

I am attaching photos to this email that document the extent of the problem.

I kindly request that appropriate action be taken to address this issue. Please let me know the steps your office will take to investigate and resolve this matter, and how such violations will be prevented in the future.

Hello,

We do not perform inspections strictly for testimonial evidence.

If you'd like to file a complaint, we will need pictures and a description of what you believe is dangerous. The property was inspected in AUG2024, as it is every 2 years.

This licesnse renewal inspection is performed from ground level, but deficiencies that would constitute a hazardous condition can still be identified from that location.

Please provide the details and a couple of pictures.

Thank you
RENTAL HOUSING CODE ENFORCEMENT

I appreciate your response. I was told by Legal Aid that this is an option. Maybe, I have the wrong department. Is there anyone else I can speak to?

I don't who inspected that deck it is in Harazd

You have reached the Department having jurisdiction, we just do not perform inspections under these circumstances, UNLESS we open a case.

We can open a case, perform an inspection and cite the owner for violations, but we need to know what is in disrepair and when this was reported to the responsible party. We can verify that you are currently in Court with the owners but we cannot validate your position and perform an inspection without opening a case.

Pictures would help, because "in disrepair" and "a hazard" do not provide the necessary information. We

will need pictures and the date you last advised ownership/management of the deck hazard/s
RENTAL HOUSING CODE ENFORCEMENT.

I would like to proceed with the case. I have send several emails and left messages.
Sent from my iPhone

Vanessa Manley-Larkins:

We must have answers to the highlighted questions in order to open a case. Also, when (date) were these dates submitted in writing to the owner/management company through their required reporting system and what action did they take if any. Must have some narrative regarding what your specific issues are, basically what is in disrepair that you previously reported.

CRH250438	10310 SWIFT STREAM PL	36	10X Living at Columbia Town Center Apts (T00009501 Main) - 10310 Swift Stream Pl, Apt. 414 – Unrepaired water damage leading to allegedly leading to mold conditions not properly remediated Dear Howard County Department of Inspections: I hope this message finds you well. I am writing to inform you of a concerning issue that developed at 10xliving Apartment Housing located at 10310 Swift Stream Place, Unit 414, Columbia, MD, 21044 which initiated over a year ago. A leak in the roof has caused moisture to accumulate in the upper corners of the drywall in the living room and master bedroom. As a result, visible mold growth can be seen in these areas. I have reported the water leak 04/05/2024 and mold growth concerns twice over the last year in November 2024 and again in March 2025 (see the attached service requests) Given the nature of mold and its potential health risks, I am concerned about the impact this could have on air quality and my overall health. Mold exposure can lead to respiratory issues, allergies, and other health complications, and I want to ensure that this issue is addressed promptly to prevent further damage to the property and to protect the well-being of everyone in the building. I am allergic to one of the mold species growing in my apartment, aspergillus and am constantly battling sinus, headache, congestion and coughing. See attached mold testing results. I would greatly appreciate any assistance with an inspection and repair of the leak as soon as possible. Additionally, I believe it would be beneficial to have the affected areas professionally cleaned to remove the mold and ensure the space is safe to live in. Thank you for your attention to this matter. I look	Follow Up	08/01/2025

forward to your response. Please let me know when you are able to send someone to assess and address the situation.
Sincerely,
Sarah Snyder

CRH250467	10098 GREEN CLOVER DR	17	RH21000338 10098 Green Clover – Tenants concerned about potentially unsafe deck. Owners aware of issue since March 2025 My wife and I lease the single family, stand alone, dwelling at 10098 Green Clover Drive, Ellicott City, Maryland 21042. The house is a rancher, with a large backyard wooden deck/patio which extends the full length of the rear of the house. The owner's property management company, PCF Management of Ellicott City, performs annual/semi-annual safety inspections for the house. On March 13, 2025, PCF contacted us to arrange for an inspection, which we immediately	Follow Up	07/02/2025

scheduled for March 17, 2025. The inspection was conducted on the date mentioned. During that inspection, the inspector indicated that the back deck needed repairs and cautioned us that safety issues may be involved, so be careful should we use the deck. He also indicated he would notify PCF Management. Prior to the inspection, in October 2024, we noticed some minor wood rotting and some nails/screws protruding from the deck, making it minimally unsafe in our opinion. We did not use the deck between October 2024 and the March 2025 inspection. The winter must have been harsh on the deck, since the damage requiring repairs had grown significantly.On April 5, 2025, PCF Management scheduled a contractor to come to the house to perform some minor repair work on the deck and collect enough information to provide a full repair cost estimate. That was accomplished on April 9, 2025. The contractor moved some patio furniture from the deck to the yard, swept the entire deck of debris, performed deck power washing, and measured for deck boards he deemed required replacing and painting. He indicated that at least twenty-four boards needed replacing and painting. He also cautioned, for safety reasons, to be careful should we go out on the deck.On multiple occasions since April 9, 2025, I have communicated with PCF Management on the status of the repairs. Though they were very pleasant and understanding, their answers were relatively consistent in that the contractor and property owner cannot agree on a price and therefore the owner continues to not approve any repair work.
My wife and I are both seniors, and I also have a small disability. During the spring, summer and early fall we use that deck frequently to cook, eat, lounge, and relax. We are now unable to do that. We believe that 8 weeks between identifying a safety issue and not having any repairs performed is too extensive. During this period, we have continued to be great residents and perfect leaseholders, including paying our full $3300 per month rental fee for a property we no longer have full use of.
Please advise and assist us in quickly resolving this issue.
Thanks’

CRH250470	10733 CORDAGE WALK	35	Alleged unlicensed rental property per HOA I am the property manager for and representative of the Hickory Hollow Community Association and I wanted to reach out to your department to bring to the County's attention a property (address referenced above) which has become a thorn in the side of the Community.First and foremost, this is an unlicensed rental. The rental license for this property expired 8.19.2024 and a new license application/inspection	Follow Up	06/16/2025

has not been commenced. The homeowner/landlord lives in California yet the property is currently fully occupied. With regard to this occupancy, all indicators point to the fact that this property is not only an unlicensed rental property but also more than likely an illegal boarding house. It has been noted at various times that there have been ads for "Room to Rent" on Facebook Marketplace. Unfortunately each time these rooms are rented the listing disappears. We continue to monitor FB for when the ad will inevitably be reactivated. Moreover, it was recently noted by a passing resident that the main level living room and dining room had been partitioned off into separate rooms. We are unaware of any other alterations nor do we have any information about the condition of the inside of the home. We are just aware that at least 6-8 people are "residing" in this property on a rotating basis. There are myriad other issues related to this property - namely, violations of the Hickory Hollow Community Association by-laws related to vehicle parking, vehicle registration, trash, amongst other things. Not certain if any of this is within the purview of the County but I still wanted to make you aware.

We look forward to your response, assistance, and guidance.

Message...
Hi I'm a property manager for Orchard Meadows, and I keep receiving complaints like this from my residents due to the property that boarders us, which is Renu (former Howard Crossing Apartments) located at 8732 Town and Country Blvd Ellicott City, MD 21043. It has caused me to spend a lot of money on pest control and I'm trying to keep mice and rats out of our buildings at Orchard Meadows. Thanks

Hey Jermaine,

I sent this to the allergy place on ridge road and will keep you in the loop too as the buildings across from the leasing office may be affected that boarder the property of renew apartments.

I was passing the apartments directly behind you guys this weekend and noticed there is a colony of at least 15 rats (like big city rats) that have taken residency in the dumpster at the apartments directly behind you. I am notifying you guys because there is only a small area of shrubs between your office and these rats. I notified that leasing office and they will begin exterminating that may cause them to try to seek shelter at your location. Be careful and be prepared they are a disaster to rid of. I recommend contacting a pest control company for preventative advice. It’s so many of them. If you go down town and country blvd and make the first right the dumpster is at the end of the court boarding your property.

Name (optional)

Jermaine Lee:

Attached are instructions for filing a complaint with

our office. Please provide more details including the location (street etc.) of the dumpster you are referring to.

RENTAL HOUSING INSPECTIONS

Good afternoon,

The area in question is located at Renu apartments in Ellicott City, MD dumpster numbers are 6500 and 6475 which sit next to a wooded area that backs up to our apartments Orchard Meadows. If leaving the Orchard Meadows leasing office, make a right onto North Ridge and another immediate right onto Town & County BLVD, then another immediate right into the 1st set of apartments….the 2 dumpsters are right there all the way in the back when you make another right. See attached photos and email complaint.

The rat activity is very active 5pm-9pm and overnight.

Thanks

Jermaine Lee

CRH250477	9103 TOWN AND COUNTRY BLVD	17	ReNew Howard Crossing Apts. T00006080 & T00006079 – (Near 9103-9113 Town & County Blvd. Street Sign) - Alleged severe rat infestation at dumpster area near 9103/9113 Street Sign. Dumpsters are numbered with 6500 and 6475 so they can be identified. Message... Hi I'm a property manager for Orchard Meadows, and I keep receiving complaints like this from my residents due to the property that boarders us, which is Renu (former Howard Crossing Apartments) located at 8732 Town and Country Blvd Ellicott City, MD 21043. It has caused me to spend a lot of money on pest control and I'm trying to keep mice and rats out of our buildings at Orchard Meadows. Thanks Hey Jermaine, I sent this to the allergy place on ridge road and will keep you in the loop too as the buildings across from the leasing office may be affected that boarder the property of renew apartments.	Follow Up	08/26/2026

I was passing the apartments directly behind you guys this weekend and noticed there is a colony of at least 15 rats (like big city rats) that have taken residency in the dumpster at the apartments directly behind you. I am notifying you guys because there is only a small area of shrubs between your office and these rats. I notified that leasing office and they will begin exterminating that may cause them to try to seek shelter at your location. Be careful and be prepared they are a disaster to rid of. I recommend contacting a pest control company for preventative advice. It's so many of them. If you go down town and country blvd and make the first right the dumpster is at the end of the court boarding your property.

Jermaine Lee:

Attached are instructions for filing a complaint with our office. Please provide more details including the location (street etc.) of the dumpster you are referring to.

RENTAL HOUSING INSPECTIONS

Good afternoon,

The area in question is located at Renu apartments in Ellicott City, MD dumpster numbers are 6500 and 6475 which sit next to a wooded area that backs up to our apartments Orchard Meadows. If leaving the Orchard Meadows leasing office, make a right onto North Ridge and another immediate right onto Town & County BLVD, then another immediate right into the 1st set of apartments….the 2 dumpsters are right there all the way in the back when you make another right. See attached photos and email complaint.

The rat activity is very active 5pm-9pm and overnight.

Thanks

Jermaine Lee

resident of the Renew Howard Crossing apartment community, Unit 8826-C on Town and Country Boulevard in Ellicott City since April 2017. I live in my apartment with my now fifteen-year-old daughter. During the early years of our tenancy, we were very pleased with the neighborhood, schools, and amenities, it truly felt like an ideal place to live and raise my daughter.

However, over the past five years, our quality of life has steadily deteriorated due to an ongoing and unresolved pattern of severe pest infestations. The purpose of this letter is to formally file a complaint against my landlord, Renew Howard Crossing, managed by Trinity Property Consultants, for this nuisance and failing to adequately address these persistent issues causing an unsanitary, unhealthy, and unsafe environment to live for myself and my child. What began as a mouse problem eventually escalated into a cockroach infestation, and now, most alarmingly, a full-scale bed bug outbreak. Each incident has been more distressing and disruptive than the last, and despite repeated reports and attempts at interventions, none have been permanently resolved.

Beginning in October 2019, I began experiencing persistent issues with mice. This problem began shortly after maintenance work was done in my unit involving the removal of carpeting and replacement of portions of the floorboards and trim. What followed was an extended and distressing ordeal that took approximately three years for Howard Crossing's contracted pest control company, ETS to finally resolve.

In October 2024, I requested pest control services again, this time due to a cockroach infestation. Treatments were initiated by the complex's new pest control service, Owl Pest Prevention and continued for several weeks. While there was a decrease in activity at first, the issue was never fully resolved. By January 2025, the presence of cockroaches had increased again. I notified the leasing office, and pest control resumed weekly visits until the end of that month; However, I have no record of any treatments occurring during February 2025.

In March 2025, I again alerted the leasing office that the infestation persisted and requested the

resumption of pest control treatments. As of May 2025, Owl Pest Control has been visiting my unit over the past few weeks, yet the infestation continues. Despite my repeated concerns, it is evident that the current methods of treatment are not adequately addressing the problem.
I have also raised concerns with the leasing office about whether neighboring units are being treated concurrently. Initially, I was told only my unit was receiving treatment; later, I was informed that other units were also being serviced, albeit at different times. I have personally shown the technician from Owl Pest Control, Tavon the key areas of concern in my kitchen and bathroom.
Specifically on April 30, 2025, I pointed out a sticky trap in my kitchen that contained several dead roaches. The technician examined the trap but placed the same one back on the floor. When I asked him to discard the trap and replace it with a new one, he responded that he did not have any available and that doing so would be “a waste of a good trap.” During that same visit, I asked if the bathroom would be treated again, as I had recently seen an increase in roach activity there including baby roaches. The technician replied, “you don’t’ want to have too many chemicals in here”, and the bathroom was left untreated. In fact on this visit, he only sprayed behind the refrigerator and not in any of the target areas that I pointed out to him.

Recently my landlord did a renovation to the basement unit by adding an entrance way. This was done incorrectly and unsafely and two nights ago it caused flooding from the heavy rain. The basement floor is hardwood and the water seeped from underneath the hardwood floor. She has stated that even though she will dry it which she hasn’t done yet she will not get it treated for mold or even tested after. This is a safety hazard and violation as it’s well known that mud water and wood is a perfect combination for festering and harboring mold. She is also planning some renovations that I don’t think are even legal. There are also children living in the home and she’s renting the upstairs as well. I had to sleep at a hotel for the past two days due to the space being uninhabitable and still uncleaned but she refuses to reimburse me for the stay so I have decided to escalate the issue further to the authorities. I have attached images below My contact information is	Follow Up	12/08/2025

Nana Yeboah

We await a response to our question regarding contact information for the person you are paying rent to.
RENTAL HOUSING INSPECTIONS

Nana Yeboah:
This property is an unlicensed rental property. It is not legal to rent without a rental license. We have forwarded the information on construction done without permits to our Division Chief. SDAT information indicates this property is owner occupied by Sharon Obide. Can you provide contact information (name, off premise address, phone number and email address) for the property owner?

Property owner is Sharon Obide

+1 (202) 904-1453

8639 Hayshed lane Columbia MD

I do not posses her email address

If it is illegal to rent without a rental license and I have been paying rent for the past 6 months am I entitled to compensation. I also believe there has been a mold infestation down here this whole time.

Nana Yeboah:

As indicated previously, please speak to the Office of Consumer Protection (file a complaint) regarding the rent you have paid and the property being unlicensed, this is assuming a rental license is required by code (see question below).

Thank you for the information on the owner. By the address you have provided for the owner, it appears the owner must also live in the home? Are you a roomer in the home or do you live in an apartment in the basement of the home? If it is an apartment, is

			there a stove in the unit? We are asking these questions because a property owner may have one roomer that shares the house with the owner (kitchen and laundry facilities) and a rental license would not be required for one roomer. Are the people upstairs, presumably with the owner, also renters? We are trying to establish if we have any jurisdiction. Please describe your situation. We await answers to our questions. RENTAL HOUSING INSPECTIONS I live in the basement I lived in the basement with another roommate until last month. I've been alone down here since then. There is a stove. However she also rents out 3 other rooms upstairs to 3 different tenants. With her children also present . CRH250525	5526 GREEN DORY LN	29	RH22000521 5526 Green Dory – Fence allegedly in disrepair and leaning onto neighbor's property. I have also attached a photo so you can see what I am referencing. I live at 5528 Green Dory Lane, in a townhouse right next to the property - 5526 Green Dory Lane, whose registered owner has not been responsive to either mine or my HOAs request to collaborate and fix the party fence pictured in the attached image. As we confirmed yesterday, 5526 Green Dory Lane is a rental property, whose owner's legal address is registered in Virginia. The party fence has been tipping for quite some time, and from my observation, seems to be due to a plant that is growing in between their shed and the party fence, which is causing the fence to tip over onto my property line. Also to my observation, there has been no attempt to trim or maintain the plant or the shed. From what I was told according to county codes, sheds need to be at least 7.5ft away from the adjacent neighbors, and at least 10ft away from the posterior property line. I can easily see this becoming a safety hazard, and HOA has stated that it is already in violation of HOA architectural bylaws. I hope this adds more information as well as a visual. Please let me know how to proceed and I will be glad to comply. Thanks again! Sincerely, Audrey Chien 5528 Green Dory Lane Columbia MD 21044	Initial Investigation	05/22/2025

CRH250527	8722 HAYSHED LN	36	Columbia Landing Apts., T00006074 - 8722 Hayshed Lane, Apt. 202 – Rodent infestation. Not properly excluded (foam not appropriate). Must exclude and treat until no more rodents.	Follow Up	07/09/2025

I hope this email finds you well. I've been experiencing a persistent rodent problem in my apartment since January 3, 2024. I've contacted the leasing office repeatedly, and only after in-person complaints was my apartment scheduled for inspection. The inspection was inadequate; a single, plastic-wrapped bait was placed behind the stove, and I was informed that maintenance would remove appliances to address any holes. Weeks later, maintenance applied spray foam to visible cracks and holes. However, I have photographic and video evidence of rodents creating new openings through the foam. I've had to perform many repairs myself, as numerous areas I reported were overlooked. For instance, I secured the vent duct with steel wool after rodents damaged the tubing; when maintenance eventually replaced it, they used similarly flimsy tubing. I've incurred significant expenses totaling $249.26 purchasing traps, steel wool, spray foam, and silicone to mitigate the issue. Despite my efforts to seal entry points with steel wool, the rodents persist. The situation has become a health concern, with droppings frequently found on the stove and food damaged by rodents. I've even discovered droppings near my sleeping area almost nightly. The ongoing problem has doubled my grocery costs. I would appreciate it if you could contact me with any questions or if you require additional documentation of the damage. Thank you for your time and consideration.

CRH250528	7501 MURRAY HILL RD	42	The Hamilton at Kings Place Apts. T00006560 - 7501 Murray Hill Rd Apt 425 – Unrepaired water damage from leak that occurred in April that led to mold conditions; non-working HVAC, wet walls again My name is Kendra Alicea, and I am a tenant at 7501 Murray Hill Rd Apt 425 in Columbia, Maryland. I am writing to formally request an inspection and file a complaint regarding unsafe and uninhabitable conditions in my apartment due to significant water damage caused by a busted water heater in my upstairs neighbors apartment. (This happened last night and also happened across the complex in another unit this morning) My ceiling and floors have sustained visible damage, there is a persistent mildew odor, and the apartment is hot and humid with no proper ventilation. To make matters worse, I have no access to hot water, and the apartment has not been deemed safe for temporary relocation despite ongoing damages. This issue is further compounded by the fact that I had to take personal time off work to deal with it, and I have received no communication regarding	Follow Up	07/15/2025

alternative accommodations. the repairs were said to take a week maybe even longer and I am deeply concerned about the growing health risks and structural damage that may continue to worsen without adequate attention i.e., asbestos. (I have a dog breathing in this air as well)

I respectfully request that an inspector be sent to evaluate the property as soon as possible. Please let me know what additional documentation you may need. I have photos and videos of the damage and can provide any further information required.

Thank you for your time and prompt attention to this matter.

Your email was forwarded to our office.

If this incident just occurred last night, it would be too soon for involvement from our office as you have not allowed enough time for the owner/management to address the issue. A week to dry out and repair damage is not unreasonable. We are assuming they are aware of the issue? If they are not, of course the issue must be reported to them through their required reporting system. What action, if any, have they taken to dry out and repair? If we need to open a case, we will need your contact phone number? An inspector will reach out to management regarding this on your behalf.

You would need to speak to the Office of Consumer protection (410-313-6420 or consumer@howardcountymd.gov) regarding damages you incurred or the possibility of relocation.

https://www.howardcountymd.gov/consumer-protection/consumer-protection-complaints - To file a consumer protection complaint

RENTAL HOUSING INSPECTIONS

Good morning,

The ceiling and floors were fixed in my unit but they refused to change the floors in the unit above me when the tenant requested it numerous times. The drywall is now expanding since the water in between the units was not properly addressed nor taken care of, and the weather has also been unforgiving. I'm now seeing deformities in my bedroom along with mold growing from all my vents. I told the property manager that this would be an issue when the incident first occurred and she said that measures would be put in place to prevent it from happening which clearly that did not happen. I've bought a mold testing kit as well as taken pictures for evidence, I've also been sick since then. I've never been sick in a home and I'm sure it's because of the mold growing in my unit. I've set work orders through the property rentcafe app and also called and have heard nothing back. Please can somebody come out and investigate this property? These are not safe conditions, I have a dog as well living in this unit and instead of fixing the problem at the root cause, they keep "surface level fixing" and problems are just progressively worsening.

CRH250529	8822 WASHINGTON ST	47	T00005001, 8822 Washington Blvd. – Alleged rat infestation and alleged food storage in garage attracting the rats I writing to you about a rental property at 8822 Washington St. Savage, Maryland. The property is right next to where I live. This property is used as a Food truck business for about 5 years. The food truck is waking up everyone in the neighborhood at 4:30 - 5:00 am Monday thru Friday. The food truck business is causing rats in my yard . They are not cleaning up properly. I have been writing to different departments in Howard County and calling different offices for the last 5 years. My complaints have never been resolved. There at least 2 food trucks operating out of the property. Food is being stored in a garage, where the rats are coming from. I feel this is unacceptable and unhealthy, Food businesses should not be permitted to run in a	Follow Up	08/07/2025

residential community.

Please help me with this matter. I can be reached out 30l/500-6221. The rental property is owned by Mike Cusack. My email address is debpolan78@gmail.com.

I hope you can help with this matter.

Sincerely,

Deborah Polan
8818 Washington St.
Savage, Md 20763

Forwarded Conversation
Subject: Rodents on residental property being used as food business.

Deborah Polan:

Your complaint was forwarded to Zoning and they have opened a case for investigation of the business (Zoning 410-313-2350). Your complaint was also forwarded to the Health Department, Mike Cobb, Food Program Supervisor (410-313-6216) regarding the food truck concerns.

A rental housing inspector stopped by the property today and found no evidence or rat burrows on the rental property premises in the areas he had access to on an unannounced visit. We have marked the record to arrange for interior access when it's time for license renewal this year to get a better look as we did not have access to the garage area you are referring to.

Regards,

Brenda K. Saucedo

Hi Brenda, A inspector was supposed to contact us Thursday. Nobody contacted us. Both me and my husband werehome Friday. The inspector was supposed to go through yard. DEBORAH Polan

Deborah Polan:
What is she talking about? What inspector?

Here is the one we just talked about that we need to open a case for.

Meeting with Health Department Food Division and Community Health Wednesday (Mike Cobb / Ryan Rappaport), 5/26 @ Noon. They're both meeting the owner (Michael Cusick), so ideal time for me to be there too.

Ryan confirmed clear cut case of rats around the garage I couldn't see behind due to the privacy fence.

I'll reschedule my Fire Safety.

unrepaired water damage.

My name is Carol Watson and I have been a tenant at the Gramercy Apartments at town Center in Columbia, Maryland for about one year now. Within that time span, starting on May 31, 2024, I have experienced 13 (+) water leaks/backups in my unit in the following locations:
Leaks...
1. Dining room (currently experiencing and have had at least 4)
floor and baseboard area
2. Linen closet (2)
ceiling and walls
3. Hallway
ceiling and walls
4. Bathroom
ceiling and ceiling fan
5. Living room (2)
ceiling and baseboard
6. Laundry room
ceiling and light fixture
Backups...
7. Bathtub
8. Kitchen sink
Some leaks have occurred more than once in the same area.
If you could please assist me with this matter I would greatly appreciate it.
Thank you,
Carol Watson

Good Afternoon,

Have you notified management of these leaks including the ongoing one in the dining room and what action if any have they taken?

Thanks,
Rental Housing

Hello. Yes I have and they are aware of the issue. I

			have also asked for information and answers as to why I am having the leaks and they have not answered my questions. The apartment portal states the issue has been resolved but it still leaks in my unit. Carol Watson SEE ATTACHMENTS

CRH250550	11727 STONEGATE LN	35	RH25000040 11727 Stonegate Ln – Alleged overcrowding. Complainant reports 10 people are living in the home. I am formally filing a complaint regarding the overcrowding and ongoing disturbances caused by the tenants at 11727 Stonegate Ln, Columbia, MD 21044. Since their move-in approximately two months ago, the number of occupants appears to exceed reasonable limits, with upwards of ten individuals residing in the home. This group includes a large number of unsupervised children who have repeatedly harassed residents and caused damage to residents' vehicles. Residents are now avoiding parking in their reserved spots in front their own homes due to the frequency of the damage. Additionally, the adults in the home are frequently under the influence of drugs and consistently smoke marijuana on the back patio. Several neighbors, including myself, have contacted both the police and the HOA regarding issues with these tenants. I can provide a list of documented complaints if needed. This situation is rapidly deteriorating, and tensions in the neighborhood are reaching a critical point, so I hope this issue can be resolved quickly. Please let me know if you require any additional information, and I thank you for your help. Chelsea Wehking chelseawehking@gmail.com	Follow Up	06/23/2025

CRH250583	6200 VALENCIA LN	36	RH22000761 Marlow Apts - 6200 Valencia Lane, Apt 3059 – Roach infestation	Follow Up	07/01/2025

I am reaching out due to an ongoing pest issue in my newly leased apartment with Marlow (a Greystar Community) in Columbia, MD. I moved in on 4/25/25 and had a rampant cockroach issue with video evidence and email communications proving I raised it with management, who although prioritizing initiating the solution, failed to solve the problem within the first month of my lease, nor make amends either via alternative perks or a change in unit due to the health and safety risks posed by their failure to adequately prepare the unit for habitation. I am reaching out to you all to send an inspector to ensure the property is up to code as the specialist said if I see pests in certain areas of the unit, it suggests the issue may pervade multiple units on that floor, and I have seen the pests in the past two weeks in these areas in question. I am concerned that this will be a persistent issue for the entirety of my stay, and that is beyond unacceptable given the rent and standards of living that should be provided given such a price tag. Thank you for your time and I hope to hear from you soon.

Best,
Manny

Manny:

What date was this reported to management through their required reporting system and what action did they take, if any?

Please provide your contact phone number.

RENTAL HOUSING INSPECTIONS

It was reported on 4/26/265. They sent American pest 3 times. They baited twice and treated for the issue to no avail. My number is (614) 603-4679.

CRH250601	9768 EVENING BIRD LN	47	RH21000415, 9768 Evening Bird Lane – No HVAC, No Heat, Stove not working, leaks in kitchen, refrigerator and master bath Good afternoon, I would like to submit a complaint on the current property that I am renting. I've been having issues with this property since three or four months after I moved in. The landlord had instructed me of the water issues in the home however, I was very gracious of getting a home in this area. However, there is mini leaks and water leaks from the home. The AC unit never worked. The heat unit never worked. We had to get CAC and department of social services to supply these necessities while living in the unit I'm asking for an inspection for this unit and if you can contact me this would be greatly appreciate it. The unit address is 9768 Evening bird Ln. Laurel, MD 20723. my name is Courtney Chambers that phone number is 240-602-4228. An email address is TCourtney310@gmail.com. Thank you. Courtney Chambers: Attached are instructions for filing a complaint with our office. Before we can open a case for investigation, we must know the date you reported the issues to the property owner through their requested reporting system and what action they took when you reported it if any? Explain the details of the issues you are having. Where are the leaks? Is it currently leaking? Do you still not have heat/hvac? RENTAL HOUSING INSPECTIONS Good afternoon, There are a few dates. The first date is when we moved in which would have been October 29, 2023. During the inspection of the house refrigerator was dented a little bit and the icemaker was not working that well. Also, there were only two burners for the	Follow Up	08/20/2025

stove. The landlord indicated in two weeks the owner would replace that. I did ask and he said that he was going to check with the owner to find out where he was at his response was that he was out of the country. As time went before December 1, 2024, we notice that the water started leaking in the home, he would ask me to inspect the house for a Fossett to drain the entire home because it leaks. I try to find this Fossett, so the water could stop leaking, but I didn't have any success. when I was able to obtain extra money, I did reach out to a contractor to help drain the Fossett water from the home. I didn't understand how this works, so I definitely needed help from someone who has experience I paid for a contractor to come by and showed him the picture that the landlord had provided me. as time went by other things in the house also started to deplete I noticed that some of the electricity within the house didn't work well. Some of the plugs in the house didn't work at all for the stove. It was always trigger a power outage so we had to buy a little stove to cook food which barely worked. The fridge raider leaks a lot the ice no longer works and there's only half of the federated that receives some cool spots. Department of social services had to step in many of times to ensure that with my health condition that they provided us AC fans in the home since the AC no longer worked as well as heaters for the home because the house didn't receive any heat etc...

Courtney Chambers:

If you have not reported your property maintenance issues to the property owner since December 2024, we would ask that you do so since it is now June 2025. We would recommend you do so in writing. If the owner does not take any action in a timely manner, say within 15 days, reach back out us and we would then be able to open a case for investigation. We are not permitted to open a case if you did not recently give the owner an opportunity to make repairs. The rental license for this property expires 8/6/25 so the license renewal will come up soon. We have marked the record to have an interior inspection at that time.

CRH250616	3016 AUTUMN BRANCH LN	18	Ellicott Grove Apts. T00006164 - 3016 Autumn branch lane, Apt D – Alleged roach infestation throughout the building I am writing to formally report an ongoing roach issue at my residence that has persisted since October of last year. Despite repeated attempts to resolve the matter through my leasing office, the problem continues to recur, posing a health concern for my family. I first observed roaches in my home roughly around October and promptly notified the leasing office. While pest control was dispatched and provided temporary relief, the issue has resurfaced multiple times, with at least three to four separate instances, despite continued reports to management. Most recently, I reported the problem again but did not receive any response for three weeks, and only after I followed up. Over this past weekend, I began noticing roaches on the exterior of the building, which is indicative of an infestation or a more widespread issue. This situation is especially alarming because my daughter has respiratory issues, and exposure to pests such as this endangers her health. Given the persistence of this issue and the lack of a permanent resolution from property management, I am requesting an investigation and intervention. Thank you for your attention to this matter. Dear Complainant:

Attached are instructions for filing a complaint with our office.

Please understand that IT Department for Howard County Government does not permit us to click on embedded links in emails so we are not able to view the "evidence" you have provided.

We must know the date you reported your property maintenance issues to management through their

reporting system and what action they took, if any. Please provide this office with a narrative of your unresolved property maintenance issues.

We await more information.

RENTAL HOUSING INSPECTIONS

Reports have been submitted all throughout each failed inspection from 2021/2022-2025

The most recent was from May 19th. Maintenance did as they always do—sent a tech out who claimed to fix the issue and it was not fixed

Dear Complainant:

You indicate your issues were reported to management May 19th. We assume this year. What action did they take if any? We must know what the property maintenance issues are. Please provide a narrative of your issues.

RENTAL HOUSING INSPECTIONS

Dishwasher is molded and doesn't function properly, baseboards are completely open letting in all types of pests

We are sorry; however, you are not providing us with the information/answers we need to open a case here. An inspector will reach out to management on your behalf in an attempt to understand the complaints/issues you have submitted and their status.

Mold inside of the dishwasher is not a property maintenance code violation. This would occur in any dishwasher if dishwasher cleaner is not periodically used. Please explain how the dishwasher is "not functioning properly" as the inspector would have to be able to witness the problem before the issue could be cited. Please explain what you mean by "baseboards are completely open." Are the baseboards in disrepair.. If you have a specific infestation, we need to know

			what kind of pest you are referring to. Also, you indicate your issues were reported on May 19th. What action did they take? RENTAL HOUSING INSPECTIONS Alright, since you can't open the evidence folders at all, apparently. SEE ATTACHMENTS

Mold inside of the dishwasher is not a property maintenance code violation. This would occur in any dishwasher if dishwasher cleaner is not periodically used. Please explain how the dishwasher is “not functioning properly” as the inspector would have to be able to witness the problem before the issue could be cited. Please explain what you mean by “baseboards are completely open.” Are the baseboards in disrepair.. If you have a specific infestation, we need to know what kind of pest you are referring to. Also, you indicate your issues were reported on May 19th. What action did they take? RENTAL HOUSING INSPECTIONS Alright, since you can’t open the evidence folders at all, apparently. DYKERIA MELTON - 443 /535/5060

Hi Brenda,

We received a complaint from a tenant, Dykeria Melton, who lives at the Brook of Columbia (her address is 5192 Brook Way). She is having a big problem with mice. Can you confirm for me that she has filed a complaint with your office? She said that she has, but I would just like to make sure.

Thanks,
Beth

Beth:

See attached two emails sent to her on Friday. We are trying to get her to answer us so we can open case. So far, no response.

Brenda K. Saucedo

Brenda,

Thanks for the info. I just got off the phone with Dykeria and her son, and I think I finally got them to understand. Because you list our complaint form first, they were convinced they had already filed with your office, because they filled out our form. You should be getting something from them today. It sounds like the mouse problem is really bad, so hopefully you can help them.

CRH250678	7565 MURRAY HILL RD	42	Hamilton at Kings Place Apts. T00006560 - 7565 Murray Hill Rd, Apt 224 – Tenant reports that radon mitigation system is not functioning properly Thank you for your response. Per your request, I am providing additional information and a formal clarification regarding the unresolved habitability and maintenance issues in my unit. 1. Date Reported to Management: The initial report was made approximately seven to eight months ago. Since then, I have submitted multiple follow-up communications, both in person and via email. 2. Management's Actions (or Lack Thereof): The management has failed to perform any meaningful or lasting remediation. Their only response has been to hand me a bottle of bleach and instruct me to clean the mold myself. On occasion, maintenance staff have briefly wiped surfaces with bleach, declared the situation resolved, and even claimed to have performed "mold testing" — despite providing no evidence or documentation. At no point has a licensed mold or HVAC/radon professional inspected or repaired the system. 3. Details of the Ongoing Issue: The problem, which began as isolated wall mold, has	Follow Up	09/04/2025

now evolved into a pervasive, unit-wide environmental hazard.

• All items in contact with the floor — including mattresses, rugs, furniture — develop visible mold within 1 to 3 days.
• Items stored in elevated spaces, such as inside cabinets or on bookshelves, are also showing signs of moisture damage and mold.
• The external exhaust fan, believed to be part of the radon mitigation or HVAC system, remains nonfunctional and has never been repaired despite repeated reports.
• The unit is saturated with humidity and insufficient airflow.

I currently reside in this unit with three small children. The ongoing failure to correct this matter constitutes a serious violation of the property maintenance code and a direct threat to our health and safety.

I respectfully request:

• An official inspection of the unit be conducted promptly,
• And that you advise on further remedies or escalations available under county code.

Thank you for your time and consideration.

Sincerely,
Mehdi Yaghoubireikandei

CRH250713	5478 HARPERS FARM RD	Cedar Place Apts T00006172 - 5478 Harpers farm road apt A2 -Unrepaired water damage (bulging wall) leading to mold conditions. Allegedly not properly remediated. Yes there is active water damage that is visible. The wall is bulging. Yes the water damage spots were new caused by the flash flood that leaked into the apartment. Yes we reported to management that mold had grown and they have sent an inspector to come look at the mold and water damage. They're supposed to come today and test for new mold growth. We bought a test from Home Depot and confirmed with that kit that there is mold growth. If there is growth currently we would like to move apartments within the complex. The property manager was ok with us moving but after a few hours she called back and informed us that her boss didn't want us moving apartments. My concern is if there is current mold growth this is damaging to our health. The property manager showed apartments we could move into so we thought we were good to go but were denied. It is currently standing there is an inspector coming to test for mold and damage. If there is current mold growth we should be moved. If we don't get moved that is where I would like the County to step in and protect its residents. My name is Logan Kelly I am a tenant at Cedar Place Apartments in Howard County Maryland. I am emailing because I live at Cedar place apartments at 5478 Harpers farm road apt A2 in Columbia, MD and in the recent flash floods our apartment was flooded and am experiencing water damage. The apartment mitigated the flood damage with fans and dehumidifiers and tested humidity levels but I see water damage and water spots on the walls. I was wanting to inquire about an inspection to see if they repaired everything correctly and fully.	Follow Up	08/28/2025

CRH250726	7035 KNIGHTHOOD LN	36	RH24000537 7035 Knighthood Lane – Bats Infestation Rental Housing Property Maintence Complaints: Subject: Bat and AC issues at 7035 Knighthood Ln, Columbia MD 21045 Tentant: Victoria Bennett (540)-498-1955 To Whom it may concern my name is Victoria Bennett, I moved into this property on 6/16/2025 with my three children ages 1,7,9. When we first moved in my 9-year-old discovered a dead bat in the trashcan that was left inside of the dining room area. I reached out to the property manager to ask her if there was a bat issue in the property and she stated that it was not. I removed the bat and took her word for it. Fast forward to this morning and I woke up to discover another bat in my room hanging on the curtain. This is the same room that my one-year-old sleeps in as well. I was horrified. I called animal control when they opened at 11 am and they sent an officer to the property and removed the bat, and it is now being sent over to test for rabies. I emailed the property manager at that it was hot in the property and the property manager Catherine at 10:34am, 11:23am, 11:55am and 12:26 am. She is just now responding to me at 2:05pm. After getting the attic inspected the wildlife inspector discovered over four baby bats as well as lots of rat droppings. We are now waiting for the rabies results to come back. Attached will be the proof of bats.	Follow Up	01/15/2026

CRH250728	3116 NORMANDY WOODS DR	25	Renaissance Hills Apts, T00006178 & T00006563 – 3116 Normandy Woods Dr., Apt E I am reaching out because our AC has not been able to keep up through the extreme heat we experience last week and now periodically when the temperature is hot outside. On Sunday last weekend (6/22/2025) our apartment got up to 80F and stayed that high until well after we went to bed. On Monday our apartment got up to 86F and stayed that high until well after we went to bed at 11pm. On Tuesday, our apartment got up to 86F and stayed that high until well after we went to bed. This has also happened three separate times since we started experiencing warmer weather. We	Follow Up	07/17/2025

initially contacted maintenance on 6/6/2025 because our apartment got above 80F and would not cool off. They came by on 6/7/2025 and said they fixed it by servicing the coolant. On Sunday 6/22 it got to 86F and we contacted maintenance again. They said they did everything they could (added frion) but it is likely a uninsulated duct in the attic. We contacted them again Monday evening and the property manager basically said they added frion, the ticket is complete, give it few hours to adjust and contact emergency line if it continues. We contacted the emergency line later that evening as the apartment was still at 86F and the emergency maintenance guy said he would come by and never showed up. We called again the next day and no one would come to check it and maintenance just put a ticket in for the following day. When they came the following day, they found 3 air filters in our HVAC and two of them were caked in dust and debris. I have attached a picture of one of them and you can see the second on in the background. I called the main office again and there was no concern about the AC still and they were just concerned about the air filters because they were not aware of that yet. At no point did the person I talked to apologize or show concern. They were more concerned about telling me about all the other people who are in the same situation (probably because duct work needs to be fixed) and that they are following all guidelines and referenced ChatGPT. These filters look like they have not been replaced in a long time when they said they did maintenance between 4/14/25 and 4/18/25. If someone told us that a duct is not insulated in the attic, I feel they should be addressing this. They spent millions on renovating their new office building (which I was told by them was keeping up with the heat) with the clubhouse and the apartments. I feel looking at the HVAC system should have been included in these renovations if they were renovating all the apartments. Since the extreme heat has gone away, our apartment has gotten up to 82F on Sunday the 29th.

CRH250740	4919 BLUE WING CT	30	T00000294 4919 H Blue Wing Ct – Lighting and trash issues for all Blue Wing Townhouses I was hoping I wouldn't have to submit this complaint as I'm always afraid of retaliation from the property but I've given them plenty of opportunity to rectify these ongoing issues. To begin, my name is Kelly Symanek,I reside @4919 H Blue Wing Ct Columbia Md 21045. Holley and your office have been involved with my unit in the past due to many issues I've had in my unit. I would like to begin with the light in the back parking lot that has been out for over a year and reported to Management on numerous occasions. Years ago the property put those lights in. They say it's BGE and BGE confirmed it is not theirs. Either way I'm always told "we're working on it" It is a safety issue, people sit out there and get high and sell drugs. Also it's so dark you can't see where you are walking. Other residents have complained as well. The trash is a constant issue and I will send pictures.	Follow Up	12/19/2025

There is trash all over the property on a regular basis, the dumpster door doesn't work so people throw bags on the ground. The top is wide open a gigantic buzzard came at me when I threw a small bag over the top nearly knocking me down.Ive also seen rats out there at night. I've lived here over 20 years and have never seen it this bad! Many residents have mice infestations and now have cats.Toys and bikes are thrown all over the walkways.Another trip hazard. I see graffiti on some of the units.I am disabled and have difficulty walking.There are loose,exposed wires all over.I asked that 2 toilet seats and one blind be replaced due to normal wear and tear and they are charging me.I believe it's due to my contacting your office about the trash issues. This year my kitchen flooded again, same issue as always and they never found the source as usual, brought in the same "restoration" company that made things worse. They ended up just closing up the ceiling. Currently, I have a leaky window downstairs that I reported well over 3 weeks ago, Jorge from maintenance said they would need to send a contractor out and have yet to hear back about it. When I called today about the charges on my account I was hung up before I could ask again about the window. I've sent numerous emails with not one response. Throughout the project there are pipes that running water or sewage running out of. Building 4915 by the slide has about 8 potted large plants sitting in the middle of the common areas. The property is a constant mess. In the lease it states that the landlord is responsible for lighting, maintaining trash and a safe rodent free property. Also states general wear and tear. In addition to this the vents haven't been cleaned in years, I was told in Jan that they would be setting that up and it never happened. I once had a good rapport with Brittany the manager but it seems my concerns are unreasonable.When a person of color reports things they seem to be taken seriously.They complain that they don't make money off those of us in my program. I will be speaking with Consumer Protection as we'll. I'm sending pictures separately.

Thank you,

Kelly Symanek

CRH250755	7260 EDEN BROOK DR	42	BEECHS FARM APTS T00006534 – 7260 Eden Brook Dr., Apt. D203 – No central HVAC since May. Window AC provided that does not cool entire apt. Central air must function as intended. My name is Sarah, and I am a current resident at Beech Farm Apartments. I am reaching out to request immediate assistance regarding ongoing renovations and the unsafe, uninhabitable conditions I've been forced to endure with my two small children. For the past few months, our apartment complex has been undergoing renovations. Unfortunately, the experience has been incredibly disruptive and, at times, dangerous. Construction crews have already broken a window in my unit and damaged my central air conditioning system. I submitted a maintenance request for the AC issue back on May 2, 2025, but I have been repeatedly ignored and taken lightly. Eventually, I was given a small window unit clearly meant as a temporary fix which only cools the bedroom slightly and leaves the rest of the apartment unbearably hot. This is absolutely unacceptable, especially with two young children in the home. The heat is not only uncomfortable but poses a serious health and safety risk. To make matters worse, I was	Follow Up	07/16/2025

temporarily relocated to a hospitality suite not to resolve the AC issue, but to allow the property to continue renovations (steps and siding). Today I received a call demanding that I return the keys to the hospitality suite immediately.
When I asked whether the AC in my permanent apartment had been fixed, the staff member I spoke to, Marie, told me they will work on it and insisted I still had to leave the temporary unit. I expressed that I would not return to an apartment without working air conditioning in this extreme heat. Marie was extremely rude, dismissive, and completely unsympathetic to my situation. She showed no concern for the safety of myself or my children, and her attitude was unprofessional and deeply upsetting.

At this point, I am essentially displaced. I cannot remain in the hospitality unit due to active construction, and I cannot return to my permanent apartment due to the lack of AC. I am in a terrible and urgent situation with two small children in unsafe conditions, and I am pleading for your department's intervention and support.
I would deeply appreciate your immediate attention to this matter. Please feel free to contact me directly at 240-755-3909.
Thank you for your time and assistance.

Best regards,
Sarah Climes

CRH250767	3244 NORMANDY WOODS DR	18	Renaissance Hills Apts. T00006178 - 3244 Normandy Woods Dr, Apt A – HVAC not functioning as intended (High temperatures and humidity inside apartment) I am writing to formally submit a complaint for my rental apartment due to serious concerns that have gone unresolved despite multiple complaints to the property management on site. The complex I currently reside at is: Renaissance Hill of Ellicott City My wife and I have experienced the following conditions in our unit:	Follow Up	07/31/2025

- Persistent high humidity levels that feel higher than outside, or the same.

- Our floors remain moist, and footprints do not evaporate. We believe this to be an indication of indoor moisture that lingers with the AC on.

- There is visible spore-like growth on our personal belongings such as backpacks, travel cases, and jackets.

- The head of the apartment maintenance team acknowledged the presence of “SFG” in multiple parts of the apartment.

- My wife and I made multiple attempts to complain to the apartment management on site. Our complaints to them started in late May of this year, with multiple complaints in June, as well as a couple in July. We stated that the AC will not reduce the temperature in the apartment, the outside fan (I believe to be the condenser unit) rattles when the AC unit is on, along with making a noice frequently that sounds like pressure being released, and there is high humidity in the apartment.

- The maintenance team stopped by couple of times prior. First time, we are not sure what the fix was, we believe they may have fixed the freon level from the look of the equipment brought. The AC still was not working the next day. The last time, maintenance replaced a motor. Still no fix.

I have attached some photos of our flooring to show the moisture/footprints that are a constant thing for the past few weeks, along with the growth of some type of spore on our personal item. The on site maintenance team stated that they are not able to provide us with a dehumidifier as the severity does not require one, so we had to purchase one ourselves to make our apartment a little more habitable.

If there is anything else that is required from us, please do not hesitate in reaching out. Thank you.

Best,
Savan Patel

				Pass	Kurtis Hallet
CRH250771	9603 PARK AVE	50	9603 Park Avenue – Unlicensed basement apartment with permanent provisions for cooking I am writing to formally file a complaint against my landlord, Mr. Tesfay Hailu, who is renting an unlicensed basement unit to me at 9603 Park Ave. This unit is not registered with Howard County for legal rental, and I am experiencing serious issues that violate tenant rights, safety codes, and basic habitability standards. _____ Summary of Violations & Complaints 1. Unlicensed Rental Property • Mr. Hailu is renting out the basement of his home without a valid Howard County rental license. • I verified this directly with the licensing department after contacting the county. • He has never provided license details or an inspection certificate even after I asked. 2. Illegal Surveillance • A few days ago a camera has been installed inside the upstairs kitchen window, pointed directly at my private basement entrance after I refused for him to come into the unit for no reason. • This camera monitors only my movements, and no other exterior areas of the home. • This feels invasive and retaliatory, and has created a hostile living environment. 3. Unlawful Entry Attempts and Harassment • My landlord has repeatedly attempted to enter my unit without proper notice, without my consent, and without emergency justification. • On one occasion, he texted that he would be coming downstairs despite my explicit written refusal and would demand. • He has since sent multiple messages trying to intimidate me for denying access, claiming I owe him	Follow Up	10/14/2025

reimbursement for a contractor's visit — even though I was not given any clear information about the visit or scope of work.
• I view these actions as harassment, pressure, and retaliation.
4.
Retaliation After Reporting Flooding
• After the basement flooded earlier this year — which damaged my work computer — I brought the issue to his attention.
• Since then, his demeanor has changed drastically. He has become increasingly hostile and has made clear efforts to push me out, even after I informed him of my job loss and asked for patience.
• His recent demand for me to move out appears retaliatory and unfair, given my history of paying rent (albeit with occasional delays).
5.
Unsafe and Uninhabitable Living Conditions
• My bedroom does not have a window, violating Maryland and Howard County egress and habitability standards.
• The only window in the basement is covered and allows no natural light.
• Additionally, the flooding incident has left me concerned about mold, ventilation, and general safety.
6.
Misuse of a Real Estate Agent for Pressure
• Mr. Hailu recently added a real estate agent, Mr. Nathan Hunt, to our communication thread.
• Mr. Hunt has no legal authority in this matter, as he is not party to the lease and is not an attorney.
• His continued involvement feels like an additional form of pressure and intimidation rather than a good-faith effort to resolve anything.

_____

I Am Requesting the Following:
1. Immediate investigation into this unlicensed rental unit
2. Enforcement of licensing and code compliance
3. Cease-and-desist order for further harassment or surveillance
4. Consideration of landlord fines or violations for the unsafe, illegal rental conditions
5. Potential restitution for property damage, emotional

distress, and forced relocation expenses

_____

I have several photos and documentation to support this complaint, including images of the surveillance camera, the bedroom with no window, email correspondence, and the entry attempts.

I appreciate your time and your protection of tenant rights in Howard County. Please let me know if you need any additional documentation or would like to schedule a property inspection.

Sincerely,
Ella Anderson

CRH250779	7525 MURRAY HILL RD	42	The Hamilton at Kings Place Apts. T00006560 – 7525 Murray Hill Rd Apt. 327 - Unresolved water leak and water damage leading to mold issues I hope this message finds you well. I am writing to formally report a serious mold issue at my residence, which I believe is affecting my health and well-being. I am concerned about the potential risks and would like to request an inspection or guidance on how to proceed. Over the past 1 year, I have noticed visible mold growth in the bathroom and in my furniture along with a persistent musty odor. There has been a water leak that has been consistent since later year. They have tried to fix the problem but each time it comes back. More concerning, I have been experiencing respiratory issues due to my asthma, headaches and worsening allergies, which I believe may be related to mold exposure. I have attempted to raise this issue with my landlord/property manager but it seems even after they hire people to address it the issue gets worse. Given the potential health implications, I feel it is necessary to escalate this matter for proper investigation.	Follow Up	09/23/2025

Could you please advise me on the next steps I should take? I am willing to provide photos, medical documentation, or access to the premises for inspection if needed.

Thank you for your time and attention to this matter. I look forward to your response.

I have plenty of more pictures and videos.

Brieanna Robinson
443-262-6322

1.8/01/24 First work order for plumbing was placed (They repaired and replaced my sink)
2. 6/16/25 Water leak came back. -They sent a plumber to fix it (3 times) in a matter of days the leak kept coming back.
3. 6/26/25 plumber came out
4.6/29 plumber came out
5. 7/1 Water still leaking
6. 7/6 water leak came back.
7. 7/16 plumber came back to fix the leak.
8. 6/24/25 Due to leak and mold vanity and floors had to be replaced

I have attached videos of where the leak has been consistently coming from. There was water leaking under the floors of my bathroom, and mold growing rapidly. Please let me know if there is anything to be done.

Thank you

7525 Murray Hill Rd
Apt 327
Columbia, md 21046

Brieanna Robinson:

As we understand your timeline, on 7/16/25 the plumber fixed the leak which would mean there is no visible leak for the inspector to currently see, but we have your videos and know that it did occur. Did

the management repair the damage caused by the water or does it remain unrepaired? We are attempting to determine if we can open a case. Please see the attached document regarding this office's limitations on mold issues. We cannot cite mold under the code.

In the meantime, an inspector is going to reach out to management regarding your issues.

CRH250786	5838 STEVENS FOREST RD	36	Columbia Pointe Apts T00006541 - 5838 Stevens Forest Rd, #22 - no functioning or broken washer and dryer since 4.17.25 I am attaching a formal complaint letter and evidence of attempts to resolve this matter in hopes that you can aide me is resolution with disputes with the Columbia Pointe apartment complex in Columbia, MD. Please feel free to reach out to me should you have any other questions, I will also be reaching out to the Consumer Protections Agency. All of the attached information along with photos and videos are also accessible in my HIPAA compliant work drive found here: Housing Commission Evidence Thank you for your assistance, Alice Ashton In order for this office to open a complaint case, we simply need the following information in a short concise email: 1. Your name and contact phone number. Inspector has to contact you to gain access for inspection.	Follow Up	08/27/2025

2. The address of the complaint including the apartment number.
3. Brief narrative of the issue. Is washing and dryer missing? Is washer and dryer there, but not hooked up? Is washer and dryer BOTH broken? Need this in writing.
4. The last date you reported the issue to management and what action they took if any.

Once we receive this information, we can open case for investigation.

Alice Ashton:

Attached are instructions for filing a complaint with this office. Much of what you sent us should be submitted in a complaint to consumer protection and would not be something this particular office can use to up a case for investigation under the Rental Housing Property Maintenance Code.

Thank you and good morning,

My phone number and address are on the attached complaint letter and a summary of contact including last contact is including in the timeline I attached.

Alice Ashton
5838 Stevens Forest Rd, #22
443-739-1769

The last I contacted them was the 10th. I've had no functioning or broken washer and dryer since 4.17.25. I've been told they have replacements on multiple occasions and that they would be replaced by specific dates multiple times that have come and gone. On the 11th they told me they are now ordering again but they haven't done anything since.

CRH250787	7545 MURRAY HILL RD	42	The Hamilton at Kings Place Apts T00006560 - 7545 Murray Hill Road, Apt 821 – Numerous electrical concerns - Persistent, load dependent power failures: Multiple GFCI outlets and lighting circuits have been flickering and losing power under load for seven days despite repeated “fixes” by maintenance. The number of outlets impacted has continued to grow daily. - Major appliance interruption: The refrigerator and HVAC system have cycled off entirely for extended periods when plugged into the affected circuits. - Exposed live wiring: The outdoor AC disconnect box has been left open for four days, with exposed conductors and removed capacitor sitting unsecured—creating a significant shock and fire risk. - Management inaction: I have formally notified the leasing office in writing and on recorded calls, given them ample opportunity (over one week) to remedy the situation, but no licensed electrician inspection or proper repairs have been scheduled. - Additional steps taken: In the absence of management action, I called BGE this morning and I am hiring a private electrician to come out this evening to determine whether it is safe to remain in the building. Would it be possible to have the immediate risk assessed by a member of your team? Thank you! SEE ATTACHMENTS	Follow Up	07/23/2025

CRH250795	6941 RED CLAY FORGE	37	Belmont Station Apts. RH07000677 (main) - 6941 Red Clay Forge Apt 209 – Current unresolved leak and unrepaired water damage since May that has led to mold conditions I am writing to formally report a serious and ongoing health hazard at my apartment located at Belmont Station Apartments in Elkridge, Maryland. Since May 5th, I have been dealing with a slow, persistent water leak within the walls of my unit, which has resulted in significant and recurring mold growth on my bathroom ceiling. Despite multiple maintenance requests, the apartment management initially only painted over the visible mold without addressing the underlying moisture problem. As expected, the mold quickly	Follow Up	09/05/2025

returned and worsened.
The air quality in my home has severely declined, and my health has been directly impacted. I have visited the doctor twice already and have a third appointment scheduled due to worsening allergy symptoms and respiratory issues that I strongly believe are connected to the mold exposure. On July 9th, management finally removed a portion of the wall, but by then, the mold had already returned, and my symptoms have only intensified. The wall is still currently opened as of 7/23/25.

At this point, the apartment has become uninhabitable. I believe this situation poses a serious risk to my health and potentially to other residents as well, particularly if mold spores have spread to other units through shared ventilation or infrastructure.

Ive conducted mold testers in my apartment July 18th and I attached the photos here. I am respectfully requesting an inspection and any necessary intervention from your department to ensure this health issue is properly addressed. I am also prepared to provide photos, documentation of my maintenance requests, and medical records if needed.

Thank you for your attention to this urgent matter. I look forward to your guidance on how to proceed.

Sincerely,
Dakirah Handy

CRH250799	3351 NORTH CHATHAM RD	24	Chatham Gardens Apts. T00006225 – 3331 North Chatham Rd. – Community Swimming Pool in Disrepair My name is Cheryl Thacker. I live at the Chatham Garden Apts. The pool needs to be inspected and shut down for the summer and repaired. The paint on the walls of the pool are peeling off. Residents are swimming in a pool with hunks of paint as well as pieces of the paint all around the pool and on the concrete where you walk. This is dangerous for anyone in the pool. If ingested could make someone seriously ill. One of the maintenance associates on Sunday June 29th walked the pool area with the lifeguard. He took a piece of the paint that peeled off the pool wall with him to take to the office the next day. Nothing has been done. I've taken photos and video of the pool. I love the pool. My grandaughter and I used to be at the pool everyday before this. However our health and the health of others is why I ask for an inspector to come close the pool and require it be fixed correctly. Thank you , Cheryl Thacker 667-777-3702 3351D North Chatham Rd Ellicott city 21042	Follow Up	08/01/2025

CRH250810	4907 BLUE WING CT	30	T00000273 - 4907 Blue Wing Court Unit F – Unrepaired water damage in kitchen and bathroom, peeling flaking paint in numerous areas, unit not clean and sanitary from a prior roach infestation in unit before this tenant moved in. No current infestation, but feces were not cleaned from surfaces (prior case CRH230798) I have lived here in Orchard Crossing Townhomes for about 2 full years now and just renewed my lease. However, I recently had an issue with maintenance, which has resulted in me receiving a 30-day notice from the management office. I have already responded in writing to them in regard to this matter and have also filed a complaint with the Office of the Attorney General and cc'd Howard County Housing Commission/Humphrey Management on my response	Follow Up	09/11/2025

to the notice. I am fully prepared to take the matter to court if needed as I have an unbelievable amount of documentation related to the conditions and repairs of my home including a previous inspection request that was placed with you all back in 2023.

We recently had a sewage smell in the downstairs bathroom. Due to my many previous issues with maintenance and their inability to fix things the first time or correctly without a contractor, I hesitate to report issues at all, but when I do need to I am very specific. In this instance I knew it was at the very least an issue with the wax ring. I requested someone come out and remove the toilet and replace the wax ring on a Friday. On Tuesday they showed up and my husband said that if he could not fix it that day, please do not come and just call the contractor/plumber. He insisted on coming in. My husband told him to please not remove the caulk or lift the toilet if he did not think he could fix it since this would likely make the smell worse. He went upstairs and then did exactly what my husband asked him not to do. The entire house smelled immediately. He got upset and they argued and he left. My husband then went to check upstairs and realized that maintenance him telling him it was "the main pipe" was strange considering he only removed the caulk and looked underneath as far as he could see without removing the toilet, which meant he could not have seen much of anything. He went back out to find him to ask him to come back and show him what he did so he could explain it to me later and he refused and they argued again. No threats were made. No physical contact. My husband was just frustrated and loud. The next day another person came and "fixed the smell." I got home and there were feces everywhere. I went to clean and the toilet tipped completely over. They had removed it and caulked it, but not secured it at all. The wax ring I said needed replacing was clearly visible now and in fact, needed replacing. I left an angry voicemail and received a call telling me if I spoke that way again I'd be evicted, but a plumber would be in the next day. No apology. No acknowledgment. Just a threat. That issue is fixed now, finally. It took

6 separate trips and people.
They claimed it was a racist verbal attack and I am therefore in violation of our lease. This is completely ridiculous and a clear cut case of retaliatory eviction as this same person has previously threatened to evict us over other maintenance requests that were not completed correctly or at all. She has threatened to serve me notice 3 separate times. I have no violations and my rent is always on time.
Anyway, in addition to the other actions I have taken I would like to have our unit inspected. I have informed them of the same issues many times in the past and many have not been fixed. A few of the biggest are the roach feces that I cannot clean off and remove that covers many interior cabinets and is behind wall outlets, clear water damage to our kitchen cabinets and upstairs bathroom cabinets, which result in mold/mildew, plus some things like peeling paint and general disrepair. SEE ATTACHMENTS

CRH250811	3713 DORSEY SEARCH CIR	24	RH17000712 - 3713 Dorsey Search Circle – Unrepaired water damage leading to mold issues. Water intrusion from unknown sourse. I am writing considering a water damage/mold issue that is occurring at the single-family rental property at 3713 Dorsey Search Circle, Ellicott City, Md 21042.The problem is occurring in the back “sunroom”, which is basically a 3-season porch on a slab that is in an unconditioned space and has indoor carpeting. The room is surrounded by sliding screens and sliding doors. My first communication with the Landlord, Anis Tannir, occurred back on 6/25/2020 when I informed him that after rainfall the room’s carpet would appear damp after any type of rainfall. The dampness extended the entire length of the sunporch from the screened doors on the backyard side out to approximately 22-23 inches inward into the room. At this time, the Landlord came to look but stated it was a regular occurrence when there is a heavy downfall, and the situation did not evolve any further than that. Upon lease renewal in November/December 2022, it was then discussed again as the dampness	Follow Up	08/06/2025

continued and the amount of wetness was increasing in the same location with time. The Landlord looked at the area again on 1/18/2023, and deemed it to be fine since it would dry with the help of a ceiling fan that I have continually operational. On 7/17/2025, I came home from a trip and was met with an overwhelming smell of mold, and upon visual inspection saw fresh green mold arising out of the carpet fibers near the sliding doors and an orange discoloration at the 2 feet mark where the dampness typically ends (Pictures attached). I immediately notified the Landlord of the problem and sent the pictures I have attached to this communication.

I did not hear back from the Landlord until I reached out again on 7/20/2025. At this time he stated he would look at the property.

On 7/21/2025, he acknowledged the disaster that has become of this room. He stated that he would have a roofer inspect the roof the following day and at that time would determine what all needed to be done, but did acknowledge that at a minimum the carpet would need to be replaced, the smell would have to be treated, and the roof inspected.On 7/21/2025, I reiterated our prior conversations of two/three and five years ago regarding the issue of the carpet's wetness and pointed out that at no time did he inspect the roof, the gutters (his responsibility per our lease agreement), the carpet pad nor the foundation.

On 7/22/2025, I received communication from the Landlord stating that as the Landlord he would rectify the problem. I asked to be kept apprised of what was happening since I am out of town.

On 7/23/2025, Landlord was supposed to meet with roofer.

On 7/28/2025, I reached out to the Landlord because I hadn't received any communication since 7/22/2025.

This morning, 7/29/2025, I received an email stating "upon visual inspection of the roof, no leak could be found. The conclusion is that the sunroom should be aired more often and fresh air should be circulated,

and the amount of live plants should be reduced. Hence, nothing will be done, on my part, at this time."

Please note, there is a ceiling fan circulating at all times. This room is only home to 2-6" snake plants that are no where near any of the water damage, and have no bearing on this issue (which I am sure you know). We use this room on a regular basis, so it does not remain unventilated. I have a 13 year old daughter who should not have to be subjected to mold. Additionally, I am deathly allergic to some types of mold, primarily the penicillium families.

Please let me know next steps, and if further information is needed from me to get this situation inspected and rectified.

Thank you,
Shannon Cafferty

Orozco.esteban115@gmail.com

Esteban Orozco:

If our office has to get involved. We would issue a Notice of Violation with a 15 day deadline. Is the unit not operational at all? Have you been given any feedback at all from management on what to expect? What date did your report and what date did they come out?

We can have the area inspector reach out to management on your behalf.

RENTAL HOUSING INSPECTIONS

Good afternoon,

Thank you for the quick reply. The unit does not blow cold air/the a/c does not work, and my apartment is at the mercy of the weather.
Only the fan and heater function.

Ive been calling management the past few days, where I was told they only handle the leasing side and all they can do is put a ticket in. Until eventually they escalated it to “emergency” on Sunday where it has remained unfixed. Each time they have told me there is no ETA.

Yesterday on Monday, after calling the leasing office, the maintenance technician notified me he inspected it and was going to get a supervisor to look at it the next day.

I have not received an update so far today, nor an ETA.

I reported it on Aug 1st, and they came out to inspect it on Aug 4th.

Is this considered a reasonable timeframe for an issue like this? I do not want an inspector to have to

come all the way out here if its unnecessary, it is just getting pretty hot outside.

Thank you again for your time!

Very Respectfully,

Esteban Orozco

CRH250846	10103 WINDSTREAM DR	30	RH18000104 10103 #6 Windstream Dr. – Electrical issues (burnt receptacles), rodents, water damage, flooring issues and AC reported not working properly I am writing to notify of a serious safety concern in my rental unit at 10103 Windstream Drive, APT 6, Columbia, MD 21044. It was discovered that one of the electrical outlets in the master bathroom is visibly burned/scorched. It appears to have experienced previous electrical overheating or arcing and poses a clear fire and shock hazard. No appliance was plugged into the outlet at the time of discovery, and the damage appears significant. I have attached a photograph for your reference. Additionally, there was a burning and tuna fish smell that was coming from the room. I have also attached a picture of the electric panel made by Federal Pacific which has went out of business. This condition violates the Howard County Property Maintenance Code and poses a risk to the health and safety of those living in the unit such as myself who is pregnant, my partner, and my 3 year old son. Additionally, there is water damage in our unit, air hasn't been working properly for months, a mouse issue, and cracks in our 1st floor flooring. The landlord has been notified of all issues and has not resolved them. We are requesting that the suitability, safety, and habitability of our home be inspected as soon as possible. I can be reached back at 267-226-1186 or Reneebjohnson1@gmail.com. Best Regards, Renee B. Johnson, Ed.D. Good Morning Renee Johnson, I have copied the Rental Housing Complaint Inbox. CRH250861	8505 GUILFORD RD	42	8505 Guilford Rd. – Unlicensed rooming unit (renting two rooms) I would like to notify the office concerned that Albert Martin 8505 guilford road has enetered into a rental agreement with Felicia Lazarus to rent two of three rooms in his home on a month to month basis. The intentent is to provide a room for her and her children while she is in a custody battle. I want to inform the county of this as I am concerned my father in law is being taken advantage of and as such has the legal aspects in place to protect him. He does not have a rental license, has not notified his home owners. I ask that the county address this matter in a confidential manner if possible to ensure that he completes the process necessary to rent. I worry that he is providing paperwork to the court system to establish residency and a home without the actions in a correct manner but only a farse. I greatly appreciate any help in this as I am truly worried about my father in law. If you cannot get your father-in-law to file a complaint directly with us, would you like to open a case on his behalf? Trenton Dugan: As you indicated, there is no rental license for this property. It is not legal to rent without a rental license. If he has not moved in, he should not move	Follow Up	08/21/2025

in. Office of Consumer Protection can explain to you (410-313-6420).

We can open a case for investigation; however, you must know if someone submits a Public Information Request, they can get the name of the complainant. It is always best for the tenant who resides in the property to file the complaint. If they do not, our inspector must conclusively confirm that the property is occupied by tenants before we can proceed with enforcement. We will knock on the door in an effort to determine occupancy. If no answer, we'll leave a business card for someone to call us. If no answer, we'll send a letter to advise the owner of rental licensing requirements. If the inspector cannot confirm, we sometimes have to close our case.

All,

Thank you for the information. To be clear my father in law is living that residence and Mrs Lazarus is also living on the premise at this time. She has stated in court that she has a rental agreement with Mr Martin at this time for two rooms between g one for her currently on property and the other a place for her boys when or if she gets custody. She is using him in order to try and demonstrate a place to rent for the court. I am worried that this could turn ugly later and if he does not have the right things in place she could sue him. I am fine if my info is released in a FOIA request.

Trenton Dugan:
We need your contact phone number. Also, just one last question for clarification: Is your father-in-law the only roomer in this house? If he is, a rental license is not required unless he is one person occupying an apartment on the premises. Please advise.

CRH250865	5764 STEVENS FOREST RD	36	Columbia Pointe Apts T00006542 - 5764 Steven Forest Rd, Apt 601 – Water leak and unrepaired water damage I am writing to request an urgent inspection of my rental unit due to severe water damage, mold growth,	Follow Up	10/10/2025

and unsafe living conditions.
We were without a functioning air conditioner for almost the entire summer, which created excessive humidity and caused mold growth throughout the home. The AC was finally repaired on August 1st, but the ceiling is still leaking heavily, making the bedroom unusable.
My mother began experiencing symptoms such as weakness and other health issues, which required an emergency room visit. Although her lab results were normal, her symptoms have persisted for over a week. I have had no choice but to move her to my brother's house because the conditions here are no longer livable.
I previously requested a rent refund for the month of July and have not paid rent for August due to being unable to live in the unit.
Attached are photos of the mold, water damage, and medical documentation. I request that the county conduct a mold inspection as soon as possible.
Thank you for your immediate attention to this matter.
Sincerely,
Mohammad Qais Haikal

Good Morning Mohammad Qais Haikal,

I have copied the Rental Housing Complaint Inbox. For future reference I have attached the information on how submit a rental complaint.

Thank you

Mohammad Qais Haikal:

Please see the attached document outlining the limitations of this office regarding mold issues. Under the Rental Housing Property Maintenance Code, we cannot compel the owner to conduct mold testing and we cannot cite mold under the code. We can cite unrepaired water damage and leaks

visible to the inspector.

What date were these conditions reported to the management company through their reporting system (provide workorder number)? What action have they taken, if any?

As we understand your email. You do have a current active leak that would be visible to the inspector. Is that correct?

Regarding rent payments or possible relocation, you would need to discuss that with the Office of Consumer Protection (410-313-6420). You may file a complaint with their office as follows:
https://www.howardcountymd.gov/consumer-protection/consumer-protection-complaints - Consumer Protection Complaints
https://www.howardcountymd.gov/consumer-protection/landlord-tenant-information - Landlord Tenant Information

RENTAL HOUSING INSPECTIONS

Yes, that is correct — there is an active leak, and it has been ongoing since July 15, 2025. I reported it to the management company multiple times both by email and in person, but no proper repairs have been made. I have attached the screenshot of the work order with this email for your reference.
Please proceed with the inspection for the active leak and water damage as soon as possible.
Thank you,

CRH250870	9180 MOONSHINE HOLLOW	47	The Seasons Apartments T00006543 - 9180 Moonshine, Apt. K – Roach infestation	Follow Up	01/12/2026

My name is Christyl Tate and we have been living here for almost two years and our home is infested with roaches and creating an unsafe and unhealthy living condition for me and my husband and daughter and my dog. With having it doesn't allow me to be

able to fumigate the apartment properly or be open to other avenues of other rectifying the infestation issues that we have been experiencing. I have contacted the maintenance crew and the property manager with full description of the issues we have been facing and there hasn't been any act of resolution or urgency to the issue. I have pictured of holes that were behind the refrigerator that were never mentioned upon moving in and there wasn't a full inspection done on the apartment. Furthermore , the holes that are behind the refrigerator were stuffed with mesh to hide the holes and we weren't able to see the unit in its completion until move in day May 17, 2024. After being told countless times it wasn't ready and we were unsatisfied going into this blindly with no reason of why we still haven't seen our unit until the last minute. We now feel uncomfortable and highly dissatisfied with these living conditions and wish to take further steps. The exact date I notified the person in charge of residence service relations, Christine Hall about this issue was July 23rd, 2025 and she responded the next day and the last reply from me was July 28th 2025 because I was dealing with issues with my asthma and there hasn't been a response made from management ever since.

Below attached is supporting documentation.
Contact information: 202-730-5434 mobile

Christyl Tate:

We believe you reside within the Seasons Apartment complex based upon the street address. We must have your apartment number in order to open a case.

The photos would indicate a severe roach infestation which takes time to get this severe. You indicate you did not report the issue until July 23rd (please provide ticket/work order number). What action has management taken to date? Has a pest control contractor been dispatched to your unit?

RENTAL HOUSING INSPECTIONS

My apartment is a letter. It's the letter "K".
I have made several tickets to maintenance because that's where I was directed to for the infestation to then have it fumigated which didn't amount to a solution of any kind because it wasn't helpful.

The only action management has taken is sending the exterminator which didn't solve the issue because he would spray fluid in my cabinets and a few corners and then proceeded to leave. I emailed them July 23rd because me and my partner were trying our best tk help ourselves in the situation when they didn't seem to have an effective solution to the issue or any urgency to respond.

Below attached are support documentations of the maintenance tickets I have made to address the issue and seeking help from maintenance to solve the issue but it didn't work. Also, we get emails sent periodically about charges that will made after assessments are done on the units if these things go unreported and is seen as negligence and one of them is unreported pest control issue in which in our case we have reported it and reached out over the course of time . The email is attached below

broken washer

I am requesting an inspection of my rental unit at 9265 livery lane unit L Laurel Md 20723 due to unsafe and uninhabitable conditions that my landlord has failed to properly address. These conditions are causing serious health and safety concerns for me and my children.

The problems include:
• Severe roach infestation throughout the home (kitchen, bedrooms, bathrooms, dishwasher, and living areas). Despite multiple pest control treatments, the infestation persists and is worsening.
• Mold growth in the bathroom near the tub, in the kitchen, and under fixtures, which was painted over instead of being properly removed.
• Improper pest control treatments—technicians sprayed directly on food, dishes, cabinets, and household surfaces, creating chemical exposure risks.
• Broken washing machine that spins continuously and poses a fire hazard if not manually stopped.
• Cracks and openings in walls/baseboards that allow pests and even reptiles inside.
• General poor workmanship at move-in (painted over mold, dirt, cat hair, etc.).

I have documented these issues with photos and videos. My landlord and property manager have been notified multiple times but have not resolved the problems.

Given the severity of these conditions and their impact on my family's health and safety, I am requesting an urgent inspection under the Howard County Housing Code. Please advise me of the next steps to schedule an inspection and to ensure the landlord is held accountable for providing a habitable living environment.

Thank you for your attention to this matter.

Sincerely,
Arika Anthony

Re: Request for Housing Code Inspection – Unsafe and Uninhabitable Conditions
Arika Anthony:
We appreciate the detailed information.
Attached a document that outlines the limitations of this office as it relates to mold issues. Under our code, we cannot cite mold as mold is not mentioned in the code. Do you have a visible water leak or unrepaired water damage?
What date did you report your issues to the owner or management company (provide work order number if you were given one). What action did they take, if any?
Thank you.
Rental Housing Inspections
410.313.1830

Okay that is fine! I will get a mold inspector to come out and cite but what about the pest infestation?

Arika Anthony:
We need answers to t he questions highlighted below.
Regarding the pest control, once treatment for roaches begins (we don't know the date you reported this to management or what action has been taken until you tell us) roach activity increases before it gets better. That is common. We need to know the date you reported it (provide work order number) and what action has been taken so far. Did they use a Maryland Licensed Pest control contractor? What date did treatment begin and what intervals?
If you have an active visible leak or unrepaired water damage, we can address that; however, we cannot cite mold under the code (see document attached sent previously.
If the washing machine is broken we can address that. We must know the date you reported this to management (provide work order #) and what action they took if any?

We await more information.

Hello,
I reported the roach concern June 30 which is also the day I signed my lease. Pest control has been coming out Tuesdays and Fridays for the first three weeks then it changed to once a week on Fridays. The problem did not go away, so I had to hire my own pest control company, and because I couldn't afford to continue to pay them, they stopped coming, and the problem remained.

CRH250918	5412 HERON DR	38	RH21000128 5412 A Heron Drive (Riverwatch II) – Unrepaired water damage that resulted in mold issues. Leaking HVAC believed to be cause. My name is Patrice Brown. I am reaching out in reference to a continuous mold issue I am having in my unit. The apartment community is RiverWatch Apartments 1 and 2. I reside on the part 2 side. My address is 5412A Heron Drive Elkridge, MD 21075. I reached out to my leasing office on 7/21/25 in reference to various mold sitings in my unit. I was informed on 7/24/25 that my AC unit was not correctly installed and it causes leaking and that a professional team would need to come out to clean my vents. Since then no one has come to clean my vents , I've emailed the leasing office numerous times as well as went into the office and I keep being told someone will call me. Now the mold is back on the master bedroom ceiling, the second bedroom ceiling, downstairs bathroom ceiling and as well as inside my vents that were supposed to be cleaned a month ago. I can be reached at 443-473-1492. Thank you, Patrice Brown Patrice Brown: We are aware that the property is now under new management effective August 1 we believe. Was this issue reported to the new management company (Humphrey)? If so did they take any action? Were tenants told of the management company change? Please see the attached document outlining the limitations of this office regarding mold issues. RENTAL HOUSING INSPECTIONS	Follow Up	10/09/2025

Hello,

I made the leasing office aware of the issue on 7/21 when they were under Habitat America. The issue has continued on up until today, under their new management Humphrey. I have emailed the leasing office, spoke with the property manager multiple times and emailed requesting the regional property manger to reach back out to me.The issue has not been resolved. Tenants were informed on 7/23/25 that management would be changing on 8/1/25.

The issue started with me seeing black mold around my vents. They came in and painted over the black mold. I emailed them and informed them that the mold spread throughout my house and that they needed to look for where the issue was coming from. I had to discard of several clothing items, kitchen items and purchase dehumidifiers because mold spores were growing everywhere. It all happened in matter of a few days. On 7/24/25 they came in and saud my HVAC filter was very clogged, which caused the AC to not work properly, then caused a back up and that there was leaking behind the walls which caused the mold to spread throughout my home. I was told that my bedroom ceiling and restroom ceiling needed to be cut open because the AC duct was not installed properly and it would cause leakage where the mold spots were in my master bathroom and bedroom.

On 7/25 they cut the ceiling in my master bathroom open (but not my bedroom) and left it open over the weekend and came back in and closed it on 7/28. The maintenance informed the leasing office that a professional restoration team needed to come and deep clean my vents. The team came out on 7/29 and did not clean my vents, instead a big dehumidifier was left in my unit and I was informed to leave it on for a few days and then they will come back out to clean my vents. Since that date I have been asking maintenance, the property manager and emailing for the regional property manager asking when the team will be back out and no one can give me a date.

Patrice Brown:

We have reached out to management on your behalf.
They should be contacting you to make arrangements to come in to assess the situation for needed repairs.
Let us know if they do not contact you.

RENTAL HOUSING INSPECTIONS

Hello,
Thank you. I still have not been contacted, there is still mold on my ceiling as well as in my daughter's bedroom and the spots look wet so I'm not sure if something is about to start leaking.

CRH250921	8419 JACQUELINE CT	43	8419 Jacqueline Court - Unlicensed rental property per HOA. Property owner's current address appears to be; 9340 Alloway Dr., Hagerstown, MD 21740 I am requesting a formal investigation into the home above. I called Rental housing and talked to Holly today. I confirmed today by phone that there is no rental license for the property at 8419 Jacqueline Court, and the owner is not living at the residence. The police are currently addressing issues with the residents at the house and I continue to receive multiple complaints daily from residents. On Wednesday, July 30, 2025, at 2:46 PM, we emailed the Jacqueline Court HOA President regarding the ongoing issues at 8419, including drug activity on our street. However, the HOA has not taken any action in response. The renter's first boyfriend was observed smoking marijuana in a vehicle on Wades Way, and it was later discovered that he had an active warrant. The second boyfriend and the renter herself have both received warnings. Despite our community's parking policy, the renter has also been seen smoking marijuana at the park, which required park rangers to intervene. For the past two months, I have received daily complaints about the renter's guests parking on Pleasant Chase Road and Wades Way while smoking marijuana. Now that the school year has started, parents and children are reporting even stronger	Follow Up	12/18/2025

concerns about the smell.
Although this renter has been repeatedly warned by the police, the Jacqueline Court HOA has taken no action and has not responded. I also spoke with a representative from Howard County Parks & Recreation and received a follow-up call from their office, during which it was recommended that I request additional patrols in the park area.
The police have confirmed that the individual residing at 8419 Jacqueline Court is Daniella, who has identified herself as a renter. We cannot contact the Owner and he needs to handle this matter immediately.
Thanks,
Camille Edwards
HOA President

CRH250924	3281 SHARP RD	14	RH08000530 3281 Sharp Rd – Deck concerns, fireplace concerns (need reports), need new lead cert (2016 full risk on file and tenant changed), smoke alarms and CO's need to be up-to-date, possible unrepaired water damage and leaking faucets My family and I moved into a rental property at 3281 Sharp Road, Glenwood, MD 21738 on August 1, 2025. Within the first two weeks of occupancy, we discovered multiple serious issues with the home that we believe pose health and safety concerns. The most urgent issue is widespread black mold throughout the property. We have performed room-by-room testing and have documented evidence confirming the presence of mold. Additionally, one of the showers leaked significantly into the garage ceiling. Although the landlord attempted a repair, there remains visible mold in the same area. Other concerns include: • Exterior safety hazards: The deck lacks proper hand railings in several areas, and many deck boards and steps are rotted, posing a safety risk to children. • Fireplace issues: Neither the wood-burning nor gas fireplace is operational. • Plumbing issues: All shower faucets were leaking upon move-in. We are especially concerned about how this property passed county rental inspection requirements given these conditions. Mold and deck safety, in particular, pose immediate risks to our family. The landlord has also instructed us to vacate the property by August 31, 2025, leaving us with limited housing options, especially since our children are now	Follow Up	10/28/2025

enrolled in local schools. Relocating so soon would cause significant hardship for our family.

We respectfully request that Howard County send an inspector to this property as soon as possible to evaluate these conditions, with particular attention to the mold problem and deck safety issues. Also I diagnose with colon cancer my immune system is weak, we left the house as soon as we noticed the mold which it was on August 21. We lived in the house with mold for 21 days. Also I have a 14 years old son.

Thank you for your prompt attention to this matter.

The property at this address has been consistently neglected, with severely overgrown grass, weeds, and dense vegetation covering the backyard. This condition has created a breeding ground and harborage for rodents and vermin, which have subsequently infested my own property at 6586	Follow Up	12/09/2025

Waning Moon Way. Despite my best efforts to control the pests, the infestation continues to be a persistent and escalating problem due to the conditions on the adjacent property.

I have photographs documenting the condition of the property as well as evidence of the rodent infestation on my premises. I believe this situation is in violation of the Howard County property maintenance code and poses a significant health and safety risk to myself and other neighbors.

I respectfully request that an inspector from your department promptly investigate this matter and issue a violation notice to the property owner to rectify the issue in accordance with local regulations.

Thank you for your attention to this urgent matter. I look forward to your prompt response and a resolution to this problem.

Sincerely,

Jill M. Thomas

CRH250935	5231 BROOK WAY	30	The Brook at Columbia Apts., T00006552 – 5231 Brook Way, Apt. 4 – Inoperable washer and dryer , I am writing to formally raise a complaint regarding an unresolved maintenance issue in my apartment. For the past three weeks, both my washing machine and dryer have not been functioning. Despite visiting the leasing office three times and requesting repairs, my concerns have been repeatedly ignored. After multiple unsuccessful attempts, I also followed up with an email (which I can forward to you), but no action has been taken. I am paying $2,013 in monthly rent, yet the management has shown little concern for tenant needs. As a father of four young children, this situation has created significant hardship for my family, as we are unable to wash our clothes. When I spoke with the property manager, Ms. Rubyn Smith, she stated that in the State of Maryland, a washing machine and dryer are “not a priority.” I believe this	Follow Up	11/18/2025

response demonstrates a disregard for tenant rights and well-being.
I would also like to clarify that although the lease is not under my full name—because when I arrived in July last year, I had no documents—my friend, Mr. Nasratullah Rahimi (my U.S. tie), assisted me in securing the apartment. My name does appear in the contract as a resident.
I kindly request your assistance in ensuring that the management fulfills its responsibility and repairs the washing machine and dryer as soon as possible. This issue has caused considerable stress and inconvenience for my family, and I strongly believe tenants deserve to be treated with fairness and respect.
The Leasing Office full details:
5361 Brook Way, Apt 3, Columbia, MD, 21044

jhughes@murnproperties.com - Robyn Smith
rsmith@murnproperties.com
Thank you for your attention and support.
Sincerely,
Fahim Anwari

Fahim Anwari:

Our office has reached out to management on your behalf. We are not certain, but the issue could be that your name is not on the lease. Can the lease holder submit the complaint for you?

We cannot assist you with the broken window blinds. They are not covered by the code. Washer and dryers are required to function properly if they are in place. A non-working washer and dryer is not an emergency (like no heat would be), but they do need to function as intended. Do they work at all? It's odd that both would not operate. Can you provide us with details on what is happening? Did you submit actual work order requests or just the email attached?

Please discuss the matter of you not being on the lease and the rent payments without the promised amenities with the Office of Consumer Protection

(410-313-6420).

Dear Rental Housing Support Team,

I hope this message finds you well. I am writing to bring to your attention an ongoing issue with our washer and dryer, which have been out of service for several weeks.

Although my name is not listed as the primary leaseholder, my name appears throughout the contract and ledger, and I am the one living here with my family. I pay approximately $2,013 per month in rent, in addition to around $200 for water, trash, and gas services. Despite fulfilling my responsibilities, I have been facing significant difficulties in getting this issue resolved.
Between early August and August 20, I personally visited the leasing office 4–5 times to request repairs, but no action was taken. The staff explained that fixing air conditioners was a higher priority. On August 20, I also sent a follow-up email, but I have not received any response or assistance.

As a result, my wife has been forced to wash clothes by hand, and we dry them on furniture, which is not practical, especially with four children at home. This situation has caused us great hardship. I kindly ask for your support in resolving this matter.

CRH250939	6209 GUILFORD RD	34	RH08000685 6209 Guilford Rd - tarp over the roof, and outbuildings falling down, tall grass	Follow Up	11/07/2025

We received a complaint about 6209 Guilford Rd – primarily concerned that the property has a tarp over the roof, and outbuildings falling down, tall grass, etc.)

Complainant said that it is a rental property, but seems to be vacant at this time.

Is this a licensed rental, and would you follow up if the property is vacant? Thanks,

Kathleen

Subject: Vacant rental property

I would like to report a vacant rental property at 6209 Guilford Road, Clarksville, MD. This property is in complete disarray (outside buildings falling down, tall grass, house has tarp on roof to keep house from leaking when it rains and other issues). Someone needs to be held accountable for this mess.

Call me at 410-531-2026 or email me lfanders37@gmail.com for further information.

Thank you!! Loretta Anders, 6119 Tulane Road, Clarksville, MD 21029

CRH250941	5860 THUNDER HILL RD	36	5860 B1 Thunder Hill Rd – Unlicensed occupied rental unit with serious maintenance issues (leaking unrepaired HVAC unit) per Condo Association Sent from my iPhone On Sep 6, 2025, at 2:42?PM, Frank Standafer <fstanda669@gmail.com> wrote: After our conversation today , the e has cost the association tens of thousands of dollars in damages. You stated you had no idea about any issues yet mentioned that all three of your units have had issues with your HVAC unit leaking into units below and don't understand why. Really? It's because you are not following and suggested maintenance protocols. You also said that Metropolis has never notified you on these issues. Monday morning Metropolis will pull up records/notices on all three of your units.	Follow Up	10/24/2025

Creative Edge will creat billing for all completed work and submit an estimate for repairs for additional damages.
I personally will be contacting HoCo Rental Licensing to file a complaint and request a wellness check is scheduled for all three of your units.
The Association will contact our legal counsel to pursue this matter.
With the winter heating season coming up, I can only hope that your renters and the safety of other residents in the building far exceed your concern for profits

On Sep 7, 2025, at 2:29?PM, Frank Standafer <fstanda669@gmail.com> wrote:
Dear Mr Wells
This is Frank Standafer Shadow Oak Board President, over the years we've had several Landlords than than seem not to care for the safety and wellbeing or their tenants nor the wellbeing of others in the building, this is an unfortunate example. This owner of 3 units is the example.
Mr Burnetto has been notified over the summer that each of his 3 units HVAC units were leaking into units below causing water damage costing the Association tens of thousands of dollars in damages (water & mold issues). All this due to not following maintenance protocols.
5860 B1 is just one of the examples (video & pics attached) also latest e-mail sent, Mr Burnetto called me yesterday and was very upset that I had maintenance disconnect the HVAC power to stop the leak from continuing, he said all three of his units have the same issue and per him it's not his fault it's the associations fault, all three common element lines were checked and were clear.
This issue in 5860 B1 has been going on for 3 - 6+ months, 3 months ago I had maintenance turn the unit off and notified Mr Burnetto (main Association common line was checked and was clear), Apparently the tenants turned the unit back on.
We did not know this because the condo below was vacant due to $10s of thousands in water and mold issues, clean up and some repairs had been done, the only reason we found out the B1 units HVAC had been turned back on without repairs and still leaking

was that the contractor had went back to pick up fans & dehumidifier.
When notified I had maintenance disconnect the power supply.
I am requesting someone to do an inspection on this unit and the two others, this units HVAC is currently unsafe for anyone in this unit or lower unit. There is a brown and green mold build up in the air exchange, filter laying in filthy contaminated water.
My second concern is heating, with colder weather approaching and clearly seeing the owners neglect, I am concerned that without any concern to maintain a gas fired furnace properly (BGE & Manufacturer suggests a yearly inspection & maintenance). This HVAC unit should not be operated until a licensed HVAC contractor has inspected and repaired. I can only hope and pray that this unit has operational smoke and carbon monoxide detectors.
My third concern is this unit has a gas stove, my hope is the original fire hazard was replaced by a licensed plumber and is in working order.
My fourth concern is Mr Burnetto has two other units, as seen it's obvious the HVAC units were not maintained per BGE

RENTAL HOUSING INSPECTIONS

Hello,

I won't be able to give the full summary today. I will answer the three questions and provide more background information within two days. I'm open to any questions and suggestions in between the two days before give a more detailed summary.

1

Work Order Number: 403478
Request Date: 10/27/2024

No one came to fix the issue at all. The work order falsely proclaims that something was done about my floor.

2

No disrespect, but it's not just a stain on the floor. An individual can walk up to that yellow and green marking on the floor and start to feel severe pain on their skin. I am not a chemical expert, and I

researched online what to do about unknown, harmful ‘spots/stains’ in the environment, and I was directed to the health department. I was told by multiple individuals and resources if I have an unknown factor in my house that is physically causing pain to me and other random individuals, then I should report it to the health department. multiple pictures and tell them that it is causing damage to me and other people in the environment.

Even if the rental office machinations manage to block an investigation of the spots on the floor, I’m also uploading pictures of direct holes in my floor, along with the work order requesting that the floors get fixed. So even if nobody takes the ‘spot/stains’ serious, they’ll at least take the holes in the floor seriously.

OVEN

The oven also cause SEVERE pain to individuals who stand next to it. The rental office is taking revenge of the fact that the oven doesn’t look particularly odd, but individuals walk up to it can feel severe pain.

I’m zealous about this because the local rental office directly knows it’s hurting people and they laughed at my face and other people’s faces concerning this serious incident.

I will attempt to upload pictures of the damage the oven caused to my face. I will start an email thread of pictures if I’m unable to upload all the pictures in a single email.

CRH250950	6228 DEEP EARTH LN	36	6228 Deep Earth Lane – Unlicensed rental unit per HOA. Advertisement for rental online hotpads website. We have a many rental homes in our community. We have a "Rental Resolution" in place as part of our governing documents to ensure that all rental homes have a current rental license and that the HOA receives a copy. Our management company, American Community Management keeps these records up to date. Is there someone in your department that we can email or is there a form that needs to be filled out by our management company in order to get a copy of some of the rental licenses. We do send owners letters but unfortunately some are better at responding than others. Thank you Karen Roseman Arborside at Kendall Ridge	Follow Up	03/27/2026

Karen Roseman:

You would have to request copies via a Public Information Request. Please see the following website for information on how to do that:

https://www.howardcountymd.gov/PIA - To submit public information request

Let me know if you need anything else.

Brenda K. Saucedo

Hi Brenda,

Thank you for this information.

The home at 6228 Deep Earth Lane was recently sold and has now been rented.

We just want to make sure that the new owner has obtained a rental license and then we can reach out to them.

Citizens Access does not reflect there is a rental license for this property.

Do you have a record that there is a license?

Thank you.
Karen

CRH250966	10411 HICKORY RIDGE RD	35	The Bluffs at Hawthorne Apts T00006075 - 10411 Hickory Ridge Road Apt L. - Alleged improper remediation of human remains affecting adjacent apartment I am writing to request immediate resolution regarding an ongoing issue in my apartment, 10411 Hickory	Follow Up	12/08/2025

Ridge Road Apt L. (The bluffs Apts) Under the management of Henderson Webb inc. Customer service number 410-628-7700.
Recently, my immediate neighbor in the adjacent unit passed away, and the odor from the decayed remains entered my apartment through the shared wall and vents. I promptly reported this to management, and although I was later informed that both apartments had been cleaned and the vents replaced, the odor has persisted. The odor was so severe that it caused me to become ill, forcing me to leave the premises and seek temporary accommodation at a hotel at my own expense.
Despite airing out the apartment and taking additional measures, the odor remains strong and continues to render the unit uninhabitable. I have repeatedly reached out through their emergency line and customer service, but as of today, I have not received any meaningful follow-up or assistance.
This situation has significantly affected me. I respectfully request your immediate help.

Sincerely,
Hellen Kamanga
240-432-1016.

Dear Henderson-Webb Management,
I am writing to provide formal notice regarding the continuing odor contamination in my apartment, which has rendered the apartment uninhabitable under Maryland landlord–tenant law. Despite my repeated emails and phone calls since late August, I have received no meaningful action or resolution.
As documented, the apartment has been uninhabitable since August 27, 2025, i got sick due to pervasive odor contamination affecting the walls, carpet, and my personal belongings. The odor is hazardous to my health, and I have suffered both physical and mental harm as a result of exposure. This has forced me to vacate the apartment and incur significant out-of-pocket expenses for emergency housing.
Under Maryland Real Property Code § 8-211, landlords are legally obligated to maintain premises in a condition that is safe, sanitary, and fit for human

habitation. The statute specifically provides tenants the right to withhold rent and/or seek legal remedies when a landlord fails to repair conditions that constitute a substantial and dangerous defect. The ongoing odor contamination clearly violates this standard.
Accordingly, I am formally requesting the following:
1. Immediate provision of safe, temporary housing or relocation to another habitable apartment beginning October 1, 2025.
2. Full waiver of the September 2025 rent, as the unit has been uninhabitable since August 27, 2025.
3. Email confirmation detailing your plan of action to remediate the apartment or provide alternative accommodations.
If these issues are not addressed promptly, I will have no choice but to pursue remedies available to me under Maryland law.
I strongly urge Henderson-Webb to resolve this matter cooperatively and without further escalation. Please treat this matter with the urgency it requires.
Sincerely,
Hellen Kamanga
10441-L Hickory Ridge Rd

CRH250971	8929 SKYROCK CT	42	RH22000829, 8929 Skyrock Ct – Unrepaired damage from prior leak (hole still open in ceiling) I am submitting a complaint regarding my landlord's failure to complete necessary repairs at my residence, located at: 8929 Skyrock Ct Columbia, MD 21046 • On August 2, 2025, I notified my landlord about a ceiling leak. • On August 12, 2025, the ceiling began actively leaking. • About a week later, the landlord fixed the source of the leak but left a large hole in the ceiling. • Since then, I have repeatedly asked when the ceiling will be repaired. The landlord has ignored my most recent request from last week and has taken no further action. As of September 15, 2025, it has been more than 40 days since I first reported this issue, and the ceiling remains unrepaired. This has created unsafe and unsanitary living conditions. I am requesting that Howard County Code Enforcement inspect the property and require the landlord to make the necessary repairs in compliance with housing and property maintenance codes. Thank you for your assistance. Sincerely, Travelle Mayes Tenant – 8929 Skyrock Ct Columbia, MD 21046 3018215227 Travellemayes18@gmail.com	Follow Up	01/27/2026

CRH250974	8531 AUTUMN RUST RD	25	RH25000229 8531 Autumn Rust – Rodent infestation and other numerous property maintenance issues. Fireplace must have Level 1 inspection, the offer of the exclusion was violated. I am renting a home in Howard County (since July 2025) and have had serious issues with the home since moving in. The most serious has been a rodent infestation (primarily mice) that has not been resolved. As you can see from the below emails I have been sending to the property manager, I cannot	Follow Up	12/17/2025

get any feedback on the plan to treat for additional mice as they have barely responded and not even acknowledged the fact that we found five dead mice in the home. Now the home owner and property manager want to amend the lease so I take on the pest control and sanitation costs over $500 per year, which can run into the thousands. This was clearly a problem before move in, as the current pest control company stated that the owners were aware and even cut into the basement wall so they could lay traps down. I don't know what my recourse is, as I have paid a lot of money up front in rent, and getting the home to a standard safe for a young family by investing in paint, lawn care, pressure washing, and additional cleaning, none of which was done prior to move in. Despite many asks to have the property manager do a walk through, she never has. In addition to the below emails, I am also including the full list of issues that we've been dealing with in the two months that we have lived here. Welcome any guidance you can provide.

CRH250975	8910 STANFORD BLVD	36	T00006227 Sonesta Select Columbia Hotel – 8910 Stanford Blvd, ROOM 330 – Tenant reports alleged toxic odor in room. Inspect room for IMPC violations. I would like to file a complaint against the Sonesta Select Columbia located at 8910 Stanford Blvd, Columbia, MD 21045. On September 6, 2025 I checked into the above referenced hotel. Confirmation number: 908115674	Initial Investigation	09/17/2025

I was initially scheduled to check out September 12, but checked out on September 10.

Aside from issues with plumbing, electrical, and HVAC, one of the suites had a terrible mildew odor, in which I was allergic (to mold). The room I was switched to had a strong odor of construction materials. I called the front desk and maintenance came up to the room and said it smelled like paint and other construction chemicals and advised me to switch rooms. Bridgette Sloan the general manager advised me she would not let me switch to another room and instead suggested use of an ionizer machine. Maintenance returned to the room and turned on the ionizer machine and said it was safe for me to be in the room. After a couple of minutes I had difficulty breathing and a full on asthma attack requiring medical attention. The front desk then called me and told me it was not safe to be in the room. I checked out of the hotel and was evaluated virtually by a provider at my primary care doctor's office who ordered a chest Xray, which later was confirmed I had pneumonia. Just a couple of weeks earlier I had full physical exam and no issues with breathing or my lungs. I saw my Primary Care Provider in person today to who confirmed I have pneumonia and advised me this was caused from the hotel's use of the ionizer machine which stirred up ozone and bacteria and someone like myself who has asthma can absolutely get pneumonia. My provider advised me to start two antibiotics, steroids, and return in 6-8 weeks for a follow up X-Ray. I contacted the hotel this afternoon and spoke with Bridgette Sloan again, informing her what my doctor said. She became unprofessional and began arguing with me. She gaslighted me, denied any of what happened that is now documented by my doctor. When she nastily said what happened isn't possible, I asked her if she had a medical degree and she said I'm ending this call and hung up on me.

What I observed at the hotel and how the poor room conditions impacted my health and then to see how the hotel tried to lie and cover it up, makes me think there is a much larger issue. The mold and chemical issues are a health and safety issue to any hotel

guests and I respectfully request that you investigate so that other visitors to Howard County are not made to be ill like I am.

Thank you for your time.
Best,
Steve Schuster
919-270-9533

Steve Schuster:

Under the rental housing property maintenance code, we would not be able to cite the described odors; however, if you can provide the room number you stayed in, we would be more than happy to inspect that room for potential violations of the property maintenance code.

Please provide that room number.

CRH250982	9801 GWYNN PARK DR	24	RH22000467 9801 Gwynn Park Dr. – Alleged numerous property maintenance Code violations (Damaged garage door, glass all over on premises, door handle to structure knocked off, etc.) Background: This property has been rented out for about 4 years by a husband, wife and 2 children. The owners names and contact numbers are above. All has been well for 4 years. Within the past few weeks, the wife (Angel) had to move out because her husband is suffering from a mental health crisis and she feels she is in danger. She and the kids are living in a shelter. Her identity is private. I talked Angel today and was told the house inhabitable. The husband has broken every light fixture and pieces of glass in the house, spreading shards of glass everywhere. The walls have been hit with objects and there is broken wall board and wallboard dust everywhere. Doors and windows have been left open, there are snakes and mice living in the dwelling. She said it was filthy.	Follow Up	01/14/2026

Angel has limited use of the English language and is frightened.

The police have been called to the house over 10 times. Angel is not there, it is the husband destroying the property..hitting the fence or garage or doors with a baseball bat. At one point, he was hitting a neighbors car with a baseball bat. The police arrive each time in the neighborhood with rifles and police dogs. They have been able to calm the situation and take him into custody. At one point the husband was hospitalize for 7 days.

At this point, I have not personally seen the inside of the house. But the husband threatens neighbors, including children, daily who are walking to from the bus stop. He has pulled garbage out of the house and thrown it all over the yard attracting rodents and other animals. He placed junk, including a mattress on the street to stop traffic. The mattress is currently sitting off the road in the front yard. He has erected signs threatening people living in the neighborhood.

One of my neighbors contaced the property owners, who are currently living in Texas. They say the tenant has a contract, therefore they can not evict him. I am asking Howard County to inspect this rental property, and if possible pull the permit. Repairs will need to be done to the house and yard before it is fit for rental. I am also suggesting that any inspection officer be accompanied by the Howard County Police force. For more information, I am sure you can contact the police. However, even the police have not been able to gain entry into the house.

Tom:

I'd take an "all-of-the-above" approach. Let's start with an exterior inspection; do it with as minimal contact as necessary, such as from across the street,

or as remote as possible from the property. If we can gather enough information/documentation from that, then reach out to the owner with the appropriate N-O-V, then if needed civil citation.

Revoking a license doesn't by-pass the State eviction laws, so I don't see much help in doing that. However, if a suspension or revocation can assist the owner with an eviction process, I'm willing to do it.

Leet me know if you want to discuss this further.

Thanks,

Bob

Bob:

Please see the email chain from Brenda concerning a probable dangerous situation for an inspector. HCPD has been contacted for means to have an Officer present.

I have advised Rental not to do an inspection for this unsafe situation should we visit the site. Can we revoke the rental license or proceed another way, such as request the out of state owner take action?

Tom

CRH250988	8610 SNOWDEN RIVER PKWY	36	Park View at Snowden River Apts, T00011305 – 8610 Snowden River Pkwy., Apt. 206 - Rodent Infestation (rodents not excluded, ask Maintenance to pull appliances, etc.) I am writing regarding the unlivable and distressing conditions my mother, Carolyn Sanders (Apt. 206), has endured since August 2023 due to a persistent mice infestation in her apartment. Despite repeated attempts to address this matter, management has informed her that the source of entry cannot be identified, and the problem remains unresolved. My mother, who is 82 years old, relocated here from Michigan after the loss of her husband of 63 years. Instead of being able to heal and grieve in peace, she has been forced to live in deplorable and unsafe conditions. Due to her limited mobility, she is unable to remove dead mice herself and often has to wait until maintenance is available. This is an unacceptable standard of living for any tenant, let alone a vulnerable senior on a fixed income. She’s breathing air contaminated with rat droppings and urine. Mice are found by the exterminator and maintenance personnel under her bed, behind the	Follow Up	11/13/2025

sofa, and in the chairs. She doesn't know how long the mice have been dead and decaying before they are removed. She has a compromised immune system and is having flu-like symptoms every month. Leptospirosis and Hantavirus are two types of infections caused by inhaling or being in contact with rat droppings and urine.
This can cause Allergic Reactions; my mother has scratch marks on both arms from itching.

My mother can't move furniture to check if there are dead mice. Her carpet needs to be cleaned and sanitized.
She has vacuumed, trying to remove droppings, but found that vacuuming causes the droppings' odor to spread into the air and be inhaled.

She has consistently paid her rent of $1,280.00 per month, yet the conditions fall far below what is reasonable or safe. No resident—especially a senior—should be subjected to ongoing infestations and the indignity of living in such conditions.

We are urgently requesting:

1. Immediate accommodation in another comparable unit at this property, or relocation assistance to another affiliated location such as Parkview at Emerson or Parkview at Laurel.

2. A timeline for when this matter will be addressed and resolved.

If this request is not honored promptly, we will be compelled to seek a remedy through county and state housing authorities to ensure my mother's health, safety, and dignity are protected.

Please treat this complaint with the urgency it demands. Carolyn Sanders should not be expected to endure these conditions any longer.

CRH250995	7998 MARTOWN RD	46	RH18000594, 7998 Martown Rd. – Alleged IPMC violations (possible apartment, alleged clogged gutter,	Follow Up	11/06/2025

alleged missing screens, etc.)

County Inspectors,
My name is Marlon Fonrose, and I am the current tenant at 7998 Martown Rd, Laurel, MD 20723 (Rental License RH18000594). I welcome a County Inspector to assess the inside and outside of the property at their convenience and hopefully this Friday, September 26, 2025.

Inspection history
• September 10, 2024: Notice of Violation cited missing outlet cover, missing address numbers, and missing window screens. The screens were never installed.
• September 26, October 1, and October 22, 2024: inspections failed due to the missing screens and the presence of a stove and microwave in the basement.
• October 29, 2024: inspection was marked as passed based on an emailed MLS outdated photo dated September 6, 2024, taken before my tenancy began on March 1, 2024, and not reflecting the actual occupied condition. At all times during my tenancy, the stove and microwave have remained installed in the basement. This constitutes inspection gaming and shows that violations were never truly abated.

Habitability issues during my tenancy
• Seasonal cicada killer hornets infesting the front walkway and both sides of the front door, rendering the main entry unsafe and deterring package deliveries.
• Persistent small gnats and ants entering through unscreened windows; major drafts from master bedroom back windows in winter.
• Small lizards and spiders inside the home.
• American Pest rodent traps placed inside and outside the property, indicating ongoing rodent activity which stemmed from the previous resident. American Pest in Maple Lawn would have all the call out records to the home.
• June 14, 2024: a master bathroom toilet leak caused ceiling damage and a protrusion into the living room that has not been repaired.
• Moisture-damaged and dry-rotting window panels with trapped condensation.

			• Uneven temperature control throughout the home, with the basement significantly colder than the rest of the house and the master bathroom approximately 20 degrees colder than adjacent rooms. My 81-year-old mother resides in the basement, where the lack of proper temperature control has created unsafe living conditions. • Gutters along the side and back of the house are overgrown with small plants/trees (reported to the owner on July 11, 2025), not addressed. Please have a county inspector come to verify as soon as possible. Thanks Sincerely, Marlon Fonrose 410-456-8023

CRH250996	8822 TAMAR DR	36	Columbia Landing Apartments T00006074 -8822 Tamar Drive, Apt 101 – Toilet completely non-functional and is the tenant's only toilet, tenant has to go elsewhere to use bathroom and alleges management closed ticket with no repairs This is an urgent follow-up to my formal complaint regarding the sewage back-up in Unit 101. I just confronted the apartment office, and they provided the following critical information: Management is fully aware the problem is NOT fixed. They stated the main line only works during the day when building usage is low, and it consistently backs up in the evening/night when building usage increases. This confirms the landlord is knowingly exposing tenants to an intermittent main sewer line failure and is refusing to treat it as an emergency, telling me to live with the unsanitary condition. This information further proves a serious, ongoing threat to health and safety that requires your office's immediate inspection and Emergency Abatement Order. Thank you for your prompt attention. Dear Ms. Ewell and the Community Hygiene Program:
This is a formal complaint and urgent request for immediate environmental health intervention. My unit is currently suffering from a main sewage line back-up that is severely compromising the health and safety of the occupants.
IMMEDIATE HEALTH & SAFETY FACTS (UNIT 101)
Tenant: Benrolins Awandem
Property Address: 8822 Tamar Drive, Apt 101
Tenant Phone: 240-564-5942
Defect: The toilet is completely non-functional. When flushed, water comes up, bubbles, and takes over ten minutes to slowly recede.
Uninhabitable: The unit has been without a functional toilet and proper sewage disposal for three consecutive days (since Tuesday, Sept. 23). This is a critical sanitary hazard.
Safety Measure: I must leave the premises to use the

restroom, as any flush risks a sewage overflow into the apartment.
LANDLORD'S BAD FAITH REFUSAL TO ACT (COLUMBIA LANDING APARTMENTS)
Delay: Despite confirmation from the maintenance staff that the issue is a main pipe/frame fault, the repair was initially scheduled for NINE DAYS LATER (Tuesday, September 30th).
Fraud: On Thursday, September 25th, after my objections to the delay, the landlord Falsely Marked Repair Request ID: 4396-1 as "RESOLVED" and closed the ticket.
Refusal: The issue is NOT resolved. The toilet is still a sanitation hazard. The landlord's action demonstrates a deliberate refusal to fix an emergency.
I demand an IMMEDIATE EMERGENCY INSPECTION and the issuance of an Abatement Order against Columbia Landing Apartments. The current condition presents a grave and imminent threat to the occupants' health.
I look forward to the immediate dispatch of a County inspector.
Sincerely,
Benrolins Awandem

T00006225 – 3363 North Chatham Rd., Apt C – Clogged and overflowing kitchen sink going on 1 month now not repaired / CASE RE-OPENED 11.13.25 I would like to file a complaint against Chatham Garden Apartments specifically 3363 C apartment. Mr. Donald Boone an 85 year old man with a Howard county voucher has lived in the apartment for many years and has had a clogged and overflowing kitchen sink for over a month! This clogged sink has	Follow Up	10/15/2025

overflowed into the kitchen down the cabinets under the stove and refrigerator and has filled the dishwasher with the most disgusting water containing the most vile food particles and whatever. The maintenance workers have been on site as many as eight times trying to 'fix' the problem. I have talked with the maintenance workers many times and they agree the upstairs people are responsible. I called my own plumber on a Saturday which was gonna cost $800 or more but was told I did not have the authority to do this because I didn't own the apartment. (I am the caregiver for Mr. Boone and I am not on the lease.). I have tried to get this resolved for over a month but it's not fixed. The maintenance workers have poured some sort of declogger down the drain and they vacuum up the disgusting water. They have 'snaked' the pipe many times. The patio drain outside also overflows with the same water. I am at my wits end dealing with this. I have called the rental management people and just get what I would call 'understanding' of my situation. As of last night which was another clogged mess I was told by the maintenance worker that he was going to suggest to the rental manager that a third party plumber be called to handle this situation. I have many videos and pictures to support this complaint. If you need any more information please contact me. Thank you for reading. Thank you for any assistance.

I do plan today to go and visit the rental office again to discuss the third party plumber visit. It seems to me that whatever is wrong with the pipe in this apartment definitely needs another look from a more qualified person

CRH251005	3363 NORTH CHATHAM RD	24	Chatham Gardens Apts. T00006225 – 3363 North Chatham Rd., Apt C – Clogged and overflowing kitchen sink going on 1 month now not repaired /	Follow Up	02/13/2026

CASE RE-OPENED 11.13.25

I would like to file a complaint against Chatham Garden Apartments specifically 3363 C apartment. Mr. Donald Boone an 85 year old man with a Howard county voucher has lived in the apartment for many years and has had a clogged and overflowing kitchen sink for over a month! This clogged sink has overflowed into the kitchen down the cabinets under the stove and refrigerator and has filled the dishwasher with the most disgusting water containing the most vile food particles and whatever. The maintenance workers have been on site as many as eight times trying to 'fix' the problem. I have talked with the maintenance workers many times and they agree the upstairs people are responsible. I called my own plumber on a Saturday which was gonna cost $800 or more but was told I did not have the authority to do this because I didn't own the apartment. (I am the caregiver for Mr. Boone and I am not on the lease.). I have tried to get this resolved for over a month but it's not fixed. The maintenance workers have poured some sort of declogger down the drain and they vacuum up the disgusting water. They have 'snaked' the pipe many times. The patio drain outside also overflows with the same water. I am at my wits end dealing with this. I have called the rental management people and just get what I would call 'understanding' of my situation. As of last night which was another clogged mess I was told by the maintenance worker that he was going to suggest to the rental manager that a third party plumber be called to handle this situation. I have many videos and pictures to support this complaint. If you need any more information please contact me. Thank you for reading. Thank you for any assistance.

I do plan today to go and visit the rental office again to discuss the third party plumber visit. It seems to me that whatever is wrong with the pipe in this apartment definitely needs another look from a more qualified person

Hello,

Legacy apartment building 10351 has a trash room on the 3rd floor which has repeatedly been full of garbage and random items dumped on the floor. It has become a health concern with flies and gnats in the past. The trash chute doors become jammed closed, so residents dump items and garbage on the floor. I have gone to management 4 times and each time, they have maintenance clean up the garbage, but the problem continues to recur. It seems a more lasting solution has not been put in place, and I am perhaps the only resident who alerts management of the issue upon each buildup.

The photos are below. The last photo is this morning, 9/29. The management/leasing office is in building 10401 Twin Rivers Rd. 21044 ph: 410-730-6595

I would like to please remain anonymous.

CRH251012	7534 HEARTHSIDE WAY	43	Verde at Howard Square Apartments RH13000892 - 7534 Hearthside Way Unit 354 – Roach Infestation My name is Garmai Kweekeh and I am a resident at the Verde at Howard Square West in Elkridge, MD. I moved to this unit on August 30th, 2025. From the very first morning after my move into the apartment unit, I discovered that the unit had a pest problem with cockroaches most especially in the kitchen and the hallway bath adjacent to the kitchen. I notify the management team only verbally initially when I notice the problem was exacerbated. I began to see different types of breeds of cockroaches and it was concerning to see baby cockroaches that kind of look like carpet fleas but are ultimately baby cockroaches.	Follow Up	11/25/2025

The verbal notification was initiated when I went to the leasing office to see if I was allowed to bomb my apartment with the cockroach fogger. The assistant manager verified with the overall manager who said no because the chemicals cannot mix with the professional pesticide. She then promised to put in an order for an emergency pest control visit to come out ASAP. This was on Sunday September 7th. I did not get a followup call or email from the Property Manager until September 14 in which she informed me that pest control will now come out on Tuesday September 16th instead.

The Pest Control Team came on site onTuesday September 16th, Of course by then I had a horrible experience having to rewash dishes and utensils before use. Spraying cockroaches when I could safely do so as I have a 5 year who prior to this move had never seen a cockroach. Inspecting my daughter's bathroom before she uses it etc. so as not to alarm her. Long story short, the pest control guy came and sprayed only the kitchen and bathroom and dining areas. Apparently, he could spray the carpeted areas with headboards. After the first spray we still encountered cockroaches in the unit. Somewhat expected because abating a cockroach infestation can take some time. But the whole experience was and still is a complete nuisance.

We have encountered cockroaches in the bathrooms (both) once we saw a cockroach in my daughter brushing teeth cup, crawling on the bathroom wall, (we observed more of that after the spraying by the pest control team), crawling on the dining area by the crevices by the shared wall with the neighbor. Cockroaches crawl in the kitchen especially from the kitchen drain area and the kitchen wall (crevices).

The Property Manager did promise to have the pest control team come by three times.

I want to follow the due process involved for the full remediation of the issue. In the meantime, I would also like to know what are my options if I were to consider breaking the lease if this issue is still

ongoing. Already as it is we see a couple of roaches daily. I began to take pictures for my record. In the beginning, I was focused on getting rid of the roaches and did not take photos initially. But later as made aware that I do have rights even with the lease signed, (I'd begun to research and talk to others) I began to take pictures for my record. As stated, I would like to know what my rights are if I were to consider breaking my lease because cockroaches are pests that I simply cannot tolerate for health reasons and simply for the habitability and the quiet enjoyment of my property lease or owned .

I can be contacted at (972) 804-0850 and my email address is gkweekeh@gmail.com

I look forward to hearing from you.

Thank you for your time,

Very Respectfully,

Garmai Kweekeh

CRH251020	7220 EDEN BROOK DR	42	Beechs Farm Apts, T00006534 - 7220 Eden Brook Dr Apt B203 – No HVAC for more than 30 days I am writing to file a tenant complaint regarding my apartment's HVAC system, which has been out of service since August 23, 2025. I'm a resident at Beech's Farm apartments and my address is 7220 Eden Brook Dr Apt B203, Columbia, MD 21046. • On August 30, the leasing office sent a contractor to inspect the system, but they were unable to repair it. They provide a portable A/C and installed it in one room. The second room and living room remain without a HVAC system. • I have sent several follow-up emails requesting status and repair, and I only received one response that says the office needs an approval from corporate for the repairs. Since that time, I have received no updates from the leasing office. As of today, more than 30 days have passed without air conditioning, and the system remains unrepaired.	Follow Up	10/17/2025

With colder weather approaching, I will soon need to rely on the heating function of the HVAC system, making prompt resolution essential for my health as I have a chronic illness, Fybromyalgia which makes me sensitive to cold and warm temperatures.
I am requesting assistance from your office to resolve this issue and ensure that the landlord upholds their obligations under Howard County and Maryland landlord-tenant law.
Please let me know if you need copies of my lease, correspondence with the leasing office, or any other documentation to process this complaint.
Thank you in advance for your support.

Best regards

CRH251021	6200 VALENCIA LN	36	Marlow Apartments,, RH22000761 - 6200 Valencia Lane, Unit 2060 – Unrepaired water damage (leak from around microwave) I am writing to formally raise a serious and ongoing concern regarding the persistent high humidity levels, water damage, and mold growth in my unit at 6200 Valencia Lane, Unit 2060, Columbia, MD 21044, where I have resided for the past year and a half. Despite numerous documented communications, emails, and photos shared with maintenance staff, Marlow management, and Greystar corporate, the situation has not been properly addressed. These environmental conditions are not only damaging to the property but are adversely impacting my health. Issues Reported: • High humidity levels regularly trigger alerts and have	Follow Up	11/25/2025

been confirmed by a third-party vendor brought in by Marlow staff.
• Visible mold growth was found in and around the kitchen cabinets, with moisture confirmed in the drywall around the thermostat (26%) and living room wall (21%) as recently as this week by marlow maintenance staff (I have video)
• Inadequate remediation efforts included replacing the microwave and cabinet doors, but not addressing the drywall behind the cabinets, where mold growth was present.
• Unsanitary and unsafe repair practices, including unannounced drywall cutting and chemical spraying by contractors while I was present in the unit (I work from home), without protective gear or proper notice, creating a significant health hazard.
• Physical health symptoms I've experienced include rashes, eczema flare-ups, dry eyes, respiratory issues, and frequent illness, which I believe are directly linked to the air quality and mold exposure in my unit.
I also have audio and video recordings documenting:
• Confirmation from their maintenance staff regarding moisture levels.
• Contractors working without masks while spraying unknown chemicals.
It is unacceptable that this issue has been allowed to persist, especially given the health risks of mold exposure. I am deeply concerned that Greystar and Marlow staff are attempting to downplay or conceal the full extent of the issue rather than provide proper mitigation.
Furthermore, it has come to my attention that other residents on the second floor may be experiencing similar problems, suggesting this may be a systemic issue within the building. The "green building" design rationale does not justify negligence in providing safe, habitable living conditions.

Sarah Monge:

We are in receipt of your complaint. The area inspector is reaching out to management on your behalf.

In the meantime, please review the attached

document outlining the limitations of this office regarding mold issues. Under the Code, we cannot cite mold, but we can cite a property maintenance issue (broken pipe, clogged AC condensate line, etc.) that often leads to mold issues. Is there a current leak or unrepaired water damage that is visible to the inspector? Your email would indicate that some type of incident has occurred. Can you explain? What date were the most recent concerns reported to management (work order #) and what action have they taken to date?

RENTAL HOUSING INSPECTIONS

Hi good morning appreciate your swift response. Yes back in July there was a documented leak in the microwave they came back and replaced the microwave and cabinet doors (to clarify: only surrounding the microwave) but not the actual drywall inside the cabinet. Then in early September mold was found again in the cabinet above the microwave and all they have done was wipe it with a bleach wipe. So I don't think they ever looked for the source of the leak. I also heard maitenance say man your the 3rd person to complain of their microwave leaking.

Good evening I'm writing to you today as I am a resident of Columbia Glade. I've been a resident here since November 2024 and I'm asking for your assistance with dealing with ongoing issues with management. A few months after my move-in. I was

dealing with a mainline back up that affected my family in February 2025 I contacted management they made repairs in my unit. I asked for a transfer shortly thereafter, because of the ongoing plumbing and bug issues, in June 2025. That transfer did not happen due to Columbia Glade not completing the paperwork properly or in a timely manner for Housing to do their part. Managements response to the Incomplete paperwork was(housing should have looked at past paperwork to correct managements mistake)
That is not Housings negligence, it is of the rental office.

Now for the big one I have a toddler that had been living with bedbug since August 2025. No building inspection has been done in any other units .My unit butts up against the storage room and I believe the resident above me may be the issue. I've been living out of my living room and out of trash bags for months. I just saw one in my living room today. I contacted management each and every time to let them know that my items are still in bags. I have been washing them weekly and that my family has been affected by biting bugs for over a few months.. How long am I expected to live like this? The pest control that they are using (paramount pest control) keep saying there is no signs of bedbugs, howeveri have pictures and a Bed bug in a zip lock bag for proof. I would like a transfer? I would like a place where I can live comfortably. Any assistance that you can offer with this matter would greatly be appreciated. I don't believe that I should continue to live out of bags when I pay over $1000 a month to live. I don't believe that this matter has been address seriously or promptly.. This issue should have been addressed expeditiously by doing a building inspection including the storage area months ago .When I called the management company or open up a ticket I feel like my concerns are brushed off. I don't wanna live in a place with things that are biting my family and I. I know they say bedbugs aren't in your kitchen or bathroom but what about my clothes, living room furniture and my granddaughters things? The people that my grandkid comes in contact with? My employees? My family ? This is truly unfair and needs to be rectified. I can't cook in my kitchen or sleep comfortably. Please help

me. My contact information is below.

We moved into 8958b Town and Country Blvd, Ellicott City, Maryland 21043, on August 24, 2025. We did our inspection and noted that the toilet had construction glue on at the base and it is a concern for use to keep it clean. The property maintenance came and scraped off the glue and discovered the toilet was broken and the glue was put there to cover the crack. Maintenance told us that he would request for a replacement. It is now over a month. Because the broken toilet leaks water into the floor and it travelled under the subfloor we are stepping onto sewage water every where we go. The Property is slow to react and we need a clean sanitized living condition. We need the authority to mediate this for us. I am including a picture of the broken toilet with the construction glue covering up the when crack. This picture was sent to the landlord as part of the inspection. Please let me know if you could provide us any assistant in this issue. Thank you, Khanh Dang	Follow Up	10/16/2025

Rd, Apt B – Roach infestation

Good morning, I have a very serious problem with cockroaches in my house, for almost a year without a solution, I have lived in The Seasons for 7 years. I tried to solve my problem in every way, several pest control was carried out and nothing worked, so my contract expires now on November 7th. 70 days before I tried to negotiate with the office to change houses, as I do not speak English they do not allow me to speak to the manager. and they simply told me that I could not change houses because I would take the cockroaches to the new house, this is inhumane, there are cockroaches even in my room I will send photos and videos to you, I have a little dog that even got sick, her water always has cockroaches, so I found another place to live, and they told me that I would have to give 60 days' notice before leaving and they want to charge me $2400 for 17 extra days, this is unacceptable, I have been trying to change houses for 70 days and nothing, I have all the contacts I made with the office, sorry for the outburst, but this is a lack of respect I have never been late on a rent in these 7 years, I await a response please... I speak Spanish and Portuguese.

CRH251041	10101 TWIN RIVERS RD	36	M. Flatts Apts., RH17000277 - 10101 Twin Rivers Road, Unit 280 – Rodent infestation (not being excluded); Common area sanitation issues, trash room issues Begin forwarded message: From: freida <freidaw98@icloud.com> Date: October 8, 2025 at 1:34:00?PM EDT To: rentalhousing@howardcounty.gov Subject: Formal Complaint – Ongoing Rodent Infestation and Habitability Violations at MFlats Apartments, 10101 Twin Rivers Road, Unit 280, Columbia, MD 21044 Dear Howard County Rental Housing Officials, I am submitting this formal complaint regarding multiple ongoing violations of health, safety, and sanitation standards at my residence: MFlats Apartments, Unit 280, located at 10101 Twin Rivers Road, Columbia, MD 21044. I am a lawful tenant and have resided at this property during the entirety of the time that these conditions have persisted. 1. Rodent Infestation – Ongoing Health and Safety Hazard Since approximately April 2025, I have experienced a persistent rodent infestation (mice) within my unit. Despite multiple service requests and pest control visits by Orkin, the issue remains unresolved and has progressively worsened. Most recently, I filed a follow-up complaint with property management on September 19, 2025, yet no effective or lasting remedy has been provided. The presence of live rodents and evidence of their activity—including droppings in my bed, bedroom, kitchen, and furniture—constitutes a serious violation of the implied warranty of habitability, as well as a direct threat to my health and well-being. On the evening of October 4, 2025, I returned home to discover fresh mice droppings on my mattress, causing significant emotional distress and exacerbating my hypertension and anxiety. Later that	Follow Up	12/01/2025

night, a live mouse was observed running through my bedroom around 1:30 a.m., disturbing both myself and my dog.
This infestation has directly interfered with my right to quiet enjoyment of the premises and has rendered my living space unfit for habitation.

2. Failure to Provide Adequate Pest Control Measures
Orkin has failed to resolve the infestation despite repeated visits. On the most recent visit, I explicitly requested via the service request that my unit be sprayed and that I be contacted in advance. Neither of these requests were honored by the property management . To date, I have received no confirmation of the internal spray treatment having been performed.
Additionally, I requested assistance from the property's lead maintenance technician in setting wooden traps after the Orkin treatments proved ineffective. He refused, stating he "doesn't do wood traps," showing an alarming disregard for the urgency and severity of the infestation. This level of negligence and indifference is unacceptable and reflects a broader failure to ensure habitability and tenant safety.

3. Service Requests – Structural Concerns and Rodent Entry Points
I have submitted multiple service requests addressing structural issues that may be contributing to the infestation:
1. SR #2813571 (9/21/25): Request to remove and inspect behind dishwasher for rodent nesting or entry.
2. SR #2823765 (10/1/25): Request to seal wall behind refrigerator around water line, per Orkin's recommendation.
To date, these requests remain either unfulfilled or have not been completed in a manner sufficient to prevent rodent access.

4. Common Area Sanitation Issues Contributing to Infestation
In addition to the conditions in my unit, there are widespread sanitation concerns throughout the common areas of the building, including:

1. Trash room conditions (overflowing garbage, trash scattered on floor, including used diapers).
2. Frequent trash bags left unattended in the 2nd floor hallway, including directly in front of my unit.
3. Food debris present in the elevator lobby.

Complaint Type:	**Rental Housing Complaint**			Pass	Jonathan Frias
CRH251044	7166 RIVERS EDGE RD	41	7166 Rivers Edge Rd – Unlicensed and allegedly overcrowded accessory apartment (Investigate per our Director) Dear Representative Deb Jung My husband and I have lived at 7170 Rivers Edge Road for over 19 years and until this summer we have been happy living here. However since July, my next door neighbor has been renting out his ~1000 sq foot basement accessory apartment to 5 or more young males. This is not a family unit and it is more like a fraternity. They have 5 cars or more parked outside my driveway and we frequently don't get mail because the mail person cannot get to the mail box. Last Sunday night I was awoken by noise and one of the cars was parking and ran over my trash can. As I mentioned this started in July. My neighbor moved in in November 2021 and has been renting out the basement apartment since he moved here. Until July there have not been any problems and I have no problem in principle with the concept of an accessary apartment, but I do think there need to be limits on the number of unrelated people and the number of cars. When the new tenants came in July we noticed a lot of cars (usually 5) and some noise, but I didn't want to complain and I thought they probably won't be there that long. I should mention that they spend a lot of their time out on the patio which is about 6 feet from our house. In mid-September things seemed to get worse. One day (I think it was Friday September 19th) I tried to drive into my driveway and it was 50% blocked by a truck that was there to change a tire on one of the cars. Then on Sunday September 21 they were so loud out on the patio that they woke me up at 11:30 pm. After this (on Monday	Follow Up	11/24/2025

Sept 22) I called planning and zoning to ask about rules and regulations covering renting out your basement and I was somewhat shocked to find out that it was perfectly legal to rent out your 1000 sq foot basement apartment to up to 8 unrelated people. I also spoke to my neighbor (the homeowner of the rented the apartment) on September 24th and mentioned that his renters were often loud and that they woke me up on Sunday night. He said he would talk with them and they have not been loud after 10 pm since then. However as mentioned cars come and go at all hours (with beeping when the cars are locked and unlocked) such that we can't have the windows open at night. I notice on your website that you are working on issues with airplane noise; the airplane noise is nothing compared to this. I also spoke with two of my neighbors, Maryanne Roberts at 7174 Rivers Edge Rd and Cecilia Hudgins at 7165 Rivers Edge Road and they both have concerns about the noise and the cars. In fact Cecilia went to the "coffee with a cop" gathering at the Target on October 1 to discuss concerns.

I went to the planning department on Thursday October 2, to get some additional information about regulations for accessory apartments (whether there were any requirements for parking etc) and the man at the planning desk mentioned that the rule were changing and he suggested that I read the new bill ZRA-218.

I understand and have no issues with the concept of accessary apartments. However, I think there needs to be some limit on the number of unrelated occupants and some some guardrails so that these accessory apartments do not lead to the deterioration of the neighborhood. I'm happy to chat about this issue and I can be reached at tmurphy92@verizon.net or you can text me at 919-451-8737.

Thank you for any help you can provide.

Elizabeth Murphy

The address of the property with the accessory

			apartment is 7166 Rivers Edge Road. I have also copied my neighbor Ceal Hudgins (7165 Rivers Edge Road). Please let me know if you need any additional information. Thanks Elizabeth (Tish) Murphy SEE ATTACHMENTS

Subject: Request for Inspection, Enforcement, and Protection Against Retaliation – 5461 Treefrog Place, Columbia, MD 21045

Dear Officials,

I am submitting this formal complaint regarding multiple ongoing housing and habitability violations at the above address, where I currently reside as a tenant. The property is owned and managed by “Lydia Lin/Lin Bo” and “Alan Tang/Tang Yaulun”. Despite numerous repair requests and a formal written notice to the landlord (attached), serious code and safety violations remain unresolved. These conditions violate Maryland Real Property §8?211, the Howard County Property Maintenance Code, and may constitute unlicensed rental activity.

The ongoing issues include:
? 1. Persistent water leakage from the upstairs shower into a downstairs tenant’s room.
? 2. Nonfunctional ceiling fan and inoperable upstairs bathroom door.
? 3. Broken or inefficient appliances (dryer, dishwasher, refrigerator/freezer, over-stove microwave).
? 4. Inoperable garbage disposal (tenants paid out-of-pocket for repairs).
? 5. Unjustified cleaning fees and threats of eviction for refusal to pay such fees (services not rendered).
? 6. A tenant residing in an uninsulated, un-air-conditioned sunroom used as a sleeping area.
? 7. Landlord locked the thermostat between 78–85°F, creating unsafe summer temperatures.
? 8. Shower knob recently broke as result of gross negligence and maintenance
? 9.General negligence and apathy to tenant complaints
? 10. Retaliatory threats
? 12. Defamation (Libel/Slander)
-Ciculated text to all tenants minus me saying as a result of my move out notice I forcefully removed the shower valve using pliers
? 12. Evidence suggesting the home may exceed the permitted number of roomers/boarders under zoning code (eight total occupants)
-Alleged money laundering/tax evasion (rent is sometimes requested to be -paid to alternative financial institutes and payment apps some not registered under landlords names

These conditions pose significant health, safety, and comfort risks to all tenants, and they appear to violate Howard County’s rental housing standards and zoning regulations. Furthermore, the landlord has responded to reasonable repair and fee disputes with threats of eviction, which may violate Maryland Real Property §8?208.1 (Retaliatory Conduct by Landlord Prohibited).
Lease and Law Basis I believe being violated (but not limited to): Md. RP §8-211; Lease §B6; IPMC §403.3; IPMC §603.1; Md. RP §8-211(f); Md. RP §8-208.1; Md. SG §20-701; 42 U.S.C. §3604(a); Howard Co. Code §404.4.1 & §404.5; potential Howard Co. DILP

licensing requirements,

I respectfully request that your offices:
- Conduct an immediate inspection of 5461 Treefrog Place;
- Confirm whether the property is properly licensed for rental use;
- Investigate potential occupancy, zoning, and habitability violations; and
- Provide written confirmation of actions taken or findings.

CRH251108	10377 SCAGGSVILLE RD	47	10377 Scaggsville Rd.- alleged unlicensed rental	Follow Up	11/17/2025

Thank you for replying to my inquiry. The evidence I have is that there are approximately 5–6 adults who appear to reside at the property, with some of them only using the rear entrance to enter the residence. There are typically 5–6 adults present overnight, and there are usually several cars parked at the property overnight and throughout the day, which appear to belong to different adults living there.

Your complaint was forwarded to our office by Zoning.
Based upon the information we see in the State database, the property owners live at this property as their principal residence. What evidence can you provide that would lead you to believe that the property is being rented? Is the whole house being rented or just a portion of the home? If you have an off-premise address for the property owner, could you please provide us with this.

Unlicensed complaints that do not come from tenants who reside in the property are difficult for us to prove and proceed with enforcement so any additional information you can provide would be helpful.

Department of Inspections, Licenses and Permits
Inspections and Enforcement Division
rentalhousing@howardcountymd.gov
Office: 410-313-1830

Dear Inspections and Enforcement Division,
Thank you for replying to my inquiry. The evidence I have is that there are approximately 5–6 adults who appear to reside at the property, with some of them only using the rear entrance to enter the residence. There are typically 5–6 adults present overnight, and there are usually several cars parked at the property overnight and throughout the day, which appear to belong to different adults living there.

CRH251109	9610 COVERED WAGON DR	47	The Seasons Apartments T00006543 – 9610 Covered Wagon Dr., Unit A – Rodent and Roach Infestation Good morning, my husband and I were referred by the Howard County Consumer Protection office to send an email regarding issues with our apartment unit at The Seasons Apartments in Laurel, MD. I have detailed our concerns below and we have still yet to receive a direct response from the property manager Saybah Kolako on when structural repairs can begin to resolve the pest infestation issue. Saybah does not respond but Christina Hall who I believe is a leasing manager is responsive and can be reached at chhall@goldoller.com. This apartment complex is unfortunately ran by incompetent, and seemingly inconsiderate managers. The only manager that is responsive is Christina. Karla in maintenance is unfortunately incompetent in her role as well as we have dealt with extreme mice and roach pest issues since moving in, in 2021. Despite our numerous service requests via the online system and verbal pleas to fix holes, cracks, and have appropriate and productive pest maintenance, The Seasons fell short every single time and still does. We even went the route of having a private pest control company come treat our unit and even they suggested structural repairs are needed to the unit. The property manager, (who I assume their name is Saybah Kolako after Google search, as no one has yet to provide a name but from recent reviews, it seems it is still her) is never responsive, refuses to communicate directly to us, paying tenants, and is inconsistent in how she attempts to provide assistance. When recently seeking assistance again for pest control, (October 2025) it took a week for Saybah to send a messenger, Christina, to provide a response to us regarding structural repairs and we had to chase her down for a response. Christina notified us that on October 18, two people would come inspect our unit at 9:30am. While someone did come to inspect the unit, it was only one person, and it was Saybah’s	Follow Up	04/20/2026

assistant Kenneth (no last name provided). To me, this is incredibly inconsistent and troubling. She refuses to acknowledge us directly after sharing that we do not feel safe or comfortable in our unit.
I'm not sure why Ms. Saybah finds it appropriate consistently ignore tenants when they have imperative possibly dangerous unit issues and also be inconsistent in how she communicates as well. It comes off as incredibly impersonal and unprofessional, but unfortunately that seems to be a pattern in her behavior by reading recent reviews from April 2025 til present day. I'm not sure how someone this incompetent is able to continue to somewhat run an apartment complex the way they do.
The amount of rent we pay a month does not correlate with the quality of living we have been subjected to while at The Seasons. We have been gaslit in reviews over the years regarding these issues and other property issues as well. GoldOller has done a disservice to themselves and their customers by continuing to employ individuals who lack professionalism, consideration and care. They refuse to acknowledge and rectify the persistent pest issues that tenants unfortunately experience. Instead, it seems they choose to overcharge for old, broken, rundown units, infested with pests, cover it in white paint and call it luxury living.

As stated before, we have still yet to receive a direct response from the property manager despite being told we would. At this point we feel we are being ignored by the property manager who refuses to act on the proper repairs needed in our unit. We do not feel safe or comfortable in our unit. I have included screenshots of our communication with Christina Hall and recent photos of pests caught in one night to emphasize to the leasing office how imperative this is.

We thank you for any assistance you can provide.

We can be reached via this email dejahgreene@gmail.com or 301-537-3388.

Best,

CRH251111	7230 DARBY DOWNS	38	RH23000340, 7230 Darby Downs, Unit F – Numerous alleged maintenance issues and update needed on license to add mgmt. company I need your help. I moved into the above referenced apartment in May, 2025. Repairs that were suppose to be done by the managing agent, Mainstay have yet to be done. I have had numerous conversations and emails with Mainstay's manager, co owner, Mandy Thrush, about repairs prior and after moving in regards to getting the repairs done. I was constantly referred to submitting them to a website that did not work properly which I informed the manager. also, I had previously submitted the request by email on numerous occasions. It is going on more than two months and I have not had a response from Mainstay. I am a senior with certain health issues and now that the weather is getting colder recently found out there is no heat coming into half of the apartment. The following repairs need to be address in the apartment: No heat in half of the apartment Damaged wood flooring Damaged tiles in bathroom Towel rod missing between rack in bathroom Malfunctioning kitchen faucet due to broken spray nozzle. Kitchen cabinets do not have handles. Impossible to open Dirty mix matched oven shelves do not belong to oven Shower doors in master bathroom do not close causing flooding Damage mirror in master bathroom Broken clothing rack in master bedroom closet Damaged door stop with metal rod exposed Holes in window screens	Follow Up	05/12/2026

Please send someone to inspect these issues. Your department assistance to have these issues repaired will be greatly appreciated.

Sincerely,

Athelyn Robinson
203 895 3964

Good Afternoon,

The management company is Mainstay Property Management and the manager I always have been corresponding with by telephone and email is Mandy Thrush. Her cell phone number is 703 928 3953 and work is 443 715 4018 and 443 247 0108. Her email is mthrush@mainstaymanagement.com. The office address is 815 Main St, Laurel, MD.

Since I first saw the condo by self show, I have been corresponding with Mandy Thrush, mainly by her cell phone in regards to repairs I observed needed to be done. She was suppose to have her maintenance person whom I met once and came to do some of the repairs. Primarily cleaning and painting. Since I moved in, I've been referred to their website which requires you submit pictures as well as a description. It's not allowing pictures to upload therefore you cannot submit anything. I spoke to Mandy about this issue back in June by email and calls.

Regards,
Athelyn Robinson

CRH251126	9050 TOWN AND COUNTRY BLVD	17	ReNew Howard Crossing Apts T00006079, 6080 - 9050 Town and Country Unit C – rodents not being excluded Additionally, you mention you have rodents in your apartment. We would need to know what date you reported the rodents in your unit (copy of work order) and what action they took to address the rodents in your unit. Additionally, we would need to know your apartment number to open a case for your unit. We await answers to our questions. RENTAL HOUSING INSPECTIONS	Follow Up	09/24/2026

I am actually taking them to court since I have my rent in escrow for this issue in addition to my dining room flooding twice and have continued to notify them of this for almost a year now. I have so much documentation for pest control and emails about that apartment.

All they have done is have someone put mouse traps and whatever else they do. I consistently let them know it is not my apartment since I keep everything clean. I have emails that date back for years. Most recently would be July 2025 continuing till October. This has been an ongoing issue and the floods caused serious damage to my dining room window, which they say is repaired but I've seen no proof.

When i talk about apartment A in emails I never get them to answer a thing. The exterminator personally told me two months prior that he has been unable to gain entry to that apartment.

I can look through and find them but this is literally what I have dealt with for years now but didn't know what Avenue to explore.

Chris Yelen

Chris Yelen:

Are you asking for assistance with the rodents in your unit at 9050 town and county blvd # c? If so, we can open a case for your unit as long as you are still seeing rodents. We are trying to keep the two issues separate as they would be two separate cases in our database. Rodents must be excluded (find points of entry) then exterminated and we can compel them to do that as this is covered under the Rental Housing Property Maintenance Code.

Let us know.

RENTAL HOUSING INSPECTIONS

Yes please keep my apartment on the list. I saw a mouse go under my refrigerator. I even have a professional cleaner once per month so it the entry

ways I absolutely need help with too.

Thanks so much.

Unlivable apartments in Ellicott City Md
I pray this email reaches you as this has been an o going matter . I have been living in Renew Howard Crossing apartments formally known as Howard Crossing apartments located at 8732 Town & Country Blvd and since have been burdened by an outrageous cock roach infestation . The size of those cock roaches are equivalent to mice and my children and myself are no longer comfortable in this unit . I've requested treatment multiple times over the past nearly 4 years and have not seen any positive results to the point where I've had to schedule and pay an exterminating company outside of the rental property . Unfortunately the entire complex has an infestation so the treatment does little to nothing . This complex needs to be shut down immediately as I have spoken with other tenants and they seem to be having this same issue . It is inhumane and unsanitary to be living with these massive outside creatures in a place that we are paying rent to live comfortably . Please

look into this to this matter as soon as possible .

9090 #E town and country blvd Ellicott City Md 21043

My apologies for the urgency in this matter as this is more than likely not your area of profession however I have no other reliable contacts . I did however send an email through the Maryland health department website but there was no exact contact . I'll just go straight into this matter : for nearly 4 years now I have been a resident at Renew Howard Crossing apartments formally known as Howard Crossing apartments located at 8732 Town and Country Blvd Ellicott City Md. From the time I signed the lease for myself and two minor children I immediately noticed a roach infestation in the unit which I scheduled several exterminator appointments through the rental property 's contractor . Even after multiple treatments my unit had not seen any improvement however that is not the worse part of this ongoing matter , as there is an infestation of massive sized cock roaches along with regular sized ones . These cock roaches are equivalent to the size of mice with no exaggeration and apparently the rental office was well aware of this during the time of new management as they even sent an email informing residents over a year ago that they would be testing for them . I am still seeing these large cock roaches inside my unit and even heard from my neighbor that she has witnessed them as well . My children and I no longer feel comfortable eating let alone living in this unit with pests that large and it is my belief that these apartments should be shut down immediately if not sooner . Again I apologize for sending you this burden but if you could be so kind to forward this email and attachments to whomever would be suitable to look into this matter it would be greatly appreciated . Please see attached

CRH251170	10252 RUTLAND ROUND RD	36	RH24000292 10252 Rutland Round Rd. – Rodent Infestation (not being excluded) I am submitting this complaint regarding an ongoing and severe rodent infestation in my rental home located at 10252 Rutland Round Road Columbia MD 21044 in Howard County, Maryland. I have reported this issue to my landlord several times since I first signed the lease, but the problem continues without resolution. The rodent infestation has made the home increasingly unbearable to live in. Out of desperation, I personally paid for pest control services, and the specialist determined that the rodents are entering through cracks in the foundation at the front of the house. I have documentation and reports from pest control professionals confirming this finding. Despite my efforts and expenses, the infestation persists. I am now out of funds to continue addressing the problem on my own, and the ongoing rodent activity is causing health concerns for my household. I am requesting that the Howard County Rental Housing Division investigate this matter and require the property owner to take immediate corrective action to ensure the home is safe and habitable. Thank you for your attention and assistance. I am happy to provide documentation, pest control reports, and photos upon request. CRH251187	8933 TWELVE SONS CT	42	8933 Twelve Sons Ct – unlicensed rental property I hope this email finds you well. I am emailing to report my landlord, as she does not have a rental license. She is renting a basement apartment in a single-family home out to myself and my 13-year-old son. She is also renting two bedrooms upstairs to two different men and gave me no notice that they were moving in. She has been renting these units out and collecting rent money for years without a license under unenforceable lease agreements. On November 10 she gave me a handwritten/texted 60-day notice immediately after I refused to sign a new one-year lease. That is when I called and found out she does not have a license. Since then, she has threatened to send videos of me to my employer if I report her or take any legal action. I got this threat on video. While I have been living there (since April 2024) she has taped over the dryer knob so I cannot dry my clothes on certain heat levels, revoked my mailbox access, failed to fix AC leaving the home in unlivable condition for weeks, dumped her own daughter's cats, etc. I have proof of everything. I am wondering about the next steps regarding this. Please reach out at your earliest convenience for any evidence you may need, or any questions you may have, and I would be happy to assist. Thank you. Landlord's Info: Huong Bui, 540-551-0970 Kind regards, Regan Borlik 240-484-5385	Follow Up	01/13/2026

I was told to contact you via rental housing property maintenance Regarding my issues that I've been having with PCF management I've been staying in this unit for 2 years and I've been experiencing water leaks ,mold issues, and contaminated brown water coming from water facet and need someone to come out to test the water I reached out to PCF	Follow Up	03/27/2026

Management on many occasions they havent done anything and Howard County Commission failed my unit twice and is now on abatement They stop payment on the unit I already file a complaint with OCP Online PCF management also took $555 out my security deposit even though Howard County was the one who placed an abatement and stop payment on the unit I was told to still pay my portion but before I could PCF management already took the $555 out my security deposit on November 1,2025 when I went to pay I couldn't because they paid it before I could do anything Also due to the water being contaminated I had to go to the hospital several times and Aalso been to the GI doctors and were told that my stomach was inflamed due to H pylori which come from contaminated water I have several emails when I contacted the management company and has allowed them reasonable time to address my concerns below are some screenshot of email sent to PCF management and their feed back

Utopia Alston:

Please see attached instructions for filing a complaint regarding property maintenance issues with our office. Also attached is a document that outlines the limitations of this office regarding mold issues.

If you have current leaks visible to the inspector we can address that. If you have unrepaired water damage visible to the inspector we can address that. Please explain where the leaks are and tell us if they are visible to the inspector?

We cannot cite mold under the code (see attached document). Indirectly we can address mold if caused by an active leak visible to the inspector.

We have reached out to the Howard County Health Department regarding your water (410-313-1771) to see if that is something they can do - https://www.howardcountymd.gov/health/well-water-testing Our inspectors are not equipped to contact water tests.

Please describe to us the property maintenance issues you are having in detail.

What date were your property maintenance concerns reported to PCF/Owner and what action, if any, have they taken?

The lease and billing issues would be under the purview of the Office of Consumer Protection and you have already indicated that you have contacted that office.

We await answers to our questions. We received no screen shots.

RENTAL HOUSING INSPECTIONS

We are still waiting to here back from you with answers to our questions. In the meantime, we have heard back from the Health Department and they do not test public water. The contact to test public water is: HC Utilities is Rodney Bailey 410-313-4997

Please describe to us the property maintenance issues you are having in detail.
Water leaks and mold issues in the ceiling and coming out the vents

What date were your property maintenance concerns reported to PCF/Owner and what action, if any, have they taken? I've reported since living here My unit is on abatement it failed 2 recent inspection and its abatement Howard county housing isn't paying rent due to the house is in poor condition

CRH251228	9635 BARREL HOUSE RD	50	The Seasons Apartments T00006543 – 9635 Barrel House Rd, Unit M – Sewage odor, can’t use sink or washer due to blockage per tenant I am writing to formally request an immediate inspection of my rental unit, Unit M at 9635 Barrel House Rd, Howard County, MD, due to an ongoing, critical habitability issue that my apartment management has failed to resolve. This inspection is necessary to document the negligence for legal proceedings and my potential escrow/lease termination case. Issue Summary and Timeline • Problem: Complete inability to use the kitchen sink and washing machine due to a persistent plumbing	Follow Up	01/12/2026

blockage/issue.
• Start Date: September 25, 2025. The issue has been unresolved for nearly two months despite multiple communications and promises from management.
• Management's Failure: Management has repeatedly missed deadlines for a permanent repair, including a final deadline of Tuesday, November 18, 2025.
• Current Status: As of today, November 19, 2025, the issue remains unresolved.

Health and Safety Concerns

My situation is time-sensitive and involves significant health concerns:

1. Strong Sewage Odor: The unit is currently experiencing a strong, persistent sewage odor which is causing physical sickness (nausea/headaches). This poses an immediate, serious health hazard.
2. Pregnancy: I am a pregnant tenant, due in January. The continuous utility disruption and foul odor are creating an unmanageable and unhygienic living situation as I prepare for the baby.
3. Asbestos Risk: During a prior inspection (on or around November 10, 2025), a contractor noted the potential presence of asbestos that would be disturbed by the necessary repair work (pipe removal/replacement). Management has been made aware of this severe health hazard to myself and my unborn child.

Management's negligence in resolving this critical utility failure while knowingly allowing severe odor issues and risking the disturbance of a potential health hazard (asbestos) constitutes an immediate threat to the health and safety of the occupants.

Action Requested

I urgently request that an inspector be dispatched to my unit at 9635 Barrel House Rd, Unit M, Howard County, MD as soon as possible to formally document the ongoing, unaddressed habitability issues, the unsanitary sewage odor, and the potential health risk. Please contact me directly at 202-304-4828 or via this email to schedule the inspection.

Thank you for your immediate attention to this critical matter.

Sincerely,
Shalaya Crummie Unit M, 9635 Barrel House Rd

Hi, there was a sewage backup but they disconnected one of the pipes that lead to the sink so that now it leaks instead of having sewage overflow into the kitchen sink. Also, the apartments Management office set the deadlines.

Below is the original request that was put in and they've sent three contractors to snake the sink and no one could fix it. The last contractor did something no where I guess they stopped sewage from overflowing back into my sink and then they haven't been back to fix anything since .

CRH251228	9635 BARREL HOUSE RD	50	The Seasons Apartments T00006543 – 9635 Barrel House Rd, Unit M – Sewage odor, can't use sink or washer due to blockage per tenant I am writing to formally request an immediate inspection of my rental unit, Unit M at 9635 Barrel House Rd, Howard County, MD, due to an ongoing, critical habitability issue that my apartment management has failed to resolve. This inspection is necessary to document the negligence for legal proceedings and my potential escrow/lease termination case. Issue Summary and Timeline • Problem: Complete inability to use the kitchen sink and washing machine due to a persistent plumbing blockage/issue. • Start Date: September 25, 2025. The issue has been unresolved for nearly two months despite multiple communications and promises from management. • Management's Failure: Management has repeatedly missed deadlines for a permanent repair, including a final deadline of Tuesday, November 18, 2025. • Current Status: As of today, November 19, 2025, the issue remains unresolved. Health and Safety Concerns My situation is time-sensitive and involves significant health concerns: 1. Strong Sewage Odor: The unit is currently	Follow Up	01/12/2026

experiencing a strong, persistent sewage odor which is causing physical sickness (nausea/headaches). This poses an immediate, serious health hazard.
2. Pregnancy: I am a pregnant tenant, due in January. The continuous utility disruption and foul odor are creating an unmanageable and unhygienic living situation as I prepare for the baby.
3. Asbestos Risk: During a prior inspection (on or around November 10, 2025), a contractor noted the potential presence of asbestos that would be disturbed by the necessary repair work (pipe removal/replacement). Management has been made aware of this severe health hazard to myself and my unborn child.
Management's negligence in resolving this critical utility failure while knowingly allowing severe odor issues and risking the disturbance of a potential health hazard (asbestos) constitutes an immediate threat to the health and safety of the occupants.
Action Requested
I urgently request that an inspector be dispatched to my unit at 9635 Barrel House Rd, Unit M, Howard County, MD as soon as possible to formally document the ongoing, unaddressed habitability issues, the unsanitary sewage odor, and the potential health risk. Please contact me directly at 202-304-4828 or via this email to schedule the inspection.
Thank you for your immediate attention to this critical matter.

Sincerely,
Shalaya Crummie Unit M, 9635 Barrel House Rd

Hi, there was a sewage backup but they disconnected one of the pipes that lead to the sink so that now it leaks instead of having sewage overflow into the kitchen sink. Also, the apartments Management office set the deadlines.

Below is the original request that was put in and they’ve sent three contractors to snake the sink and no one could fix it. The last contractor did something no where I guess they stopped sewage from overflowing back into my sink and then they haven’t been back to fix anything since .

CRH251230	5025 GREEN MOUNTAIN CIR	30	RH23000731 – 5025 #5 Green Mountain Circle – Rodent Infestation I am filing this complaint on 11/21/2025 in regards to my rental property at 5025 Green Mountain Circle Unit#5 Columbia, MD 21044. This apartment has had a mice infestation for almost three months now. I made my first efforts on 9/7/2025 to explain to the landlord Michael Warm, that there were mice running through my apartment through an app called " Resident Center" which is where we communicate maintenance requests etc. They asked me to take pictures for proof and to purchase mice traps. They explained that in two weeks they will follow up with pest control if the problem persists. I took photos of my food being bitten through, droppings, and entry points that I had seen being chewed through the wall. On 9/16/2025 I followed up on the pest control request as I was seeing them way more often than before, and clearly saw each and every place they were coming from. I was then told they gave my information to " Weir Pest Control" and they would reach out to me so I could set up the treatment for my apartment myself. They never called me and on 10/14/2025 they made me aware that a maintenance guy by the name of Mike would come by to plug in areas and put traps down. He came by and used a caulk to seal some entry points and sent me out to grab steel wool to plug in the larger areas but never put any sort of traps or treatment out. He emphasized that he was not a licensed exterminator and that it might help keep the mice out. For two weeks I barely saw or heard anything but on 11/13/2025 I had to make another request because they came back 10x worse than before. I couldn't lay my baby in her crib, sleep, and or eat out my kitchen properly. They only got back to me on 11/18/2025 with an "update' saying they did ' everything they can do on their end" regarding the mice but never even sent out a licensed exterminator. I have pictures of droppings, clothes being pooped on, food being chewed through, hives from lack of sleep and distress. everything. Attached are instructions for filing a complaint with our office (property maintenance violations). If you haven't moved in yet, I am not certain you would know yet if there are outstanding property maintenance concerns. When or if you move in, we would ask that you first report the issues to management allowing them time to make corrections. If they do not make corrections in a timely manner, you may then submit a complaint to us per the attached instructions.

It sounds like, for now, the Office of Consumer Protection is the office you need.
Department of Inspections, Licenses and Permits
Inspections and Enforcement Division

Good Morning,

I wanted to follow up regarding my initial complaint to see if there's any update currently. In addition, I have submitted 3 maintenance requests regarding the deck. Each and every time this occurs the property simply closes the work order without doing any repairs. I would also like to request a county inspector come see the rotting wooden planks and mold. This affects multiple units not just mine. There's also degraded retaining walls in need of repair. I have spoken with the property manager and area director with no resolution.

Thank you,
Kara Chaplin

Kara Chaplin:
The fireplace issue should be discussed with the

Office of Consumer Protection (410-313-6420) if they advertised an amenity (fireplace) that has been taken away. This office cannot permit the use of the fireplaces at this time. We are aware that this complex reached out to our Plan Review Division to discuss options and permit requirements. This is a long term capitol project.

You mention issues with your deck. What date were these issues reported to management and were you given a reason why your work orders were closed? Please provide this office with a copy of the work orders submitted and closed.
If we need to open a case for the deck, we would need your complete address, including apartment number.

RENTAL HOUSING INSPECTIONS
Hello,

Regarding the fireplace the property manager and area director both stated they were simply going to seal up all the fireplaces in the complex. I have spoken with consumer protection and an awaiting their reply. I'm trying to keep both agencies apprised of the situation. I have attached all work orders for the deck. Will anyone come to inspect that and or the retaining walls? That will not be a normal maintenance request.

CRH251285	5320 DORSEY HALL DR	30	Selbourne House of Dorsey Hall, T00008906, T00010279 – 5320 Dorsey Hall Dr., Apt. 419 – Gnat Infestation (not sure if fruit flies, drain flies or fungus gnats) December 9, 2025 I am a tenant of the Selborne House of Dorsey Hall, Senior Living Apartment. On the 1st week of October, I noticed a few gnats flying around in my apartment. The next few days they were swarming around trying to get into my eyes and nose. I checked my plants and saw they had a few gnats in the soil. I got rid of them, called Management and requested a pest control person to come out. I was told the 2nd and 4th Thursdays only and I would be put on the list. Time	Follow Up	12/15/2025

came and I had not been put on the list. A week later, I emailed Management (Emerald) and the Executive Manager (Brian) to please call pest control to fumigate my apartment. I was given plug-in stickies which helped, but by then, after waiting so long, the infestation had worsened. It became uninhabitable and my eyes were attacked more, became red, sore and a few bumps were under my eyes. The next day, I had to go to the doctor and received antibiotic eye drops, and told to put cold compresses on my eyes.

The deal breaker for me was, when I was sleeping, I was awakened by gnats trying to pry my eyelashes open because of their attraction to the liquid and sodium in my eyes. That was much to much. I haven't been able to sleep there since. Pest Control men finally came, looked around and reported no problems since I got rid of my plants, and did nothing!
My plants were removed over 3 weeks before they came. So now there is yet another generation of fungus gnats swarming around. I researched and found that one female fungus gnat can birth over 100 babies in about 2 weeks. This has been ongoing for 2 months now. I practically begged in an email for them to help me and maintenance finally put foggers in the apartment on December 1st. Unable to celebrate my birthday or Thanksgiving in my apartment in November and now the infestation is so out of control, I am still experiencing the attacks, from a new generation of baby gnats. Stayed in a hotel for a week, stayed with my son, a friend, and so I wouldn't intrude on anyone anymore, I slept in my car for a few days. This was not safe, but necessary. The food and living outside of my apartment has been expensive.
When I asked by email for them to help reimburse me for my hotel fees incurred, Brian's email responded that I didn't get permission and refused reimbursement eventhough I haven't been able to stay there in 2 months. He told me, if I desire, I can get out of my lease early since they can’t please me. I do like my apartment and my stay. I just wanted them to do their job in a timely manner so this gnat infestation would not have become severe.

I am 73 years old and should not be going through

this displacement nightmare for so long. I hope and pray you will help me and I thank you for your time.

Sincerely,

Diane C. Johnson Apt.419

>
> We are filing a complaint for our apartment unit 513 at the Madison at Eden Brook apartment complex.

Upon our move-in on December 1st we noticed multiple issues in the unit, while completing our move-in inspection sheet, and documented then notified our leasing office on that same day. Our apartment has electrical issues, improperly installed appliances, and unsafe conditions such as rusting (stove) and overheating (dryer) appliances. The ADT alarming system that we are required to pay for is also on low battery and still programmed for the previous tenants; leaving it unavailable for our use as the current tenants. Our landlord is not properly fixing any of these issues. Additionally, when we asked for a pre-inspection sheet that their leasing office should have completed prior to our move-in, they were unable to provide any documentation that that had ever happened.
>
> We have contacted them on a daily basis via phone and/or email to try to rectify these issues and have made little to no progress. We have also taken multiple days off of work to go down personally to their leasing office, only to find out that no one is currently at work and available to speak with us about our issues. We keep being provided with different explanations, none of which align with one another, and told “things can’t be fixed overnight’ from the property manager and leasing agents. The only resolution they have offered, after almost a week since our move-in date, is moving us to another unit that has similar issues (especially regarding the electrical system) where they would require us to pay another deposit and full month’s rent; disregarding what we have already paid to them for our current unit. At this point we are seeking a lease release from the Madison at Eden Brook, effective as immediate as possible, as many of these issues make the apartment habitability violations.
Our phone numbers are 407-765-0768 (Taliyah) and 443-545-4170 (Michael).

CRH251294	9705 COVERED WAGON DR	50	The Seasons Apts. T000006543 – 9705 Covered Wagon Drive, Apt. E – No Heat I am writing to formally file a complaint regarding a serious habitability issue at The Seasons Apartments, located at 9220 Old Lantern Way, Laurel, MD. My unit, 9705 Covered Wagon Drive, Apt E, has been without heat since December 10, 2025. On December 11, maintenance staff began working on the HVAC system around 5:00 PM. Despite several hours of attempted repairs, including part replacements, the issue remained unresolved as of 9:00 PM, when the maintenance team left. They indicated that the boiler was malfunctioning and would require further attention the following day. As of 9:40 AM on December 12, the indoor temperature in my unit has dropped to approximately 18°F, while the previous overnight forecast indicated a “feels-like” temperature of 22°F. The single space heater provided is grossly inadequate to heat the entire apartment, leaving most areas dangerously cold. This situation has had a severe impact on my health, safety, and well-being. I am experiencing persistent shivering, numbness in my extremities, and an inability to sleep or function normally. The frigid conditions pose significant health risks, including: • Hypothermia, especially during overnight hours	Initial Investigation	12/12/2025

• Respiratory complications, exacerbated by prolonged exposure to cold
• Fire hazards, due to extended use of space heaters in confined spaces

Under Maryland State Law and Howard County Code, landlords are legally obligated to maintain rental units in a habitable condition. Specifically:

• Maryland Real Property Article §8-211 requires landlords to repair and eliminate conditions that pose a serious threat to life, health, or safety, including lack of heat.
• Howard County Code §17.1009 mandates that leases include provisions ensuring delivery of a clean, habitable, and sanitary dwelling unit, and incorporate the County's Property Maintenance Code for Rental Housing.
• The Tenant Safety Act of 2024 reinforces the warranty of habitability and allows tenants to seek remedies—including rent abatement, lease termination, and legal action—when landlords fail to address dangerous defects.

Despite notifying management, I have yet to receive a response to my requests for:

1. Immediate relocation to a habitable unit within the complex, or
2. Temporary accommodation in a hotel until the heating issue is fully resolved.

Additionally, I have requested a rent adjustment to reflect the loss of habitability and the significant personal hardship endured.

I have also filed Complaint CONC0001917 with the Howard County Office of Consumer Protection, which is assisting with mediation regarding rent credit.

Given the urgent nature of this matter and the ongoing failure to restore heat, I respectfully request that the Department of Inspections and Licensing initiate an immediate investigation and take appropriate enforcement action to ensure compliance with applicable housing codes and tenant protections.

Please confirm your plan of action within 24 hours of receiving this communication. I am available for further discussion and can be reached at Tommy.Totten@gmail.com or 301-466-7563.

Thank you for your prompt attention to this critical issue.

Sincerely,

Tommy Totten

Complaint Type:	**Rental Housing Complaint**			Pass	Max Sullivan
CRH251298	11255 SLALOM LN	35	11255-A Slalom Ln – Alleged unlicensed rental property I live in Columbia, Maryland along with another neighbor who have been dealing with a renter who has the attitude the rules are not for him. This has included parking of commercial vehicles in the complex, taking up as many as half a dozen parking spaces at a time, leaving bulk junk items in the parking lot, various unregistered vehicles, which they attempt to hide by parking others very close to the rear bumpers, in addition to parking a truck filled with trash in the bed for days at a time in the parking lot. As the HOA has not been overly receptive, I am hoping you can address the matter as I highly doubt they do not have valid rental license as required from Howard County based upon prior call to your office not to mention their disregard for rules in general. According to SDAT, the legal owner is Hugo Jimenez in Howard County. If none exists, it would be appreciated if appropriate action be taken to address lack of compliance with county mandate to include revocation of lease with current tenants. Respectfully, Seth Friedman Seth Friedman: Is the alleged rental property in question, 11255-A Slalom Ln? You are correct, there is no rental license for that property; however, SDAT does say the property is the principal residence of the property owner, Hugo Jimenez. If the property is occupied by immediate family member of the property owner, a rental license is not required. Do you have some evidence you can provide?	Follow Up	07/08/2026

If a business is being operated out of the premises, that would be under the jurisdiction of the Office of Planning and Zoning and you may wish to file a complaint wit that office as follows:

No, I do not have evidence at this regarding who is occupying the property. I know it is not owner occupied. What exactly are you seeking as far as evidence

Seth Friedman:
Off premise address for the property owner, or perhaps you have spoke to someone in the home who identified themselve as the tenants. If owners immediate family members reside there, a rental license is not required.
It is difficult for our office to pursue a case without evidence. The most the county could do without some evidence, is to knock on the door, see if someone answers, and question them. We can never proceed with enforcement action without the inspector having concrete evidence that the house is occupied by tenants.

While it is not possible to provide tangible proof they are not immediate family, why is not possible to inquire as they are most likely violating Howard county mandate given a lead was provided?
Seth Fredman:

We can open a case and inquire (see highlighted below) and send the owner a letter; however, if they do not open the door, do not call us after we leave a card (assuming they don't answer the door) and send a letter, we are forced to close case because the Howard County Office of Law will not allow us to proceed with enforcement action unless we can conclusively confirm it is occupied by tenants and not relatives of the property owner (no license required if occupied by immediate family members).

If you would like us to open a case to try, we can do that. Let us know please.
Yes, please do if my identity is kept confidential.

Inspectors do not divulge the names of complainants; however, should someone submit a written Public Information Request, they can obtain that information.

Would you still like to proceed?
Yes, please!

CRH251299	5414 HERON DR	38	RH21000131 5414 Heron Drive, Unit B – Garage door broken and possible other maintenance issues I am reaching out because I emailed a complaint to Howard County and an Investigator with Consumer Protection told me to send an email to you. I live at RiverWatch and have lived here for four years, There has been a history of maintenance not addressing issues for long periods of time, if at all. Currently, I reached out because about a week ago, on a Friday evening, I sent an email and a voicemail for emergency maintenance that my garage door had broken. The springs and or cable are broken. I had a friend of mine come by on that Monday to open the door, so that I could attend my appointments, etc. Since then, I have heard from no one. One day last week, I went to the rental office, which was closed, but when I left, I noticed the maintenance guy coming out of someone's home and talking to a resident. I asked him when is someone coming to fix my garage door, he told me the name of the company. I asked him do you have a date? He said let me check the computer. I waited for him to go into the office. When he came back out, he asked for my number and email address. Today, I still have not heard anything. I sent another email to the office telling them that I do not feel comfortable with my door open all day, every day because the door that enters my home is exposed and that lately, there have been a large number of unknown cars coming back here in my court, driving down, then turning around and leaving out, some of them stopping near where I live. I do not know these people, don't know	Follow Up	02/09/2026

why so many are doing this and so I don't feel safe.

I have had to wait a year to get my closet fixed in the past. Over the summer, I've reported that the mirror fell down in one of the bathrooms, that the silver coil behind the dryer needs to be attached and I have not had ANY of these matters attend to. I have not had my air filter replaced in over a year. I would do it myself, but they have the door locked.

I have asked for another key, three times, never received it. I have asked to have access to the gym for health reasons, no one has responded. The voice mailbox is full. No one hardly ever answers the phone.

A new company has taken over, I think in August. We have no portal for online payments or to request maintenance. I used to keep track of the requests that I put in, that weren't addressed, I can no longer do that.

I don't like buying money orders, then having to take them to the office. When I did attempt to do that, on many occasions, there are several other people waiting around in the office. The last time, there was some young guy that I don't recognize at the desk. I do know if he was taking rent payments or not. But I expressed to the office before, that I do not feel comfortable conducting business to maintenance men, if it's not related to fixing things, and I don't like a bunch of other resident's standing or sitting around the office. I am a private person and what I come into the office for is not for everybody else.

It is not fair that a place expects you to pay your rent, but we can't get things fixed in a timely manner or have use to the amenities that come with being a resident.

Thank you for your time.

Sincerely,
Michelle Alston

Michelle Alston:

Attached are instructions for filing a complaint with our office.

We must have the following information:

1. Your address including apartment number.
2. Your contact phone number.
3. Dates you reported the issues to the owner/management company and what action they took if any?
4. Brief listing of the property maintenance issues you reported that still are not repaired (For Example: garage door still in disrepair, dryer vent disconnected)

We await more information.

CRH251303	9650 BARREL HOUSE RD	50	The Seasons Apts T00006543 - -9650 Barrel House Road Unit J – Chipping/peeling paint on bathtub and unlevel leaving standing water and unrepaired water damage in bathroom My name is TayJuana Lee and I am emailing to submit a formal complaint against my property The seasons apartments in Laurel Maryland. Address: 9650 Barrel House Road Unit J Laurel Maryland My Contact number:804-655-1222 Summary of Complaint I am submitting this formal complaint to report ongoing, unresolved, and unsafe maintenance conditions in my apartment that have persisted for several months despite repeated notifications to property management. Bathtub Structural Defect and Safety Hazard In May, I notified the leasing office in person that my bathtub surface was peeling and deteriorating and	Follow Up	01/30/2026

that the tub itself appeared unleveled, causing water to pool in the center rather than drain properly. Because of this dip in the tub, water consistently sits on the surface after use.
As the condition worsened over time, the peeling expanded and the tub surface became increasingly slick and unstable. Due to the pooling water and damaged surface, I have slipped in the bathtub four (4) separate times, creating a serious and ongoing safety hazard.
Despite being told in May that the issue would be fixed, no repairs were made.
Timeline of Maintenance Requests and Lack of Response
• May:
o I reported the tub issue in person at the leasing office.
o I was instructed by staff to submit the issue by email, which I did on May 13.
• Summer Months:
o I followed up multiple times in person, but the staff member assisting me no longer worked for the company, and my issue was not transferred or addressed.
• September 11:
o I emailed the property manager directly, who stated she would personally come to inspect the tub.
o This inspection never occurred, and my follow-up email received no response.
• October:
o I returned to the office again on October 2nd and was told that someone would be sent to my home and no one was.
o I submitted another email on October 28, detailing the same issues and their progression.
To date, no meaningful repair, inspection, or resolution has taken place.
Additional Damage and Moisture-Related Concerns
Over time, I have also observed peeling, cracking, and discoloration on walls and ceilings in my apartment, particularly in the bathroom area. While I understand that mold concerns may fall outside Rental Housing Enforcement’s jurisdiction, these conditions further indicate ongoing moisture issues and deferred maintenance that have contributed to the deterioration of my unit.

Impact on Habitability
These unresolved conditions have:
• Created an unsafe bathing environment
• Resulted in multiple slips and falls
• Demonstrated a pattern of delayed or ignored maintenance
• Persisted for several months despite repeated notice
I have been patient and have made every effort to work directly with property management through proper channels before escalating this matter.
Requested Action
I am requesting that Rental Housing Enforcement:
1. Conduct an inspection of my unit, particularly the bathtub and surrounding areas.
2. Determine whether the bathtub condition and lack of drainage violate habitability or safety standards.
3. Require the property owner/management to complete proper repairs or replacement of the bathtub and address related structural issues.
Documentation
I have attached:
• Photographs documenting the bathtub deterioration, water pooling, wall and ceiling damage
• Copies of written correspondence sent to property management showing repeated notice
Thank you for your time and assistance. Please let me know if any additional documentation or information is needed.
Sincerely,
TayJuana Lee

CRH251306	13720 BOLD VENTURE DR	22	RH24000514 13720 Bold Venture – Plumbing leak repaortedly repaired, but may not have been properly remediated. Electrical concerns also (CE251305 open). Second open complaint CRH241010 under civil citation. RE: 13720 Bold Venture Dr Glenelg Maryland 21737	Follow Up	07/23/2026

Dear Sir/ ma'am

I'm writing this letter because on Tuesday December 16, 2025 I woke up to a water leak in my home. My bathroom on the main level had a leak coming from my Toilet. I immediately contacted my landlord through email stressing the severity of the leak. she claimed she would contact a service team for emergency services. Unfortunately the Service team gave her an all day appointment from 9am- 9pm. I then requested she send someone to shut off the main water to the home because I couldn't . I sent multiple pictures and videos of the damage and she did nothing. At 3:30pm the Service provider showed up and the Landlord's husband arrived 5 mins after. The service provider shut off the water and fixed the leak however, the floors, carpet, ceiling below bathroom, smoke detector and lights were all damaged. I have stressed that the lights are flickering and the smoke detectors are going off due to the severe water damage. I currently have mold and electrical issues in my basement and it hasn't been addressed. I have 5 children and we had to stay at a friend's home due to the water damage and noise yesterday. My landlord is very uncooperative and doesn't seem to care about the condition of the home. We need intervention to help with the electrical and mold issues to ensure the home is safe for my children and I .

Thank you

CRH251309	8780 CLOUDLEAP CT	36	Timbers at Long Reach Apts T00006214 - 8780 Cloudleap Ct Apt 24 – Bedbugs, roaches, rodents (mice & rats) and other maintenance concerns I am contacting you again regarding the living conditions in my apartment. I have notified the office of these conditions on several occasions, starting in August; however, my unit continues to have health and safety issues and remains out of compliance with Howard County codes and standards. I understand that I have indicated I would like to move because of the severity of these issues; however, I have not yet secured a new apartment. Moreover, I have been unable to fully move into the unit due to these health and safety concerns. I am still paying rent to live here, and these conditions are taking a toll on my and my children's mental and physical well-being. This is an official notification that I will be contacting the county inspection division if these issues are not immediately resolved. • There is rust on the refrigerator. It also makes a rattling noise when it turns on, and a humming noise as it's working. Please replace it as I could be injured by rubbing against the rust, and the noise is an indication that it's failing and contributing to an increased electrical billl. • There is rust on the dishwasher, and is a substance inside the dishwasher. This is unsanitary and I could be injured by rubbing against the rust. • • The dryer doesn't dry my clothes. • The washer is very loud, it tumbles. • There is water damage to the kitchen floor and it buckles and is uneven. This creates a tripping hazard, as I frequently catch myself from falling while cooking. • There is a random vibrating noise coming from the kitchen floor. I have no idea what this is. • The bed bugs are still present. I have had four treatments; however, none have used the heating method, which is known to kill bedbugs. Also, the bedbugs are in the carpet. • My air vents in the ceiling are dirty; they have	Follow Up	08/19/2026

trash in them.
- The cabinet film is peeling in the bathroom and kitchen.
- The countertop is peeling in the kitchen.
- The bathroom faucet has a buildup of calcium
- The rodent infestation continues, and several gaps remain unfilled.
- The roach infestation continues. I still see roaches on the wall every day.
- There is cracked, peeling paint and bubbling paint in several places throughout the apartment.
- The main closet door is broken, and it's too short.
- The window screens are either torn or missing, so I can't open the windows.
- The towel bar is broken and missing.

Thank you for your prompt attention to this matter.

CRH251310	8910 STANFORD BLVD	36	Sonesta Select Hotel T00006227 – 8910 Stanford Blvd., ROOM 430, Relocated to ROOM 330 – Alleged bedbug Infestation I hope this email finds you well. I am writing to inform you of a bedbug exposure incident at the Sonesta Select in Columbia, MD, at 8910 Stanford Boulevard. This poses a documented health risk. In my opinion, the general manager at this location, Binoy Patel, has failed to respond appropriately, causing a manageable incident to become significantly worse. Despite my fiancé suffering from bed bug bites and finding a live bed bug in our items, Mr. Patel has been clear that he will not be taking further action to appropriately treat this infestation. (A far more detailed account of our experience is attached here). This location has experienced 3 documented bed bug outbreaks in recent months, and in my opinion it seems that Mr. Patel's lack of attention to pest control could be contributing to the repeated bed bug outbreaks that have occurred at this property. Mr. Patel's lack of action is now creating a public health concern to the broader community. I would imagine that this hotel will experience increased	Follow Up	12/22/2025

			business as the holidays approach, potentially exposing additional guests to these pests which they could then bring home to their own homes. This creates a significant financial, mental, and physical burden for those impacted. Additionally, this could be creating an unsanitary working environment for the employees of the Sonesta Select, who could similarly be exposed to bed bugs and take them home to their own families. I spoke with the Howard County Department of Public Health who instructed me that this issue would fall under the jurisdiction of the Rental Housing Department. They then gave me your contact information. I would appreciate if you could provide me with written receipt of this complaint as well as a case number to follow-up on its resolution. I have also escalated this issue to the corporate offices of the Sonesta franchise. Thank you for your time and kind attention to this matter. Happy holidays! Best regards, Mary Rhodes

CRH260061	5231 BROOK WAY	30	The Brook at Columbia Apts T00006552 - 5231 Brook Way, Apt:6 – Rodent infestation and other maintenance issues I am writing to formally file a complaint against the management of my apartment complex due to ongoing neglect, unsafe living conditions, and persistent failure to respond to maintenance and health-related issues. I am extremely frustrated and have been experiencing serious difficulties communicating with apartment management since I moved into my unit on September 30, 2025. From the beginning of my tenancy, I have faced multiple unresolved maintenance problems: • Plumbing issues in my bathroom began shortly after I moved in. Although the issue was finally addressed at the end of December 2025, it was not properly fixed and continues to cause problems. • My kitchen sink disposal was not working when I moved in. For the first two weeks, the sink was completely blocked, water would not drain, and the apartment smelled extremely bad. I repeatedly	Follow Up	03/03/2026

contacted the leasing office and submitted online maintenance requests, begging for assistance before the issue was finally addressed.
• I requested replacement of my air filter, but it was never changed despite multiple requests.
• On multiple occasions, management marked my maintenance requests as “completed” in the online system even though no one ever came to my apartment and the issues were not fixed. This has made it very difficult to track problems and has caused delays in addressing serious health and safety concerns.
Most concerning is the current mouse infestation, which has created an unsafe and unhealthy living environment. I reported this issue to the office last week and submitted an online maintenance request on Monday, January 19, 2026, after seeing mice running in my kitchen. I was so afraid that I slept in my car for two nights. Despite repeatedly begging management for help, no one came to address the issue.
On Wednesday, January 21, 2026, I found a notice on my door stating that pest control would be coming that day. The apartment manager also verbally confirmed that pest control would arrive. I stayed home all day waiting, but no one from maintenance or pest control ever showed up.
Out of desperation, I purchased mouse traps myself. I later found a dead mouse under my stove. When I contacted the office and asked them to send someone to remove it, I was spoken to in a very rude and disrespectful manner and was told that it was not their problem and that I needed to remove it myself. I was forced to call a friend to come to my apartment to remove the dead mouse for me.
I am currently living in an unhealthy environment with unresponsive and irresponsible management. I am constantly scared in my own home.
Despite all of this, I have always paid my rent on time. Rent is due by the 5th of each month. For January, the office was closed on January 1st, so I went to the office on January 2nd and paid the full rent amount by check. I received a receipt, and I have copies of both the receipt and the check.
However, management is now demanding that I pay an $81 late fee. I have repeatedly called and visited

the office to ask for this fee to be removed, but I am consistently told that they do not have time to speak with me and that they will call me back. I have never received a call back. It is now the end of the month, February rent is due, and no one is willing to resolve this issue.
I have also previously emailed the apartment owners directly and received no response. In addition, the building itself is filthy and poorly maintained, and management appears not to care about cleanliness or tenant well-being.
I am in urgent need of help and guidance. I respectfully request that your office investigate these conditions and the management's failure to meet basic housing and health standards. I also recommend reviewing the apartment's online reviews, as many residents are reporting similar issues.

			I am writing to report that the rental property which we reside in has had no heat since Saturday January 25, 2026. The house is now well below the accepted mark of 68 degrees.		

The home has vulnerable adults and pets who reside there. The landlord is refusing service and the vendor who we have used to inspect the oil tank before is advising against use of the oil tank.

Please provide us with guidance on how to proceed.

TEAM C.A.S.E.

To Whom It May Concern:

Attached are instructions for filing a complaint with this office. We will need the complainant's name and contact phone number.

What date was the no heat issue reported to the property owner through their required reporting system and what action was taken if any? Provide more details on precisely what the issue is? Is the tank out of oil or something specific wrong with the furnace? Was supplemental heat provided by the landlord?

We await more details.

RENTAL HOUSING INSPECTIONS

The Complaintant

Alarice Vidale de Palacios on behalf of Case Community. I am the guarantor and lease signer for the property.
The best number to reach me on is 30 1-332-8968 or 240-551-4000

The issue with the furnace has been ongoing. Mr. Bista was first contacted well before the cold weather via email requesting assistance in repairing the outdated tank, which is currently located in the ground in his letter he refused to be of assistance.. He then reached out last Friday to a member of my team, requesting to make an appointment to have a vendor to take a look at the heating device.

Given the freezing temperatures which this region has

been impacted by the property has been reported to not have heat since Saturday 1/25/2026. The tenants that are there are attempting to keep warm by utilizing the fireplace they have had to bring their pets upstairs as well. Once the team was notified, since this is the first day that everybody has had an opportunity to talk about the matter, Mr. Bista was notified this morning where he engaged in a banter, informing the staff member that we meeting our organization should reach back out to our vendor since we had already had them take a look at the property.

The vendor has advised against use of the furnace altogether due to the sludge and debris which are inside of the tank they have advised against putting oil into the tank, given the toxicity of the material which it contains. We have received a letter from the vendor to that effect.

There are autistic individuals and individuals with cognitive delays that are living at the property with their emotional pets.

Mr. Bista sent correspondence stating that by the time he gets off of work, it will be too late for him to go to the property and that he is sending his aged father to come to the property which is covered in snow to enter into the rare of the property dig a hole to find out what is going on. The ridiculousness of the matter is Beyond comprehension to me.

Please provide guidance on what our options are.

Thank you

Please provide us with guidance on how to proceed.

TEAM C.A.S.E.

To Whom It May Concern:

Attached are instructions for filing a complaint with this office. We will need the complainant's name and contact phone number.

What date was the no heat issue reported to the property owner through their required reporting system and what action was taken if any? Provide more details on precisely what the issue is? Is the tank out of oil or something specific wrong with the furnace? Was supplemental heat provided by the landlord?

We await more details.

RENTAL HOUSING INSPECTIONS

The Complaintant

Alarice Vidale de Palacios on behalf of Case Community. I am the guarantor and lease signer for the property.
The best number to reach me on is 30 1-332-8968 or 240-551-4000

The issue with the furnace has been ongoing. Mr. Bista was first contacted well before the cold weather via email requesting assistance in repairing the outdated tank, which is currently located in the ground in his letter he refused to be of assistance.. He then reached out last Friday to a member of my team, requesting to make an appointment to have a vendor to take a look at the heating device.

Given the freezing temperatures which this region has been impacted by the property has been reported to not have heat since Saturday 1/25/2026. The tenants that are there are attempting to keep warm by utilizing

the fireplace they have had to bring their pets upstairs as well. Once the team was notified, since this is the first day that everybody has had an opportunity to talk about the matter, Mr. Bista was notified this morning where he engaged in a banter, informing the staff member that we meeting our organization should reach back out to our vendor since we had already had them take a look at the property.

The vendor has advised against use of the furnace altogether due to the sludge and debris which are inside of the tank they have advised against putting oil into the tank, given the toxicity of the material which it contains. We have received a letter from the vendor to that effect.

There are autistic individuals and individuals with cognitive delays that are living at the property with their emotional pets.

Mr. Bista sent correspondence stating that by the time he gets off of work, it will be too late for him to go to the property and that he is sending his aged father to come to the property which is covered in snow to enter into the rare of the property dig a hole to find out what is going on. The ridiculousness of the matter is Beyond comprehension to me.

Please provide guidance on what our options are.

Thank you

Below is an email that Ms. Price-Moore sent to TheBrook@murnproperties.com on Dec 17, 2025:

I am Brenda Price Moore
5381-1 Brook Way
410 693 2622
I concur that most maintenance repairs were satisfactory completed
However my washing machine has been inoperable for over six months. As of today December 2nd 2025, the washing machine hasn’t been repaired. I have made numerous requests and notifications for operable machines
Please urgently resolve this issue
I have health concerns and the blessings to be 81 years old
Please respond and commit to whatever is required to complete
This serious matter.
Thank you in advance for your
Commitment to resolve this issue
Please respond and acknowledge
This communication and provide details in a timely manner.

I have been a resident for over 10
Years. I would like the respect even if I had been a resident 10 months

Looking forward to a timely and respectful response

And once again on January 6, 2026:
For clarification , my request for repairs or replacement of an operable washing machine,I reiterate a request for contact information :a name and telephone number of the professional in charge of and responsible for providing what ever necessary to have a completely operational machine My washing machine is still not working and I don't have contact information on the maintenance person in charge.

I have since provided Ms. Price-Moore the phone number I have been calling for The Brook, (443)348-0892, but neither of us have had any response.

Thank you for your attention to this matter.

Sincerely,

Shiowei Cheng (she/her), Social Work Intern

CRH260092	10512 MY GIRL PL	16	RH24000738 – 10512 My Girl Pl. – Rodent infestation (rodent entry points allegedly not being excluded) I am a tenant renting the residential property located at 10512 My Girl Place, Woodstock, Maryland 21163, and I am submitting a rental housing complaint regarding a rodent infestation and unaddressed structural entry points at the rental property. When I rented the home last year, it was not provided with pest control services. As a tenant, I obtained pest control services through Terminix at my own expense to treat the property. As part of this service: - On Saturday, January 31, 2026, Terminix came to the property for a scheduled visit and placed rodent bait traps a few days after I saw a mouse run back and forth several times from the corner of the refrigerator straight across the kitchen to the dishwasher and sink area. - On Monday, February 2, 2026, Terminix returned again to conduct a full inspection of the rental property, including the attic, exterior, garage, kitchen, and interior. Terminix provided written inspection reports with photos identifying holes and structural entry points, including under the kitchen cabinet, near the dishwasher, and along baseboards, and recommended sealing these entry points with mesh to prevent rodent entry. I provided both Terminix inspection reports and quotes to the landlord. Later that same day (Monday), the landlord sent a representative from Home Paramount Pest Control. This individual did not conduct a full inspection of the home, did not inspect the attic, exterior, garage, or upper floors, and did not bring equipment such as a ladder. The representative only entered the kitchen, briefly opened a drawer, and pointed out mouse	Initial Investigation	02/05/2026

droppings beneath the kitchen island and sink area.

Following this limited visit, the landlord stated that there were no active pests and has refused to arrange extermination or repairs to seal the identified entry points. As of now, the holes and entryways identified by Terminix remain open and unaddressed.

The continued presence of mice inside the rental property and the failure to seal known structural entry points constitute a health and safety concern. I am requesting that Howard County open an official complaint, conduct an inspection, and enforce applicable rental housing and health codes.

Attached are:
- Terminix inspection reports and photos
- Pest control documentation
- Communications with the landlord regarding this issue

Please advise on next steps. I am requesting inspection and enforcement assistance.

Thank you for your time and attention.

Sincerely,
Tonya Crawford

CRH260098	8720 HAYSHED LN	36	Columbia Landing Apartments T00006074 - 8720 Hayshed lane, Apt. 301 – Rodent Infestation (treat and exclude) Good morning! I hope this letter finds you well. I am writing to inform you of a concerning issue regarding a pest infestation in the property located at 8720 Hayshed lane, Columbia MD 21045 unit 301. Despite	Follow Up	03/09/2026

efforts to manage the situation, the problem persists and requires immediate attention. As per the terms of our lease agreement , I understand that it is your responsibility to ensure that the property is free of such infestations . I kindly request that appropriate pest control measures be taken promptly to resolve this matter . I believe it is important to address this issue at the earliest to ensure the living conditions remain safe and hygienic . These conditions are serious and a breach of your legal responsibility to keep the unit in safe, sanitary and livable condition. I've reached out several times to the property management
Nicole McDonald Cell 347-775-6450

Nicole McDonald:

Attached are instructions for filing a complaint with this office for your reference. We need more details. We believe you reside at Columbia Landing Apartments based upon the address you provided.

You must provide the following:

1. What type of pest infestation are you experiencing? (rodents, roaches, bedbugs, etc.?)
2. What date was this reported to management and what action have they taken? Please provide copy of work order submitted.

We await more information.

RENTAL HOUSING INSPECTIONS

Rodents (mice).

I first reported the rodent issue to Brittany Diaz via email on 11/23/2025. I have sent multiple follow-up emails since that time.
On 12/30/2025, I emailed the Vice President of Operations, Michelle Devastey, regarding the ongoing rodent problem. On 12/31/2025, she informed me that she forwarded my email to the Regional Manager.
On 01/13/2026, Brittany Diaz informed me that

maintenance would send someone to patch and seal the areas where rodents were entering and that an exterminator would begin coming regularly until the issue was resolved.

Despite these assurances, no one has come to patch or seal the entry points, and no regular extermination services have been performed.
I emailed management again today regarding this issue but have not yet received a response.
At this time, I do not have copies of any work orders, as none have been provided to me. However, I do have videos and copies of emails documenting the issue and my attempts to report it.
Sent from my iPhone

Hello,

On Monday, we'll check with management on the matter.
We need to be sure you ae using the correct reporting system, and not just emailing someone at the office or offsite.

The area Inspector will inquire as to any record they have and action scheduled. We cannot go from what did or didn't occur in November or even prior to now at all.

We will follow up with you on Monday to let you know about a case.

Thank you

CRH260103	4981 COLUMBIA RD	30	Columbia Glade Apts T00006163 - 4981 Columbia Road Apt 204 – Rodent Infestation Shanea Copeland, 2405932351 Hello I live at Columbia Glade Apartments in Columbia MD on Columbia Road. I have a rodent	Follow Up	03/04/2026

infestation that the leasing office does not count as urgent and has not provided pest control services. They marked the service ticket as completed and it was not. My first report was on 1/5/2026 and has now escalated to outward activity that includes, frequent and repeated sightings within my apartment, droppings and rodents in my bed while i am present in the bed. During a phone call with the leasing office, the leasing agent stated my issue was not an urgent matter.

I have tried using my own means of deterrence which are not successful.

Attached is the list of service tickets i put in with the leasing office. I have contacted an attorney and reported it to the Bureau of Environment Services.

The property management company is failing to act and treats me as living with rodents as an acceptable form or habitation.

I have left my apartment and will remain gone until the problem is fixed and/or I can get out of my lease immediately.

You can reach me at the contact above.

Thank you in advance and have a great day!

Best Regards,

Shanéa Copeland, M.S.
Email: shaneacopeland@netzero.com

We await more information.

RENTAL HOUSING INSPECTIONS

Shanéa Copeland:

Attached are instructions for filing a complaint with our office. We need the following information:

1. Your complete address including apartment number.

2. The service ticket indicates you reported mice on 1/5/26 as you stated in your email. What action has the complex taken to provide treatment and exclusion, if any? Provide details.

Thank you for getting back to me so quickly.

My apologies. My full address is as follows:
Shanea Copeland
4981 Columbia Road Apt 204
Columbia, MD 21044

Maintenance put glue sticks down on 2/3. Other than that nothing has been done.

Please note, one mouse equals several mice. They carry disease and attract snakes. The leasing agent told me on 2/7/2026 via phone call that it was not an urgent matter when I told her I could see it in that moment. Additionally, I want to add the email I sent on 2/7/2026 to the leasing agent.

Please note, I did contact the 24 hour maintenance line on 2/7/2026 around 12 a.m. to get the mice because it was in my bed while sleeping on 2/7 and the maintenance came but was unable to catch it.

Outside of that nothing has been done and has escalated from hearing it in the walls on 1/5/2026 to demonstration of mice infestation with frequent sightings, in my bed, droppings, etc. I have not inhabited my apartment for the last 2 days and have contacted Terminix.

Again, thank you for contacting me so quickly. If you need to reach me, please feel free to call me at 240-593-2351 or via email.

Regards,

Shanéa Copeland

CRH260106	5623 SETTLER PL	35	RH16000390 - 5623 Settler Place – Leaking washer, alleged unremediated sewerage backup, stair issues, etc. Goodafternoon , I'm reaching out in regards to years of home repairs that have been ignored by my landlord. The property is not fit for living. The washer has been flooding since January of 2023. Mold has grown both behind the washer and under the floors. I have notified my landlord time and time again with no solution. The plumbing also has been an ongoing issue where as my basement has flooded with sewage from the toilet and shower numerous times as well. Sewage has damaged the basement carpet and it has not been removed or replaced in weeks. I did let him know about the stairs dislodging and causing falls that hasn't been repaired. The radiator in the basement has been making high pitched sounds all hours of the day and hasn't had maintenance since 2004 and is a fire hazard. I am asking for an immediate inspection of the property. Please feel free to reach out to me. Ebone' Lowery 443-645-8922 or via this email and I will call you back (i work in health care so I am not always near my phone) OR you can reach out to my roommate Cicoria Gurley 443-823-4517 Please confirm the address. 5263 Settle Place does not exist that we can find. Robertfcarrjr@gmail.com

State of Maryland records indicate that the owner lives there as their principal residence. Are you the only tenant and do you rent one room or a separate apartment in the home or do you rent the entire house? If you are renting the entire house can you provide the off-premise address for the property owner or any contact information for the owner?

Also, attached is a document outlining the limitations of this office regarding mold issues.

We await more information.

RENTAL HOUSING INSPECTINS

The rental agreement is for the entire house. There is currently one other tenant living there, a third tenant just moved out last week. In the 2 previous emails I included a copy of the mold report and 1st and last page of the initial lease. The owner raised rent by $600 and we have a new lease of $2600. I will send a copy of the current lease shortly

Best,
Bobby Carr
443-790-4765
Robertfcarrjr@gmail.com

Babby Carr:

You will want to file a complaint with Consumer Protection and provide them with a copy of your lease. Our office does not collect leases.

Can you provide the off-premise address for the property owner or any contact information for the owner? We are asking because the State database lists the property as their principal residence.

RENTAL HOUSING INSPECTIONS

The owner, Elizabth Karabanoff is 89 years old, husband passed in 2023. His obit shows (1) offspring, Nick Karabanoff, wife Brittany.

I would suspect the son did this and Ms. Elizabeth is in assisted living, (there is some Florida guardianship case info online from 2021). Looks like the Karabanoffs' may have had a FL association too.

Nick Karabanoff's address:
13651 Otono Dr
Mount Airy, MD 21771

CRH260157	10000 TOWN CENTER AVE	36	The Metropolitan Downtown Columbia Apts RH14000754 – 10000 Town Center Ave, Apt. 519 – No lights in hallways (tenant at 519 reports no light, but others); garage door issues; access door issues, etc. I am a resident of a Met Columbia apartment building in Columbia, Maryland, and I am submitting a complaint regarding ongoing safety and maintenance concerns that have not been resolved by property management. Approximately one week ago, the building experienced a power outage. Since that time, many areas of the building remain without proper lighting. Several hallways still have lights that are not functioning, including the hallway directly outside of my apartment door, which remains completely dark. Other areas throughout the building have inconsistent lighting, with some lights on and others off. In addition to the lighting issues, several building access doors are not working properly. These doors	Follow Up	03/19/2026

either fail to unlock with the access system or do not function consistently, which creates both security and safety concerns for residents.

There have also been ongoing issues with the garage door for the building. The garage door continues to malfunction and break. On one recent morning, residents were unable to exit the garage and were effectively stranded for approximately four to five hours until someone eventually lifted the gate manually so residents could leave.

Additionally, during the power outage last week, I heard a ticking noise coming from the main elevator in the building. Given the ongoing electrical issues and building maintenance concerns, this raised additional safety concerns for residents.

These issues have now persisted for about a week following the outage. The lack of proper lighting in common areas, malfunctioning access doors, repeated garage door failures, and concerns with the elevator create potential safety hazards for residents and visitors.

I respectfully request that the county review this situation and conduct an inspection of the property to ensure that the building meets safety and maintenance standards.

Thank you for your attention to this matter.

Crystal Craig

<Rental Housing Property Maintenance Complaints
Rev. 3.11.2022.

Crystal Craig:

What date were these issues reported to owner/management through their required reporting system and what action have they taken, if any?
Additionally, what apartment do you reside in within the building?
Provide this office with a copy of the work order ticket

please.

RENTAL HOUSING INSPECTIONS

Hi,

The incident occurred on Saturday, and it was brought to the office's attention immediately by myself and other residents in the building. Since the office is closed on Sunday and Monday, I came to the office in person when it reopened to ask about the issue, but there was still no update or resolution provided at that time.

Additionally, I sent an email three days ago outlining the ongoing concerns in the building and only received a response today.
For reference I'm in apartment 519.

Thank you
Crystal C

CRH260196	9215 TRADERS CROSSING	47	THE SEASONS APTS T00006543 – 9215 Traders Crossing, Apt. J – Heat/HVAC not functioning as intended (Thermostat?) Good evening. My name is Valentina, and my phone number is 2405849132. On Friday morning, I reported that the air conditioning had broken down; it hadn't been working since Thursday night, and the temperature was stuck at 65 degrees. I waited to see if it would warm up during the night, but the temperature never rose. I have a 3-year-old daughter who gets sick due to cold temperatures. Maintenance personnel came—it seems they changed the filter—and marked the service request as "complete." When I arrived home, the temperature had gone up slightly, but that was only because it had been a bit warmer outside on Friday afternoon. Today, Saturday, I submitted another request for them to come out again—since they claim that a malfunctioning HVAC system constitutes an emergency—yet here it is, hours later, and no maintenance staff has arrived. The apartment is currently at 69 degrees; the floors and walls are cold. I never seem to see a real solution; the service requests are always marked as "complete," but the underlying problem persists. These situations are not being treated with the urgency they deserve. My daughter has autism, and these temperature fluctuations are very disruptive to her routine. Furthermore, she has developed a cough—and I can hear congestion in her chest—because we are forced to sleep in the cold, even with extra blankets. It is a very difficult situation for her to endure. I truly hope that you will take this matter seriously. I am attaching photos; this is already the second complaint I have filed. The maintenance team has not come to fix anything, and it is getting colder inside here by the minute. My daughter's health is at risk; we have to wear sweaters inside the house, and I had to buy space heaters because the temperature inside the apartment is so low. I called the emergency maintenance department directly, and all they say is that they don't know how long it will take.	Initial Investigation	03/17/2026

CRH260247	9670 BARREL HOUSE RD	50	9670 Barrel House Rd Apartment G Laurel, Maryland 20723 (Seasons Apts.) T00006543. Complaint items, complete communication attached I live in a three-bedroom, two-bathroom unit that currently has only one smoke detector installed outside the master bedroom. This detector is secured in a way that prevents me from checking its operational status. Additionally, there is no carbon monoxide detector present in the apartment. To compound these issues, the stovetop has an inadequate vent cover, which has been temporarily replaced with aluminum foil. The boiler door is also damaged. A few months ago, I contacted the fire department about a gas-like odor in my apartment. While they could not identify the source, they recommended that I contact the leasing office for further inspection. A maintenance technician investigated the issue while my grandchildren were present and concluded that a new stove was necessary. Furthermore, the clothes dryer is malfunctioning and often requires two to three cycles to dry a load of laundry. It accumulates excessive lint, which spills out from the door. Although maintenance staff tried to resolve the issue by clearing the vent at the back of the dryer, the problem persists, as the lint trap is partially broken. I must also express my serious concerns about the inadequate ventilation in my apartment. The poor airflow has contributed to significant health issues ...	Initial Investigation	03/30/2026

CRH260268	7250 EDEN BROOK DR	42	Beechs Farm Apts T00006534 – 7250 Eden Brook Drive, Apt. C202 – HVAC Not cooling as required AC Repair Complaint Letter - PLEASE HELP!	Follow Up	06/10/2026

COMPLAINT against Beech’s Farm Apartments,
7260 Eden Brook Drive, Columbia MD 21046
Phone: 410-709-6804, Email:
BeechsFarmMGR@cushwake.com

I am writing to formally request the immediate repair or replacement of my air conditioning unit at Beech's Farms apartment complex.

I am a senior citizen with existing health conditions, and the temperature in my apartment has reached 84°F or higher during recent warm weather. As temperatures continue to rise, this situation is becoming increasingly unsafe and unacceptable.

Over the past 26 days (maintenance ticket submitted 3-11-26), I have made numerous attempts to resolve this issue by visiting the office in person and sending multiple emails requesting updates. When I do receive a response, I am told that “they’re working on it,” “waiting on a quote,” or that someone will contact me. Last week the manager even told me "that it's technically still winter". Really? However, no meaningful progress has been made, and no one has followed up as promised.

Additionally, I recently overheard the maintenance supervisor inform another tenant that Beech’s Farm is not paying its bills, which is allegedly causing delays in repairs. This is extremely concerning, particularly with summer approaching, as it raises serious doubts about whether this issue will be resolved in a timely manner.

Furthermore, the maintenance manager previously advised that a temporary window unit would be installed until the issue was resolved. This has not occurred. I have since left three voicemail messages requesting an update, none of which have been returned.

Given the circumstances and the potential impact on my health and safety, I am respectfully requesting assistance from the County to ensure this matter is addressed immediately. I would appreciate any

support in facilitating a prompt resolution, including repair or replacement of the unit or the provision of a temporary cooling solution.

Please feel free to contact me if additional information is needed. Thank you for your prompt attention to this urgent matter.

NOTE: I have been a resident of Beech's Farm since 2005 and have NEVER made one late rent payment! Since the new property management company has taken over (Cushman Wakefield), the quality of service has significantly declined. I experienced a similar issue with my heating in November, which took approximately three weeks to resolve. This pattern of delayed response is concerning and further underscores the urgency of addressing the current situation.

Sincerely,
Gary Faykes

CRH260277	10244 HICKORY RIDGE RD	36	Eaves at Columbia Town Center Apts., T00006570 - 10244 Hickory Ridge Rd, Apt 103 – Roach Infestation I am requesting an inspection of our rental apartment due to a severe and ongoing cockroach infestation that we believe has made the unit unsafe and uninhabitable for our family. We live at: Tyler and Kayla Zenk 10244 Hickory Ridge Rd, Apt 103 Columbia, MD 21044 Phone: 831-229-4308 Phone: 831-789-4604 Apartment Community: Eaves Columbia Town Center	Follow Up	05/27/2026

10300 Hickory Ridge Rd
Columbia, MD 21044

We first noticed roaches at the end of January 2026. At first, we only saw a few, but by February the infestation had become much worse. We have since found cockroaches, roach droppings, and egg sacs throughout the apartment, especially in the kitchen. We have also found roaches in the bathroom, hallway, food cabinet, on dishes, and inside the refrigerator. We have seen large roaches, babies, and German roaches.

We first notified the apartment complex on March 8, 2026. Pest control came on March 10, 2026. The infestation continued to worsen, and pest control returned again on March 31, 2026. After that visit, an Actisol treatment was scheduled for Friday, April 3, 2026. We fully prepared the apartment for that treatment as instructed, but the treatment was canceled on Thursday, April 2, 2026 and rescheduled for Friday, April 10, 2026.

I am currently five months pregnant, and we also have a 10-month-old baby. My doctor advised that our current living situation is unsafe for me and my children due to the infestation. A doctor’s note was sent to management asking that the issue be addressed because of the health concerns involved.

At this time, we are staying in a hotel because we do not believe the apartment is safe for our family. We are requesting that Howard County inspect the unit and advise us regarding any violations or next steps.

We can provide photographs, videos, copies of our written communications with management, and the doctor’s note upon request.

Thank you for your time and assistance.

Sincerely,

Tyler and Kayla Zenk

On the evening of March 10, 2026, I called emergency maintenance to report a leak and n the kitchen from upstairs. Maintenance never came. I follow up the several times. There was raw sewage in kitchen, foyer, dining room and living room. On Tuesday March 17, the “cleaned” the carpet. I followed up again a week later because it still reeks of sewage and now rotting wood. I was told someone would be over. No one came. March 23 I request service again and was told Antoine would be over that day. Never heard from the office or seen them stop	Follow Up	06/30/2026

by. The ceilings are stained with water and sewage. There appears to be mold on the carpet. There is mold in the window in my bedroom. Over a month later, they finally send the moisture guy.

This had been an on going problem. I am concerned this is just going to continue.

Thank you,

Antoinette Seesz

Hello,

My phone number 443-415-2899.

It was not just water. It had color and a very foul odor. Perhaps waste is a better word. There is discoloration on the wall as well. So spot are water spot but the one spot closest to the kitchen is pinkish orange ish. The area near the kitchen was also the same color. The areas in the living appeared to be just water. I did not know some spot were saturated until i walked barefoot.

I have attached some screen shots.

I reported it again earlier this week. So they had the moisture guy come over. I am not sure anyone from maintenance ever came at all.

Thanks.

CRH260282	10390 FAULKNER RIDGE CIR 30	RH22000778 10390 Faulkner Ridge Cir – Rodent Infestation I am submitting a formal complaint regarding unsafe and unsanitary living conditions in my rental unit. My move date was May 1st, 2025. The realtor had something to do that day so we got the keys the day before moving in. Upon inspection we observed mouse droppings and cockroach shells. I reported the finding to my landlord that day and he said they left the door open and did not treat the house well while showing it for rental. He reassured me that the house was well taken care of beside that. For the next few months we were seeing trace mice dropping on the floors, counters and closets, we would also see them running around in the living room. We set glue traps and snap traps to catch the mice. We decided to move the stove while cleaning, upon moving the stove we saw a great deal of mice dropping. We also saw a bait box that WE DID NOT put there, which means that someone knew about the mice. We called an exterminator ourselves. He looked around showed us possible entry points in the interior and exterior of the unit, gave us a quote on fixing the problem and sealing holes professionally , and also reassured us that the problem existed before we moved in. On 10/12/25 I emailed the landlord to let him know about the problem, and the steps we were taking to deal with them and also let him know that we would call an exterminator to come out and look. The landlord told us that he would take care of the problem. He sent out a different pest control company	Follow Up	07/02/2026

to spray around the outside perimeter for bugs, as well as show us where WE can fill in holes inside and outside on the foundation of the home. He also said he did not have a problem with mice until we moved in and did not plan on keeping the service. We have sealed holes inside ourselves but we are not professionals.

The rodent problem has not resolved, it actually seems to be getting worse, as we now notice dropping and have seen mice in the upstairs. This situation is getting serious and it is also a health hazard as my son is allergic to mice, I am currently pregnant, and I have a one year old whose pacifier was on the floor right next to a mouse dropping.

Additionallymy lease states that property would be free of vermin upon move in.

I am requesting a formal inspection of the property to assess the condition my family is living in and determine compliance with housing and health codes.

I would like to lodge a complaint regarding longstanding issues with our apartment's roof and balcony. My husband and I have reached out to my apartment building's maintenance and property management offices multiple times but these issues are still yet to be resolved and have worsened over time. Our balcony roof has been leaking foul smelling, dark liquid from multiple areas for several months which includes mix of squirrel waste, food and dirt/dust. This has made it impossible to use a space we have worked hard to make our own. We submitted a maintenance request on June 18, 2025, yet the issue has not be fixed. As indicated above, animals have been living in our apartment's roof since summer 2025 (maybe before). This is a serious health and safety issue. As a resident with asthma and sleep apnea, I am at increased risk, and the odors occasionally entering the apartment are unacceptable. The noise, as well as the apartment complex's lackadaisical attempts to solve this issue, have disrupted our work, sleep, and basic ability to enjoy our home. Despite repeated communication, including phone calls, emails, in person visits to the management office, and conversations with maintenance and property management, no effective action has been taken. Instead, my husband and I have received only greater inconvenience as management conducts experiments that are more aimed at saving money than arriving at a solution. At this point, we are unable to use our second bedroom, our primary bedroom closet, and our balcony. Our apartment is further in disarray because our belongings that were in our closet and our balcony furniture have to be stored in	Follow Up	04/17/2026

other parts of the apartment, further reducing our usable space.

We want nothing more than to enjoy our home at Kaiser Park, and these issues have persisted for far too long, and there is no end in sight. We are happy to attach photos and videos for your reference.

Best,
Kameice Francis
Phone Number: (215) 397-7007 or (267) 276-3850

Kameice Francis:

If the last time these issues were reported to management through their requested reporting system was June 18, 2025, we would ask that you resubmit the complaint and allow them time to address it. Once you do that, if they have not responded to your concerns in a reasonable amount of time, you may reach back out to us for assistance. A video and photo would be helpful at that time to help us understand the issues and we would want a screen shot of your workorder ticket. At that time, we will ask you what action they have taken if any. If we have misunderstood and you have recently reported it, please provide a copy of that work order request.

We have to completely understand the issues to know if it is something we can address under the code. As we understand the issue, you must live on the top floor, and you suspect that there are animals living in the attic area above your balcony? You also have a dark liquid leaking into your balcony space as we understand your concerns. You are unable to use certain rooms because of odor from attic as we understand it.
RENTAL HOUSING INSPECTIONS

Good afternoon,
Thanks much for your prompt response. We have resubmitted the complaints multiple times since June 18, 2025. Pest control and leaking complaints were submitted on May 20, 2025, June 18, 2025, July 17, 2025, January 16, 2026, and March 6, 2026.

			We live on the top floor of the apartment complex. We are unable to use certain areas because of the leaking (balcony) and the apartment complex's current attempts to address the pest issue by setting traps in the attic. The attic can only be accessed via our primary bedroom

CRH260290	6820 GUEST CALL	38	Belmont Station Apts., RH07000677 (Main) - 6820 Guest Call Unit 443 – No HVACBelmont Station Apts., RH07000677 (Main) - 6820 Guest Call Unit 443 – No HVAC I live at Belmont Station and submitted a maintenance request through the resident portal on 7 March. After submitting the request, I waited four days before calling the community center to express my concerns about the AC unit. I was told that parts were being ordered and that I would be contacted once they arrived. Based on my experience last year, I expected the process to take some time. However, after hearing nothing, I called again on 12 March for an update and received the same response—that the parts would take a while to arrive. When the parts finally came in, the community center informed me that they had only received freon. I explained to the maintenance technician that freon had not resolved the issue in the past because the lines continued to freeze. Although after providing him this information from the prior year, he expressed that he would order a replacement part for the fan, as that appeared to be the underlying issue. By the time the technician visited, nearly three weeks had passed since my original request on 7 March, placing the visit around 1 April. As of today, 9 April, I have still not received any updates. In total, I have called and expressed my concerns 24 times. Please let me know if anything can be done. Although the weather has fluctuated, the warmer days have made my apartment feel uninhabitable, and I am concerned about the upcoming summer temperatures. Very Respectfully, Shauvnta	Follow Up	04/13/2026

CRH260299	9620 BARREL HOUSE RD	50	The Seasons Apts. T00006543 – Building 9620 Barrel House Rd. - No hot water since 4/10/26	Follow Up	04/24/2026

Two complainants

Good morning,

Thanks again for taking my message today. I will forward my emails and call records if you'd like. But just as a quick rundown, as of Friday, April 10, residents at The Seasons (Laurel) building 9620 have had no hot water. The leasing office sent an email notifying residents that water might be affected, but that was all. No word over the weekend. As of Monday, another resident from outbuilding went to the leasing office, was given no answer and told to leave. However, during that meeting, they told him that this was the first time they were hearing of the problem. When pushed further, they said they knocked on doors to notify residents. Both are a lie, as emergency work orders were submitted by residents all weekend, all of which were subsequently cancelled.

I sent an email to both the larger corporation, GoldDoller, to which I received no reply. I then attempted to call, but was subsequently sent to voicemail. I left a message and received no call back. I then sent an email to leasing, specifically Christina Hall, and received no reply.

Yesterday, I went down to the office. I asked to record our conversation, to which they refused. Here, I was sent to Latoya (I cannot find the last name but I believe it is close to Alexander? I cannot find it online either), who right at the start, said if I wasn't an attorney, to leave. When I began to say (1) this is wrong, (2) residents want more direct answers, and (3) will there be some sort of reimbursement, I was told that the cops would be called. When I told Latoya that she is in fact worse than the previous manager and does not care about how residents are affected, she said 'I take that as a compliment.'

According to Maryland records, 7 days is considered a violation and negligence. I assume this is why they have rushed this afternoon to now put in a 'temporary water heater'. Now six days later, we are being told it will take 5-8 business days to come in and that we

should 'take short showers in the meantime.' We were told the twmporary one would be in yesterday- O still only have cold water. At this point, beyond being a massive inconvenience, the way I, and other residents, have been treated by management deserves to be escalated to the news, as they don't believe there will be any repercussions nor will there be any abatement. I will reach out to my neighbor this this afternoon when he gets home from work to get his unanswered communications records as well.

Thanks again for following this long winded email. It's much appreciated!

Best,
Alexis Lawson
609-382-2388

Good morning,

I'm reaching out today to file a complaint about 9620 Barrel House Road, a multi-family structure a part of The Season Apartments complex.

Friday, April 11, property management was notified that 9620 had no hot water by a resident. Maintenance was notified by my partner Saturday, April 12 and maintenance notified us that the water heater was unrepairable and needed to be replaced.

Monday, April 13, management sent out a general notice stating that any maintenance requests that needed to be handled by a contractor would be cancelled and the requests forwarded to the appropriate contractors. All maintenance requests regarding the hot water heater were cancelled, but no follow-up instructions were provided at that time.

Wednesday, April 15, management sent out a notice stating that a temporary water heater was in place with a replacement water heater en route. The replacement would be installed in 5-8 business days. At this time, my second-floor apartment still has no hot water and I am boiling several gallons of water to bathe and wash dishes.

My concern is twofold: the risk of mold and bacterial growth in the domestic water supply due to the lack of hot water

CRH260313	5814 STEVENS FOREST RD	36	Aspen Lake Trail Apartments T00006542 – Building 5814 Stevens Forest Rd. – Sewerage backup	Follow Up	07/07/2026

Sir
On April 19, 2026, at approximately 1258 hours, E91 was dispatched to 5814 Stevens Forest Road for a reported sewer leak. While enroute, we were advised by dispatch that County Utilities had previously responded but were unable to take action, as the issue falls within a private apartment complex. Dispatch also confirmed that maintenance personnel had been contacted but were reportedly unwilling to address the situation.
Upon arrival, we observed sewage accumulation on the terrace level hallway floor. A resident informed us that the condition appears to worsen when toilets are flushed and indicated that the sewage had previously reached a depth of approximately one inch. Due to the presence of wastewater, we were unable to safely access the maintenance room for further assessment. Our response was limited to evaluating potential hazards. At the time of our inspection, the depth of the sewage did not pose an immediate safety risk requiring emergency intervention. However, the situation presents a clear sanitation concern with the potential to escalate if not promptly addressed.
Prior to clearing the scene, I requested that the Health Department be notified. Dispatch advised that they were unable to respond due to the occupancy classification of the building.
This property has a documented history of maintenance-related concerns and delayed response to ongoing issues. Given the current conditions and the potential impact on residents, I am requesting assistance in ensuring that appropriate corrective action is taken as soon as possible to prevent further issues.
Please feel free to contact me if additional information is needed.

Lt Jason Shanley
Engine Company 9
410-313-7309

Brenda:

I received a call from HCPD Battalion Chief Michael Stout yesterday about 1:30 pm. He was calling on behalf of his engine crew out of the Tamar Drive Station #9. They had responded to the address indicated above about a half hour earlier, and found the conditions indicated below. I'm concerned about the comment "maintenance personnel had been contacted but were reportedly unwilling to address the situation."

Please have someone investigate and see what's going on.

I don't know if this is a Howard County Housing Commission property or not, but I'm CC'ing Kelly Cimino for her situational awareness. I'm also CC'ing Mike Davis in Health to see if he can provide some clarification on the dispatcher's relayed response from Health.

Thanks,

Bob

CRH260355	5462 HARPERS FARM RD	29	Cedar Place Apts, T00006172 – Tenant reports dips in floors (tripping hazard) and structural concerns This email is being submitted to formally report potentially unsafe and uninhabitable living conditions at Unit C1, 5462 Harpers Farm, currently occupied by tenant Khadir Muhammad, with a lease start date of March 30, 2026. Upon move-in, the unit was found to have significant and concerning defects that directly impact habitability and safe occupancy. The most serious issue involves the flooring throughout the living room, kitchen, and dining areas, which is visibly and	Follow Up	05/18/2026

substantially uneven. There are noticeable depressions, dips, and irregular surface variations measuring approximately one inch or more in multiple areas of the unit. These conditions are not minor or cosmetic in nature and present clear safety hazards, including trip and fall risks, as well as concerns regarding the overall structural integrity and proper maintenance of the property.

The unit was presented and accepted as move-in ready despite these conditions. However, due to the severity of the flooring issues, I have been unable to fully occupy, unpack, or furnish the residence. These ongoing safety concerns have materially impacted my ability to reasonably and safely utilize the home as intended.

These issues were documented on the move-in inspection form provided by the leasing office. In addition, I have sent two prior written notifications since the move-in date and have also spoken directly with the property manager, Ashaad Holley, regarding these concerns. Despite these efforts, I have not received any response, update, or proposed resolution to date.

Given the seriousness of the reported conditions, the lack of response, and the continued impact on safe occupancy, I am respectfully requesting an immediate inspection by the Department of Inspections, Licenses, and Permits to assess compliance with applicable housing, safety, and habitability standards.

At this time, the requested resolution includes either full professional repair of the flooring to a safe and acceptable standard or relocation to a comparable unit that is safe, structurally sound, and properly maintained. Additionally, I am requesting consideration of lease termination without penalty should these conditions not be promptly and adequately addressed.

This matter is being escalated due to the severity of the conditions, the lack of response from property management, and the potential violation of basic housing safety and habitability requirements.

Please feel free to contact me with any questions or for further clarification.

Contact Information:
Khadir Muhammad
Email: Khadirmuhammad603@gmail.com

Phone: 443-694-3305

Khadir Muhammad:

What is the most recent date you reported the flooring issue through the complexes required reporting system? Can you provide a copy of the workorder request last submitted. What action have they taken if any? Can you provide a photo of the flooring concern? If there is a tripping hazard, we could cite that.

Regarding your desire to relocate and terminate the lease without penalty, you would need to discuss that with the Office of Consumer Protection (410-313-6420) as they have jurisdiction over matters relating to your lease, security deposit, charges, etc. Their website and information is as follows: https://www.howardcountymd.gov/consumer-protection

We await more information.

RENTAL HOUSING INSPECTIONS

The most recent date I requested an update via email was April 20th. I was instructed by the property manager to submit my concerns by email, and I have done so twice this month, once on April 14th and again on April 20th. Prior to that, I initially reported the issue in April on the move-in inspection sheet, for which I have a copy and have attached it along with supporting photos. I have also spoken with maintenance when they entered the unit for another issue. SEE ATTACHMENTS

CRH260356	5446 HARPERS FARM RD	29	Cedar Place Apts. T00006172 - 5446 Harper's Farm Rd. A3 – Unrepaired water damage leading to mold conditions, toilet running continuously, tenant reports water coming through light fixture, bathtub in disrepair I am writing to formally document an ongoing maintenance issue in my apartment that has not been properly addressed despite multiple requests.	Follow Up	07/08/2026

My bathroom ceiling has been leaking, and water is coming through directly into the bathtub area. In addition, the bathroom light has been flickering, which raises serious concerns about a potential electrical hazard due to water exposure. There is also visible black mold forming around the ceiling and affected areas, which is a health concern.

I have contacted maintenance numerous times regarding these issues. Each time, I was told someone would return to fix the problem, but no one has come back and the situation remains unresolved. The leak continues, the light is still flickering, and the mold appears to be getting worse.

This is now an urgent matter involving potential water damage, electrical safety, and possible health risks. I am requesting immediate repair of the leak, inspection of the electrical fixture, and proper mold remediation. Please provide a clear timeline for when this will be resolved.

If this issue cannot be addressed promptly, I will need to explore further steps to ensure the apartment is safe and habitable.

Please confirm receipt of this complaint and advise when maintenance will complete the repairs.

Please see attached video.

I will also be providing another video showing that if maintenance had properly addressed another issue (toilet bubbling), my neighbor’s apartment would not have flooded.

CRH260357	3311 OAK WEST DR	25	Regency Crest Apts. RH11000161 - 3311 Oak West Drive, Apt. 304 – Unrepaired water damage since January 2026 As requested, I am providing detailed events of my current living conditions at the subject senior complex, which has caused undue stress for my daughter and I who reside in unit 304, a two-bedroom, two-bathroom apartment. On January 21, 2026, upon arriving at our apartment building, I observed two fire trucks(from the Ellicott City fire department) on the premises—one positioned on the Rogers Avenue side and the other in the parking lot. My daughter and I had just returned from her cataract surgery. The fire alarm was sounding, and we were unaware of the situation. I immediately contacted a neighbor, who informed me that a pipe had burst in the attic, causing significant water damage to apartments along my daughter's bedroom line, from the attic downward. I was told those units had been condemned. Due to the loud alarms, our neighbor brought our dog downstairs, as the noise was distressing him. Meanwhile, my daughter went upstairs to our apartment to rest despite the ongoing alarm. When she entered her bedroom to use the bathroom, she noticed water on the floor and immediately called me upstairs. Upon entering the apartment, I observed that her bedroom carpet was wet, there was standing water on the bathroom floor, and water had spread to the entrance of her closet. Looking upward, I also saw signs of water intrusion on the ceiling. Additionally, the carpet outside the bathroom, extending toward the freezer area, was completely soaked. It is important to note that on October 23, 2025, I had already paid $577.94 to have new carpeting installed from the living room into the kitchen area. As a result of the flooding, my daughter's bedroom and bathroom are no longer usable, forcing her to stay in my bedroom and use my bathroom. Despite this, I am still paying full rent for space that is uninhabitable. I am 83, and my daughter, who is 59 and living with Multiple Sclerosis, is on new	Follow Up	08/11/2026

medication, and this disruption—combined with the inability to use her own room—has caused her considerable stress-- on top of my stress.
Management was notified and inspected the damage. ServPro was subsequently sent to our unit, where they placed industrial fans and removed sections of baseboards, carpeting, and padding to allow for drying. The fans remained in place for approximately one week before being removed. Although some padding was replaced, the material used does not match the original, leaving the flooring uneven. Beyond this, no meaningful repairs have been completed.
Water also infiltrated the bathroom cabinetry under the sink. There is a persistent musty odor in both the bedroom and bathroom, and I'm not sure whether mold is present. The ceiling shows water stains that have not been addressed. These conditions are unsafe for both my daughter and myself. Since this incident, we have both been diagnosed with sinus infections—issues we had not experienced prior to living under these conditions. The air ducts have not been cleaned, and we are continuing to live in an environment affected by water damage and poor air quality.
Despite multiple assurances from both management and corporate representatives, no substantial progress has been made.
We have sent emails to both management and the corporate office, along with photographic documentation, yet the issues remain unresolved.
I am deeply concerned about the health and safety of my daughter and myself, particularly due to ongoing exposure to possible mold and poor air quality.
Additionally, the fire alarm outside my daughter's bedroom was physically removed by maintenance as a means to silence it, raising further safety concerns.
Given the extent of these issues and the inadequate response from corporate and the management office, I am requesting any immediate action

CRH260358	6135 WATERLOO RD	37	RH25000530 – Alleged overcrowding per Zoning complaint received (14 persons allegedly occupying home)	Follow Up	05/14/2026

Please see attached for complaint about a rental violation/ too many persons in the property.

Would it be possible to get a DILP inspector to coordinate with me on this so that we can get into the property?

Bobby Jones
Regulation Inspector I | Planning and Zoning
410.313.4348 | bjones@howardcountymd.gov
3430 Court House Drive, Ellicott City, MD 21043 | website

To Whom It May Concern, I am writing to formally report
suspected zoning, occupancy, and short-term rental violations
at the property located at 6135 Waterloo Rd, Ellicott City,
Maryland in Howard County. Based on my observations, this
property appears to be operating in a manner inconsistent with
residential zoning regulations. There are approximately 14
individuals living in the home, consisting of multiple unrelated
groups occupying separate areas of the house. Specifically: • A
group of three individuals (a father and two sons) are residing in
the basement. • Four unrelated individuals are occupying
separate rooms on the upper level under what appears to be

long-term rental arrangements. • On the main level, there are
two separate short-term rental groups (Airbnb-style): • One
group of four individuals sharing a room • Another group of
three individuals in a separate room This arrangement appears

			to function as a rooming or boarding house, with multiple independent households rather than a single-family unit. Additionally, the use of multiple short-term rentals within the same property raises concerns about compliance with Howard County's licensing and owner-occupancy requirements. Given the number of occupants and the apparent mix of long-term and short-term rentals, I am concerned that this property may be in violation of: • Occupancy limits for unrelated individuals • Restrictions on rooming/boarding houses in residential zones • Short-term rental licensing and zoning requirements • General housing and safety codes I respectfully request that the appropriate department investigate this property to ensure compliance with all applicable zoning, licensing, and safety regulations. Thank you for your time and attention to this matter SEE ATTACHMENTS

Hi Annil,

I see the balance on your account is $810.22. This is the prorated amount plus utilities. The final utilities will be displayed on your move out statement.

Regarding the work orders:

The smoke detector was replaced.

The laundry doors and towel rack will be inspected at move out inspection.

The freezer bar will be a charged at move out and replaced then.

Please let me know if you need anything further.

Thank you,

Thelma

Hi Annil,

I see the balance on your account is $810.22. This is the prorated amount plus utilities. The final utilities will be displayed on your move out statement.

Regarding the work orders:

The smoke detector was replaced.

The laundry doors and towel rack will be inspected at move out inspection.

The freezer bar will be a charged at move out and replaced then.

Please let me know if you need anything further.

Thank you,

Thelma

Hello DILP,

My Name is Annil Hamilton living in a One Bedroom Apt at Clary's Crossing Apartments on 11329 Little Patuxent Pkwy Apt 316 Columbia, MD 21044 as a Tenant since 2019 and I sent on 3/13/26 a total of 4 Clarys Crossing Work Orders including Work Order #10825884 Living Room Windows and Screens Maintenance Work Orders for Replacing the One Set of Broken Living Room Blinds that broke during cleaning the blinds. Photos attached. Clarys Crossing - Work Order - #10825908 Bathrooms- Walls, Ceiling and Paint for finishing up on a former Work order complaint where my Towel Rack would fall down

each time a Towel was placed on it and Maintenance repaired the Towel Rack by moving the Rack upwards on the wall but Maintenance never repaired the old holes and never Painted the wall. Photos attached. Clarys Crossing - Work Order - 10825909 Laundry Room Doors are very old and the doors doesn't close properly. Photos Attached. Clarys Crossing - Work Order - 10825910 Kitchen Refrigerator Freezer Bar broke and needs to be replaced. Photos attached. On Monday 3/16/26 Maintenance entered my Apartment to take pictures of my 4 Complaints and on the date of 3/18/26 all 4 Maintenance Work Orders were marked Complete but as of today 5/4/26 All 4 Work Order complaints are still Incomplete! Attached is a copy of the email from Clary's Crossing reply to my question for why all 4 Maintenance requests are still Incomplete and the response is No we're not completing the projects and you will get charged for damages upon moving out of the Community on May 14, 2026. These are my 1st entered Maintenance requests through this new Ownership named Capano Residential Management Company and Marking Maintenance Work Orders as Complete that's still Incomplete is unacceptable! Also, on 3/16/26, upon Maintenance taking pictures of my Complaints, Clary's Crossing Maintenance team entered a New Maintenance Work Order for a Unit Wide Smoke Detector on 3/19/26 and sent me a email on 3/20/26 Stating that A Unit Wide Smoke Detector was marked Complete and this is also a lie because I still have the Same Two Smoke Detectors with One Smoke Detector located in my Bedroom and One Smoke Detector located outside my bedroom in the hallway. Pictues Attached. And this is still Incomplete as of Today because No New Smoke Detectors have been added to my Apt unit of 316, And None of the 3/13 Created Maintenance Work have been Completed as of today, concerns. I need all 4 Maintenance Work Orders Complete ASAP per conditions of my Lease as on Time Rent Paying Tenant.

CRH260370	8660 COBBLEFIELD DR	36	Tamar Meadows Apts T00006532 - 8660 Cobblefield Drive Unit 1A – Missing smoke alarm, door will not lock and unrepaired water leak leading to mold conditions. I am the tenant at Unit 1A, 8660 Cobblefield Drive, Columbia MD 21045, Tamar Meadow Apartments, managed by Westminster Pillar Management LLC. I am filing an emergency complaint. As of this morning Tuesday May 5, 2026, my unit is actively flooding. Water is pouring from the bathroom ceiling into the rest of my apartment. There is no bathroom ceiling. There is visible black mold in the bathroom closet ceiling. There is no working smoke alarm in the bedroom. The sliding door latch is broken and does not lock, which creates a safety concern. This leak has been ongoing since early January 2026. Management came once and painted over the ceiling instead of fixing the root cause. The leak returned within days. I have submitted maintenance tickets — Ticket #1188769 closed fraudulently as “Work Completed,” Ticket #1204704, and Ticket #1205050 filed Sunday May 3 describing water near electrical wiring. A contractor came twice this past weekend and the leak has returned worse than before. I called 911 this morning. The fire department came but did not write a report. This unit is uninhabitable. My children with asthma live here and cannot safely remain in this condition. I am requesting an emergency inspection as soon as possible today. CRH260380	8669 COOPERHAWK CT	36	T00011206 8669 Cooperhawk Ct – trash and debris on premises and tall grass.	Follow Up	05/19/2026

This letter serves as a formal complaint against the property owner of 8669 Cooperhawk Ct. Columbia MD 21045, regarding persistent and unaddressed property neglect. This is the fourth formal complaint submitted concerning the ongoing failure of the landlord to maintain the premises in accordance with the Howard County Property Maintenance Code.
Basis for Complaint: Continuous Property Neglect
This specific grievance concerns the consistent lack of lawn care and exterior yard maintenance. As seen in the attached photos, the property is in violation of local ordinances due to:
• Overgrowth: Grass and weeds have exceeded the height limits established by county code, creating an unsightly and unsanitary environment.
• Debris and Upkeep: The general state of the yard indicates a complete abandonment of routine maintenance, which negatively impacts the safety and property values of the surrounding neighborhood.
Request for License Revocation
Despite three previous complaints and subsequent notifications both to the Housing Authority as well as to Long Reach, the landlord has demonstrated a willful disregard for county housing standards and their responsibilities as a licensed rental provider. Under the Howard County Code, a rental license is a privilege contingent upon maintaining the property in a habitable and compliant condition.
Because the previous corrective actions and warnings have failed to produce a permanent remedy, I am formally requesting that the Housing Authority:
1. Conduct an immediate site inspection to document the current violations.
2. Initiate the process to revoke the landlord’s rental license based on the history of continuous and repetitive neglect.
The community should not be forced to bear the burden of a property owner who refuses to meet the minimum standards of local law. I look forward to your prompt response regarding the steps being taken to address this chronic issue.
Sincerely,
Raymond Gabler

CRH260425	5755 TWELVEMONTH CT	36	RH23000321 5755 Twelvemonth Court – Alleged rodent Infestation “rats” in shed on rental property premises where tenants belongings are stored I am submitting a rental housing/property maintenance complaint regarding ongoing rodent activity at my rental property and lack of response from property management regarding pest control	Follow Up	09/23/2026

concerns.

I previously reported to Sylvan Homes Management that I observed mice/rats in the backyard area and personally saw them going into the shed located on the property where my personal belongings and my children's items are stored. I requested pest control services and asked management to address the issue due to the health and safety concerns involved.

Although I sent written notice to management, I have not received any response specifically addressing the pest control concern or advising what action will be taken.

This issue raises concerns regarding sanitation, habitability, and safety at the property. I am requesting assistance and review regarding the landlord/property management's responsibility to address the reported rodent activity.

I can provide copies of prior emails and communications upon request.

Thank you for your time and assistance.

Sincerely,
Fallen Horton
410-292-4981

Fallen Horton:

As we understand your email, the rodents are in a shed on rental property premises and not in your dwelling unit. Is that correct? Is evidence of the infestation visible to the inspector inside the shed?

What date did you report this matter to owner/management? Did they acknowledge? What action if any was taken?

RENTAL HOUSING INSPECTIONS

Hi
I reported this issue back in march and April

Of this year, I was advised this is an issue for the tenant. The shed is in the backyard.

Thank you

CRH260436	10127 NORTH SECOND ST	50	RH07000176 Sleep Inn & Suites – 10127 North Second St., ROOMS 402 & 411 – numerous property maintenance issues, windows don't lock, unrepaired water damage leading to mold conditions, chipped bathtubs, etc. As we walked to the elevator, the entire place reeked from marijuana. We were in a non smoking room and that was all you could smell throughout the entire hotel. The amount of safety hazards in that room was something I have never experienced before. The lock to the window was broken. A toddler could have slid that open and fallen to its death, the microwave had caught on fire previously, it was cleaned and left for the next person to use, the ceiling patch from the roof leaking was not holding, there was mold growth in the bathroom and the tub was sharp and jagged were it was rusted about the overflow that was not secure to the tub. The next Thursday we checked back in to room 402. This room had a sprinkler pipe that had been leaking long enough to have stained the ceiling tile outside the door and had disintegrated the bathroom ceiling and was dripping onto the bathroom floor. This tub was also sharp and jagged and rusted. I sent 4 separate emails to Arsy Hospitality, Inc, which is the management company and they have not bothered to respond in over a month. I was there for my father's funeral with my autistic son. Inoperable fire sprinklers, sharp rusty tubs, unchecked mold growth, leaking roofs, microwaves that were previously damaged and a fire hazard as well as unsecure windows exposing children to a possible fatality is not acceptable for a hotel. I attaching photos below.	Follow Up	09/02/2026

https://www.howardcountymd.gov/consumer-protection/landlord-tenant - Landlord Tenant Information

If you have reported unresolved Property Maintenance concerns, you may file a complaint with this office (see attached instructions). We will need to know the date reported the issue (copy of workorder ticket) and what action they took if any. The inspector must be able to witness the issue to cite it under the code.

Lastly, we are not permitted to click on embedded links and cannot view your google drive documents.

RENTAL HOUSING INSPECTIONS

Good morning Tracy,

I just submitted my complaint and inspection request - #CS0094520

Sincerely,

Ms Steney
470-418-1300
Dear DILP,

We'll work on the termination request if this is sufficient for you to start a review of the habitability issues.

Thanks.
Tracy D. Rezvani, Administrator

Tonyi Steney:

Please respond to the attached email in order for this office to open a case for investigation. In your letter, it was unclear to this office whether or not the listed issues currently remain or are now resolved.

To open a case for investigation, we will need to know the date you reported the property maintenance issues (copy of workorder ticket) and what action they

took if any. The inspector must be able to witness the issue to cite it under the code. Additionally, we are not permitted to open a case for an issue that was not reported allowing them time to address the issue first in a timely manner.

Thank you,
RENTAL HOUSING INSPECTIONS

The ongoing issues are:

Mice infestation. As soon as a few are killed more reappear. On 5/25/2026, I found evidence of a new critter in our unit - see photos.

Smoking: This morning my bathroom was filled with marijuana odor. - as mentioned, I cannot use my CPAP machine until this issue is alleviated. There is a Non-smoking clause in lease. Both office and maintenance continue to state that there is nothing they can do about this.

Random water shut offs: Although the water was turned back on later during the day last week, the latest incident was a week ago.

I sent a copy of all 46 of my maintenance requests via Google Drive.

CRH260460	3378 NORTH CHATHAM RD	24	Chatham Gardens Apts, T00006225 - 3378 N. Chatham Rd , Apt. C – Water leak through bathroom vent; entrance door in disrepair I am submitting a complaint regarding ongoing maintenance issues at Chatham Garden Apartments in Ellicott City, Maryland. For an extended period, I have reported water intrusion and leak-related issues to property management. Despite multiple requests for assistance, the problem has not been properly resolved and continues to worsen. Most recently, water has begun leaking through the bathroom vent in my apartment, raising concerns about potential structural damage, mold growth, and the health and safety of my household. I have communicated these concerns to management and requested a proper inspection and repair of the issue. However, I have not received clear information regarding the cause of the leak, the status of any inspection, or a timeline for repairs. Additionally, after I contacted housing authorities seeking assistance, the property manager expressed dissatisfaction with my decision to seek outside assistance rather than addressing the underlying maintenance concerns. I am concerned that my efforts to obtain help through appropriate channels	Follow Up	07/22/2026

are not being taken seriously and that the ongoing issues remain unresolved.
I am requesting assistance in reviewing this matter and helping ensure that property management fulfills its responsibility to properly inspect, repair, and address these ongoing maintenance issues.
Attached to this complaint are an Authorized Representative Letter, a detailed Complaint Letter, a timeline documenting the history of the maintenance issues and communications with management, copies of maintenance service requests, and photographs showing the condition of the apartment and the ongoing water intrusion. These documents are provided as supporting evidence and demonstrate the extent of the issue, the efforts made to obtain repairs, and the lack of resolution despite multiple reports to property management.
Thank you for your time and consideration. I appreciate any assistance your office can provide and am available to provide additional information if needed.
Sincerely,

To Whom It May Concern,

I am forwarding this complaint and supporting documentation on behalf of my mother after being referred to your office by the Howard County Office of Consumer Protection.

We respectfully request a housing inspection regarding ongoing maintenance issues, water intrusion, possible mold concerns, deteriorating conditions, and building security concerns at the property.

Most recently, water has begun leaking through the bathroom vent, and my mother is concerned about the condition of the bathroom ceiling and her safety while using the bathroom. Due to the ongoing water intrusion, she is afraid that part of the ceiling could become unstable or collapse.

Additionally, the building entrance door has reportedly remained broken for several years despite repeated requests for repair. Multiple service requests have been submitted regarding this issue; however, the requests appear to be canceled before repairs are completed, leaving the building with ongoing security concerns.

CRH260472	9215 TRADERS CROSSING	47	The Seasons Apts T00006543 – 9215 Traders Crossing, Apt J. – HVAC not functioning, 2nd time this year (prior case CRH260196) Good afternoon, how are you? I hope you are doing well. My name is Valentina, from apartment 9215 at Traders Crossing. I am writing to let you know that my air conditioner has broken down again. I submitted two maintenance requests for repairs, but no one has come to fix it. It is soaking the carpet in my bedroom—it was wet. I have already notified you and sent videos and photos. I came to the office today, June 5, 2026, to ask why no one has come yet; an air conditioning issue is an emergency, yet nothing has been done to check the unit, and temperatures are very high.	Follow Up	06/30/2026

I’ve put in several work orders, but they keep getting cancelled and no one ever comes to do anything. The unit is supposed to be replaced—it’s making strange noises. My carpets are wet, and my personal belongings are at risk of getting soaked, yet the apartment management refuses to do anything. When I went to speak with them, they simply told me I have to wait my turn based on the order requests were received. I told them, "I’m sorry, but the air conditioning is an emergency; it’s not something that can wait. I have a child and I need the AC—that’s what I’m paying my rent and utilities for."

On Sun, Mar 15, 2026 at 11:10?AM Valentina Varela <valentiavarela@gmail.com> wrote:
I am attaching photos; this is already the second complaint I have filed. The maintenance team has not come to fix anything, and it is getting colder inside here by the minute. My daughter's health is at risk; we have to wear sweaters inside the house, and I had to buy space heaters because the temperature inside the apartment is so low. I called the emergency maintenance department directly, and all they say is that they don't know how long it will take.

On Sat, Mar 14, 2026 at 10:29?PM Valentina Varela <valentiavarela@gmail.com> wrote:
Good evening. My name is Valentina, and my phone number is 2405849132. On Friday morning, I reported that the air conditioning had broken down; it hadn't been working since Thursday night, and the temperature was stuck at 65 degrees. I waited to see if it would warm up during the night, but the temperature never rose. I have a 3-year-old daughter who gets sick due to cold temperatures. Maintenance personnel came—it seems they changed the filter—and marked the service request as "complete." When I arrived home, the temperature had gone up slightly, but that was only because it had been a bit warmer outside on Friday afternoon. Today, Saturday, I submitted another request for them to come out again—since they claim that a malfunctioning HVAC system constitutes an

			emergency—yet here it is, hours later, and no maintenance staff has arrived. The apartment is currently at 69 degrees; the floors and walls are cold. I never seem to see a real solution; the service requests are always marked as "complete," but the underlying problem persists. These situations are not being treated with the urgency they deserve. My daughter has autism, and these temperature fluctuations are very disruptive to her routine. Furthermore, she has developed a cough—and I can hear congestion in her chest—because we are forced to sleep in the cold, even with extra blankets. It is a very difficult situation for her to endure. I truly hope that you will take this matter seriously.

CRH260484	6100 HONEYCOMB GATE	37	RH16000301 6100 Honeycomb Gate – No HVAC and other alleged maintenance issues Good afternoon. I was told if I have a complaint or am requesting an inspection to send it here. We moved into this property in August 2020. Home owner has Renter's Warehouse managing the property. Whenever issues arise, Renter's Warehouse is called. They send someone who makes recommendations and then the owner says he wants to send "his people to look at it". His people end up either saying it is fine or putting a band-aid on it and not solving the root problems There has been no annual maintenance or preventative maintenance on ANYTHING in this home. I have been having documented issues with the HVAC(heat and air) since January 2021. Our electric bill keeps going up, asthma and breathing issues occurring due to owner refusing to clean vents after 5 years, we freeze in the winter and burn up in the summer. On 5/19/26 the air conditioner had enough and stopped working. It is now 6/9 and still not working and no urgency to get it replaced. The inside temperature was as high as 93 degrees this past weekend. unbearable as the outside temperatures are getting hotter. I had asked for a partial rent refund due to no air (HVAC) for	Follow Up	08/25/2026

almost a month and was told no. I called yesterday 6/8 and told Renter's Warehouse I had called 7 on your side and they later came back after 21 days of no air and said the owner would reimburse up to $150 if we wanted to go get an air conditioner. We are in a 3 level town home. I would be happy to have 1 level that wasn't above 90 degrees but $150 does not even touch that. I spent $313 at Home Depot to try and cool off the master bedroom so we could at least get some sleep without sweating to death. Our lease was up for renewal and the owner offered a $50 increase in an email on 4/22 and 5/19. I have until 5/31/26 to let him know if I want 1 year or multiple years. After I reported the air conditioning stopped working, he sent an email through Renter's Warehouse on 5/26 saying he is raising the rent to $3000 ($250 increase) to offset the repairs. If he would have maintained the home over the past 5 years we wouldn't be in this situation. Can he increase the rent due to repairs when he had already made an offer? Also aside from the air conditioner there are several other things in the home that needs serviced/repairs for my own health and safety. We had an HVAC company come do a few inspection and were told that the air coming from out vents is dangerous and dirty. To this date the owner is refusing to have the vents cleaned. He was forced to clean the dryer vent because the dryer was overheating and he was forced to. He also had to replace the dryer that I had reported smoking and not working properly over several months. I have also been told by the fire department that the smoke alarms and carbon monoxide monitors are not installed properly and some do not work. I found this out when they came because of a gas smell and found that the oven was old and needed replaced as gas was leaking. That's the only reason he replaced the stove because he was forced to. When we moved into this home on day 2 the garage door stopped working. They sent someone to repair it and then sent me a $250 bill. When I called the company to asked why they sent me the bill they stated that the owner called them and told them to put down a reason that would make it our fault so we'd have to pay for it. I fought it and in the end the owner paid for it. I would just like someone to help me make this

home into a safe, clean, proper air/heat home and see if the rent can be increased after an offer had been made and due to negligence on his part for not keeping up with the home. Please, I will be grateful for any assistance or guidance you can give me. My name is Rhea Larry and my phone number is 301-385-7417. Thank you in advance for your time.

CRH260485	3980 COLLEGE AVE	25	RH14000356 3980 College Ave. – Trash must be in approved leakproof containers with close fitting lids. It is alleged that trash cans are damaged allowing trash to spill into neighboring properties. The owner of a rental home at 3992 College Ave, Wayne Lawson, has filed a complaint against 3980 College Ave (also a rental). The complaint is below. Let me know if Rental Housing can assist. I am the homeowner at 3992 College Ave which has an easement that allows for trash collection and postal delivery for several homes of which 3980 College Ave is one. 3980 College Ave has a broken trash receptacle that is spilling trash across the lawns on 3992 College Ave (well beyond the easement) and other adjacent homes. I have previously asked the homeowner at 3980 College Ave to remediate the issue by purchasing a new receptacle for their tenants as the homeowner is an absentee landlord. However, we have had no success in reaching resolution. CRH260486	6259 DEEP EARTH LN	37	RH18000566 6259 Deep Earth – Shower valve in disrepair; owner allegedly refusing to fix I am writing to file an urgent property maintenance and tenant retaliation complaint regarding the registered rental property located at 6259 Deep Earth Ln, Columbia, MD 21045. The landlord/property manager recently issued me a 60-day notice to vacate. Since issuing the notice, he has begun engaging in active tenant retaliation by intentionally withholding essential maintenance to the property's primary utilities. Specifically, the landlord is refusing to properly repair a broken shower valve, which has been non-functional and completely unusable since Friday, June 5th. Instead of hiring a licensed professional, he has clamped a pair of locking vise-grip pliers onto the bare valve stem as a permanent, makeshift fixture, forcing a hazardous and substandard condition for bathing. This is a direct act of retaliation intended to make the living space unlivable. I have attached a photo of this illegal plumbing fixture for your immediate review. Because this involves an intentional denial of functional sanitation facilities and illegal landlord retaliation, I request that a housing inspector investigate this violation as a matter of urgency. Thank you, Tamou Ouoba 443-656-5547	Follow Up	07/27/2026

CRH260492	7005 K	36	RH22000636 7005 Knighthood Ln – Excessive pet waste in yard	Initial Investigation	06/11/2026

To Whom It May Concern,

I am writing to formally report an ongoing issue involving a neighboring resident at 7005 Knighthood Ln Columbia MD 21045 who repeatedly allows their dog to defecate in the yard without properly cleaning up after it.

Over time, the accumulation of pet waste has created a strong and unpleasant odor and has attracted a significant number of flies, creating an unsanitary environment.

This situation has negatively affected the enjoyment of my property and raises concerns regarding public health and sanitation. The odor is noticeable outdoors, and the increase in insects has become a persistent nuisance. Pet owners have a responsibility to properly dispose of animal waste to maintain a clean and healthy living environment for all residents.

I respectfully request that this matter be investigated and that appropriate action be taken to ensure the pet waste is promptly removed and that future occurrences are prevented. I appreciate your attention to this issue and look forward to a timely resolution.

CRH260517	6064 MARSHALEE DR	37	RH09000507 Holiday Inn Express Hotel and Suites, 6064 Marshalee Dr. – Room 327 Sink Stopped Up/ Green Scum on Shower head; Additionally, leaks on the first and second floors towards the right side of the building by the exit doors My phone number is 410.253.8997. The floor leakage was on the first and second floors towards the right side of the building by the exit doors. The hallways and multiple rooms they have wet vacs..as the carpet is wet, exposed ceilings etc. The flood hit the beds as well, etc. In the rooms..they have all the rooms open..you can see it when you walk by each room. Ms. Mitchell My name is Terika Mitchell. My spouse and I stayed at the Holiday Inn in Elkridge, Md recently. Yesterday was a bad leak in the hotel. We did not have any running water and could not shower nor use the bathroom for 8 hours! Also our room 327 bathroom sink was stopped up and they never fixed it. There is green scum and mold in the shower head they never changed it and Im allergic to mold and told them that. I left the hotel Director Kim 3 to 4 emails and several veggies from the front desk and they told me she was there yesterday..and would be there today. Kim never emailed me back on these and other issues, nor contacted me back. Also multiple floors have big blue x's on the hotel room door on the first and second floors, as there is and was a huge leak from the ceiling they have drywall down and ceiling exposed and wiring..and debris that was fallen in the rooms. You guys need to get there today to inspect this place. The hotel is not in order to rent nor livable and they are still bring people in the hotel regardless of the current issues and damages and exposure and water leakages. CRH260521	6061 OTTERBEIN LN	37	The Wexley at 100 Apts (Main RH19000701) – 6061 Otterbein Lane – Entrance door sticks open and does not lock, not working for SEVERAL months	Follow Up	07/20/2026

Good afternoon,
I am a resident of Wexley at 100 apartments in Howard County, Maryland. I am writing to formally escalate a long-standing security issue involving the front entrance door to my apartment building.
The building entrance has frequently remained unlocked and unsecured for an extended period, and this has been an ongoing problem for approximately two years despite repeated reports to management. Most recently, entrance has remained unsecured for about three weeks or longer.
When I moved here, there was security guard on property. Also, the building was represented as having controlled access, I am concerned about the impact this recurring issue has on resident safety and security. The absence of a repair date means residents are being asked to accept an unsecured building entrance for an unknown period.
After removing security, there have been several vandalisms, package theft, vehicle break ins , vehicle theft and lately I noticed an abandoned vehicle on the property. Which raises serious security concerns.
I have reported the problem on multiple occasions and have not seen a permanent resolution. Given the duration of the issue and the lack of a lasting fix, I am requesting that management provide a rent concession or credit reflecting the ongoing failure to maintain a key security feature of the property.
Please advise what interim security measures are being implemented to ensure resident safety. I appreciate your attention to this issue and look forward to your response.
Sincerely,
Nikeisha Melhado
Tel: (917)293-0174

As per my previous emails, I am not confident that this is being properly addressed so I will continue to email corporate to ensure this matter is resolved. I am really disappointed that the safety and comfortability of residents is not your priority as the property manager.
Sent from my iPhone

Good morning, Nikki,

As mentioned in my previous email, the onsite team is the primary point of contact for any site-related matters. I connected with Jason, our Maintenance Supervisor, and he shared a few details to help clarify the situation.

1. The door's magnet requires a moment to fully engage and lock.
2. Individuals have been pulling on the door before it locks, which continues to damage the maglock. Maintenance repairs the door each time this occurs.

We will be posting a sign on the door today as a reminder, but ultimately, the long-term solution depends on proper use of the door.

Please let me know if you have any questions.

Health & Happiness,

Diana Coleman | Community Manager
The Wexley at 100 | 6081 Otterbein Ln | Ellicott City, MD 21043
O 443.445.1950 ||Wexley100mgr@greystar.com | greystar.com

Good morning,

Why is the building door being permanently fixed a priority? What is Greystar's protocol for reoccurring issues on maintenance tickets?

The front door is open again. For your reference, IT ticket dates submitted for the front door: 11/21/2025, 11/12/2025, 10/7/2025, 6/5/2025, 5/21/2025 & 4/9/2025.

While I appreciate the efforts made so far, the building door is always unlocked and this is affecting my comfort, safety, and overall quality of living.

Maintenance has been out multiple times, but the problem continues to recur. This is unacceptable! Despite previous work orders, the issue has not been permanently resolved, and I should not have to repeatedly report the same problem.

Please see attached video and picture of the door.

Hi Diana ,

Thank you for reaching out and sharing your concerns. I want to clarify that my intention in contacting corporate was not to go around you or create any conflict. I did so because I felt the issue needed additional attention, and want to make sure it was properly documented and addressed.

CRH260527	7208 MAIDSTONE PL	43	7208 Maidstone Place – Alleged unlicensed rental	Follow Up	07/28/2026

NEIGHBORS ADVOCATING FOR TENANT EMPOWERMENT (NATE)
On Behalf of Ms. Tanya Newby

Neighbors Advocating for Tenant Empowerment (NATE) respectfully submits this complaint on behalf of Ms. Tanya Newby and requests that the Howard County Department of Inspections, Licenses & Permits investigate whether the property located at 7208 Maidstone Place, Elkridge, Maryland 21075, is being advertised and offered for rent without the required Howard County residential rental license.

Ms. Newby identified the above-referenced property as a potential rental opportunity after viewing an online rental advertisement. To ensure the property was properly licensed before moving forward, NATE conducted a search of the Howard County Citizen Access Portal to verify that the property possessed a valid residential rental license.

Our search did not reveal a current residential rental license for the property. Instead, the only record located was an expired animal license. Based on the information available through the Citizen Access Portal, we were unable to locate any evidence that the property currently holds the residential rental license required to lawfully operate as a residential rental property within Howard County.

Accordingly, we respectfully request that your office investigate and determine:

1. Whether 7208 Maidstone Place, Elkridge, Maryland 21075, currently has a valid Howard County residential rental license.
2. Whether the property is being advertised or offered for rent without the required residential rental license.
3. Whether the property has satisfied all applicable Howard County rental licensing, inspection, and code compliance requirements.
4. If violations are identified, that appropriate enforcement action be taken in accordance with Howard County law.

Enclosed are copies of the online rental advertisement and a screenshot of the Howard County Citizen Access Portal search results for your review.

If this property is exempt from Howard County's residential rental licensing requirements, we respectfully request that your office identify the specific exemption that applies and provide the legal authority supporting that determination.

Thank you for your prompt attention to this matter. We appreciate your investigation and respectfully request written notification of your findings and any enforcement action taken upon completion of your review.

Respectfully submitted,

Diana Lyles
Founder
Neighbors Advocating for Tenant Empowerment (NATE)
On behalf of Ms. Tanya Newby

Attachments:

NATE,

This property does not currently have a Howard County issued Rental License.

Advertising and showing the property is not a violation of the Howard County Code. Tenant occupancy is a violation without licensing.

We will open a case and send the owner a Notice informing them of these requirements.

We'll follow up with a case number and the assigned Inspector will contact you with updates.

I would like to file a complaint on the Brook Apartments Management and Maintenance in Columbia, Md. Due to my family and I are experiencing electrical shock coming from the apartment flooring since May 22,2026 which is a safety concern and hazard. I have called, emailed, placed work orders since May 22 through current date June 12 to management. Attached is a video of me using an electricity reader which reads electrical voltages from 50 to 1000 volts. This video was done in the kitchen while I was standing on a rubber mat and was reading red. I called The Brook Management May 22 and emailed May 29, June 3, June 4 And June 10th. Management replied to my email June 4th that the electrical voltages or Shock isn't consistent in my Video and is not enough evidence of electricity coming from the floors. I responded June 5th and requested an electrician. The electrician arrived June 10th and informed me that there is loose negative grounding. The electrician of Hawkins Electric said he tightened the wires and told me the paneling was really old and needed an inspection. After the electrician left we are still feeling electrical shock through flooring. I emailed landlord same day June 10th and asked him to send the electrician back and have not received a response. I am requesting an emergency inspection, rental housing violation investigation, electrical code inspection, and confirmation whether the property has a valid rental housing license. CRH260559	6545 QUIET HOURS	36	PRESERVE AT CRADLEROCK T00006544	Follow Up	07/24/2026

Hi My name is Elizabeth Yafondo, I live at 6545 quiet Hours Apt 103, Columbia MD 21045. My email address is yawkum@yahoo.com. and my phone number is 4439852840. This complaint is about our apartment complex called preserve at Cradlerock under the management of Mission rock property. I have been living here for the past 9 years now and it was okay till 4 years ago we have been have problems with leaks from the floor above our apartment and when we put in work order it will take like a week or two before the problem will get attention. for months now we have been having issues with water coming from beneath us that is socking in to our dinning room and hallway area. When we complained it took a while for them to schedule a carpet replacement but than we had serious mode build up into the wet carpet. The carpet was replaced and now after 3 weeks the issue has surface and we did put in a work order about a week ago till now no one has come out to address the issue. I have asked this management for a transfer and all i get is promises. The last time they told me they were going to transfer me to building #6525 apt 202 just for them to tell me later that the apartment was rented out but they now have 6553 apt 101 but they still have tenant in it that suppose to move out in the middle of July. At this point am thinking what if the tenants decides to stay than am stuck and my lease don't expire till 12/31/2026. We can not bear to stay here till December stepping in water constantly when walking. I am asking for your office to please intervene on our behalf so we can relocate some where else without penalty or help get us transfer to another apartment. What ever your office can do to help us move out of this licking water saturation will be greatly appreciated. I look forward to hearing from you as soon as possible.

Truly yours
Ms. Yafondo

CRH260565	12146 TRIADELPHIA RD	16	Alleged unlicensed rental advertised for rent online at 12146 Triadelphia Rd.	Follow Up	07/20/2026

My main reason for writing is to make sure no future tenant ends up in the situation I am describing. I am reporting a property that I believe was operated as a rental without a Howard County rental housing license, that has serious safety hazards, and whose owners did not follow Maryland's security deposit law:

12146 Triadelphia Rd, Ellicott City, MD 21042

Licensing: The property was occupied as a leased residence from at least November 2023 through June 2026. To my knowledge, it did not hold a valid Howard County rental housing license during that period. Please verify its licensing status and take appropriate enforcement action if it was rented unlicensed.

Safety and habitability:
- Oil furnace that repeatedly failed. On one occasion the fire department responded, found the home filled with smoke and an electrical odor, shut the furnace down, and advised that it was not safe to occupy until repaired.
- Windows throughout the home that do not open, which the fire department flagged as a life-safety hazard given the lack of any emergency escape in the event of a fire.
- Standing water and recurring mold in the basement.
- A pest infestation tied to an exterior door that was damaged and never properly repaired.
- Extended periods without functioning air conditioning.

Security deposit: The security deposit was not held in a separate escrow account as required by Maryland law. At the end of the tenancy it was first threatened to be withheld, and when it was eventually returned, it did not include the interest required for a deposit held longer than six months.

I understand the deposit issue may fall under the Office of Consumer Protection rather than your office; I am including it so you have a complete picture of how this property was operated. My concern is that the home be inspected, brought into compliance, and

not rented to anyone else in this condition.

Thank you for looking into this.

CRH260569	9615 BARREL HOUSE RD	47	The Seasons Apts T00006543 - 9615 Barrel House Rd., Apt K – No HVAC Ebony McIntosh 9615 Barrel House Rd Apt K Laurel, MD 20723 610-202-2860 I live in the Seasons Apartments. I first put in a work order on 6/6/26 and opened several of them afterwards. They do not communicate with me and just keep closing out the work orders. They provided me with a portable unit, but it is inefficient for a 3-bedroom apartment on the second floor. The lowest my apartment's temperature got was 84 degrees, with it constantly running. I am out on medical leave from work after hospitalization. Being in this hot apartment exacerbates my condition. I went by the office today because no one returns phone calls or emails and they said they expect to have the unit replaced the week of July 13th! We are expecting temperatures in the 100s this week, and this will be a month and a half since I've had proper A/C. _____	Follow Up	07/21/2026

down; dryer allegedly in disrepair

I just wanted to file a formal complaint about out apartment management seemingly brush us off for a major water leak where it has been leaking/dripping over a gallon every day in multiple spots. They have torn apart the kitchen and partial ceiling collapse. The water drips directly into the sink and I have a GF with asthma, two small children and two old dogs. Our dryer has also constantly ripped and ruined our clothes the entire 2 years weve been here they have attempted to fix it tonight. Regarding the leak, They came for 2 hours today and then left being unable to find the root cause. I do not believe that is reasonable, they should have called a second plumber or tried for more than 2 hours after 5 days of an active leak. We have not been offered anything, other than telling my GF shes being unreasonable and venting, and telling me they are trying ad to call renters insurance for now.

Hello thanks for the reply,

June 27 is when it was reported. This was calling them. A plumber then came on June 28 and left after an hour and said it would stop on its own so I made a new request through the internet portal. There has been attempted fixes but neither the management or the plumber has been able to find the root cause or fix anything. The dryer was attempted to be fixed twice over the past year I will have to put in another request after this leak is fixed (if it's fixed). The plumber thought it was condensation which makes no sense since gallons of water are coming down every day. Parts of the ceiling are falling into the sink and insulation as well now. Attached are the work order. and then also current pictures. As for the dryer work order I didn't fill out much description as I told them the problems when they got here. They closed it out and said it's working although it still breaks our clothes.

Thanks,
Zach

CRH260576	9620 BARREL HOUSE RD	47	The Seasons Apts, T00006543 – 9620 Barrel House Rd. Apt. M – Tenant alleges there is unrepaired water damage from prior leak I like to file a complaint on this complex, The Seasons, The Goldoller Community. I've been having ongoing issues with this apartment that I moved into June 1st. The main issue is there is mold in the apartment that I made this complex aware of since June 8th. There was a leak that was coming from the complex above me that made the floors in my kitchen and bathroom leak which is what I believe was the main reason for the mold. Since they "resolved" the leak there have been mushrooms that grew and shown in and around my bathroom on June 11th. I notified them of this the next day and then notified them after the mushrooms started dying that there is now mold. I notified them about the mold June 17th and to this day they still have not resolved the issue after countless emails and times going to the office. It is now at the point that I am relocated for the moment because it's a health hazard as I've been coughing since June 12th and I do not want to have to sleep in a mold infested apartment. I believe that leak has been ongoing for months as mold doesn't just appear it has to fester. I am now in the process of breaking my lease and relocating. This has been very unprofessional, negligent, and just pure disrespect as nothing has been done to fix this. I definitely want this complex investigated as they have multiple complaints besides mine about how negligent and unprofessional they are. Please contact me at (516)-455-0193, my name is Malik Massey.	Follow Up	08/12/2026

CRH260577	5764 STEVENS FOREST RD	36	Aspen Lake Trail, T00006542 – 5764 Stevens Forest Rd., Apt. 907 – No HVAC	Follow Up	09/10/2026

I am emailing you as I understand you are the assigned inspector for Aspen at Lake Trail apartments at 5764 Stevens Forest Rd. I currently have no AC.
I have contacted management by submitting work orders, calling, going to the office in person (they were not present), emailing since June 13th. The problem has existed on and off since 2023. This most recent occurrence has been going on since April 1st 2026. Before this, my heat was out from November 30th, 2026 to the end of February 2026/beginning of March 2026.

I understand temps are supposed to be above 100 this week and I have safety concerns for myself and my finances. I can't cook or temps reach over 90. I have had to buy new food or order out. I have also been unable to sleep. I have gone through twice as much laundry and drining water because of sweating. All of these things are beginning to add up.
I live in building 5764, unit 907.

The work orders are attached.

Maintenance came and looked at my unit the same day and found that they couldn't fix it so they gave me the portables.

I was given 2 portables, one of which creates heat and cold air so I did not continue to use it. The other is in my bedroom attached to my window. It only cools whatever it is pointed at. It is pointed at me during the night. I am still sweating even without a blanket.

Thank you for your assistance.

CRH260580	8953 EARLY APRIL WAY	42	Autumn Columbia Apts, T00006077 - 8953 Early April Way, Apt K – No HVAC Greetings Howard County DILP, My name is Isa Brebbia. I am a resident at the Autumn Columbia apartment complex, located on Early April Way. I am writing to file an emergency habitability complaint regarding a total failure of my air conditioning system and management's refusal to respond to an ongoing health and safety hazard. As of yesterday night and today, my apartment is over	Follow Up	07/06/2026

85°F and entirely uninhabitable, forcing me to find alternative lodging.

Here is the timeline of events and my attempts to contact management:

Night of July 3rd: My air conditioning unit stopped working. I immediately submitted an electronic maintenance request. No technician was assigned.

Early Morning, July 5th: Upon returning home from work, the indoor temperature had climbed to 80°F. I called the emergency maintenance line. The operator stated they would take a message and alert maintenance. No one responded or showed up.

Late Afternoon, July 5th: With the temperature continuing to climb past 80°F, I called the emergency line a second time to report that the unit was uninhabitable. The operator again stated they could only take a message.

Tonight, July 5th: I called the emergency line a third time to demand an update. The operator informed me that maintenance is handled entirely internally by Autumn Columbia, but claimed they could not provide me with a direct phone number, supervisor name, or any timeline for a repair.

Attached are screenshots from my thermostat device over various days, the current display temperature, as well as the maintenance request I put in showing no technician assigned.

Under Maryland Code, Real Property § 8-122, landlords are legally required to maintain cooling systems to keep habitable rooms at 80°F or lower between June 1st and September 30th. Furthermore, under the Howard County Property Maintenance Code, leaving a tenant in 85°F heat without any contact or emergency remedy constitutes a severe code violation.

I intend to go directly to the leasing office first thing tomorrow morning, July 6th, to speak to the property manager in person. I respectfully request that a county housing inspector be assigned to this case immediately to investigate this structural failure and issue the appropriate violations to Autumn Columbia.

I can be reached at any time at 301-943-3961. My apartment is at 8953 Early April Way, apartment K, Colombia, MD 21046.

Thank you for your prompt assistance in this matter.

Sincerely,

Isa Brebbia

CRH260610	9078 TOWN AND COUNTRY BLVD	17	ReNew Howard Crossing Apts. T00006079,80 - 9078 Town and Country Blvd apt F – No HVAC, alleged roach infestation, carpets unsanitary upon move-in I received keys to my apartment (9078 Town and Country Blvd Apt F, Ellicott City, MD 21043) on 7/2. Upon entering the unit the AC was broken at which	Follow Up	08/18/2026

point I contacted the leasing office and said they would send maintenance out. Maintenance was never sent out resulting in me having to call the emergency maintenance line due to the heat wave that caused temperatures to reach 106. Mind you, I have a two year old that was supposed to be living in the apartment with me. The technician came out and said the issue was due to me moving in. However, I had not moved anything in at this point and it was in this condition upon entering the unity. For reference, the thermostat was set to 50 and reading 86 degrees. The following day I called the emergency maintenance line again (leasing office was closed due to July 4th weekend) and they sent a HVAC contractor out who confirmed the AC was in fact broken and wouldn't be repaired for 5 days. This same day, roaches alive and dead began to appear throughout the unit. The unit also had an overwhelming smell of cigarette smoke, stains on the carpet, a broken window, a broken washer and other issues like missing outlet covers and cracked trims. All of these issues combined made the unit unhabitable and I documented this with photos, in writing and over their recorded phone line. My request to terminate the lease and receive all move in monies refunded was denied as well as giving me a new, livable unit was denied. I could not live in the unit for 6 days after being given the keys, leaving me, a single mom, during a heat wave in a desperate and quite frankly traumatizing position. It took 5 days without a response to my numerous emails and phone calls to get a response, which required me going in person on a working day and waiting 45 minutes to speak with someone. I am requesting that this property (ReNew Howard Crossing) terminate my lease without penalty along with all move in monies refunded. I have photos to document all of this as well as emails I sent that I am more than happy to forward to you. Please see this with urgency.

Ariana Tilley (910)-797-0757

The portable unit was provided to me 24hrs after the AC had been out and still was not enough to cool the unit down to a safe temperature (it remained at 85

while being set to 50). The roaches, stained carpet, broken washer and window have not been repaired and aren't scheduled to be till the end of the month. They stated as a "courtesy" they will provide me with a carpet cleaner however the whole unit is not only stained but smells like cigarettes which hasn't been addressed.

RENTAL HOUSING INSPECTIONS

Hello

Thanks for the updated information. I received a notification from the others once the licenses were applied for, and I assumed the same would be received for all of them. I'll be sure to check first.

As for 6602 Waning Moon Way, she's had rental licenses in the past; there appear to be several "renters," so I'm not sure. I know the owner lives in Florida. What proof would I need exactly?

Questions for 6584: can you pass on their contact information? I send letters to both of their properties,

and they don't respond. I don't have an email address or active phone number on file.

Thanks

CRH260614	9120 TUMBLEWEED RUN	47	RH10000605 9120-N Tumbleweed Run – Basement being used for sleeping without proper life safety egress per prior tenant. Basement may have been sublet by another tenant, but owner is responsible. I rented a basement unit at: 9120 Tumbleweed Run, Laurel, MD 20723 Unit N Whiskey bottom condos It actually sits on All Saints rd right past the shopping center. GPS will take you to the back. I was on a website called Roomies. I was contacted by a lady who said her name was Jane Robinson. Her actual name is Gayle Patterson. She rented me a basement whose windows you cant get out of and I didnt realize until after I paid her and moved in that there was no back door either. I also had to buy damp rid because after moving in I noticed a damp smell. I had a horrible experience living with her. She was a user and manipulator. I moved in on June 6th amd moved out July 5th. We didn't do a lease. She initially said we could do one and she initially said I could zelle her then she changed and didnt want to do either. She wanted cash which I agreed to because I had already had a move out date of the 6th where I was currently residing. I just wanted to bring it to your attention. I found out while there that she doesn't own the unit. She is renting. She also stole some items from me and I believe she tried to rent a car in my name. My name is Michella Jackson and my phone number is 443-591-7906	Follow Up	08/21/2026

Subject: Water repair, AC condensation leak, unlivable conditions-8330 Montgomery Run Road Unit B, Ellicott City, MD 21043

This is not a complex. These are condos that are rented out. I am a tenant at 8330 Montgomery Run Road Unit B. I am at the bottom floor. The AC condensation pipe was clogged and it started leaking water all over my kitchen, hallway and living room. I reported it on 6/26/26. The HOA was contacted by landlord on 6/29/26 and they started removing things and opening walls and the ceiling on that same day. I was told the mold on the wood needed to dry out before they continue doing work. When it dried out, they treated it and left all the repair items to finish up in my condo on July 2nd. Today is July 14 and the HOA has not finished. According to the contractor, the HOA is waiting for funding and approval. I do not have access to my kitchen or living room. I cannot clean or do anything because it is all a complete mess with open holes everywhere. I cannot really go to a hotel because I have a large dog. I cannot have my 7-year-old son with me because he is allergic to all the materials and all the dust in the air. Please help with these unlivable conditions.
The HOA is:
American Community Management,
1099 Winterson Rd Ste 200
Linthicum Heights, MD 21090

CRH260637	6017 MAJORS LN	36	RH260000086, 6017-3 Majors Lane – No HVAC, owner allegedly unresponsive	Follow Up	08/27/2026

My name is Steven Hua. I'm writing to formally report an issue with the air conditioning system at my rental unit, 6017 Majors Ln, apt3, columbia, MD21045.
The AC unit has not been cooling the apartment properly. Despite being turned on, the indoor temperature remain uncomfortably warm.
Additionally, because it cannot reach the set temperature which is 70, the unit is running continuously all day long.
I am concerning that this constant running will lead to a very high electricity bill and might cause permanent damage to the machine.
Landlord sent the handyman twice, but unfortunately he was unable to fix the air conditioning issue. I asked landlord again, but she has not responded.
Could you please arrange for a technician to come and inspect the unit as soon as possible?
Best regards,
Steven Hua
4439369279
6017 Majors Ln, apt3, colimbia, md 21045

On may 31, I reported to the owner. She sent handyman to troubleshoot. She asked me to change the filter and I did, but it was still not working. I text her again on June 5, she send handyman again. The third time I asked her she didn't respond. Attached picture of our conversation.

CRH260639	5764 STEVENS FOREST RD	36	Aspen Lake Trail Apts T00006542 – 5764 Stevens Forest Rd., Apt. 809 – Current active water leak that has lead to mold conditions; tenant reports maintenance does not address the leak and it has reoccurred numerous times without a permanent fix or remediation Hello My name is Shawnte Thompson. I am a tenant at Aspen at Lake Trail. I have been experiencing a number of issues with my unit. The one I'm most concerned with at this time is a water leak I've been dealing with since last year. This leak has now resulted in black mold in my bathrooms. Maintenance comes out to address the water leaks by cutting out the wet drywall and replacing it but never addressing the actual leak so it's a temporary fix until the drywall is wet again then the process starts over again. Last week I had to visit urgent because of a nasty cough due to my units condition. Can you please have someone come out to inspect my unit. My Address is 5764 Stevens Forest rd #809 Columbia MD 21045. I have a lot of photos and videos timed and date stamped but unable to attach all of them to this email. Shawnte Thompson Shawnte Thompson: What date was the lake depicted in your video reported to management (provide copy of work order) and what action did they take if any? Please provide your contact phone number. RENTAL HOUSING INSPECTIONS Jun 11, 2026 July 8, 2026 July 10, 2026	Follow Up	09/18/2026

I added some of the work orders along with a video from February of 2026

I've been dealing with this for over a year. I'm going to attach work order. I currently have gaping holes in both bathrooms.

Thank you. Please provide your contact phone number as previously requested.

Sorry about that. My phone number is 240-601-1724

Complaint Summary:
During the heatwave as of 6/17/2026, my HVAC/AC unit went out. I filed a maintenance ticket on 6/18/2026, regarding my HVAC/AC being out and awaited communication about when it might be fixed. Since the ticket was input, I had to follow up with the management (The Brook leasing office) numerous times to inquire about maintenance timeframes and updates. The Brook leasing office personnel reported “there being a large list of maintenance issues and based on where we are on the list is when we will be receiving maintenance assistance”. I acknowledged the report and waited for an update a week later to which I had to follow up again as they did not call or email about any progress. Going into the second heatwave (6/26/2026) I called the Brook leasing office numerous times to discover that they were not answering my phone calls anymore. I had to ask a third party to call on my behalf, to which they answered immediately. The third party was given the same information as I was given the first time around; however, the leasing office personnel discussed notifying maintenance to look at the HVAC unit soon. The next day, the maintenance man came by (as he made me aware of his presence) and after working on the HVAC unit on and off, he was gone. I was not made aware of anything he did to the HVAC unit,

what the issue was, where he was going, and when he would come back. I had the third party contact The Brook leasing office the next day for an update about what had occurred when the maintenance man came by. They reported that I needed a new “Motherboard” and it was ordered the morning of 6/29/2026 and waiting for it to arrive. I waited another week to follow up about the arrival of the Motherboard in-person and had the third party call the Brook leasing office, to which we were told our placement on the maintenance list would be moved to “priority” (as the heatwave heat index would be up to 110 degrees in the coming days). It was also brought to the third party’s attention that the motherboard had arrived at the Brook leasing office; however, when I was in person, the leasing office personnel mentioned I also needed a new thermostat. After acknowledging the reports, I waited another three days and had the third party call to see if any accommodations could be made due to the severe heat index. The leasing office personnel reported “there being a long list of people waiting for their maintenance tickets to be resolved and having to wait based on list placement”. After asking again for accommodations (it had been two weeks since the AC was out), they then stated “they would see if any portable AC units were left and available and if so, that they would provide one to the unit but there was no guarantee”. The third party acknowledged the information. I left my house to buy a portable AC in case one was not available, and upon coming back, I found that the maintenance person had entered my home without giving me notice and installed the portable AC unit to my bedroom (that I currently have today) and nothing afterwards was mentioned about that either. Following this, I received an email regarding The Brook apartment complex being on "Code Red" due to the heat index, that specifically stated the maintenance team was only working on AC units. This email was sent on 7/02/2026 and 7/03/2026, to which nobody worked on my AC unit and I had not received any further communication since then

CRH260656	4650 PALOMINO CT	30	RH24000298 4650 Palomino Ct. – Bathtub has hole in it; reported to owner in May 2026, still not repaired. (Current tenant moving out 7/31/26) Hi, I received this email address from Beth at the Office of Consumer Protection. On May 25 I let my property manager (Marsha Barracato at Home Services Property Management) know via my rental portal that I had noticed a hole in my bathtub. I told them I would stop using the tub immediately and wait for them to schedule a replacement or repair. I followed up with them several times via email to find out the status of the repair. On June 11 the property manager Marsha told me the owner would wait until after we moved out to repair the tub. Our lease ends on July 31. We have not been able to use the tub since May 25. I now understand that their failure to fix my tub constitutes a habitability issue and I would like to get compensation for that. Is that something you can help me with? Thank you. CRH260688	9650 BARREL HOUSE RD	50	The Seasons Apts T00006543 - 9650 and 9630 Barrel House, Unit F complainant, effecting mult. Units to be determined. 9630 emailed 7.27.26 after CRH was open; bldgs adjoined. 9620 Water shut off (connected to 30, 50) On Thursday, July 23, 2026 at approximately 1051, it was noted raw sewage was coming out of the storage room adjacent to the patio, walkway, and dining room of my apartment at 9650 Barrel House Road Apartment F, Laurel MD 20723. I contacted the landlord regarding this problem via their email function for reporting maintenance requests. The landlord sent out maintenance workers to clear out the pipes and an outside plumbing contractor to work on the problem until about 1700 on Thursday, July 23rd with the understanding to return the next day, Friday, July 24th to clean up the debris of toilet paper and raw sewage water left on the patio, walkway, grass, and in my dining area. I noted the next day, Friday, July 24th, the problems still persisted. When the toilet was flushed, the raw sewage still ran out of the pipe into my dining area, patio, walkway, into the grass and was still creating a puddle of raw sewage water in front of my home. The smell is unbearable and the disease potential is extremely high. All day, I have tried to contact the maintenance department to come and finish the repairs of this problem and to clean up the mess of toilet paper and other solid sewage left outside. Our building has been without hot water since	Follow Up	08/21/2026

Thursday, July 23, 2026, and as of today, July 30, 2026, the issue remains unresolved.
Although management has sent residents an email apologizing for the inconvenience, they have not provided:
• A reasonable explanation for the cause of the outage.
• A timeline for restoration of hot water service.
• Meaningful updates regarding repair progress.
• Any alternative accommodations or remedies while this essential service remains unavailable.
This is especially concerning because this is not an isolated incident. Approximately six weeks ago, residents experienced another prolonged hot water outage.
During this current outage, residents have been without an essential utility for approximately one week. In my particular situation, I have also been recovering from pneumonia, making access to hot water especially important during my recovery.
I respectfully request that your office investigate this matter and determine whether the property is in compliance with applicable Howard County housing and property maintenance requirements regarding the provision of hot water.
For your reference, I have attached the most recent communication from property management regarding this outage.
Thank you for your time and consideration. I appreciate any assistance your office can provide.
Sincerely,
Angelique Moore

alleged unremediated sewer backup

I am writing to formally report severe uncorrected habitability issues and potential Property Maintenance Code violations at the residential property listed above, which I currently rent.

I signed a lease for the property mentioned above on the 17th of July 2026. Since than I have had sewer water flooding the unit 2 times. The AC has not been working; there is a strong smell of mold in the unit.

Now I am staying in a hotel with my wife and a 3-year-old son for the safety and health concerns.

The management have refused to send me a proper documentation of the remediation done.

I reported the issue to the management issue, and the level of response has not been satisfactory me.

These conditions violate the minimum livability standards required under Howard County rental regulations.

I respectfully request that an inspector from your department contact me to schedule an inspection of the premises and issue the appropriate violation notices to compel the property owner to make the necessary repairs.

Thank you for your prompt assistance with this urgent matter.

Festus Nyanjage:

What date were these issues reported to owner/management and what action did they take, if any? Is the sewer backup currently visible to the inspector? Is AC functioning at all?

RENTAL HOUSING INSPECTIONS

The AC issue was reported on the 17th July the same day we signed the lease.
As per the sewer they came and cleaned and not even a humidifier was set in the house this was reported on the 25th of July 2026
I went back to check yesterday there is still strong smell of mold in the house. Mold issue was reported on the 19th of July 2026.
They haven't address the smell issue just saying it shall go away.
My 3 year old is my only kid I want to raise him in a healthy environment.

Respectfully,

Festus Nyanjage

CRH260719	10451 HICKORY RIDGE RD	35	The Bluffs at Hawthorne Apts T00006075 - 10451 Hickory Ridge Road Apt I – Vents not clean and sanitary; check HVAC unit filter I am submitting a formal housing habitability and environmental health complaint against my landlord/property management company, Hendersen-Webb, Inc., regarding unsafe living conditions and their refusal to address an active health hazard. Our apartment HVAC vents have significant mold contamination that is blowing directly into our living area. Despite reporting this hazard, Hendersen-Webb management has refused to send maintenance on a weekend, claiming that active mold growth blowing through an HVAC system does not constitute an "emergency." This unaddressed contamination is posing a direct, severe risk to my six-month-old infant, who is actively showing acute symptoms of mold exposure, including: • Continuous congestion and stuffy nose that will not clear • Frequent coughing and noisy, rapid	Initial Investigation	08/04/2026

breathing/wheezing(especially while sleeping)
• Red, watery, and itchy eyes
• Unexplained skin rashes and hives
• Extreme irritability and difficulty sleeping due to breathing discomfort
Forcing a family with an infant to remain in a home with contaminated airflow without prompt remediation violates basic standards of housing habitability and safety.
I request an immediate inspection of the premises by county housing and health officials, as well as formal intervention to compel Hendersen-Webb, Inc. to inspect, sanitize, and repair the HVAC and duct system immediately.

CRH260722	10101 TWIN RIVERS RD	36	Versa South Apts RH17000277 - 10101 Twin Rivers Rd APT 555 – Rodent infestation (exclude and treat) I respectfully submit this formal complaint requesting that Howard County inspect my apartment for ongoing habitability violations resulting from a persistent rodent infestation and related sanitation concerns. I have been a lawful tenant at Versa Apartments fka mFlats since September 2025. Despite repeated maintenance requests, multiple pest control treatments, and ongoing communications with property management, the infestation has continued for several months and, in my opinion, has progressively worsened. The conditions have substantially affected my health, safety, mental health, the well-being of my emotional support dog, my use and enjoyment of my home, and my overall quality of life. Although maintenance personnel and Orkin have responded to many of my requests, the underlying source of the infestation has not been identified or permanently corrected. I am now requesting Howard County's assistance because my repeated efforts to resolve this issue through property management have not resulted in a permanent solution. History of the Infestation Beginning on approximately February 13, 2026, I began reporting evidence of mice within my apartment. Since that time, maintenance personnel have responded to numerous service requests by placing traps and coordinating visits with Orkin. While I appreciate the responsiveness and professionalism of the maintenance staff, the rodent activity has continued despite these repeated efforts. SEE ATTACHMENTS	Follow Up	09/15/2026

CRH260729	7432 SAINT MARGARETS BLVD	38	I am writing on behalf of the Exeter Park II Condominium Association to formally report an ongoing rental housing complaint regarding the property located at 7432, Unit B, Saint Margarets Blvd., Hanover, MD. Despite numerous efforts by the Association to resolve this matter, the owner has failed to take	Follow Up	08/10/2026

appropriate action to address repeated violations caused by the occupants of the unit. The tenants consistently leave cigarette butts, trash, discarded personal items, and other debris in the common areas of the building, creating an unsightly environment and negatively impacting neighboring residents. Photographs documenting these conditions are attached for your review.

This is not an isolated incident. The Association has repeatedly issued violation notices to the property owner regarding these ongoing maintenance and nuisance issues. Unfortunately, the owner has not provided the Association with any telephone number or email address, leaving us with no means of communication other than mailing notices. To date, these efforts have not resulted in any meaningful corrective action.

The continued accumulation of litter and refuse in common areas presents a health, safety, and potential biohazard concern for residents and visitors. It also adversely affects the quality of life within the community and raises concerns regarding compliance with applicable rental housing and property maintenance requirements.

Given the owner's lack of responsiveness and the ongoing nature of these violations, we respectfully request that the County investigate this matter and take any appropriate enforcement action available to ensure the owner addresses the conditions and fulfills their responsibilities as a rental property owner.

Please acknowledge this email, and let us know if additional information, documentation, or photographs are needed to support this complaint. We appreciate your prompt attention to this matter and look forward to your assistance in helping bring this issue to a resolution.

Sincerely,

Juoaquina Washington, Portfolio Community Manger

CRH260731	9155 BOURBON ST	47	The Seasons Apts T00006543 - 9155 Bourbon street Apt A -No HVAC (portable provided and ticket close) Central AC still not working I am submitting this complaint regarding my apartment community's failure to properly repair the air conditioning in my rental unit. The central air conditioning in my apartment has not been functioning properly for approximately for two months. Although I reported the issue to management shortly after it began, they have not completed the necessary repairs despite the length of time that has passed. Instead, they provided a single portable air conditioning unit for one area of the apartment and marked the maintenance request as "resolved," even though the central AC still does not work. The portable unit does not adequately cool the entire apartment. The bedrooms remain extremely hot, making it difficult to sleep and comfortably occupy the unit. Management has also failed to provide any meaningful updates regarding when the central air conditioning will be repaired or what steps are being taken to resolve the issue. In addition, because I have had to rely on the portable air conditioner for nearly two months, my electricity usage has increased substantially. My upcoming BGE bill is nearly $300, which is significantly higher than normal and is a direct result of using the portable unit due to the unresolved central AC issue. I have made multiple attempts to have this issue addressed, but the problem remains unresolved. This has now been an ongoing issue for approximately two months, and I am concerned about the lack of communication and the continued failure to restore a basic service that is essential for the safe and comfortable use of my home. I respectfully request that Howard County investigate this matter and assist in ensuring that the property	Follow Up	08/27/2026

complies with its obligations to maintain the rental unit in a safe and habitable condition. I also request that the County consider whether I may be entitled to any appropriate relief due to the prolonged lack of a functioning central air conditioning system and the additional electricity costs I have incurred.
Thank you for your time and consideration. I am happy to provide copies of my maintenance requests, photographs, correspondence with management, and my recent BGE bill if needed.
Sincerely,
Anum Akhtar
Cell -240-353-9569

I have been communicating about the issue since June 12th. I formally wrote management on July 17th, and no one bothered to respond. I have been texting maintenance since Friday July 31, they said they would escalate my urgent request and get back to me on the next business day. I have reached out three times since, no response. I have included the screenshot. I also physically went into the office yesterday because they do not answer the phones or call back if you leave a message. She rushed hearing my complaint and just took my apartment number down. No follow up.

On Tuesday, August 4, 2026 at 03:03:03 PM EDT, rentalhousing <rentalhousing@howardcountymd.gov> wrote:

Mr. Akhtar,

We will need the date of the last communications between you and management and preferably a copy of the service request.

If you have not spoken with management within the last 7-10 days, we will need to resubmit your service request and save the screenshot. If they do not respond, and you can provide that information, then we could open a case and issue a 15-day Notice to correct.

RENTAL HOUSING CODE ENFORCEMENT

Thank you.
We have the area Inspector looking into this and based on his findings and communication with management, (as they may be scheduling to address the issue tomorrow), we will open a case and follow up with you either way.

CRH260742	10340 SWIFT STREAM PL	36	10X Living at Columbia Town Center (T00009501 Main) – 10340 Swift Stream Pl, Apt 307 – No HVAC (central) for 12 weeks (Portable was provided) In early May, my AC unit began making unusual noises and was not cooling properly. Even when I set the thermostat to 67°F, the apartment often would not cool below 70–72°F. On May 18, I submitted a maintenance request asking for the AC filter to be changed and for the AC unit to be inspected. Despite that request, I had to follow up in person and submit multiple additional maintenance requests before the unit was actually checked and the filter was changed which was on June 16. On June 18, after further complaints, a portable AC unit was placed in my bedroom because I reported that my apartment had reached 81°F at midnight. Since then, all they've done is take "measurements" and I have repeatedly been told that the vendor has not been able to obtain parts. It is now August 8, meaning this issue has continued for almost 12 weeks. During that time, I have not had operational AC throughout my apartment during the summertime. The portable AC unit only addresses one room and does not resolve the lack of functional cooling throughout the leased apartment which often times is 78-80 degrees. I have reported it through the maintenance portal several times, emailed several times, called, and gone in person.	Follow Up	09/09/2026

Please describe any evidence you have related to this complaint, such as photographs, work orders, receipts, documents, or other supporting materials. If you have evidence to submit, we will email you with instructions on how to provide it after you submit this form.

I can provide screenshots of the five separate work orders I submitted requesting inspection and repair of the AC unit. I can also provide copies of emails sent to leasing agents, property management, and maintenance personnel regarding the unresolved AC issue. Additionally, I can provide a written timeline documenting the times I went to the leasing office in person, called the office, and contacted the maintenance line. I can also provide photos showing indoor temperature readings, including instances where the apartment reached approximately 80°F.

CRH260779	3614 COURT HOUSE DR	25	Howard County Rental Property Maintenance Complaint	Follow Up	09/28/2026

The air conditioning system repeatedly trips the breaker. This causes heat and humidity to rise inside the apartment. Because of this issue, mold is beginning to grow on the walls and on our furniture. When it rains, there is also water dripping inside from above the patio door. We have tried contacting the property, but they do not respond to our texts or return our phone calls. We have submitted maintenance requests and they said they would fix it immediately and did not. We have tried visiting their office but they have not been available.

On 7/20/26 an electrician was sent to replace the breaker. On 7/23/26 the AC unit was replaced. After both replacements the AC system still trips the breaker. The property has said they were looking for more options, but nothing more has been done.

I can supply photographs, maintenance requests, and text conversations.

CRH260790	5511 WATERLOO RD	31	Ellicott Gardens II Apts. RH23000263 – 5511 Waterloo Rd., Apt. 213 – Unrepaired water damage and persistent reoccurring leak	Follow Up	09/29/2026

I have experienced recurring water intrusion from the unit above mine since July 27, 2025. Water has repeatedly entered my apartment through the same kitchen ceiling/light fixture above my kitchen island. The issue has resulted in water damage to my apartment and personal property. On June 9, 2026, my apartment was flooded after water from the upstairs unit entered through the ceiling, damaging flooring, belongings, and items stored in my home. I continue to experience a persistent odor consistent with wet/old wood. On August 18, 2026, the same area leaked again, resulting in water accumulating on my kitchen countertop, floor, and nearby furniture and exposing my printer and other property to water. The recurring nature of the leaks and the fact that they are continuing through the same ceiling/light fixture present an ongoing concern for property damage, the condition of the ceiling, and potential electrical and structural hazards.

On July 27, 2025, maintenance responded to water leaking through the same kitchen light fixture from the upstairs unit. The upstairs tenant's dishwasher was identified as the source, and maintenance disconnected the dishwasher and took steps to stop the water from entering my apartment. On June 9, 2026, maintenance responded again after water from the upstairs unit flooded my apartment. The upstairs water was shut off, and a water-remediation company was brought in to dry the affected areas. The drying process was completed on June 21, 2026. I was then advised that my property's maintenance department was responsible for completing the permanent ceiling repairs. Those repairs were never completed. I personally followed up with the maintenance technician regarding the unfinished ceiling. I was told that the repairs would be completed the following week because maintenance was waiting for materials. No repairs were subsequently completed, and I received no further follow-up. When I raised the issue again on August 18, 2026, the maintenance technician confirmed that she had previously told me the repairs would be completed but did not provide an explanation for why the ceiling remains unrepaired. On August 18, 2026, the same kitchen light fixture/ceiling area leaked again. I contacted

emergency maintenance, and I was informed that the upstairs tenant's dishwasher was broken and had previously been instructed not to use it, yet it was reportedly used again. Although maintenance has responded to individual incidents, the underlying water-intrusion problem has not been permanently corrected. The same area has experienced repeated water intrusion since July 2025, and the ceiling repairs promised after the June 2026 flooding remain incomplete.

CRH260799	5764 STEVENS FOREST RD	36	Aspen Lake Trail T00006542– 5764 Stevens Forest Rd., Apt. 420 – Inspect unit for IMPC violations. Tenant alleges an odor in unit. I am writing to request an inspection of my apartment in Columbia, Maryland, (full address with my signature below) due to a persistent unexplained odor present since shortly after I moved into the unit on 6/30/2026. I have reported this problem to my property management company, ROSS Management Services, multiple times. After repeated complaints, management recently sent a team that wiped down the walls with a cleaning solution and placed an air-filtration unit in the apartment for approximately 24 hours. The odor improved temporarily but returned within about two days. At this point, neither management nor I know the source of the odor. I am concerned that there may be an underlying issue involving moisture, mold, HVAC/ventilation, plumbing or sewer gas, building materials, or another condition that has not yet been identified. I have asked management either to identify and permanently correct the problem, transfer me to another apartment, or allow me to terminate my lease without penalty. Before taking further action, however, I would like to have the apartment inspected by Howard County. I would therefore appreciate your assistance with: 1. Inspecting the apartment for any housing-code, moisture, ventilation, plumbing, mold-related, or other	Follow Up	10/01/2026

conditions that could be contributing to the odor;
2. Determining whether the apartment complies with applicable Howard County rental-housing requirements; and
3. Providing written documentation of the inspection and any findings or violations.
I am happy to provide copies of my previous communications with management and can make the apartment available for inspection.
Please let me know the next steps for requesting an inspection or filing a formal complaint.
Thank you for your assistance.
Sincerely,

Sanjay Chabra

Sanjay Chabra:
What date were these issues reported to management and what action have they taken since the cleaning and air-filtration system? How close is your unit to the trash room on your floor? Is there a particular room in the unit where the odor is stronger? We cannot cite an odor, but we can cite a property maintenance code violation if it is visible to the inspector. Have there been prior leaks in your unit?
RENTAL HOUSING INSPECTIONS

Hi,

I just sent a reply to your previous response. I will answer these questions here:

CRH260804	4703 COLUMBIA RD	30	4703 Columbia Rd. RH13000619 – Unrepaired water damage from a leak causing mold issues that allegedly were not properly remediated. Tenant reports hole still open. On 7/22 there was a leak originating from the master bath tub that came through the ceiling in the living room. A plumber was sent out to perform necessary repairs on 7/23. The plumber covered hole created for the repair with a plastic trash bag & painters tape. The ceiling did not have the opportunity to dry before it was covered. We (tenants) were worried about the possibility of mold growing due to lack of airflow/ dry time, so we cut open the bag and confirmed there was mold. I reached out to our property manager (Lissett Navarro- lnavarro@baymgmtgroup.com) to notify her of the mold and that a small amount of dried mouse feces was found when we opened the trash bag. A Pest Control Company came out on 8/14 and confirmed there was no evidence of mice in or around the home. The owner's contractor has yet to come out and perform mold remediation or the drywall repairs. The property manager is very difficult to get in contact with and does not provide updates unless I reach out. Leak was addressed and repaired. Our biggest concern now, is the mold and the hole in the ceiling. SEE ATTACHMENTS	Follow Up	09/29/2026

CRH260807	11050 RESORT RD	16	Oakmont Village Apts. (RH14000887 main) - 11050 Resort Rd, #303 – No HVAC I am writing to formally file a housing habitability complaint against Oakmont Village Apartments (owned by James Keelty & Co.) for a continuous violation of Maryland Real Property Code § 8-122. My central air conditioning has been completely non-functional since August 12, 2026, and the temporary measures provided are mathematically and legally inadequate for my 850-square-foot apartment. Below is the exact, documented timeline of events and management's failure to resolve this issue: • August 12: I noticed the AC failing to cool. I	Initial Investigation	08/24/2026

submitted a formal maintenance request at 9:30 PM.
• August 13: Maintenance assessed the system at 11:00 AM and confirmed an HVAC specialist was required. At noon, they provided a portable AC unit that was completely broken and actively blew hot air, raising my apartment's temperature. In the afternoon, an HVAC specialist arrived on-site, ran tests, and officially determined the system could not be repaired and required a full replacement. Later that afternoon, a second portable unit was brought, and I was instructed to run my central AC fan continuously. Shortly after maintenance left, this second unit began alarming every 10–15 minutes due to a lack of drainage, rendering it impossible to use overnight.
• August 14: Having heard nothing, I called at 3:00 PM. The leasing manager explicitly assured me the issue would "definitely be fixed this week" (the week of August 17), even if he had to get corporate approval to hire an outside vendor. He acknowledged the drainage issue on the portable unit but provided no solution.
• August 15–16: No communication from management. I discovered that running the central fan as instructed was actively drawing in stagnant, hot air and driving up my electricity bill, so I shut it off. To protect my utility costs and prevent the undersized unit from burning out by running 24/7 under the false expectation that it could cool an 850 sq. ft. home, I chose to keep my bedroom door shut and only run the portable AC at night.
• August 17: The office called to request entry to measure the utility closet for a part. Upon returning home, I discovered maintenance had also entered my bedroom to install a drainage tube and bucket for the portable unit—five days after the initial breakdown.
• August 18: I called to clarify why measurements were being taken if the unit was supposedly ordered on August 14. The manager informed me that the air handler was a separate part that needed sizing, and insisted the HVAC unit had been ordered. He promised an update that afternoon after the HVAC head visited. No update was provided. I called back at 2:33 PM, and at 2:40 PM, the manager shifted the timeline again, stating a repair might happen Friday afternoon, August 21, or be delayed until Monday, August 24.

			• ·August 18 (Manager Conduct): During my conversations with the leasing manager regarding these shifting timelines, he explicitly informed me that "AC is not an emergency in the state of Maryland"and stated that I should "write my congresspeople if I was so passionate about it." This dismissal of a clear legal obligation under Maryland Real Property Code § 8-122 demonstrates intentional negligence regarding my tenant rights and the habitability of my home. The provided Vissani portable unit (Model VAP06R1AWTS) is a 6,000 BTU machine rated to cool a maximum of 250 square feet. It cannot legally or mechanically remedy a failure in an 850-square-foot apartment. Thank you for your immediate assistance in investigating this matter and enforcing county housing standards. CRH260860	3033 OAK GREEN CIR	18	Ellicott Grove Apts T00006164 – 3033 Apt. A Oak Green Circle – Reoccuring leaks; Water damage; electrical concerns and smoke alarm concerns I am submitting an urgent habitability and property-maintenance complaint regarding my apartment at Ellicott Grove, located at 3033 Oak Green Circle, Apartment A, Ellicott City, Maryland 21043. On September 3, 2026, water began actively leaking into my apartment from the upstairs unit while the occupants were taking a shower. The water entered my daughter’s bedroom and my bathroom, leaving both areas wet. Most alarmingly, water was actively leaking out of the fire/smoke detector. I am extremely concerned that water may have entered the	Follow Up	09/14/2026

apartment's electrical wiring or damaged this critical fire-safety equipment.

My daughter cannot safely use her bedroom under these conditions. I am concerned about electrical and fire hazards, the reliability of the fire/smoke detector, moisture inside the ceiling and walls, structural damage, and mold growth. I need an official determination as to whether the apartment is currently safe to occupy.

This is not an isolated incident. Since moving into this apartment in June 2026, I have experienced multiple serious water and plumbing problems, including sewage backup, bathroom flooding, and a previous leak affecting my daughter's bedroom. Despite the prior incidents, water intrusion continues to occur.

I am requesting that Howard County:

1. Conduct an urgent inspection of my apartment.
2. Determine whether the apartment, including my daughter's bedroom and bathroom, is safe to occupy.
3. Inspect the fire/smoke detector and all affected electrical wiring, fixtures, ceilings, walls, flooring, insulation, plumbing, and other building materials.
4. Confirm that all required fire-safety equipment is fully functional and safe following the water exposure.
5. Require management to locate and permanently repair the source of the leak.
6. Require professional water extraction, moisture testing, drying, mold prevention or remediation, and replacement of all damaged materials.
7. Review whether Ellicott Grove has adequately addressed the recurring water and plumbing problems in my unit.
8. Require management to provide safe temporary accommodations if the apartment cannot be safely occupied.

I have photographs and videos documenting the current water intrusion, including water leaking from the fire/smoke detector. I can also provide records concerning the previous incidents and my communications with management.

Given the potential electrical and fire-safety hazards, I respectfully request an urgent response and inspection. Please contact me as soon as possible to advise me of the next steps.

Thank you for your prompt attention to this serious matter.

Sincerely,
Anna Tran
3033 Oak Green Circle, Apartment A
Ellicott City, MD 21043
Phone: 240-633-0357

Anna Tran:

As we understand your email, the leak occurred yesterday late or today (9/3/26)? Per our Division Chief's policy, we are not permitted to open a case for investigation if the matter was not first reported to management allowing them time to address the matter before our involvement. Was this reported to management? What action have they taken? Please provide this office with a copy of the work order request submitted.

In the meantime, an inspector will contact management on your behalf regarding this incident.

CRH260868	5412 HERON DR	38	My name is Patrice Brown. I am reaching out in reference to a continuous mold issue I am having in my unit. The apartment community is RiverWatch Apartments 1 and 2. I reside on the part 2 side. My address is 5412A Heron Drive Elkridge, MD 21075. I reached out to my leasing office on 7/21/25 in reference to various mold sitings in my unit. I was informed on 7/24/25 that my AC unit was not correctly installed and it causes leaking and that a professional team would need to come out to clean my vents. Since then no one has come to clean my vents , I've emailed the leasing office numerous times as well as went into the office and I keep being told someone will call me. Now the mold is back on the master bedroom ceiling, the second bedroom ceiling, downstairs bathroom ceiling and as well as inside my vents that were supposed to be cleaned a month ago.	Follow Up	09/11/2026

I can be reached at 443-473-1492.

Thank you,
Patrice Brown

Patrice Brown:

We are aware that the property is now under new management effective August 1 we believe. Was this issue reported to the new management company (Humphrey)? If so did they take any action? Were tenants told of the management company change?

Please see the attached document outlining the limitations of this office regarding mold issues.

RENTAL HOUSING INSPECTIONS

Hello,

I made the leasing office aware of the issue on 7/21 when they were under Habitat America. The issue has continued on up until today, under their new management Humphrey. I have emailed the leasing office, spoke with the property manager multiple times and emailed requesting the regional property manger to reach back out to me.The issue has not been resolved. Tenants were informed on 7/23/25 that management would be changing on 8/1/25.

The issue started with me seeing black mold around my vents. They came in and painted over the black mold. I emailed them and informed them that the mold spread throughout my house and that they needed to look for where the issue was coming from. I had to discard of several clothing items, kitchen items and purchase dehumidifiers because mold spores were growing everywhere. It all happened in matter of a few days. On 7/24/25 they came in and saud my HVAC filter was very clogged, which caused the AC to not work properly, then caused a back up and that there was leaking behind the walls which caused the mold to spread throughout my home. I was told that my bedroom ceiling and restroom ceiling needed to be cut open because the AC duct was not

installed properly and it would cause leakage where the mold spots were in my master bathroom and bedroom.

On 7/25 they cut the ceiling in my master bathroom open (but not my bedroom) and left it open over the weekend and came back in and closed it on 7/28. The maintenance informed the leasing office that a professional restoration team needed to come and deep clean my vents. The team came out on 7/29 and did not clean my vents, instead a big dehumidifier was left in my unit and I was informed to leave it on for a few days and then they will come back out to clean my vents. Since that date I have been asking maintenance, the property manager and emailing for the regional property manager asking when the team will be back out and no one can give me a date.

Patrice Brown:

We have reached out to management on your behalf. They should be contacting you to make arrangements to come in to assess the situation for needed repairs.

Let us know if they do not contact you.

RENTAL HOUSING INSPECTIONS

Hello,

Thank you. I still have not been contacted, there is still mold on my ceiling as well as in my daughter's bedroom and the spots look wet so I'm not sure if something is about to start leaking. I tried contacting the office over 20 times from Monday up until today and no one will answer the phone or they hang up the phone after answering without saying "hello".

CRH260876	5421 LYNX LN	29	Vista Wilde lake Apts RH17000007 - 5421 Lynx Ln, Unit 230 – Water Damage	Follow Up	09/10/2026

Mold- we have expressed air thickness and trouble breathing with visible mold.

Good Morning,
My name is Joshua Bishop and I am submitting this complaint regarding the handling of a prolonged air conditioning issue at my apartment located 5421 Lynx Ln, Columbia MD, 21044 at Vista Wilde Lake Apartments.
I would like to document the timeline of events regarding the air conditioning issue in my apartment, as well as my concerns regarding the handling of the situation.
On June 10, 2026, I submitted my initial maintenance request after discovering that the air conditioning system was not functioning properly. The issue was not simply that the apartment was warm—the system would frequently fail to blow air at all.
On June 11, a maintenance technician visited the apartment. After inspecting the system, he informed us that contractor work would be required to address the issue. At no point during this visit was the thermostat identified as the cause of the problem.
On June 12, contractors arrived and performed work. However, nobody informed us whether the issue had been resolved, and after they left, it became immediately apparent that the air conditioning was still not functioning correctly. The same day, I sent emails to both leasing and maintenance advising that the repair had been unsuccessful. I also submitted an additional maintenance request.
After receiving no response, I called the emergency maintenance line. A maintenance technician subsequently responded and came to the apartment. During that visit, he checked the thermostat, HVAC unit, and breaker panel and confirmed that additional work was still needed. This further demonstrated that the issue had not been resolved by the contractors.
By Monday morning, the problem remained unresolved. I sent additional emails requesting assistance and explaining that the conditions inside the apartment had become increasingly difficult to

tolerate. Those emails were also ignored. At that point, having exhausted all available avenues through management and maintenance, I contacted Howard County for assistance.
What is particularly concerning is that my emails began receiving immediate responses only after Howard County became involved.
Following the county's involvement, maintenance returned to the apartment and expressed frustration that I had contacted the county. During these discussions, I was told that emergency maintenance had never been contacted despite the fact that I had in fact called the emergency line and received an emergency maintenance response.
I was also informed that maintenance had been working on equipment located on the roof immediately before arriving at my apartment. Notably, during the initial visit after county involvement, the technician did not touch the thermostat. Instead, he left stating that the air conditioning was working properly and that he did not understand why we had requested service.
Later, the explanation changed again. The issue was then attributed to the thermostat, and we were effectively told that the problem was caused by our operation of the thermostat. This explanation is difficult to reconcile with the fact that maintenance personnel themselves had previously inspected the thermostat, HVAC unit, breaker panel, vents, and other components while acknowledging that additional repairs were necessary.
My concern is not simply that an HVAC issue occurred. Mechanical systems fail. My concern is that the issue was repeatedly confirmed by maintenance personnel, multiple requests for assistance went unanswered, emergency maintenance was required, and the explanation for the problem changed multiple times. Most concerning of all, meaningful action only appeared to occur after Howard County became involved.
For approximately five days, we were left dealing with excessive indoor temperatures while repeatedly attempting to obtain assistance. SEE ATTACHMENTS

CRH260886	3334 NORTH CHATHAM RD	24	Chatham Gardens Apts. T00006225 - 3334 N Chatham Rd, Apt F – No HVAC Case Re-Opened 9.21.26 From: Aahlad Gogineni <aahlad.gogineni@gmail.com> Sent: Sunday, September 20, 2026 8:25 PM My address is Apt F, 3334 N Chatham Rd, Ellicott City, MD 21042 (unit 34F at Chatham Gardens). My phone number is +1 (860) 308-6050. This concerns Howard County case CRH260886. Unfortunately, the A/C issue is still not resolved. Since my September 15 follow-up: - Maintenance refilled the refrigerant a second time and said there may be a leak. - They returned on Wednesday, September 16 while I was out and did some kind of patch. - The A/C stopped working again by Friday, September 18. - I contacted the leasing office on Friday during the day and was told maintenance would be notified, but I received no follow-up despite this being an emergency maintenance request. It is now Sunday evening, and I have been without working A/C for three days. The attached photo shows that it is currently 82F inside even though the cooling is set to 73F. This is the third failure after two refrigerant refills and a patch, so the prior work has clearly not fixed the underlying problem. I am asking management to arrange an immediate, permanent repair by a qualified HVAC technician. If your maintenance team cannot complete that repair promptly, please hire a third-party HVAC company. Please confirm when someone will come to make the permanent repair. I am also asking Howard County to	Initial Investigation	09/11/2026

reopen the complaint and advise on next steps given that the problem returned after the original case was closed.

Thank you,
Aahlad Gogineni

I live in unit 34F in Chatham Gardens and my A/C has not been working for over a week. I filed two emergency maintenance requests regarding this on Friday September 4th.
I called yesterday after receiving no communication or attention to it. A male staff member at your office said he'd look into it and get back to me.
I did not hear anything and just called your office again asking about it, I was informed that you will contact the maintenance team (why hasn't this happened already? Did it happen already?) but she was unable to tell me when I can expect a repair.

I'm sorry but this is unacceptable, it is 82F in my apartment right now and has been above 80 for most of the past week.

If your repair team is currently unavailable or fully booked, please hire a third party handy man to look into it.

I'm not sure if you're familiar but starting June 1st this year, it's a legal requirement for buildings with more than 10 units that already have AC to maintain working A/C with temperature below 80F from June through September.

Picture below of thermostat taken today.

Can you let me know when this will be addressed by?

Thank you very much
Aahlad Gogineni

Aahlad Goginerni:

If you are attempting to file a complaint with our office, we will need to know your complete address and your contact phone number.

CRH260922	9719 WHISKEY RUN	47	9719 Whiskey Run RH23000264 – Trash not in approved containers and cigarette debris on rental premises (complainant reports tenant does not dispose of trash in a timely manner) I am reporting an ongoing sanitation and nuisance issue at my rental property involving a neighboring tenant and her guests. I have previously reported these issues to property management, but management has repeatedly taken months to respond for prior issues and the problems have continued. My landlord has now instructed me to contact Howard County directly because the situation has not been resolved through property management. The neighboring tenant has again left trash outside for the entire day. Today, the trash has been exposed to rain and humid conditions, creating an increasingly unpleasant and unsanitary condition. I am concerned about odors, insects, pests, and the potential health and sanitation issues associated with trash being left outside for extended periods, particularly in these weather conditions. The repeated accumulation of trash outside is creating an increasing concern regarding insects, mosquitoes, flies, ants, and other pests. The trash is being left outside for extended periods, including during rainy and humid weather, which can contribute to conditions that attract and support pest activity. Outside cats and other animals have also been observed getting into the trash,	Follow Up	09/25/2026

causing the garbage to be disturbed and potentially spread into the surrounding area. Additionally, when the trash is eventually taken to the dumpster, liquid from the bags frequently leaks onto the ground and leaves a visible trail of “trash juice” along the walkway leading toward the parking lot. This residue attracts ants, flies, and other insects, leaving a trail of pests along a common walkway used by residents. This is particularly concerning for my household because my daughter and I are allergic to insects, and increased insect activity around our home can result in allergic reactions and other health concerns. I am also concerned about our pets, as increased mosquito exposure can place dogs at risk for mosquito-borne diseases, including heartworm disease. The ongoing trash accumulation, leaking garbage, insects, and animals getting into the trash are affecting the cleanliness and use of the common areas around our home. I am requesting that Howard County investigate these conditions and determine whether they constitute a sanitation, nuisance, or property-maintenance issue and take any appropriate action to address them. There is also an ongoing cigarette-related issue. The tenant’s guest regularly smokes cigarettes directly in front of the entrance/door and leaves cigarette butts on the ground. This creates additional litter and a sanitation concern around the entrance to the property. The cigarette butts are not being properly disposed of and are left in the common area. These are recurring issues rather than an isolated incident. I have attempted to address the situation through property management, but the lack of timely response has allowed the conditions to continue. I am also pregnant and am trying to avoid continued exposure to unnecessary distress and potentially unsanitary conditions at my home. I am requesting that Howard County investigate these conditions and determine whether they violate applicable health, sanitation, nuisance, or property-maintenance requirements. I have photographs and documentation of the conditions and previous communications with property management and can provide them if needed. Thank you for your assistance.
